A KICK IN THE BELLY

WOMEN, SLAVERY AND RESISTANCE

Verso Books The story of the enslaved West Indian women in the struggle for freedom The forgotten history of women slaves and their struggle for liberation. Enslaved West Indian women had few opportunities to record their stories for posterity. In this riveting work of historical reclamation, Stella Dadzie recovers the lives of women who played a vital role in developing a culture of slave resistance across the Caribbean. Dadzie follows a savage trail from Elmina Castle in Ghana and the horrors of the Middle Passage, as slaves were transported across the Atlantic, to the sugar plantations of Jamaica and beyond. She reveals women who were central to slave rebellions and liberation. There are African queens, such as Amina, who led a 20,000-strong army. There is Mary Prince, sold at twelve years old, never to see her sisters or mother again. Asante Nanny the Maroon, the legendary obeah sorceress, who guided the rebel forces in the Blue Mountains during the First Maroon War. Whether responding to the horrendous conditions of plantation life, the sadistic vagaries of their captors or the "peculiar burdens of their sex," their collective sanity relied on a highly subversive adaptation of the values and cultures they smuggled from their lost homes. By sustaining or adapting remembered cultural practices, they ensured that the lives of chattel slaves retained both meaning and purpose. A Kick in the Belly makes clear that subtle acts of insubordination and conscious acts of rebellion came to undermine the very fabric of West Indian slavery.

HARNESSING THE POWER OF THE CRIMINAL CORPSE

[Springer](#) This open access book is the culmination of many years of research on what happened to the bodies of executed criminals in the past. Focusing on the eighteenth and nineteenth centuries, it looks at the consequences of the 1752 Murder Act. These criminal bodies had a crucial role in the history of medicine, and the history of crime, and great symbolic resonance in literature and popular culture. Starting with a consideration of the criminal corpse in the medieval and early modern periods, chapters go on to review the histories of criminal justice, of medical history and of gibbeting under the Murder Act, and ends with some discussion of the afterlives of the corpse, in literature, folklore and in contemporary medical ethics. Using sophisticated insights from cultural history, archaeology, literature, philosophy and ethics as well as medical and crime history, this book is a uniquely interdisciplinary take on a fascinating historical phenomenon.

WENDY MARUYAMA

EXECUTIVE ORDER 9066

"In 1942, President Franklin D. Roosevelt signed Executive Order 9066 authorizing the internment of tens of thousands of American citizens and resident aliens of Japanese ancestry. Wendy Maruyama, a third generation Japanese-American and highly regarded artist/furniture maker based in San Diego, has created a compelling body of work examining this period in American history. Maruyama's inclusion of actual objects owned or made by the internees brings an intensely personal awareness to the impact of Executive Order 9066. Included objects range from actual suitcases used by families during their relocation to an array of items made by internees from available materials in the camps. Featuring an essay by Lowery Stokes Sims the 63 page color catalogue is 7.75" x 6" and comes in a numbered wooden box (9" x 7" 2"). The traveling exhibition and catalog were made possible with a grant from the Windgate Charitable Foundation"--Society of Arts and Crafts website.

THE SIGNAL AND THE NOISE

WHY SO MANY PREDICTIONS FAIL--BUT SOME DON'T

[Penguin](#) **UPDATED FOR 2020 WITH A NEW PREFACE BY NATE SILVER** "One of the more momentous books of the decade." —The New York Times Book Review Nate Silver built an innovative system for predicting baseball performance, predicted the 2008 election within a hair's breadth, and became a national sensation as a blogger—all by the time he was thirty. He solidified his standing as the nation's foremost political forecaster with his near perfect prediction of the 2012 election. Silver is the founder and editor in chief of the website FiveThirtyEight. Drawing on his own groundbreaking work, Silver examines the world of prediction, investigating how we can distinguish a true signal from a universe of noisy data. Most predictions fail, often at great cost to society, because most of us have a poor understanding of probability and uncertainty. Both experts and laypeople mistake more confident predictions for more accurate ones. But overconfidence is often the reason for failure. If our appreciation of uncertainty improves, our predictions can get better too. This is the "prediction paradox": The more humility we have about our ability to make predictions, the more successful we can be in planning for the future. In keeping with his own aim to seek truth from data, Silver visits the most successful forecasters in a range of areas, from hurricanes to baseball to global pandemics, from the poker table to the stock market, from Capitol Hill to the NBA. He explains and evaluates how these forecasters think and what bonds they share. What lies behind their success? Are they good—or just

lucky? What patterns have they unraveled? And are their forecasts really right? He explores unanticipated commonalities and exposes unexpected juxtapositions. And sometimes, it is not so much how good a prediction is in an absolute sense that matters but how good it is relative to the competition. In other cases, prediction is still a very rudimentary—and dangerous—science. Silver observes that the most accurate forecasters tend to have a superior command of probability, and they tend to be both humble and hardworking. They distinguish the predictable from the unpredictable, and they notice a thousand little details that lead them closer to the truth. Because of their appreciation of probability, they can distinguish the signal from the noise. With everything from the health of the global economy to our ability to fight terrorism dependent on the quality of our predictions, Nate Silver's insights are an essential read.

