### **LIFE AFTER THE READING RAILROAD**

---

Indiana University Press What happened when the US government stopped investing in railroads and started investing in highways and air travel? By the late 1970s, six major eastern railroads had declared bankruptcy. Although he didn't like trains, Howard H. Lewis became the primary lawyer for the Reading Railroad during its legendary bankruptcy case. Here, Lewis provides a frank account of the high-intensity litigation and courtroom battles over the US government's proposal to form Conrail out of the six bankrupt railroads, which meant taking the Reading's property, leaving the railroad to prove its worth. After five grueling years, the case was ultimately settled for \$186 million—three times the original offer from the US government—and Lewis became known as a champion defender of both the railroad industry and its assets.

**ALTERNATIVES TO BANKRUPTCY AND FORECLOSURE**

---

Wolters Kluwer Structuring Commercial Real Estate Workouts: Alternatives to Bankruptcy and Foreclosure, Second Edition presents a concise introduction to the legal and business considerations involved in real estate loan workouts. It is designed to aid lenders, borrowers and their legal counsel in confronting the variety of issues encountered in working out an acceptable solution to the dilemma posed by a loan in default. The parties associated with a defaulting loan face a number of potential pitfalls, ranging from imminent insolvency of the borrower (and the diminution in value or loss of a lender's security interest) to draconian penalties incurred through liability for environmental hazards present on the property. Structuring Commercial Real Estate Workouts introduces the varied issues, discusses the limitations and advantages of foreclosure and other remedies, and presents suggestions for guiding potential alternative courses of action. The Second Edition features extensive coverage of environmental liabilities that may arise under federal statutes and regulations such as RCRA and CERCLA and how lenders can avoid or minimize these liabilities. A new chapter has been added on the state mini-RCRAs and CERCLAs, necessitated by the growing importance of state environmental laws to real estate financing. A detailed discussion is presented on the laws and programs that have been developed to minimize lender liability at "brownfields" sites in urban areas. Excellent coverage is provided for such key areas as prepackaged plans,

single asset real estate cases, cash collateral and adequate protection, deeds in lieu of foreclosure and dealing with guarantors and other sureties.

## **CREDIT SUPPLY TO PERSONAL BANKRUPTCY FILERS**

---

---

### **EVIDENCE FROM CREDIT CARD MAILINGS**

---

**DIANE Publishing** Are consumers who have filed for personal bankruptcy before excluded from the unsecured credit market? Using a unique data set of credit card mailings, the authors directly explore the supply of unsecured credit to consumers with the most conspicuous default risk those with a bankruptcy history. On average, over one-fifth of personal bankruptcy filers receive at least one offer in a given month, with the likelihood being even higher for those who filed for bankruptcy within the previous two years. However, offers to bankruptcy filers carry substantially less favorable terms than those to comparable consumers without a bankruptcy history, with higher interest rates, lower credit limits, a greater likelihood of having an annual fee, and a smaller likelihood of having rewards or promotions. In addition, this analysis of credit terms typically disclosed only in the fine print suggests that offers to filers tend to include more "hidden" costs. Tables. This is a print on demand report.

### **A FEAST FOR LAWYERS**

---

Beard Books Described by the Chicago Tribune as a "latter-day version of Dickens' Bleak House," Bankruptcy: A Feast for Lawyers is a shattering indictment of bankruptcy law by a CEO who lived through the experience of Chapter 11. Author Sol Stein exposes a system that is supposed to provide an opportunity for troubled companies to reorganize, but kills more than 70% of the businesses that take refuge in it while enriching legions of lawyers. In the nightmare world of Chapter 11, the gainers are seldom the creditors or the debtor company, but rather the bankruptcy bar, impeached in this book by their own conduct and the condemnation of their ethical brethren. Besides his own experience, the author draws examples from diverse industries -- trucking, food, real estate, oil, and publishing.

**THE RECONSTRUCTION OF SOUTHERN DEBTORS**

---

**BANKRUPTCY AFTER THE CIVIL WAR**

---

University of Georgia Press Based on a careful empirical study of nearly four thousand cases filed in three southern federal districts, this book focuses on how the Bankruptcy Act of 1867 helped shape the course and outcome of Reconstruction. Although passed by a Republican-dominated Congress that was commonly viewed as punitive toward the post-Civil War South, the Bankruptcy Act was a great benefit to southerners. In this first study of the operation of the 1867 Act, Elizabeth Lee Thompson challenges previous works, which maintain that nineteenth-century southerners uniformly opposed federal bankruptcy laws as threatening extensions of federal power. To the contrary, Thompson finds that southerners, faced with the war's devastation, were more likely to file for bankruptcy than debtors in other parts of the country. The Act thus was the major piece of federal economic legislation that benefited southerners during Reconstruction. Thompson determines that because the vast majority of the Bankruptcy Act's southern beneficiaries were propertied white men, the legislation served to stabilize and entrench the postwar economic--and thus social and political--power of the sector that included those who were recently leading secessionists and Confederates. Their participation in a federal process, through federal tribunals, during an era of intense white

southern opposition to policies emanating from Washington reveals the complex interaction of states' rights ideology and self-interest. However, Thompson shows, white southerners ultimately sacrificed neither in relation to the Bankruptcy Act. After thousands had received economic relief through the statute and the number of filings had slowed to a trickle, southern congressmen supported the Act's repeal in 1878.
