BECOMING AN EFFECTIVE SUPERVISOR

A WORKBOOK FOR COUNSELORS AND PSYCHOTHERAPISTS

Routledge **A practical, hands-on workbook, Becoming an Effective Supervisor neatly fills the gap in supervision resources available to mental health practitioners. The workbook is designed to help clinical counselors and therapists create effective supervision programs of their own, and to address the individual needs of their students. The leading contemporary models of supervision are discussed, as well as the necessary components of a successful supervision curriculum. A framework is then provided for counselors and therapists to develop a personalized and highly effective supervisory style to implement with their own students. The unique exploration exercises in each chapter allow readers to actively integrate the information provided, and to apply these lessons and skills to their own supervisory experiences. Students too will benefit from her concise examination of the theories, applications, and goals of the supervision process. Along with a discussion of the ethical, legal, and multicultural issues faced by clinical supervisors, practical analyses and applications ensure that this book will be a valued addition to any clinical counseling or therapy library.**

BEST PRACTICE IN RESEARCH STUDENT SUPERVISION

McGraw-Hill Education (UK) **This is a practical guide aimed at supervisors of research students. It is written in a lively case study style and is designed to appeal to supervisors who need a quick fix, and who have neither the time nor the inclination to read a more detailed, in depth book on the subject such as Supervising the Doctorate. There is a growing need for such a volume as the QAA postgraduate code of practice in the UK indicates that all new doctoral supervisors must be trained appropriately. This book will be very suitable for such training courses. The authors both come from a medical background so the book is likely to be particularly well recieved within scientific and medical departments.**

BECOMING THE SUPERVISOR

ACHIEVING YOUR COMPANY'S MISSION AND BUILDING YOUR TEAM

CRC Press **Becoming a Supervisor** tells the story of Trevor who works as one of the production team in a small company that makes toy boats. He is thrust into the role of supervisor unexpectedly when his general manager reacts to his constant suggestions of how things could be better. When the GM becomes ill, Trevor struggles to take up the slack for several months until a new GM arrives. The core of the book follows Trevor's growth under the coaching of Julie, his new GM. As Trevor deals with one challenge after another, Julie guides him on a journey to learn the core skills needed by all front-line leaders. The reader takes away four key ideas: (1) Front-line leadership skills are not too complicated to learn. (2) These skills are something that they can develop in themselves, regardless of what their organization does. (3) Tools and skills are there to help solve real business problems; implementing the tools is not a strategy. (4) In your role as supervisor (directing or responsible for others) you have to look after the mission of the company AND look after your people - doing only one is not an option. Essentially, this book is intended to give hope to a new supervisor or team lead. They will finish the book knowing that the skills they need can be learned and aren't that difficult to acquire. It is designed to introduce the central skills that any supervisor has to be able to master at least with a basic working competency: instructing, leading, and making improvements in their own area. It introduces some of the more widely used tools that a new supervisor may need. More importantly, it ties these tools and skills to solving particular problems. Readers will understand that the tools are not important for their own sake, but only to the extent that the tools serve the larger objective of the organization. This book is designed to give the reader an entertaining and hopeful story about the very difficult transition from worker to supervisor, from being one of the crew to directing the crew. It is an emotionally tough transition, and the idea that someone could see a model of how it can work out will be helpful to folks new in a leadership role. Finally, the book provides a reference to other sources of information that will let the reader extend their learning about each of the tools or skills referenced in the contents.

A CONTEMPORARY APPROACH TO CLINICAL SUPERVISION

THE SUPERVISEE PERSPECTIVE

Routledge The most critical and influential relationship affecting one's growth as a mental health professional is the relationship between the clinician and the supervisor. Good supervisors breed good therapists. This book goes beyond facts and figures to provide an innovative perspective on the supervision process. Through contributions by seven supervisees and the supervisor they all shared, readers are offered a rare glimpse into what takes place during the supervision hour. This book not only offers insight into the elements integral to effective supervision, but also teaches about the supervisory relationship. With contributors from various disciplines, theoretical orientations, and cultures, it shows how the supervisee and supervisor are able to navigate these differences while still gaining the most from supervision. Topics that are covered include cultural competence in multicultural supervision and remote supervision when it is conducted between clinicians in different countries, as well as an original study by the authors on the experiences of supervisees during the global Covid-19 pandemic and the transition to remote supervision. For mental health professionals who are training to be supervisors or experienced supervisors looking to improve their skills, this book will serve as an invaluable resource for professional development.

