## Isis

### The History and Legacy of the Ancient Egyptian God of the Dead

**Createspace Independent Publishing Platform** \*Includes pictures \*Includes ancient accounts \*Includes online resources and a bibliography for further reading Africa may have given rise to the first human beings, and Egypt probably gave rise to the first great civilizations, which continue to fascinate modern societies across the globe nearly 5,000 years later. From the Library and Lighthouse of Alexandria to the Great Pyramid at Giza, the Ancient Egyptians produced several wonders of the world, revolutionized architecture and construction, created some of the world's first systems of mathematics and medicine, and established language and art that spread across the known world. With world-famous leaders like King Tut and Cleopatra, it's no wonder that today's world has so many Egyptologists. To the ancient Egyptians, as was the case with any society made up of inquiring humans, the world was a confusing and often terrifying place of destruction, death and unexplained phenomena. In order to make sense of such an existence, they resorted to teleological stories. Giving a phenomenon a story made it less horrifying, and it also helped them make sense of the world around them. Unsurprisingly, then, the ancient Egyptian gods permeated every aspect of existence. Isis first appears during the period of Old Kingdom (ca. 2660-2190 BCE) but only later does she take on her most famous role of being a sister-wife of Osiris. Originally, she is simply the mother of Horus and the details surrounding his conception are more obscure. Her absence in the original myths about Osiris is confirmed by the fact that her appearances at Abydos, a famous cult center of Osiris, are scarce until the New Kingdom (ca. 1549-1069 BCE). In fact, Isis had no known cult center throughout the majority of ancient Egyptian dynastic history, though it didn't seem to have a negative effect on her worship. Isis was one of the nine principal deities of the Egyptian pantheon called the Ennead and her hieroglyph was the throne, a glyph that would later connect her with Osiris, whose hieroglyph was a throne and an eye, and royalty in general. In fact, as the goddess of the throne, she came to represent the "mother" of all the kings of Egypt. Regardless of her royal attributes, however, Isis was fundamentally a healer and a peacemaker. Nevertheless, as time went on and Egypt became more influenced by the outside world, Greece and Rome in particular, Isis came to be seen as the wrathful protector of Egypt and its kings. According to the sources, she was "cleverer than millions of gods" and more capable of protecting the country than "millions of soldiers." What is most fascinating about Isis is the agency she has in her myths, particularly the most famous, that of the death and rebirth cycle of Osiris. In this myth she even demonstrates traits of the female trickster, which is considerably less common in world mythology than the male equivalent. According to one New Kingdom source, Isis transformed herself into an old woman in order to fool the divine ferryman between the worlds of the living and the dead, and she also turned herself into a young woman in order to get Seth to admit that his claim for power was unjust. All the while, she created cultural and geographical mainstays - such as the Nile - while being worshipped as a helper goddess. It is curious that, until the 30th Dynasty, Isis was worshipped in the temples of other gods as she did not have a dedicated cult center of her own. During the 30th Dynasty, this changed with two large temples built in her honor in the Nile Delta. Later on, the Ptolemaic and Roman rulers of Egypt would develop these sites and her worship would outlive the draconian abolishment of pagan religion in Egypt and would even be transported out of Egypt as Isis was revered and worshipped at the farthest reaches of the Roman Empire.

