DATSUN/NISSAN 280X & 300ZX

Veloce Publishing Ltd The 240Z was a landmark in automotive history. By the time the first generation Z-cars came to an end in 1978, everyone around the world knew the name Datsun. Here is the full story of the ZX series from the 280ZX - introduced as the second generation Z-car in 1978 - through to the 300ZX of 1999. The 240Z and 260Z were pure sports cars, but the 280ZX represented the evolution of the Z-car into a Grand Tourer. This evolution continued through two generations of 300ZX and the Z became a true supercar with state-of-the-art engineering features. This book contains a great deal of new information for enthusiasts in the West, as Japanese models have been covered in detail for the first time. Photographs and other illustrations have been sourced almost exclusively from the factory and therefore illustrate the cars in original detail. Datsun Z, also by Brian Long and Veloce, is a complementary book.

INSIDE SHELBY AMERICAN

WRENCHING AND RACING WITH CARROLL SHELBY IN THE 1960S

Motorbooks In the late 1950s, a young John Morton was transfixed with sports car racing. His dreams of competition eventually led him to enroll, in 1962, in the Shelby School of High Performance Driving. In a bold moment after the last class, Morton asked Carroll Shelby if he might come to work for the newly formed Shelby American. The answer was "Yes, here's a broom." Thus ended Morton's college career and began his long racing career. Over the next three years, Morton would be a firsthand witness to the evolution of one of the most iconic sports car builders and racing teams of the 1960s. Inside Shelby American is his personal account of a company overflowing with talent, from designer Pete Brock to fabricator extraordinaire Phil Remington to drivers like Dan Gurney, Ken Miles, Bob Bondurant, and Phil Hill. The cars were equally captivating: AC Cobra, Mustang GT350, Ford GT, Daytona Coupe. In this book, Morton's story is intertwined with the memories of other Shelby staffers of the period, revealing through historic photography and an untold perspective the rousing story of America's most legendary racer and car builder.
