MEDITERRANEAN SPAIN

GIBRALTAR TO THE FRENCH BORDER

Imray, Laurie, Norie and Wilson Ltd The second edition of this well-received title from the Royal Cruising Club Pilotage Foundation covers the entire Mediterranean mainland coast of Spain from Gibraltar to the French border. This is the only detailed pilot for the Spanish Mediterranean coast running up from Gibraltar to the border with France. It covers a varied cruising area that includes the mountain-backed Costas del and Sol and Blanca, the expansive lagoon of the Mar Menor, the low-lying Ebro delta and the rugged Costa Brava. In between are several great cities including Malaga, Valencia, Tarragona and Barcelona, the Catalan capital. The volume opens with Gibraltar and La Línea. With Imray charts for the same coast, Mediterranean Spain provides all the data necessary for anyone based in Spain, transitting to and from areas further East or the Balearics, or just exploring this rich and varied coast and its hinterland. The coverage has been revised with the text updated, new plans added and other plan updates based on the latest information. This edition has been enhanced by the addition of over 100 aerial photographs showing coastline and harbour approaches.

ECOSYSTEM EFFECTS OF FISHING IN THE MEDITERRANEAN

AN ANALYSIS OF THE MAJOR THREATS OF FISHING GEAR AND PRACTICES TO BIODIVERSITY AND MARINE HABITATS

Food & Agriculture Org. Most of the major impacts of fishing on the ecosystems recorded around the world occur in the Mediterranean. This variety of interactions is due to four main interrelated factors: the wide range of fishing gear and practices; very intensive fishing; a high diversity of exploited habitats, ranging from shallow water to the deep-sea and oceanic domain; and high biological diversity.

THE WORKS OF HORACE

ADRIATIC AND IONIAN SEAS. FROM THE ITALIAN-SLOVENIAN BORDER TO REGGIO CALABRIA AND THE TREMITI ISLANDS

BACKWATER WAR

THE ALLIED CAMPAIGN IN ITALY, 1943-1945

Greenwood Publishing Group Details the planning, execution, and implications of the Allied landings on the Italian peninsula.

ITALIAN WATERS PILOT

Imray, Laurie, Norie and Wilson Ltd Italian Waters Pilot is the only guide for yachtsmen in English that covers the coasts of the Tyrrhenian Sea, Sardinia, Sicily, the Ionian 'heel' and Malta in one volume. This new tenth edition builds on first-hand research by the authors through the Tuscan islands, along the Tyrrhenian and Ionian coasts, to Sardinia and Sicily, Malta and Gozo. Numerous revisions have been made throughout, with the text, plans and photographs undergoing a complete overhaul. Care has been taken to research the details of marina developments. Where it has been available information is given on proposed changes and extensions to yacht harbours. Marine reserves are now an important feature of the coasts and off-lying islands, particularly in Sardinia and Sicily, and this edition provides updated details of the latest regulations. Climate change and extreme weather events are becoming a major issue and this edition includes a section on the how climate change might affect sailing in the Mediterranean. Italian Waters Pilot is the last word on the area for yachts cruising there and on their way between western and eastern parts of the Mediterranean.

THE 2021-2022 SAILORS GUIDE TO THE WINDWARD ISLANDS

MARTINIQUE TO GRENADA

By Chris Doyle and Lexi Fisher. This guide picks up where The Cruising Guide to the Southern Leeward Islands ends and is revised and updated for 2021-2022. After 38 years in print, this book continues to be the best selling cruising guide to the Windward Islands. Features include: aerial color photos, full color sketch charts, GPS waypoints and some of the best local information available. A wide range of topics are covered in this 2021-2022 edition including the latest information on marinas, marine services, water sports, resorts and shore-side shopping, restaurants, area sights, regulations affecting the yachtsman and helpful navigational directions. Most importantly, color aerial photography is included to further assist in navigation and provide invaluable information on anchorages. A popular feature is the directory, which gives the names, phone numbers, email and website addresses of most yacht related businesses. It is organized island by island to make finding the services effortless. The guide covers the four main Windward Islands including Martinique, St. Lucia, St. Vincent and the Grenadines and Grenada, as well as exploring many of the smaller sister islands. Additionally, the guide includes a free, color, 27 x 17 planning chart covering the Windward Islands.

