RACIAL AND ETHNIC DIFFERENCES IN COLLEGE APPLICATION

Access to higher education begins with a student's decision whether and where to apply to college. This paper examines racial and ethnic differences in college application behavior of high school graduates, using two recent graduation cohorts from Texas. We estimate racial and ethnic differences in the probability of applying to college, controlling for a student's college readiness, high school quality, certainty of college admissions, and high school fixed effects. We then investigate racial and ethnic differences in the choice of where to apply. We enhance the typical model of college matching by considering the social setting and high school feeder patterns of state universities. We find that racial and ethnic gaps in application rates, particularly for Hispanic students, are not explained by differential levels of college readiness, high school quality, or information regarding college admission processes. When applying to college, minorities are influenced by more than just matching their academic ability to the institution, and prefer institutions with a large proportion of same race students and campuses where same race students from their high school have been successful in the past.

COLLEGE ESSAY ESSENTIALS

A STEP-BY-STEP GUIDE TO WRITING A SUCCESSFUL COLLEGE ADMISSIONS ESSAY

[Sourcebooks, Inc.](#) Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

SURVIVING THE COLLEGE ADMISSIONS MADNESS

[Kevin Robert Martin](#) Unconventional. Irreverent. Brutal. Entertaining. Unlike any book written about higher education, *Surviving the College Admissions Madness* is a complete takedown of a deeply flawed and thoroughly broken system. Kevin Robert Martin argues that elite universities do not care about their applicants. He observes that college admissions is highly undemocratic and dehumanizing. University bureaucracies alienate applicants from their humanity and sense of self. Reading essay advice books might help you get in, but they won't help you stay sane. Surviving and even thriving depend on digging deep into your beliefs and understanding your behaviors within the broader context of society. This isn't another Admissions 101 "how-to to write a killer essay" book or a promise of "six easy steps" for Ivy League acceptance. Martin provides helpful advice for avoiding application mistakes, building a reasonable college list, minimizing debt, identifying cognitive errors and distortions, and helping applicants reframe their college applications. This book equips readers with the vocabulary, frameworks, and tools to make sense of America's broken higher education system, starting with the admissions gatekeepers. *Admissions Madness* is the first of its kind to integrate applicant psychology with the sociology and economics of higher education. Martin observes that a system of bad incentives in education and society wastes hundreds of millions of hours each admissions cycle. It produces profound suffering for tens of thousands of students each year. He writes for families and high school educators who want a deeper understanding of the truth. Elite college admissions undermines students whether they're privileged or marginalized, rich or poor, black or white, rural or urban, first-time freshman or transfer, and domestic or international. Almost everyone loses, even those who get into their dream schools. Elite universities are neither accountable to nor transparent with the public. Early Decision policies and aggressive recruitment and questionable enrollment management practices monopolize universities' leverage over families' well-being. Power disparities between universities and families explain why the admissions process is so stressful and exasperating. Waitlists, appeals, and deferrals keep students in limbo. Endless essay requirements, recommendations, and interviews benefit the university while wasting applicants' time and making them lose sleep and their sanity. Holistic review corrupts students' interests and high school learning environments. Students and families rarely realize that the system doesn't have to be this way. Application numbers skyrocket while first-year student class sizes remain the same despite COVID-19 virtual learning disruptions. Elite universities claim to care about diversity and college access, yet they are hypocrites. Admission by holistic review has noble origins in the civil rights movement, but nowadays, it serves as a tool for oppression. Holistic review is arbitrary, capricious, and prone to error and bias. Martin proposes admission by partial lottery as one reform among many. American meritocracy is a myth. Rather than vehicles for upward mobility, elite universities squeeze out the middle class and contribute to wealth inequality. Universities prioritize generating revenue over a genuine commitment to diversity and access. Understanding these and other inconvenient truths will help students and families survive the college admissions madness.

WHERE YOU GO IS NOT WHO YOU'LL BE

AN ANTIDOTE TO THE COLLEGE ADMISSIONS MANIA

[Grand Central Publishing](#) Read award-winning journalist Frank Bruni's New York Times bestseller: an inspiring manifesto about everything wrong with today's frenzied college admissions process and how to make the most of your college years. Over the last few decades, Americans have turned college admissions into a terrifying and occasionally devastating process, preceded by test prep, tutors, all sorts of stratagems, all kinds of rankings, and a conviction among too many young people that their futures will be determined and their worth established by which schools say yes and which say no. In *Where You Go is Not Who You'll Be*, Frank Bruni explains why this mindset is wrong, giving students and their parents a new perspective on this brutal, deeply flawed competition and a path out of the anxiety that it provokes. Bruni, a bestselling author and a columnist for the New York Times, shows that the Ivy League has no monopoly on corner offices, governors' mansions, or the most prestigious academic and scientific grants. Through statistics, surveys, and the stories of hugely successful people, he demonstrates that many kinds of colleges serve as ideal springboards. And he illuminates how to make the most of them. What matters in the end are students' efforts in and out of the classroom, not the name on their diploma. Where you go isn't who you'll be. Americans need to hear that--and this indispensable manifesto says it with eloquence and respect for the real promise of higher education.

MEXICAN LAW IN TEXAS COURTS AND THE ROLE OF JUDICIAL INTERACTION

This thesis explores issue of whether Texas courts are currently capable of applying and willing to apply Mexican law. Texas courts and legal practitioners have historically been unwilling to trust or to apply Mexican law. This thesis explores the doctrines and legal rules that Texas courts have used to avoid Mexican law in the past and into the present. It then examines the few cases in which Texas courts have applied Mexican law to determine that even when applying Mexican law, the courts express uncertainty or an unwillingness to rely entirely on Mexican law. This thesis then describes recent reforms to the Mexican judiciary that should obviate some of Texas courts' major concerns. However, Texas courts still do not willingly or comfortably apply Mexican law. This thesis concludes by suggesting that the comparative law doctrine of judicial dialogue, or communication among judges, offers the best chance for Texas judges to trust Mexican law enough to apply it. The paper ends with some proposals to implement this exchange.
