A Different Sea Random House Early this century Enrico, a young intellectual, leaves the city of Gorizia with its abundant population and culture, to spend several years living on the Patagonian pampas, alone with his ancient Greek texts, his flocks and, every now and then, a woman. He has been taught by his closest friend, Carlo, a philosopher/poet who commits suicide in his early twenties, to search for an authentic life, free of social falsehoods. But in his search for this unattainable goal, Enrico destroys every chance he has of a normal existence. This is portrait of a world in ferment, a decaying empire shaken by war and revolution, and a life-long search for meaning.

The Story of Tönle Northwestern University Press Mario Rigoni Stern was born in 1921 in Asiago, in the mountains of northeastern Italy. Throughout his literary career, he has remained deeply attached to the region of his birth, its peasant customs, its dialect, its seasonal cycles and shifting historical fortunes. Tonle Bintarn's story takes place in the mountains of the Veneto region, which once bordered the Austro-Hungarian Empire and where smuggling was a means of subsistence for the peasant population. Having run afoul of a patrol of revenue agents, Tonle must seek refuge beyond the frontier in Central Europe, where year after year he lives by doing odd jobs and working, among other things, as an itinerant print peddler, a horse trainer in Hungary, and a gardener in a Prague castle. But every winter he returns secretly to his home and family, until finally a pardon is granted. By now his children are grown and he has little to do but tend his sheep. Meanwhile, the times are changing, social values are disintegrating under the impact of modernization, and Europe moves ever closer to disaster. During the devastation of the First World War, the occupation and ultimate destruction of his village, and his own internment in an Austrian camp, it is Tonle's loyalty to his roots and his stubborn devotion to his task as a shepherd that persist and make him a quiet symbol of heroism and human endurance.

Elettricismo artificiale Haiku for a Season / Haiku per una stagione University of Chicago Press

Andrea Zanzotto is one of the most important and acclaimed poets of postwar Italy. This collection of ninety-one pseudo-haiku in English and Italian—written over several months during 1984 and then revised slowly over the years—confirms his commitment to experimentation throughout his life. *Haiku for a Season* represents a multilevel experiment for Zanzotto: first, to compose poetry bilingually; and second, to write in a form foreign to Western poetry. The volume traces the life of a woman from youth to adulthood, using the seasons and the varying landscape as a mirror to reflect her growth and changing attitudes and perceptions. With a lifelong interest in the intersections of nature and culture, Zanzotto displays here his usual precise and surprising sense of the living world. These never-before-published original poems in English appear alongside their Italian versions—not strict translations but parallel texts that can be read separately or in conjunction with the originals. As a sequence of interlinked poems, *Haiku for a Season* reveals Zanzotto also as a master poet of minimalism. Zanzotto's recent death is a blow to world poetry, and the publication of this book, the last that he approved in manuscript, will be an event in both the United States and in Italy.

Introduction to Anticipation Studies Springer

This book presents the theory of anticipation, and establishes anticipation of the future as a legitimate topic of research. It examines anticipatory behavior, i.e. a behavior that 'uses' the future in its actual decisional process. The book shows that anticipation violates neither the ontological order of time nor causation. It explores the question of how different kinds of systems anticipate, and examines the risks and uses of such anticipatory practices. The book first summarizes the research on anticipation conducted within a range of different disciplines, and describes the connection between the anticipatory point of view and futures studies. Following that, its chapters on *Wholes, Time and Emergence*, make explicit the ontological framework within which anticipation finds its place. It then goes on to discuss *Systems, Complexity, and the Modeling Relation*, and provides the scientific background supporting anticipation. It restricts formal technicalities to one chapter, and presents those technicalities twice, in formal and plain words to advance understanding. The final

chapter shows that all the threads presented in the previous chapters naturally converge toward what has come to be called “Discipline of Anticipation” Raymond Duchamp-Villon, 1876-1918 Giacomo's Seasons Autumn Hill Books "A small community of the plateau of Asiago worn out by the Great War: rubble everywhere, poverty, unemployment. After Babel Aspects of Language and Translation Open Road Media “A brilliant work . . . A dazzling meditation on the very nature of language itself” from the world-renowned scholar and author of The Poetry of Thought (Kirkus Reviews). In his classic work, literary critic and scholar George Steiner tackles what he considers the Babel “problem”: Why, over the course of history, have humans developed thousands of different languages when the social, material, and economic advantages of a single tongue are obvious? Steiner argues that different cultures’ desires for privacy and exclusivity led to each developing its own language. Translation, he believes, is at the very heart of human communication, and thus at the heart of human nature. From our everyday perception of the world around us, to creativity and the uninhibited imagination, to the often inexplicable poignancy of poetry, we are constantly translating—even from our native language. The Small Utopia Ars Multiplicata Progetto Prada Arte Srl "In addition to a text by the curator, the volume contains essays by scholars, theorists and artists that take a historical, critical, philosophical and sociological look at the theme of multiplication in art through a variety of languages and media: magazines, books, radio, film, design, fashion, performance and editions of artists' originals and multiples, over a period that stretches from the historical Avant-Garde to the 1970s"--P. Italo Calvino, novelist, literary critic and editor, was also a masterful letter writer whose correspondents included Umberto Eco, Primo Levi, Gore Vidal and Pier Paolo Pasolini. literature in general, as well as giving glimpses of Calvino's role in the antifascist Resistance, his disenchantment with Communism and his travels to America and Cuba. Together they reveal the searching intellect, clarity and passionate commitment of a great writer at work. Michael Wood and Martin McLaughlin have done Calvino, and us, a great and loving service.' John Banville 'A charming addition to the Planet Calvino - a place cluttered with sphinxes, chimeras, knights, spaceships and viscounts both cloven and whole' Guardian

Deliver Us Northwestern University Press Originally published in 1963, and today considered a landmark in twentieth century Italian literature, Luigi Meneghello's *Deliver Us* is the memoir, not of an extraordinary childhood, but of the very ordinary one the author shared with most of his generation, when Italy was a rural country under the twin authorities of Church and Fascism. His boyhood begins in 1922, the year of Mussolini's March on Rome, and ends when Meneghello, 21, goes up into the hills to join the partisans. Called a *romanzo*—a story, although not a novel, as that term usually suggests—the book is a genre all of its own that mixes personal and collective memory, amateur ethnography, and reflections on language. Meneghello's sharp insights and narrative skill come together in an original meditation on how words, people, places, and things shape thought itself. Only loosely chronological, *Deliver Us* proceeds by themes—childhood games, Fascist symbols, religious precepts, and the rites of poverty, of death, of eros, and of love. Meneghello's ironic musings and profoundly honest recollections make an utterly un sentimental human comedy of that was the whole world to his dawning consciousness. On Nietzsche A&C Black Georges Bataille (1897-1962) was an essayist, poet, novelist and philosopher of excess. His philosophy emerges from the aesthetic avant-garde of the 1920s and 30s, when he

was associated with the surrealist movement, and has since been explored by the major figures of poststructuralism and postmodernism. His classic works include *The Story of the Eye* and *The Accursed Share*. *On Nietzsche* takes up Nietzschean thought where Nietzsche left off - with the *Death of God*. Written against the backdrop of Germany under the Third Reich, the book explores the possibility of a spiritual life outside religion. In so doing it weaves an astonishing tapestry of confession, theology, philosophy, myth and eroticism - all shot through with the images of war.
