## My Years in a Pakistani Prison

*Lancer Publishers LLC He was called for his service to the motherland. He reciprocated immediately. Giving up all familial relationships, he partook in a rigorous training programme that was a true test of his heart, body, mind and soul. Fighting off his cowardly hopes of quitting the organization so as to avoid the ordeal, he was finally made battle ready. Slipped into enemy territory, his espionage attempts met with complete success. However luck soon turned against him, as during his third mission he was seized by the enemy camp and imprisoned. He was subjected to absolute third degree torture and only miraculously, and albeit divinely, escaped the contours of death on more than one occasion. But he continued to strive towards seeing his own country once again. He looked forward to coming back home. And one day, God gave him that chance. He returned to the border once again, so that he could be united with his fellow countrymen. Was the welcome given to him befitting that of a hero? Or even if not a hero's welcome, certainly he needn't have been treated like a blackguard, a traitor! Who was he after all a Spy, or a Soldier?*

## Death at the Durbar

*Sourcebooks, Inc. "Golden age fans will appreciate how Sikander works his way through an array of suspects. Once again, Gaiind successfully blends detection with history." —Publishers Weekly STARRED review December, 1911. All of India is in a tizzy. A vast tent city has sprung up outside the old walled enclave of Mughal Delhi, where the British are hosting a grand Durbar to celebrate the coronation of the new*

*King, George V. From across India, all the Maharajas and Nawabs have gathered at the Viceroy of India's command to pay homage and swear loyalty to the King Emperor, the first monarch of England to travel out to India personally. Maharaja Sikander Singh of Rajpore is growing increasingly bored, cooling his heels at the Majestic Hotel as he awaits George V's arrival. Just as his frustration is about to peak, a pair of British officers shoulders in. They insist that he accompany them to the British Encampment. Irrked, but his curiosity piqued, Sikander agrees. To his surprise, they take him to the King Emperor's quarters where Sikander's old school friend, Malik Umar Hayat Khan, the Durbar herald, awaits. Malik Umar is serving Lord Hardinge, the Viceroy and the highest-ranked Englishman in the country. Lord Hardinge, overruling several subordinates, tells Sikander that his services as a sleuth are needed by King and country. Sworn to secrecy, Sikander is ushered into George V's personal chambers. And there he finds the cause for his extraordinary summons—an exquisite nautch-girl, hanged until dead. Employing techniques he has learned from studying Eugene Vidocq and Sherlock Holmes, Sikander examines the scene and demonstrates the girl was not a suicide, but murdered. Her death at the very heart of the encampment could ruin the enormously costly celebration and spark deep political repercussions in India and in England. Under this pressure, the Viceroy hands Sikander both the case to solve and a ticking clock—he must complete his investigation before George V arrives. And under the surveillance of one Captain Campbell of an elite British regiment. The list of suspects and motives is too large, the number of hours for the task too few. But he gave his word and so the Maharaja must put his skills to work. In the end, Sikander wishes he had not. The Maharaja Mysteries are perfect reading for fans of Tarquin Hall, Barbara Cleverly, and the late HRF Keating—and Agatha Christie and Arthur Conan Coyle.*

## The Lost River

### On the Trail of the Sarasvatī

*Penguin Books India The Indian subcontinent was the scene of dramatic upheavals a few thousand years ago. The Northwest region entered an arid phase, and erosion coupled with tectonic events played havoc with river courses. One of them disappeared. Celebrated as Sarasvati in the Rig Veda and the Mahabharata, this river was rediscovered in the early nineteenth century through topographic explorations by British officials. Recently, geological and climatological studies have probed its evolution and disappearance, while satellite imagery has traced the river's buried courses and isotope analyses have dated ancient waters still stored under the Thar Desert. In the same Northwest, the subcontinent's first urban society the Indus civilization flourished and declined. But it was not watered by the Indus alone: since Aurel Stein's expedition in the 1940s, hundreds of Harappan sites have been identified in the now dry Sarasvati's basin. The rich Harappan legacy in technologies, arts and culture sowed the seeds of Indian civilization as we know it now. Drawing from recent research in a wide range of disciplines, this book discusses differing viewpoints and proposes a harmonious synthesis a fascinating tale of exploration*

# Born to Be Hanged

## Political Biography of Zulfikar Ali Bhutto

*Rupa Publications Pakistan's former Prime Minister Zulfikar Ali Bhutto held the reins of the country from 1971 to 1977. He was overthrown in 1977 by his Chief of Army Staff, General Zia-ul-Haq, and executed in 1979. Zia-ul-Haq ruled over Pakistan for eleven years with an iron fist, curbing all dissent until he got blown up in an air crash in 1988. In almost three decades since, Pakistan's leadership has changed hands fifteen times. An extremely controversial and confrontational politics is associated with the era of Zulfikar Ali Bhutto. It is therefore not surprising that, considering his towering stature, not enough has been researched and written about the tumultuous years of his accession to power culminating in what today is best described as regicide. Syeda Hameed delves deep into the politics of Pakistan, meeting Bhutto's contemporaries, mining information from archives and letters to bring to the fore a rich yet disturbing life and times of Zulfikar Ali Bhutto.*

