Road & Track

Light and Heavy Vehicle Technology

Elsevier Light and Heavy Vehicle Technology, Second Edition deals with the theory and practice of vehicle maintenance, procedure, and diagnosis of vehicle trouble, including technological advances such as four-wheel drive, four-wheel steering, and anti-lock brakes. The book reviews the reciprocating piston petrol engine, the diesel engine, the combustion chambers, and the different means of combustion processes. To counter friction, heat and wear, lubrication to the different moving parts is important. To counter excessive heat which can cause breakdown of lubricating oil films and materials such as gaskets, O-rings, the engine is designed with a cooling system that uses air, water, or engine coolants. Petrol engines use the carburation or injection type of fuel delivery; diesel engines use a high pressure system of fuel injection owing to the higher pressures existing in the diesel combustion chamber. The text explains the operation of the other parts of the vehicle including the ignition and starter system, emission controls, layshaft gearboxes, drive lines, and suspension systems. Heavy vehicles need highly efficient air brakes to stop them compared to the hydraulic brake systems used in smaller and lighter vehicles. The book is suitable for mechanical engineers, engine designers, students, and instructors in mechanical and automotive engineering.

School Shop

Federal Income Taxation

Aspen Publishing Unique in its structure, Federal Income Taxation, Fifth Edition presents core materials that cover the basics of tax law and then offers supplemental "cells" at the end of the book that are self-contained units with more in-depth discussion of certain topics. Professors and students will benefit from: A thoroughly updated text that incorporates the extensive changes to the Code enacted by the Tax Cuts and Jobs Act of 2017 New cases reflecting developments since the previous edition. A new cell on the taxation of Bitcoin and other cryptocurrency. Core text (about 500 pages) that covers the leading cases and explains the substantive tax law that is essential to a basic understanding of federal income tax law and principles. Novel "Cells," self-contained, optional units at the end of the book that supplement the core text by presenting additional material and treating a limited number of topics in greater detail. Notes and questions providing background information and placing the cases and statutes in context. More than 150 problems throughout the core text and cells that challenge students to apply theory to specific situations. An annual "inflation supplement" issued every December that provides updated problems and answers to reflect inflation adjustments for the upcoming year, as well as updated tables where relevant.

Public-Private Collaboration for Export Success

Case Studies from Barbados, Ghana, India, Thailand and Malaysia

United Nations This publication compiles case studies for business leaders, policymakers and development practitioners, showcasing successful experiences of public-private dialogue in developing countries. It outlines activities driven by the governments and targeted at private sector players in the form of public-private partnerships for service delivery and public-private consultative bodies. It also presents private sector initiatives targeted at public sector players in the form of business advocacy, and it demonstrates the essential role of the private sector in trade and development through examples featuring the Barbadian tourism industry, customs services in Ghana, Thailand's automotive industry, Penang's export hub for electronics, and India's textile parks.