GRENADA TO THE VIRGIN ISLANDS

Imray, Laurie, Norie and Wilson Ltd This popular book covering the Caribbean from Grenada and Barbados to the Virgin Islands is a translation from Jacques Patuelli's original French version. Each island is dealt with in detail and pilotage notes are followed by tourist information and the usual data on formalities and facilities. Fully illustrated with plans and photos, many of which are new for this third edition, the guide is packed with interesting and useful background information on the Caribbean- its history, tourism, geography and details on sailing in the islands. The last section of the book, the blue pages, consists of listings of facilities, restaurants, bars, hotels and other information of interest to tourists.

WW2 SOLDIER'S GUIDE TO SICILY BOOK - ISSUED TO TROOPS BEFORE INVASION

Dwight D. (foreword) Unknown Editor) Eisenhower British, American and Commonwealth troops were issued with a copy of the 'Soldier's Guide to Sicily'. With a foreword written by the US Army's General Dwight D. Eisenhower, the booklet was produced to help the Allies prepare for Operation Husky: the invasion of Sicily. Eisenhower was the Commander in Chief for the operation. He wrote: "The successful conclusion of these operations will NOT only strike closer to the heart of the Axis, but also will remove the last threat to the free sea lanes of the Mediterranean." The guide warns troops about the hot, dry weather of the sirocco they were likely to encounter - and rightly so: the fierce heat combined with swampy conditions on parts of the island meant some combatants contract malaria. The book also contains advice with descriptions of the island, pictures of some towns and makes remarks about its people.

EAST AEGEAN

Imray, Laurie, Norie and Wilson Ltd The expanded third edition of this popular cruising guide encompasses the Greek Dodecanese islands and the Turkish coast eastwards from the Samos Strait to Kas and Kekova. Fully illustrated with up to date plans and numerous new photographs, it is packed with all the essential information for getting to the area, formalities and sailing these beautiful cruising grounds. There is a level of further detail to this coverage in terms of anchorages and other destinations than is found in the Heikell's Greek Waters Pilot and Turkish Waters and Cyprus Pilot. This handy guide also whets the appetite for the local cuisine and culture and gives some historic context to exploration ashore. The fantastic background information with historical and mythological anecdotes gives ... a richness too often missing from bald pilot guides. Royal Cruising Club ... no East Med cruiser will want to sail without a copy. Yachting Monthly

THE 2019-2020 SAILORS GUIDE TO THE WINDWARD ISLANDS

Chris Doyle Publishing After 36 years in print, this book continues to be the best selling cruising guide to the Windward Islands. Features include: aerial color photos, full color sketch charts, GPS waypoints and some of the best local information available. A wide range of topics are covered in this 2019-2020 edition including the latest information on marinas, marine services, water sports, resorts and shore-side shopping, restaurants, area sights, regulations affecting the yachtsman and helpful navigational directions. Most importantly, color aerial photography is included to further assist in navigation and provide invaluable information on anchorages. A popular feature is the directory, which gives the names, phone numbers, email and website addresses of most yacht related businesses. It is organized island by island to make finding the services effortless. Includes a free, color, 27" x 17" planning chart covering the Windward Islands.

WEST AEGEAN

Imray, Laurie, Norie and Wilson Ltd Rod and Lucinda Heikell's West Aegean covers the coasts and islands near Athens, the adjacent islands in the Cyclades and the Eastern Peloponnisos to Monemvasia. Also covered is the mainland coast of Greece from Sounion to Volos and the adjacent coast of Evia, and the Northern Sporades including Skiathos and Skopelos.

JEAN DE BUEIL

LE JOUVENCEL

Boydell & Brewer First full English translation of a major text, narrating the adventures of the Jouvencel whilst interweaving them with advice on military tactics and strategies.

THE RCC PILOTAGE FOUNDATION ATLANTIC CROSSING GUIDE

Bloomsbury Publishing The Atlantic Crossing Guide is a complete reference for anyone planning an Atlantic passage in their own boat. It is described by Yachting World magazine as 'An invaluable mixture of planning manual and pilot book, and an essential investment

if you're planning to cross the Pond.' From ideal timing, suitable boats, routes, methods of communication and provisioning to sources of regional weather information, hurricane tracks, currents and tides, departure and arrival ports, facilities on arrival and documentation required, the comprehensiveness of this new edition will both inspire dreamers and instill confidence in those about to depart. This is the definitive reference on the subject, relied upon by many thousands of cruisers crossing the Atlantic in both directions and packed with all the information they need. 'I cannot imagine setting sail without it' - SAIL magazine (US)