## Wastebook 2014

[CreateSpace](#) Gambling monkeys, dancing zombies and mountain lions on treadmills are just a few projects exposed in **Wastebook 2014** - highlighting \$25 billion in Washington's worst spending of the year. **Wastebook 2014** — the report Washington doesn't want you to read — reveals the 100 most outlandish government expenditures this year, costing taxpayers billions of dollars. "With no one watching over the vast bureaucracy, the problem is not just what Washington isn't doing, but what it is doing." Dr. Coburn said. "Only someone with too much of someone else's money and not enough accountability for how it was being spent could come up with some of these projects." "I have learned from these experiences that Washington will never change itself. But even if the politicians won't stop stupid spending, taxpayers always have the last word." Congress actually forced federal agencies to waste billions of dollars for purely parochial, political purposes. For example, lawmakers attached a rider to a larger bill requiring NASA to build a \$350 million launch pad tower, which was mothballed as soon as it was completed because the rockets it was designed to test were scrapped years ago. Similarly, when USDA attempted to close an unneeded sheep research station costing nearly \$2 million every year to operate, politicians in the region stepped in to keep it open. Examples of wasteful spending highlighted in "Wastebook 2014" include: • Coast guard party patrols - \$100,000 • Watching grass grow - \$10,000 • State department tweets @ terrorists - \$3 million • Swedish massages for rabbits - \$387,000 • Paid vacations for bureaucrats gone wild - \$20 million • Mountain lions on a treadmill - \$856,000 • Synchronized swimming for sea monkeys - \$50,000 • Pentagon to destroy \$16 billion in unused ammunition -- \$1 billion • Scientists hope monkey gambling unlocks secrets of free will - \$171,000 • Rich and famous rent out their luxury pads tax free - \$10 million • Studying "hangry" spouses stabbing voodoo dolls - \$331,000 • Promoting U.S. culture around the globe with nose flutists - \$90 million

#### How Corporations Beat Entrepreneurs at the Innovation Game

[John Wiley & Sons](#) **Corporate Explorers Transform Disruption Into Opportunity With This Proven Framework** Innovation used to be seen as a game best left to entrepreneurs, but now a new breed of corporate managers is flipping this logic on its head. These Corporate Explorers have the insight, resilience, and discipline to overcome the obstacles and build new ventures from inside even the largest organizations. Corporate Explorers are part entrepreneurs, using innovation disciplines to jump start cutting-edge ideas, and part change leaders, capable of creating support for investment. They see that corporations already own the ideas, resources, and—critically—the talent to build new ventures. Companies like Amazon, Microsoft, Bosch, LexisNexis, and Analog Devices enable managers to put these assets to use and gain an upper hand over startups that threaten to disrupt them. Corporate Explorer is a guidebook to the practices that enable these managers to go from idea into action. It demonstrates how success is not only possible but may offer entrenched companies better odds than venture-capital backed startups. This actionable and proven framework explains how managers can become successful corporate innovators; it includes tools to: Learn how to apply innovation practices with greater discipline Turn great ideas into a full-time job as an innovation leader Experiment with and scale original business models Transform innovation programs into a thriving source of new business Attract, retain, and motivate entrepreneurial talent Energize employees by creating a realistic way to innovate These lessons come from the trailblazers of corporate innovation—Andrew Binns (Change Logic), Charles O'Reilly (Stanford Graduate School of Business), and Michael Tushman (Harvard Business School)—who have decades of experience helping entrepreneurial-minded executives activate employees to become Corporate Explorers. Entrepreneurs take notice—it's time for Corporate Explorers to set the pace and chart the course for disruption.

### Know Your Price

#### Valuing Black Lives and Property in America's Black Cities

[Brookings Institution Press](#) **The deliberate devaluation of Blacks and their communities has had very real, far-reaching, and negative economic and social effects. An enduring white supremacist myth claims brutal conditions in Black communities are mainly the result of Black people's collective choices and moral failings. "That's just how they are" or "there's really no excuse": we've all heard those not so subtle digs. But there is nothing wrong with Black people that ending racism can't solve. We haven't known how much the country will gain by properly valuing homes and businesses, family structures, voters, and school districts in Black neighborhoods. And we need to know. Noted educator, journalist, and scholar Andre Perry takes readers on a tour of six Black-majority cities whose assets and strengths are undervalued. Perry begins in his hometown of Wilksburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Bringing his own personal story of growing up in Black-majority Wilksburg, Perry also spotlights five others where he has deep connections: Detroit, Birmingham, New Orleans, Atlanta, and Washington, D.C. He provides an intimate look at the assets that should be of greater value to residents—and that can be if they demand it. Perry provides a new means of determining the value of Black communities. Rejecting policies shaped by flawed perspectives of the past and present, it gives fresh insights on the historical effects of racism and provides a new value paradigm to limit them in the future. Know Your Price demonstrates the worth of Black people's intrinsic personal strengths, real property, and traditional institutions. These assets are a means of empowerment and, as Perry argues in this provocative and very personal book, are what we need to know and understand to build Black prosperity.**

