She found that navigating the basics of everyday life—from buying a cell phone and filing taxes to education and childcare—was much more complicated and stressful than anything she encountered in her homeland. At first, she attributed her crippling anxiety to the difficulty of adapting to a freewheeling new culture. But as she got to know Americans better, she discovered they shared her deep apprehension. To understand why life is so different in the U.S. and Finland, Partanen began to look closely at both. In *The Nordic Theory of Everything*, Partanen compares and contrasts life in the United States with life in the Nordic region, focusing on four key relationships—parents and children, men and women, employees and employers, and government and citizens. She debunks criticism that Nordic countries are socialist “nanny states,” revealing instead that it is we Americans who are far more enmeshed in unhealthy dependencies than we realize. As Partanen explains step by step, the Nordic approach allows citizens to enjoy more individual freedom and independence than we do. Partanen wants to open Americans’ eyes to how much better things can be—to show her beloved new country what it can learn from her homeland to reinvigorate and fulfill the promise of the American dream—to provide the opportunity to live a healthy, safe, economically secure, upwardly mobile life for everyone. Offering insights, advice, and solutions, *The Nordic Theory of Everything*

makes a convincing argument that we can rebuild our society, rekindle our optimism, and restore true freedom to our relationships and lives. **EBOOK: How to Fix Your Academic Writing Trouble: A Practical Guide** *McGraw-Hill Education (UK)* Are you confused by the feedback you get from your academic teachers and mentors? This clear and accessible guide to decoding academic feedback will help you interpret what your lecturer or research supervisor is really trying to tell you about your writing—and show you how to fix it. It will help you master a range of techniques and strategies to take your writing to the next level and along the way you'll learn why academic text looks the way it does, and how to produce that 'authoritative scholarly voice' that everyone talks about. This book is an easy-to-use resource for postgraduate students and researchers in all disciplines, and even professional academics, to diagnose their writing issues and find ways to fix them. This book would also be a valuable text for academic writing courses and writing groups, such as those offered in doctoral and Master's by research degree programmes. 'Whether they have writing problems or not, every academic writer will want this handy compendium of effective strategies and sound explanations on their book shelf—it's a must-have.' Pat Thomson, Professor of Education, University of Nottingham, UK

Bearing Witness Essays in honour of Brij V. Lal *ANU Press* "Brij V. Lal is a singular scholar. His work has spanned disciplines—from history to politics—and genres—from conventional monograph history, to participant history, political commentary, encyclopaedia, biography and fiction. Brij is without doubt the most eminent scholar Fiji has ever produced. He also remains the most significant public intellectual of his country, despite having been banned from entering it in 2009. He is also one of the leading Pacific historians of his generation, and an internationally recognised authority on the Indian diaspora. This Festschrift volume celebrates, reflects upon and extends the life and work of this colourful scholar. The essays, whose contributors are drawn from across the globe, do more than review Brij's work; they also probe his contribution to both scholarly and political life. This book will therefore serve as an invaluable guide for readers from all walks of life seeking to better situate and understand the impact of Brij's scholarly activism on Fiji and beyond." — Clive Moore, University of Queensland "It is a pleasure to commend this collection of very different essays that celebrate, reflect upon and extend the life and work of a

remarkable scholar. Although I have had, at times, a close association with Brij Lal's life and work, I have learned much from reading this book. It provokes further thought about the course of democracy in Fiji, and the very sorry state and future of Pacific history and the humanities in academia. Here is a timely assertion of the significance and major contribution that courageous scholars such as Brij have made to the study and public awareness of these areas of concern." — Jacqueline Leckie, University of Otago Australian National University Historical Journal

It opens with some orientations that raise awareness of the issues that surround the telling of a research story. Issues of structure and matters of language, style, and rhetoric are then discussed. Sections on metadiscourse, citation, and paraphrasing and summarizing are included.

Thesis and Dissertation Writing in a Second Language A Handbook for Supervisors *Routledge*

The relationship of supervisor to student has traditionally been seen as one of apprenticeship, in which much learning is tacit, with the expectation that the student will become much like the tutor. The changing demographics of higher education in conjunction with imperatives of greater accountability and support for research students have rendered this scenario both less likely and less desirable and unfortunately many supervisors are challenged by the task of guiding non-native speaker students to completion. This handbook is the ideal guide for all supervisors working with undergraduate and postgraduate non-native

speaker students writing a thesis or dissertation in English as it explicitly unpacks thesis writing, using language that is accessible to research supervisors from any discipline. **Studying and Researching with Social Media** *SAGE* Wondering what your lecturers are looking for in a blog post? Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, **I Know Why the Caged Bird Sings** will touch hearts and change minds for as long as people read. "**I Know Why the Caged Bird Sings** liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition. **Planning and Managing Scientific Research** A guide for the beginning researcher *ANU E Press* Although there are many books on project management, few address the issues associated with scientific research. This work is based on extensive scientific research and management experiences and is designed to provide an introduction to

planning and managing scientific research for the beginning researcher. The aim is to build an understanding of the nature of scientific research, and the way in which research projects can be developed, planned and managed to a successful outcome. The book is designed to help the transition from being a member of a research team to developing a project and making them work, and to provide a framework for future work. The emphasis of the book is on broadly applicable principles that can be of value irrespective of discipline. It should be of value to researchers in the later stages of Ph.D. work and Postdoctoral workers, and also for independent researchers.

