Business Law I Essentials A less-expensive grayscale paperback version is available. Search for ISBN 9781680923018. **Business Law I Essentials** is a brief introductory textbook designed to meet the scope and sequence requirements of courses on Business Law or the Legal Environment of Business. The concepts are presented in a streamlined manner, and cover the key concepts necessary to establish a strong foundation in the subject. The textbook follows a traditional approach to the study of business law. Each chapter contains learning objectives, explanatory narrative and concepts, references for further reading, and end-of-chapter questions. **Business Law I Essentials** may need to be supplemented with additional content, cases, or related materials, and is offered as a foundational resource that focuses on the baseline concepts, issues, and approaches. **Dynamic Business Law McGraw-Hill/Irwin** 3 things to know about the focus of **Dynamic Business Law, 2e: Emphasis on ETHICAL DECISION-MAKING**. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. **Emphasis on CRITICAL THINKING**. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in **Dynamic Business Law** as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. **Emphasis on the BUSINESS in business law**. **Dynamic Business Law** emphasises the tie of legal issues back to the core business curriculum. This will help both students and faculty. Students need to understand how the concepts they learn in this course tie into their business careers. Instructors can easily show that the study of business law is best seen as a foundational component of the larger study of business administration. **Dynamic Business Law** now includes **Connect Business Law** as a packaging option. **Connect** includes Interactive Applications for each chapter of the textbook and helps students apply legal concepts to business, stimulates critical thinking, and reinforces key topics. **Overview: Dynamic Business Law, 2e** is appropriate for the two-term business law course. **Emphasis on the BUSINESS in business law**. **Dynamic Business Law** emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly "defending" the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. **Emphasis on TEACHING**. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. **Dynamic Business Law** contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. **Emphasis on CRITICAL THINKING**. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in **Dynamic Business Law** as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. **Instructor's Supplements: The Online Learning Center** contains the complete IM, Test Bank, PowerPoint, image library, and video clips. **Instructor's Manual: The Instructor's Manual** provides a clear outline of how to begin using this text and is especially helpful to adjuncts who teach Business Law. Sample syllabi are included, as well as detailed lecture outlines incorporating PowerPoints and other materials professors can bring into their lectures. Exciting and new examples from outside the text are also included, and can be discussed in class to help generate excitement and involvement in the course from students. **Test Bank: The Test Bank**, developed by Vonda Laughlin of Carson-Newman College, contains a variety of true/false, multiple choice, and essay questions - as well as "scenario-based" questions, which are application-based, and use a situation described in a narrative, with 3 - 5 multiple-choice test questions based on the situation described in the narrative. We've aligned our Test Bank with the new AACSB guidelines, tagging each question according to its knowledge and skills areas. Categories include Global, Ethics and Social Responsibility, legal and other External Environment, communication, Diversity, Group Dynamics, Individual Dynamics, Production and IT. Designations aligning questions with Learning Objectives, features, and case, exist as well. **PowerPoint Presentation slides: Developed by Jeff Penley at Catawba Valley Community College**, we offer two different sets of slides for professors. The "Basic" set consists of an outline of each chapter. The "Premium" set expands on this outline to include hypotheticals and ethical dilemmas, allowing the instructor to incorporate application into the lecture. **Instructor Video DVD (ISBN: 0077339118,**

13-digit: 9780077339111): The Instructor Video DVD contains video clips from CBS that highlight current legal issues. Instructor Notes, located on the OLC, give insight into how to incorporate segments into the classroom and offer questions to stimulate discussion. Most of these videos are also part of Premium content - a big plus for instructors teaching online/hybrid courses. To that end, we place heavy emphasis on analysis. We consider the questions we ask more important than the answers to those questions. We introduce the student to existing policy in the various substantive areas to encourage understanding and retention, as well as careful thought about the desirability of those policies. Our book takes a strong public policy orientation. Attention in Unit I to political economy and ethics is a necessary foundation on which the student can build a logical understanding of the regulatory process. Thereafter, those business and society themes persist throughout the book. In virtually every chapter, we look beyond the law itself to other social and environmental forces. For example, in the antitrust chapters, economic philosophy is of great importance. Antitrust is explored as a matter of national social policy. We argue that antitrust has a good deal to do with the direction of American life generally. Law is at the heart of the fair employment practices section, but we also present material from management, sociology, history, and popular culture to treat fair employment as an issue of public policy rather than as a series of narrower technical legal disputes. The law is studied in the economic, social, and political context from which it springs. These multidimensional approaches characterize most chapters as we attempt to examine the various topics as a whole and in context. At the same time, the law remains the core of the book. Broadly, our adjustments for this twelfth edition were designed to refresh the book and achieve increased reader interest, but more specifically this edition is directed to the nation's ongoing debate about how much government we need in our lives, particularly in our business lives. International issues also receive extensive attention, as well as critics of business values and the American legal system. Although the general structure and philosophy of the book are unchanged, we have made significant revisions including many new questions and several new law cases. Law cases are long enough to clearly express the essence of the decision while challenging the reader's intellect"-- **Business Law Today, Standard: Text & Summarized Cases** [Cengage Learning](#) Gain a clear understanding of business law and how it impacts today's business world - whether you're pursuing a corporate career or entrepreneurial opportunities.