CLINICAL SUPERVISION ACTIVITIES FOR INCREASING COMPETENCE AND SELF-AWARENESS

John Wiley & Sons Cultivate self-awareness, empathy, and clinical competence in the mental health professionals you supervise Providing tested guidance for clinical supervisors of mental health professionals, editors Roy A. Bean, Sean D. Davis, and Maureen P. Davey draw from their own backgrounds in training, private practice, and academe, as well as from an international panel of experts representing various mental health fields to provide activities and best practices that allow therapists to better serve an increasingly diverse set of clients and issues. While clinical skills are easily observed, the more subtle areas of self-awareness, or exploring unexamined judgments are more difficult to spot and to provide supervision and guidance for. The numerous experiential activities included will help supervisors and the mental health professional they supervise develop their skills and techniques around: Intuition Empathy Self-awareness Mindfulness Multicultural awareness Perspective taking The book covers both clinical as well as diversity-focused competence and awareness, and suggests various forms of activities, including research exercises, reflection, journaling, and more. Each activity includes measurement metrics as well as additional resources that help clinicians identify the best activity for a given situation. Appropriate for clinicians at every level and from a multitude of backgrounds, these tried and tested best practices can be used in clinical supervision, as a class assignment, or to facilitate professional growth.

PRACTICAL CLINICAL SUPERVISION FOR PSYCHOTHERAPISTS

A SELF AND RELATIONAL APPROACH

A clinical supervisor plays a key role in the development of an individual who aspires to become an autonomous and independent practicing psychotherapist. Having a graduate degree in psychotherapy or psychology does not necessarily provide the qualifications for one to become a supervisor. There is much to be learned to become an effective supervisor. Being a supervisor takes on characteristics of art and science as there are many twists and turns in helping an individual move through theoretical, ethical, legal and relational issues. It is essential that the supervisor be well versed in these issues and be creative and flexible in responding to the unique needs and personality of each supervisee. This book provides the essential information for clinical supervisors to begin to provide supervision to aspiring psychotherapists. The book addresses in a special way conditions that enliven the supervision experience, goals and functions of supervision, models of supervision, ethical and legal issues, methods and techniques available to the supervisor, evaluation types and criteria, professional development, self-reflectivity and the parallel process. Although supervision is defined as being evaluative, hierarchical and continuous, the focus is on building a relationship with the supervisee so as to develop a climate conducive to growth on all dimensions. A unique characteristic of the book is that it presents a supervision model with three foci, namely, client focused, client-therapist focused and therapist-supervisor focused supervision. It demonstrates these three foci by the use of transcripts from role played supervision sessions. The demonstrations provide the reader an opportunity to study the transcripts in detail and to use them as a model for self-development as a supervisor. In brief, the book provides information and at the same time offers the challenge for the formation of oneself as a supervisor.

THE STRENGTH-BASED CLINICAL SUPERVISION WORKBOOK

A COMPLETE GUIDE FOR MENTAL HEALTH TRAINEES AND SUPERVISORS

Taylor & Francis Supervision is the cornerstone of clinical training across all types of mental health providers. It facilitates the growth of mental health trainees and maintains the integrity of the field of mental health services by ensuring the competency of clinicians. However, the process can be complex and potentially confusing for both supervisors and trainees at any stage of their development or post-licensure career. Utilizing strength-based approaches is crucial to the success of supervision. This workbook facilitates a collaborative and strength-based approach to clinical supervision that both supervisors and trainees can use during the entire course of supervision, or for specific goals related to supervision. Each chapter of this workbook contains information and activities specific to both the trainee and supervisor to facilitate dialogue about individual and combined strengths, areas for growth, and goals for collaborative work. This is an essential start-to-finish guide addressing the entire supervision process, from preparing for the first session to conducting the last session, and everything in between.

EFFECTIVE POLICE SUPERVISION STUDY GUIDE

PSYCHOTHERAPY SUPERVISION

McGraw-Hill Education (UK) "...Maria Gilbert and Ken Evans have given us a beautifully written and richly illustrated account of psychotherapy supervision...Providing clear guidelines for effective clinical supervision, the book describes and vividly illustrates how the supervisor monitors, instructs, models, consults and supports the supervisee, all within the context of respect and empathy." - Marvin R. Goldfried, Ph.D. State University of New York at Stony Brook, Stony Brook, New York, USA "...Don't read this book if you have a well-worked-out, pre-determined model of supervision that you don't want to change...it will only disturb, distract and challenge you. If you would like to review your model of

supervision, on the other hand, update it in the light of modern scholarship and insights, open it to 'manufactured uncertainty' so as to adapt it to the contemporary issues of the day, then it's a 'must' for you. It's a book of tomorrow in the light of the best of yesterday and indisputably for today." - Michael Carroll, Ph.D. Chartered Counselling Psychologist and BAC Fellow "...Gilbert and Evans' book is sure to become a key text in the area of psychotherapy supervision from an integrative perspective...the authors reveal an extensive knowledge of the work of other experts in the field and a deep understanding of how this knowledge may be translated into practice...Gilbert and Evans draw much needed attention to the often neglected aspect of the contexts within which supervision takes place. Their focus on the multi-cultural aspects of supervision and their advocacy for anti-oppressive practices is of note...very accessible and highly recommended to beginning supervisees and seasoned supervisors alike. This book will make a substantial contribution to the field for a long time to come." - Gillian Straker, Professor of Psychology at the University of Sydney

