LAND REDISTRIBUTION FOR AGRICULTURAL DEVELOPMENT

A SUB-PROGRAMME OF THE LAND REDISTRIBUTION PROGRAMME

INSURGENT CITIZENSHIP

DISJUNCTIONS OF DEMOCRACY AND MODERNITY IN BRAZIL

Princeton University Press Insurgent citizenships have arisen in cities around the world. This book examines the insurgence of democratic citizenship in the urban peripheries of São Paulo, Brazil, its entanglement with entrenched systems of inequality, and its contradiction in violence. James Holston argues that for two centuries Brazilians have practiced a type of citizenship all too common among nation-states--one that is universally inclusive in national membership and massively inegalitarian in distributing rights and in its legalization of social differences. But since the 1970s, he shows, residents of Brazil's urban peripheries have formulated a new citizenship that is destabilizing the old. Their mobilizations have developed not primarily through struggles of labor but through those of the city--particularly illegal residence, house building, and land conflict. Yet precisely as Brazilians democratized urban space and achieved political democracy, violence, injustice, and impunity increased dramatically. Based on comparative, ethnographic, and historical research, *Insurgent Citizenship* reveals why the insurgent and the entrenched remain dangerously conjoined as new kinds of citizens expand democracy even as new forms of violence and exclusion erode it. Rather than view this paradox as evidence of democratic failure and urban chaos, *Insurgent Citizenship* argues that contradictory realizations of citizenship characterize all democracies--emerging and established. Focusing on processes of city- and citizen-making now prevalent globally, it develops new approaches for understanding the contemporary course of democratic citizenship in societies of vastly different cultures and histories.

SOUTH AFRICAN NATIONAL HIV PREVALENCE, INCIDENCE, BEHAVIOUR, AND COMMUNICATION SURVEY, 2017

TOWARDS ACHIEVING THE UNAIDS 90-90-90 TARGETS

SHAPING THE FUTURE OF SOUTH AFRICA'S YOUTH

RETHINKING POST-SCHOOL EDUCATION AND SKILLS TRAINING

African Minds South Africa has made huge gains in ensuring universal enrolment for children at school, and in restructuring and recapitalising the FET college sector. However, some three million young people are not in education, employment or training and the country faces serious challenges in providing its youth with the pathways and support they need to transition successfully into a differentiated system of post-school education and training. Across nine evidence-based chapters, 17 authors offer a succinct overview of the different facets of post-school provision in South Africa. These include an analysis of the impact of the national qualifications system on occupational training, the impact of youth unemployment, the capacity of the post-school system to absorb larger numbers of young people, the relationship between universities and FET colleges, the need for more strategic public and private investment in skills development, and a youth perspective on education and training policy. The authors have a number of recommendations for improving the alignment between schooling, further education and training, and university education - interventions that could shape the future of our youth.

ENGLISH ACROSS THE CURRICULUM

VOICES FROM AROUND THE WORLD

CSU Open Press Inspired by papers presented at the second international English Across the Curriculum (EAC) conference, this book provides a platform for those involved in the EAC movement to exchange insights, explore new strategies and directions, and share experiences. It speaks not only to EAC practitioners but also to scholars in a range of related fields, whether they are considering starting an EAC-like initiative or are already involved in an established EAC, Content and Language Integrated Learning (CLIL), or Writing Across the Curriculum (WAC) program. The chapters in the book testify to challenges faced, opportunities presented, and a passion displayed for embedding academic English literacy in courses in a range of disciplines at institutions around the world. They also highlight the persistence and determination of teachers in creating and shaping valuable learning experiences and ongoing support for their students.

THE AFRICAN NATIONAL CONGRESS AND THE REGENERATION OF POLITICAL POWER

NYU Press The African National Congress is light years beyond the liberation movement of old. It remains a juggernaut, but its control and dominance are no longer watertight. The ANC lives the contradictions of weaknesses, cracks and factions while retaining its colossal status. As a party-movement it draws on its liberation credentials, and extracts immense power from its deep anchorage in South Africa's people. It is immersed in electoral politics that marks the state of its overwhelming power cyclically. As government the ANC is the object of protest, but not protest designed to bring the ruling party to its knees. The ANC is in command of the state, yet fails to definitively counter the deficits that make South Africa's democracy seem so diluted. Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not 'pass through the eye of the needle'. The ANC and the Regeneration of Political Power unpacks these contradictions. It focuses on four faces of the ANC's political power - the organisation, the people, political parties and elections, and policy and government - and explores how the ANC has acted since 1994 to continuously regenerate its power. By 2011-12 the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties. This book presents insights into how South African politics - in many ways synonymous with the politics of the ANC - is likely to unfold in years and possibly decades to come.