The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). A RAGAMUFFIN CHRISTMAS

What if you had been there on the night that Jesus was born? What if you could have held the infant Son of God, when He was only a few minutes old? How would it feel to have God Himself in your arms, vulnerable, approachable, and unassuming? In “A Ragamuffin Christmas” Craig Daliessio provides just that view of the Nativity. Far from the usual retelling of a baby, some shepherds, and the Virgin Mary; this is the story of criminals, broken hearted moms, scandalous characters, and legendary Saints, each granted their own visit with the newborn King of Kings. The people and images are unmistakable...and the result of each interaction is life changing. This is the Christmas story as it's never been told before.

THE POPOL VUH

THE HISTORY AND LEGACY OF THE MAYA'S CREATION MYTH AND EPIC LEGENDS

[Createspace Independent Publishing Platform](#) *Includes pictures *Includes excerpts of the Popol Vuh *Includes online resources and a bibliography for further reading Many ancient civilizations have influenced and inspired people in the 21st century. The Greeks and Romans continue to fascinate the West today. But of all the world's civilizations, none have intrigued people more than the Mayans, whose culture, astronomy, language, and mysterious disappearance all continue to captivate people. In 2012 especially, there was a renewed focus on the Mayans, whose advanced calendar led many to speculate the world would end on the same date the Mayan calendar ends. The focus on the "doomsday" scenario, however, overshadowed the Mayans' true contribution to astronomy, language, sports, and art. Unlike most of the world's sacred books - the Quran, the Bible or the I-Ching for example - nobody knows the universal name, if there ever was one, for the Maya's collection of myths. Instead, the title that has been passed down, the "Popol Vuh," appears to be the specific title given to a particular copy of these tales. Its meaning, roughly translated as the Council Book, refers to the special role of this text: it was the shared property of the council of lords that ruled the Quiché kingdom and was apparently regularly consulted by that body for advice to guide their rule. However, in the opening sections, the scribes who penned the text also give it several other names, including "the Light That Came from Beside the Sea," "Our Place in the Shadows" and "The Dawn of Life" (pg 63). All of these names were originally in K'ichean Maya, the language spoken by the Maya of the Quiché Kingdom and its neighboring regions. The first of these names refers to a pilgrimage by the second generation of Quiché lords in Part V to the Yucatan coast to acquire a copy of at least a portion of the original text. The second refers to Part IV, the period before the first Dawn (the "Shadows") when the ancestral Quiché earned their particular right to rule. The final name refers to Part I, when the first gods created all of the various parts of life. This multiplicity of names and titles for sacred works is not uncommon, and perhaps comparable to the Bible being referred to as "the Good Book" or (in reference to the New Testament) "the Good News" or the "Gospel." The name Popol Vuh is itself controversial as the original text actually spells the name three different ways: "Popol Vuh", of course, but also "Pop Wuj" and "Popol Wuj." In general, the most correct form in contemporary Quiche spelling is probably "Popol Wuj", but as the text is best known in English with the word "Vuh", this convention will be maintained here (Eenriik 2014). There are a number of translations and editions of the Popol Vuh, which vary considerably in quality. Many early editions were not informed by the latest scholarship in Maya linguistics and sometimes the ways they translate names in particular can vary. This text will use the Second Edition (1996), translated by Dennis Tedlock and published by Simon and Schuster, for all of its quotations and page citations. The Popol Vuh: The History and Legacy of the Maya's Creation Myth and Epic Legends examines what's contained within and how the Popol Vuh survived to the present day. Along with pictures depicting important people, places, and events, you will learn about the Popol Vuh like never before.

How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari's 21 Lessons for the 21st Century is a probing and visionary investigation into today's most urgent issues as we move into the uncharted territory of the future. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? GORDON PARKS: THE ATMOSPHERE OF CRIME 1957