What are the primary goals of clinical supervision ? What is the basis for ethical decision making in supervision ? How can anti-oppressive practice be embedded in the training of supervisors ? This book presents an integrative relational model for psychotherapy supervision. The focus is on the primacy of the relationship both in psychotherapy and in supervision. This is one of the few books in the field of supervision to focus exclusively and in-depth on issues in clinical supervision. It provides an integrative relational model of supervision drawing on developmental theory that is applicable to the fields of psychotherapy, counselling, and clinical and counselling psychology. The authors believe that this integrative framework for supervision will be of use to supervisors of 'pure-form' approaches as well as to those supervisors involved in cross-orientation supervision since its main focus is on the quality of the supervisory alliance. Psychotherapy Supervision contains a balance of theoretical material, examples of in vivo supervision and a discussion of techniques. The book presents some interesting and innovative material on ethical decision making and on anti-oppressive practice in training organisations. The authors illustrate their material with frequent examples of supervision from their own practice to show the reader the model in action. The book is aimed at supervisors of counsellors, psychotherapists and psychologists at all levels.

IDENTITY-CONSCIOUS SUPERVISION IN STUDENT AFFAIRS

BUILDING RELATIONSHIPS AND TRANSFORMING SYSTEMS

Routledge This guide offers current and future student affairs practitioners a new conceptual framework for identity-conscious and intersectional supervision. Presenting an original and transformative model to address day-to-day challenges, this book gives practitioners a strategic approach to engage in self-work, identity exploration, relationship building, consciousness raising, trust development, and organizational change, ultimately helping them become more adept at supervising people from a range of backgrounds and experiences. Chapters include theoretical underpinnings, practical tips, case studies, and discussion questions to explore strategies in real-life contexts. Identity-Conscious Supervision in Student Affairs is a key tool for student affairs practitioners to effectively change systems of dominance and inequity on their campuses.

THE SCHOOL PSYCHOLOGY SUPERVISOR'S TOOLKIT

Routledge The School Psychology Supervisor's Toolkit provides accessible, adaptable strategies for supervising school psychologists at all points in the career span, from internship to advanced practice. The book covers a full range of key considerations for effective supervision, such as building strong working relationships, planning the supervision experience, providing constructive feedback, and addressing problems of professional competence. Features such as definitions of key terms, photocopiable handouts, tips for culturally responsive practice, and real-life case examples make this a rich and easily applied resource.

THE CONTEMPORARY RELATIONAL SUPERVISOR 2ND EDITION

Routledge The Contemporary Relational Supervisor, 2nd edition, is an empirically based, academically sophisticated, and learner-friendly text on the cutting edge of couple and family therapy supervision. This extensively revised second edition provides emerging supervisors with the conceptual and pragmatic tools to engage a new wave of therapists, helping them move forward together into a world of highly systemic, empirically derived, relational, developmental, and integrative supervision and clinical practice. The authors discuss major supervision models and approaches, evaluation, ethical and legal issues, and therapist development. They present methods that help tailor and extend supervision practices to meet the clinical, institutional, economic, and cultural realities that CFT therapists navigate. Filled with discussions and exercises to engage readers throughout, as well as updates surrounding telehealth and social justice, this practical text helps emerging therapists feel more grounded in their knowledge and develop their own personal voice. The book is intended for developing and experienced clinicians and supervisors intent on acquiring up-to-date and forward-looking, systemic, CFT supervisory mastery.

STRENGTHS-BASED SUPERVISION IN CLINICAL PRACTICE

SAGE Publications Moving away from the usual medical-modeled framework of mental health focused on problems, **Strengths-Based Supervision in Clinical Practice** by Jeffrey K. Edwards takes a postmodern, social construction approach, looking for and amplifying strengths and encouraging stakeholders to use them. Based on research in brain science, as well as from the Information Age/Connectivity Age thinking, the book reframes the focus of supervision, management, and leadership to one that collaborates and builds on strengths with supervisees as competent stakeholders in their work with their clients.

THE NEW HANDBOOK OF COUNSELING SUPERVISION

Routledge The second edition of this ground-breaking book continues the mission of its predecessor: to provide a "best principles" and "best practices" overview of the counseling supervision process, one that is firmly rooted in the recent explosion of empirical research in this field. Sponsored by the Association for Counselor Education and Supervision (ACES), the presentation is targeted primarily at master's-level practitioners who want "how-to" applications of the research literature (with examples) rather than a comprehensive review of the supervision literature. Like the first edition, this revised book is also a useful supplement for more academic texts used for doctoral-level instruction in counseling supervision. Key changes in this new edition include greater attention to multicultural and diversity issues and new chapters on group supervision and on technology. Also new are discussion questions and vignettes meant to enhance application of key concepts in each chapter as well as more sample materials and forms for practice.