CONTINGENT CITIZENS

PROFESSIONAL ASPIRATION IN A SOUTH AFRICAN HOSPITAL

Routledge *Contingent Citizens* examines the ambiguous state of South Africa's public sector workers and the implications for contemporary understandings of citizenship. It takes us inside an ethnography of the professional ethic of nurses in a rural hospital in KwaZulu-Natal, shaped by a deep history of mission medicine and changing forms of new public management. Liberal democratic principles of 'transparency', 'decentralization' and 'rights', though promising freedom from control, often generate fear and insecurity instead. But despite the pressures they face, Elizabeth Hull shows that nurses draw on a range of practices from international migration to new religious movements, to assert new forms of citizenship. Focusing an anthropological lens on 'professionalism', Hull explores the major fault lines of South Africa's fragmented social landscape – class, gender, race, and religion – to make an important contribution to the study of class formation and citizenship. This prize-winning monograph will be of interest to scholars of anthropology, development studies, sociology and global public health.

PROVEN PROGRAMS IN EDUCATION: CLASSROOM MANAGEMENT AND ASSESSMENT

Corwin Press Evidence-based best practices that improve classroom environments and assessment techniques! If your goal is a smoother-running, participatory classroom and improved student achievement, you'll find essential best practices in this new resource. Robert Slavin, Professor and Chairman of the Success for All Foundation, has gathered insights and findings from more than 25 leading education researchers, presented in succinct chapters focused on key aspects of teaching and classroom management practice. Readers will find: Strategies for assessment that address use of formative approaches, adaptation for differentiation and the Common Core, and more Proven techniques for classroom management, including immediate positive steps that teachers can take User-friendly content supported by quick-read charts and graphs

AN INVESTMENT FRAMEWORK FOR NUTRITION

REACHING THE GLOBAL TARGETS FOR STUNTING, ANEMIA, BREASTFEEDING, AND WASTING

World Bank Publications An Investment Framework for Nutrition: Reaching the Global Targets for Stunting, Anemia, Breastfeeding, and Wasting estimates the costs, impacts, and financing scenarios to achieve the World Health Assembly global nutrition targets for stunting, anemia in women, exclusive breastfeeding and the scaling up of the treatment of severe wasting among young children. To reach these four targets, the world needs US\$70 billion over 10 years to invest in high-impact nutrition-specific interventions. This investment would have enormous benefits: 65 million cases of stunting and 265 million cases of anemia in women would be prevented in 2025 as compared with the 2015 baseline. In addition, at least 91 million more children would be treated for severe wasting and 105 million additional babies would be exclusively breastfed during the first six months of life over 10 years. Altogether, achieving these targets would avert at least 3.7 million child deaths. Every dollar invested in this package of interventions would yield between US\$4 and US\$35 in economic returns, making investing in early nutrition one of the best value-for-money development actions. Although some of the targets—especially those for reducing stunting in children and anemia in women—are ambitious and will require concerted efforts in financing, scale-up, and sustained commitment, recent experience from several countries suggests that meeting these targets is feasible. These investments in the critical 1000-day window of early childhood are inalienable and portable and will pay lifelong dividends—not only for children directly affected but also for us all in the form of more robust societies—that will drive future economies.

UNIVERSAL HEALTH COVERAGE FOR INCLUSIVE AND SUSTAINABLE DEVELOPMENT

A SYNTHESIS OF 11 COUNTRY CASE STUDIES

World Bank Publications The book synthesizes the experiences from Bangladesh, Brazil, France, Ethiopia, Ghana, Indonesia, Japan, Peru, Thailand, Turkey and Vietnam in implementing policies to achieve and sustain Universal Health Coverage. The study focuses on three aspects of UHC reforms: political economy, health financing, and human resources for health.