# The Company of Women

*Penguin UK Recently separated from his nagging, ill-tempered wife of thirteen years, millionaire businessman Mohan Kumar decides to reinvent his life. Convinced that 'lust is the true foundation of love', he embarks on an audacious plan: he will advertise for paid lady companions to share his bed and his life. Thus begins his journey of easy, unbridled sexuality in the company of some remarkable women. There is Sarojini Bharadwai, the demure professor from small-town Haryana who surprises Mohan with her ardour and sexual energy; Molly Gomes, the free-spirited masseuse from Goa, mistress of the sensual impulse; and Susanthika Goonatileke, the diminutive seductress from Sri Lanka. After each affair ends and before the next begins, Mohan finds solace in the practiced charms of his obliging maid, Dhanno, and in the memories of his first lovers: the American Jessica Browne, to whom he lost his virginity, and the Pakistani Yasmeen Wanchoo, who brought him the heady passion of an older woman. In The Company of Women, Khushwant Singh, India's most widely read author, has produced an uninhibited, erotic and endlessly entertaining celebration of love, sex and passion.*

# The Turbulent Years 1980-1996

*Rupa Publications One day in November 2001, Mukesh Ambani, Chairman of Reliance Group, the largest private sector enterprise in India, mandated K.V. Subramaniam to build a life sciences business from scratch. With no formal education in biology, he was initially at sea. But, endowed with a corporate business development background and a do-or-die spirit, he set out to systematically understand and create a research-driven, biotechnology-leveraged company with a differentiated footprint and a distinct culture. In the process, in an environment that is severe on performance, which Reliance Group is known for, he defied detractors, fixed snags and surmounted both personal and business setbacks to ring in a successful technology business with sustained high growth, profitability and stature. Apart from giving insights into the Reliance way of building and managing businesses, K.V. Subramaniam goes beyond the narrative of nurturing a life sciences company to step back and derive messages and morals that are applicable to any technology-driven venture. This candid, conversational account of his encounters and excitements holds valuable lessons for those who are either starting a new business or managing an existing one.*

## The State of Food Security and Nutrition in the World 2021

### Transforming food systems for food security, improved nutrition and affordable healthy diets for all

*Food & Agriculture Org. In recent years, several major drivers have put the world off track to ending world hunger and malnutrition in all its forms by 2030. The challenges have grown with the COVID-19 pandemic and related containment measures. This report presents the first global assessment of food insecurity and malnutrition for 2020 and offers some indication of what hunger might look like by 2030 in a scenario further complicated by the enduring effects of the COVID-19 pandemic. It also includes new estimates of the cost and affordability of healthy diets, which provide an important link between the food security and nutrition indicators and the analysis of their trends. Altogether, the report highlights the need for a deeper reflection on how to better address the global food security and nutrition situation. To understand how hunger and malnutrition have reached these critical levels, this report draws on the analyses of the past four editions, which have produced a vast, evidence-based body of knowledge of the major drivers behind the recent changes in food security and nutrition. These drivers, which are increasing in*

*frequency and intensity, include conflicts, climate variability and extremes, and economic slowdowns and downturns – all exacerbated by the underlying causes of poverty and very high and persistent levels of inequality. In addition, millions of people around the world suffer from food insecurity and different forms of malnutrition because they cannot afford the cost of healthy diets. From a synthesized understanding of this knowledge, updates and additional analyses are generated to create a holistic view of the combined effects of these drivers, both on each other and on food systems, and how they negatively affect food security and nutrition around the world. In turn, the evidence informs an in-depth look at how to move from silo solutions to integrated food systems solutions. In this regard, the report proposes transformative pathways that specifically address the challenges posed by the major drivers, also highlighting the types of policy and investment portfolios required to transform food systems for food security, improved nutrition, and affordable healthy diets for all. The report observes that, while the pandemic has caused major setbacks, there is much to be learned from the vulnerabilities and inequalities it has laid bare. If taken to heart, these new insights and wisdom can help get the world back on track towards the goal of ending hunger, food insecurity, and malnutrition in all its forms.*

## My Years with the IAF

*Lancer Publishers LLC This is the first time that an Air Chief is sharing his thoughts and memories with the reading public. His span of service covers a period of thirty-three years: from the end of 1939 to the beginning of 1973. It includes the Burma campaign of World War II, the restricted fighting in Kashmir in 1947 and 1948, the Chinese debacle in 1962 and the two full scale wars with Pakistan in 1965 and 1971. He had 4,274 hrs of flying with the Air Force to his credit and the experience of flying 58 types of aircraft from Wapitis to supersonic jets. In 1965 he was the Vice Chief of Air Staff and in 1971 the Chief. His honesty and forthrightness many readers will find engaging& but perhaps a few who were on the scene then may find them unpalatable. In a way this is the story of aviation in India, in particular of the Indian Air Force. It is a story of a real life adventure the genesis, growth and achievements of the youngest of the three defence services. Sir Winstom Churchill said of the RAF: Never before in the history of human conflict was so much owed by so many to so few. That is true also of the Indian Air Force. Though this does not purport to be a history of the Indian Air Force without it no history would be complete.*

## The Man Who Bent Light

### Father of Fibre Optics

*Roli Books The father of fiber optics, Narinder Singh Kapany was far more than your typical multi-hyphenate. Inventor, art collector, sculptor, farmer, entrepreneur, teacher, and a successful businessman, Dr Kapany was what Fortune magazine in its 1999 issue called, 'one of the seven unsung heroes of the 20th century'. An insightful and inspirational life story, this memoir chronicles his 90 remarkable years. Charming, idiosyncratic, and highly engaging, The Man who Bent Light serves up enough variety and verve to celebrate the lives of a half-dozen individuals. But there is only one Narinder Singh Kapany, and his life, illuminated in his singular memoir, is a life like no other.*