[Steidl](#) Gordon Parks' ethically complex depictions of crime in New York, Chicago, San Francisco and Los Angeles, with previously unseen photographs When Life magazine asked Gordon Parks to illustrate a recurring series of articles on crime in the United States in 1957, he had already been a staff photographer for nearly a decade, the first African American to hold this position. Parks embarked on a six-week journey that took him and a reporter to the streets of New York, Chicago, San Francisco and Los Angeles. Unlike much of his prior work, the images made were in color. The resulting eight-page photo-essay "The Atmosphere of Crime" was noteworthy not only for its bold aesthetic sophistication, but also for how it challenged stereotypes about criminality then pervasive in the mainstream media. They provided a richly hued, cinematic portrayal of a largely hidden world: that of violence, police work and incarceration, seen with empathy and candor. Parks rejected clichés of delinquency, drug use and corruption, opting for a more nuanced view that

reflected the social and economic factors tied to criminal behavior and afforded a rare window into the working lives of those charged with preventing and prosecuting it. Transcending the romanticism of the gangster film, the suspense of the crime caper and the racially biased depictions of criminality then prevalent in American popular culture, Parks coaxed his camera to record reality so vividly and compellingly that it would allow Life's readers to see the complexity of these chronically oversimplified situations. The *Atmosphere of Crime, 1957* includes an expansive selection of never-before-published photographs from Parks' original reportage. Gordon Parks was born into poverty and segregation in Fort Scott, Kansas, in 1912. An itinerant laborer, he worked as a brothel pianist and railcar porter, among other jobs, before buying a camera at a pawnshop, training himself and becoming a photographer. He evolved into a modern-day Renaissance man, finding success as a film director, writer and composer. The first African-American director to helm a major motion picture, he helped launch the blaxploitation genre with his film *Shaft* (1971). Parks died in 2006.

Open Road Media **A New York Times Notable Book: A girl's disappearance unearths old crimes for the Yorkshire detectives in this "multilayered masterpiece" (Publishers Weekly). Reginald Hill "raised the classical British mystery to new heights" when he introduced pugnacious Yorkshire Det. Inspector Andrew Dalziel and his partner, the callow Sgt. Peter Pascoe (The New York Times Book Review). Their chafing differences in education, manners, technique, and temperament made them "the most remarkable duo in the annals of**

crime fiction” (Toronto Star). Adapted into a long-running hit show for the BBC, the Gold Dagger Award-winning series is now available as ebooks. It’s been fifteen years since three girls were abducted from Dendale. Just as long since the village was flooded to create a reservoir. Haunted by the cold case, Andrew Dalziel believes the truth was submerged forever. But now, with a drought, the ruins of Dendale are reemerging—along with its mysteries. And as if by a terrible twist of fate, another child has vanished from a nearby hamlet. For Dalziel to finally solve an unspeakable crime, he must once again stir the dread of a still-traumatized community—and all its secrets. “Weaving their pain into his densely textured story of Dendale’s cursed past and haunted present, Hill creates a tragic tale of loss and regret and the persistence of grief” (The New York Times Book Review). On Beulah Height is the 18th book in the Dalziel and Pascoe Mysteries, but you may enjoy reading the series in any order.

INTRODUCTORY STATISTICS

Introductory Statistics is designed for the one-semester, introduction to statistics course and is geared toward students majoring in fields other than math or engineering. This text assumes students have been exposed to intermediate algebra, and it focuses on the applications of statistical knowledge rather than the theory behind it. The foundation of this textbook is Collaborative Statistics, by Barbara Illowsky and Susan Dean. Additional topics, examples, and ample opportunities for practice have been added to each chapter. The development choices for this textbook were made with the guidance of many faculty members who are deeply involved in teaching this course. These choices led to innovations in art, terminology, and practical applications, all with a goal of increasing relevance and accessibility for students. We strove to make the discipline meaningful, so that students can draw from it a working knowledge that will enrich their future studies and help them make sense of the world around them. She plans to marry on her own terms, not her parents. When she falls in love with Bob Alford, an enterprising working-class man who loves the outdoors as much as she, little does she know how sorely her theories will be tested. Betrayed by her jealous sister, Caroline elopes, a decision that causes her father to disown her. Kyle Blake likes plans. So far, they & rsquo;re pretty simple: Finish her senior year of high school, head off to a good college, find a cute boyfriend, graduate, get a good job, get married, the whole heterosexual shebang. Nothing is going to stand in the way of that plan. Not even Stella Lewis. Stella Lewis also has a plan: Finish her senior year as cheer captain, go to college, finally let herself flirt with (and maybe even date) a girl for the first time and go from there. Fate has other plans for Kyle and Stella when they're paired up in their AP English class and something between them ignites. It's confusing and overwhelming and neither of them know what to do about it. One thing they do know is that their connection can't be ignored. The timing just isn't right. But is there ever a good time for falling in love?

In 1773 the Scottish explorer James Bruce heard that the Book of Enoch may have been in Ethiopia so traveled there and procured three copies. In 1821 Richard Laurence, a professor of Hebrew at Oxford, produced the first English translation. Fragments of ten Enoch manuscripts were found among the Dead Sea Scrolls. It is quoted by New Testament Book of Jude. This book contains all sections of The First Book of Enoch: The Book of the Watchers The Book of Parables of Enoch The Astronomical Book The Book of Dream Visions The Epistle of Enoch It is of particular interest to anyone with an interest in angels and demons, or Bible history in general.