NOURISHING MILLIONS: STORIES OF CHANGE IN NUTRITION: SYNOPSIS

Int'l Food Policy Res Inst In recent years, the world has seen unprecedented attention and political commitment to addressing malnutrition. Milestones such as the Scaling Up Nutrition (SUN) Movement, the Lancet Maternal and Child Nutrition Series, and the Second International Conference on Nutrition (ICN2) have marked the rapid rise of nutrition on the global policy and research agenda. These developments reverse years of relative neglect for nutrition. Undernutrition is a global challenge with huge social and economic costs. It kills millions of young children annually, stunts growth, erodes child development, reduces the amount of schooling children attain, and increases the likelihood of their being poor as adults, if they survive. Stunting persists through a lifetime and beyond—underweight mothers are more likely to give birth to underweight children, perpetuating undernutrition across generations. Undernutrition reduces global gross domestic product by US\$1.4–\$2.1 trillion a year—the size of the total economy of Africa south of the Sahara.

FAMILY PLANNING AND THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT (DATA BOOKLET)

This booklet is based on the Estimates and Projections of Family Planning Indicators 2019, which includes estimates at the global, regional and country level of contraceptive prevalence, unmet need for family planning and SDG indicator 3.7.1 "Proportion of women who have their need for family planning satisfied by modern methods".

OVERVIEW AND DIRECTORY

MAPPING IRRIGATED AREAS IN THE LIMPOPO PROVINCE, SOUTH AFRICA

International Water Management Institute (IWMI) This report summarizes the findings of a collaborative effort to map and assess irrigated areas in the Limpopo Province, South Africa. The study was conducted by the International Water Management Institute (IWMI) in collaboration with the Department of Agriculture, Forestry and Fisheries (DAFF) and the Limpopo Department of Agriculture and Rural Development (LDARD), as part of the DAFF-supported 'Revitalization of irrigation in South Africa' project. Based on a combination of Landsat and Moderate Resolution Imaging Spectroradiometer (MODIS) satellite data, previous irrigated area mapping exercises carried out by DAFF and three-field ground truthing (GT) surveys, a total of 1.6 million hectares (Mha) of cropland were identified, with 262,000 ha actually irrigated in the 2015 winter season. The study also found that only 29% of all land equipped with center pivots was actually irrigated.

SPENDING REDUCTIONS

RECOMMENDATIONS OF THE COMMITTEE ON INTERSTATE AND FOREIGN COMMERCE REQUIRED BY THE RECONCILIATION PROCESS OF H. CON. RES. 307, THE FIRST BUDGET RESOLUTION FOR FISCAL YEAR 1981, TOGETHER WITH ADDITIONAL VIEWS

FORECASTING WITH DYNAMIC REGRESSION MODELS

Wiley-Interscience One of the most widely used tools in statistical forecasting, single equation regression models is examined here. A companion to the author's earlier work, *Forecasting with Univariate Box-Jenkins Models: Concepts and Cases*, the present text pulls together recent time series ideas and gives special attention to possible intertemporal patterns, distributed lag responses of output to input series and the auto correlation patterns of regression disturbance. It also includes six case studies.

STUDY AND MASTER LIFE SCIENCES GRADE 11 CAPS STUDY GUIDE

HEALTH AND HEALTH CARE IN SOUTH AFRICA

Health and healthcare in South Africa attempts to capture the essence of transformation and trends in the South African health sector. It offers, on the one hand, an overview of recent and current developments in the South African health care system, and on the other, of trends in the health status of the South African population. The book is a follow-up to the well-known *Health care in South Africa - structure and dynamics* (Van Rensburg, Fourie & Pretorius 1992), published just before the transition to a democratic society. The book retains a strong historical thread, but the focus is generally on the nature of the transformation process, gains made and failures encountered.

TOURISM AND HOSPITALITY STUDIES

Peter Lang D This book discusses "tourism and hospitality" from different perspectives and disciplines. In addition, this book, considering the tourism and hotel management terminology, is expected to be a source book for the theoretical and practical scientific studies in the fields which is in close relationship such as gastronomy, recreation and marketing.