Writing Women's History International Perspectives *Springer* Five essays address such themes as the relationship between feminist history and women's history, the use of the concept of "experience", the development of the history of gender, demographic history and women's history and the importance of post-structuralism to women's history.

Fear of Abandonment Australia in the World since 1942 *Black Inc.* Updated edition, covering Brexit, Trump, Xi's ambitions for China, and the geopolitical implications of the COVID-19 pandemic

Everything Australia wants to achieve as a country depends on its capacity to understand the world outside and to respond effectively to it. In Fear of Abandonment, expert and insider Allan Gyngell tells the story of how Australia has shaped the world and been shaped by it since it established an independent foreign policy during the dangerous days of 1942. Gyngell argues that the fear of being abandoned - originally by Britain, and later by our most powerful ally, the United States - has been an important driver of how Australia acts in the world. Covering everything from the White Australia policy to the South China sea dispute, this is a gripping and authoritative account of the way Australians and their governments have helped create the world we now inhabit in the twenty-first century. In revealing the history of Australian foreign affairs, it lays the foundation for how it should change. Today Australia confronts a more difficult set of international challenges than any we have faced since 1942 - this new edition brings the story up to date. Allan Gyngell is National President of the Australian Institute of International Affairs and an honorary professor at the Australian National University. His long career in Australian international relations included appointments as director-general of the Office of National Assessments and founding executive director of the Lowy Institute. He worked as a diplomat, policy officer and analyst in several government departments and as international adviser to Paul Keating. He is the co-author of Making Australian Foreign Policy and the author of Fear of Abandonment. The Australian Oxford Dictionary *Oxford University Press, USA* The ultimate guide to contemporary Australian English, this is a major revision of the most authoritative Australian Dictionary written for all Australians.

Academic Writing for Graduate Students Essential Tasks and Skills : a Course for Nonnative Speakers of English *University of Michigan Press*

ELT A Course for Nonnative Speakers of English. Genre-based approach. Includes units such as graphs and commenting on other data

and research papers. **The Boy in the Striped Pajamas** *David Fickling Books* Two young boys encounter the best and worst of humanity during the Holocaust in this powerful read that USA Today called "as memorable an introduction to the subject as *The Diary of Anne Frank*." Berlin, 1942: When Bruno returns home from school one day, he discovers that his belongings are being packed in crates. His father has received a promotion and the family must move to a new house far, far away, where there is no one to play with and nothing to do. A tall fence stretches as far as the eye can see and cuts him off from the strange people in the distance. But Bruno longs to be an explorer and decides that there must be more to this desolate new place than meets the eye. While exploring his new environment, he meets another boy whose life and circumstances are very different from his own, and their meeting results in a friendship that has devastating consequences.

Divine Domesticities Christian Paradoxes in Asia and the Pacific *ANU Press* **Divine Domesticities: Christian Paradoxes in Asia and the Pacific** fills a huge lacuna in the scholarly literature on missionaries in Asia/Pacific and is transnational history at its finest. Co-edited by two eminent scholars, this multidisciplinary volume, an outgrowth of several conferences/seminars, critically examines various encounters between western missionaries and indigenous women in the Pacific/Asia ... Taken as a whole, this is a thought-provoking and an indispensable reference, not only for students of colonialism/imperialism but also for those of us who have an interest in transnational and gender history in general. The chapters are very clearly written, engaging, and remarkably accessible; the stories are compelling and the research is thorough. The illustrations are equally riveting and the bibliography is extremely useful. —Theodore Jun Yoo, History Department, University of Hawai'i

The editors of this collection of papers have done an excellent job of creating a coherent set of case studies that address the diverse impacts of missionaries and Christianity on 'domesticity', and therefore on the women and children who were assumed to be the rightful inhabitants of that sphere ... The introduction to the volume is beautifully written and sets up the rest of the volume in a comprehensive way. It explains the book's aim to advance theoretical and methodological issues by exploring the role of missionary encounters in the development of modern domesticities; showing the agency of indigenous women in negotiating both change and continuity; and providing a wide range of case studies to show 'breadth and complexity' and the local and national specificities of engagements with both missionaries and modernity. My view is that all three aims are well and truly fulfilled. —Helen Lee, Head, Sociology and Anthropology, La Trobe University, Melbourne

The State as Cultural Practice *OUP Oxford* **The State as Cultural Practice** offers a fully worked out account of the authors' distinctive interpretive approach to political science. It challenges the new institutionalism, probably the most significant present-day strand in both American and British political science. It moves away from such notions as 'bringing the state back in',

'path dependency' and modernist empiricism. Instead, Bevir and Rhodes argue for an anti-foundational analysis, ethnographic and historical methods, and a decentred approach that rejects any essentialist definition of the state and espouses the idea of politics as cultural practice. The book has three aims: · to develop an anti-foundational theory of the state · to develop a new research agenda around the topics of rule, rationalities, and resistance · by exploring empirical shifts and debates about the changing nature of the state to show how anti-foundational theory leads us to see them differently. Bevir and Rhodes argue for the idea of 'the stateless state' or the state as meaning-in-action. So, the state is neither monolithic nor a causal agent. It consists solely of the contingent actions of specific individuals; of diverse beliefs about the public sphere, about authority and power, which are constructed differently in contending traditions. Continuity and change are products of people inheriting traditions and modifying them in response to dilemmas. A decentred approach explores the limits to the state and seeks to develop a more diverse view of state authority and its exercise. In short, political scientists need to bring people back in to the study of the state.
