Petty criminal Zara Cole has a painful past that's made her stronger than most, which is why she chose life in New Detroit instead moving with her family to Mars. In her eyes, living inside a dome isn't much better than a prison cell. Still, when Zara commits a crime that has her running scared, jail might be exactly where she's headed. Instead Zara is recruited into the Honors, an elite team of humans selected by the Leviathan—a race of sentient alien ships—to explore the outer reaches of the universe as their passengers. Zara seizes the chance to flee Earth's dangers, but when she meets Nadim, the alien ship she's assigned, Zara starts to feel at home for the first time. But nothing could have prepared her for the dark, ominous truths that lurk behind the alluring glitter of starlight.

## Digital Economy Report 2019

### Value Creation and Capture - Implications for Developing Countries

The Digital Economy Report 2019 on "Value creation and capture: Implications for developing countries" takes stock of recent trends in the global digital landscape and discusses the development and policy implications of data and digital platforms. A key feature of the evolving digital economy is the increasing role of digital data as an economic resource, together with digital platforms as new influential actors, with capacity to collect, process, analyze and monetize data. The report considers policy options for countries to help ensure that they capture a fair part of the value created in the digital economy for inclusive development. Key issues include the market impact of emerging technologies and digital platforms, the impact on smaller businesses in developing countries and the implications for infrastructure, entrepreneurship, skills, competition, data flows, data protection, taxation and other relevant policies.

## Startup Asia

### Top Strategies for Cashing in on Asia's Innovation Boom

[John Wiley & Sons](#) Find out where the new innovation hot spots are, what the next consumer waves will be, and where to catch them Asia's innovation hot spots are fast emerging as first-choice destinations for bright, young entrepreneurs. From Taiwan to Singapore, technology center hubs are forming to rival the original Silicon Valley. Startup Asia gives you a close-up view into the key growth trends shaping entrepreneurship in China and India, plus the new frontier market of Vietnam. Showing how entrepreneurs and investors can start up in Asia and go global, the book provides a first-hand, on-the-ground tour of the new technology centers that are gaining momentum all over Asia. Interviews with the most successful venture capitalists and entrepreneurs reveal their winning strategies and show how a new generation of entrepreneurs in China and India are no longer looking to the West for their cues—but are instead crafting their own local business models and success strategies. Shows entrepreneurs and investors how they can pursue their dreams of launching successful start-ups in Asia Reveals that many of the same venture investors that first funded young businesses in Silicon Valley moved into China, then India, and are now finding their way to Vietnam Addresses the risks of doing business in Asia's developing markets, including lack of intellectual property protection, political and regulatory shifts, bribery, and corruption From high-profile Forbes contributor Rebecca Fannin, Startup Asia is the essential guide for anyone looking to trek into this new frontier.

### God's Philosophers

### How the Medieval World Laid the Foundations of Modern Science

Icon Books Ltd This is a powerful and a thrilling narrative history revealing the roots of modern science in the medieval world. The adjective 'medieval' has become a synonym for brutality and uncivilized behavior. Yet without the work of medieval scholars there could have been no Galileo, no Newton and no Scientific Revolution. In "God's Philosophers", James Hannam debunks many of the myths about the Middle Ages, showing that medieval people did not think the earth is flat, nor did Columbus 'prove' that it is a sphere; the Inquisition burnt nobody for their science nor was Copernicus afraid of persecution; no Pope tried to ban human dissection or the number zero. "God's Philosophers" is a celebration of the forgotten scientific achievements of the Middle Ages - advances which were often made thanks to, rather than in spite of, the influence of Christianity and Islam. Decisive progress was also made in technology: spectacles and the mechanical clock, for instance, were both invented in thirteenth-century Europe. Charting an epic journey through six centuries of history, "God's Philosophers" brings back to light the discoveries of neglected geniuses like John Buridan, Nicole Oresme and Thomas Bradwardine, as well as putting into context the contributions of more familiar figures like Roger Bacon, William of Ockham and Saint Thomas Aquinas.

### BMF

### The Rise and Fall of Big Meech and the Black Mafia Family

St. Martin's Press In the early 1990s, Demetrius "Big Meech" Flenory and his brother, Terry "Southwest T," rose up from the slums of Detroit to build one of the largest cocaine empires in American history: the Black Mafia Family. After a decade in the drug game, the Flenorys had it all—a fleet of Maybachs, Bentleys and Ferraris, a 500-man workforce operating in six states, and an estimated quarter of a billion in drug sales. They socialized with music mogul Sean "Diddy" Combs, did business with New York's king of bling Jacob "The Jeweler" Arabo, and built allegiances with rap superstars Young Jeezy and Fabolous. Yet even as BMF was attracting celebrity attention, its crew members created a cult of violence that struck fear in a city and threatened to spill beyond the boundaries of the drug underworld. Ruthlessness fueled BMF's rise to incredible power; greed and that same ruthlessness led to their downfall. When the brothers began clashing in 2003, the flashy and beloved Big Meech risked it all on a shot at legitimacy in the music industry. At the same time, a team of investigators who had pursued BMF for years began to prey on the organization's weaknesses. Utilizing a high-stakes wiretap operation, the feds inched toward their goal of destroying the Flenory's empire and ending the reign of a crew suspected in the sale of thousands of kilos of cocaine — and a half-dozen unsolved murders.

### Silicon Dragon: How China Is Winning the Tech Race

McGraw Hill Professional If you want to discover the Next Big Thing in technology... ENTER THE DRAGON. You already know that China is the most populated nation on the planet. You already know about the rapid growth of its Internet and the recent development of its technologies. But did you realize that China has... The world's largest number of mobile phone users (500 million) Three times as many engineering students as the United States? A dozen more billion-dollar tech firms than the United States? The fastest growing venture capital market in the world? It's time to face the facts: China is catching up to the United States as a global leader of technology--and, within a few years, may surpass every nation in the world. By modeling their new techno-based companies on successful American ones like Google and Yahoo, a new breed of entrepreneur is leading China through a second Industrial Revolution. Financial journalist Rebecca A. Fannin traveled from Shanghai to Beijing and beyond to speak face-to-face with China's hottest up-and-comers. For some of these young entrepreneurs, it's their first interview with the Western press--and their first chance to introduce their companies before the stocks hit Nasdaq. You'll meet smart and savvy self-starters like Robin Li, who made his company Baidu in the image of Google. You'll meet inventors and innovators like Liu Yingkui, who developed software for selling goods over cell phones, not PCs. You'll also meet the American venture capitalists who are searching for deals every day in every corner of China. Whether you're an investor, entrepreneur, techno whiz, or dot-com mogul, you can make peace with the dragon--and profits, too.