In this collection, twelve award-winning writers of short crime fiction tackle the Joel catalog, and the result—edited by Josh Pachter, whose *The Beat of Black Wings: Crime Fiction Inspired by the Songs of Joni Mitchell* earned rave reviews in 2020—is a journey down life's mean streets with a soundtrack by one of the great singer-songwriters of our time, and contributors Michael Bracken, Jeff Cohen, David Dean, John M. Floyd, Barb Goffman, James D.F. Hannah, Richard Helms, Robert Lopresti, Jenny Milchman, Terrie Farley Moran, Richie Narvaez, and Pachter himself are donating a third of their royalties to support the work of the Joel Foundation. In the Gospel According to Billy, only the good die young. Within these pages, though, Death is an equal-opportunity exterminator, and the stories you'll find here don't just hit the charts: they go all the way to Number One ... with a bullet!

## Fish for Supper

[New York Review of Books](#) Selected as a Caldecott Honor Book in 1977, and now back in print for the first time in a decade, this is a charming picture book about a grandmother and her simple, idyllic daily routine. Fish for Supper is M.B. Goffstein's Caldecott Honor story of a grandmother and her regular routine in summer: waking at five o'clock in the morning to make the most of a day on the lake, "with cans of worms and minnows, some fruit for lunch, bobbers, lines, hooks, and sinkers." Delightfully and wittily, Goffstein departs from the usual fisherman's tale to give us a day in the life of this no-nonsense, patient fisherwoman who catches "sunfish, crapper, perch, and sometimes a big northern pike," who capably cleans her catch, and who can bake to boot. She relishes every bite of her well-earned supper, and the pleasure she takes in her self-sufficiency and graceful work becomes the reader's as well. Based on Goffstein's own childhood summers at her grandparents' house on Lake Minnetonka, Minnesota, Fish for Supper transforms her indelible memories into a story that is as honed and gratifying as its heroine's days.

## SPQR: A History of Ancient Rome

[W. W. Norton & Company](#) **New York Times Bestseller A New York Times Notable Book Named one of the Best Books of the Year by the Wall Street Journal, the Economist, Foreign Affairs, and Kirkus Reviews Finalist for the National Book Critics Circle Award (Nonfiction) Shortlisted for the Cundill Prize in Historical Literature Finalist for the Los Angeles Times Book Prize (History) A San Francisco Chronicle Holiday Gift Guide Selection A New York Times Book Review Editors' Choice Selection A sweeping, "magisterial" history of the Roman Empire from one of our foremost classicists shows why Rome remains "relevant to people many centuries later" (Atlantic). In SPQR, an instant classic, Mary Beard narrates the history of Rome "with passion and without technical jargon" and demonstrates how "a slightly shabby Iron Age village" rose to become the "undisputed hegemon of the Mediterranean" (Wall Street Journal). Hailed by critics as animating "the grand sweep and the intimate details that bring the distant past vividly to life" (Economist) in a way that makes "your hair stand on end" (Christian Science Monitor) and spanning nearly a thousand years of history, this "highly informative, highly readable" (Dallas Morning News) work examines not just how we think of ancient Rome but challenges the comfortable historical perspectives that have existed for centuries. With its nuanced attention to class, democratic struggles, and the lives of entire groups of people omitted from the historical narrative for centuries, SPQR will to shape our view of Roman history for decades to come.**