MODELING, PROGRAMMING AND SIMULATIONS USING LABVIEW™ SOFTWARE

BoD - Books on Demand Born originally as a software for instrumentation control, LabVIEW became quickly a very powerful programming language, having some peculiar characteristics which made it unique: the simplicity in creating very effective Users Interfaces and the G programming mode. While the former allows designing very professional controls panels and whole Applications, completed with features for distributing and installing them, the latter represents an innovative and enthusiastic way of programming: the Graphical representation of the code. The surprising aspect is that such a way of conceiving algorithms is absolutely similar to the SADT method (Structured Analysis and Design Technique) introduced by Douglas T. Ross and SofTech, Inc. (USA) in 1969 from an original idea of MIT, and extensively used by US Air Force for their projects. LabVIEW practically allows programming by implementing straightly the equivalent of an SADT "actigram". Beside this academical aspect, LabVIEW can be used in a variety of forms, creating projects that can spread over an enormous field of applications: from control and monitor software to data treatment and archiving; from modeling to instruments controls; from real time programming to advanced analysis tools with very powerful mathematical algorithms ready to use; from full integration with native hardware (by National Instruments) to an easy implementation of drivers for third party hardware. In this book a collection of different applications which cover a wide range of possibilities is presented. We go from simple or distributed control software to modeling done in LabVIEW; from very specific applications to usage in the educational environment.

THE PACIFIC CROSSING GUIDE 3RD EDITION

RCC PILOTAGE FOUNDATION

Bloomsbury Publishing The Pacific Crossing Guide is a complete reference for anyone contemplating sailing the Pacific in their own boat. From ideal timing, suitable boats, routes, methods of communication, health and provisioning to seasonal weather, departure and arrival ports, facilities, likely costs and dangers, the comprehensiveness of this new edition will both inspire dreamers and instil confidence in those about to depart. This new edition has been completely restructured with Part 1 covering thorough preparation for a Pacific crossing and Part 2 covering Pacific weather patterns, major routes and landfall ports, with useful website links throughout. There are completely new sections on rallies, coral atolls and atoll navigation, the cyclone season and laying up, use of electronic charts, satellite phones versus HF radio, ongoing maintenance, and Pacific festivals. Completely updated, expanded and refreshed for the new generation of Pacific cruisers, this is the definitive reference, relied upon by many thousands of cruisers.

WORLD VOYAGE PLANNER

PLANNING A VOYAGE FROM ANYWHERE IN THE WORLD TO ANYWHERE IN THE WORLD

A&C Black Jimmy Cornell is the undisputed authority on long distance voyaging. In his new book, he helps the would-be voyager plan their trip step by step. Aimed at those seriously contemplating an extended cruise (and those dreaming about the possibility), this book will give an idea of what is involved in developing the right strategy. Amongst many other aspects, Jimmy looks at: - World weather systems - Strategies for sailing long or short circuits in the Atlantic, Pacific and Indian Oceans - The pros and cons of different routes at different times of year (taking in account weather, timings, wind directions and strengths, likelihood of fog, icebergs, gales, etc) - The pros and cons, attractions and dangers of different routes (such as the problem of piracy) - Practicalities (repair facilities, common gear breakage on extended voyages, places to leave the boat to fly home if necessary, health considerations, provisioning for a long trip, personal safety measures, and much more) - Jimmy's top ten list of common things that ruin a voyage Written from an international point of view, Jimmy Cornell's Blue Water Voyage Planning can help sailors from any country going to any other achieve a safe and enjoyable cruise.

VOIP TECHNOLOGIES

IntechOpen This book provides a collection of 15 excellent studies of Voice over IP (VoIP) technologies. While VoIP is undoubtedly a powerful and innovative communication tool for everyone, voice communication over the Internet is inherently less reliable than the public switched telephone network, because the Internet functions as a best-effort network without Quality of Service guarantee and voice data cannot be retransmitted. This book introduces research strategies that address various issues with the aim of enhancing VoIP quality. We hope that you will enjoy reading these diverse studies, and that the book will provide you with a lot of useful information about current VoIP technology research.

INTEGRATING THE BALKANS

CONFLICT RESOLUTION AND THE IMPACT OF EU EXPANSION

Emerging from a decade of violent ethnic and inter-state conflict during the 1990s, the countries of the Western Balkans entered a phase of rebuilding and reconciliation. Due to the key role played by the EU in the region's rebuilding efforts, "Integrating the Balkans" explores this institution's considerable efforts to influence and shape the nature of state, society and foreign relations, as it utilised the promise of membership as a vital tool to exert its influence. The picture that materialises is one of the EU's discernible, but often contradictory, impact as it offers the carr.
