## Pioneer Women

Simon and Schuster From a rediscovered collection of autobiographical accounts written by hundreds of Kansas pioneer women in the early twentieth century, Joanna Stratton has created a collection hailed by Newsweek as "uncommonly interesting" and "a remarkable distillation of primary sources." Never before has there been such a detailed record of women's courage, such a living portrait of the women who civilized the American frontier. Here are their stories: wilderness mothers, schoolmarms, Indian squaws, immigrants, homesteaders, and circuit riders. Their personal recollections of prairie fires, locust plagues, cowboy shootouts, Indian raids, and blizzards on the plains vividly reveal the drama, danger and excitement of the pioneer experience. These were women of relentless determination, whose tenacity helped them to conquer loneliness and privation. Their work was the work of survival, it demanded as much from them as from their men—and at last that partnership has been recognized. "These voices are haunting" (The New York Times Book Review), and they reveal the special heroism and industriousness of pioneer women as never before.

# Tales From The Seaside

**Xlibris Corporation** These tales from the author's life experiences are mostly light-hearted but they all true. They start with Nellie the dinghy who eventually became the long, red, sleek speedboat named The Phantom. Some of the tales also involve the caravan that the author's father bought when Borry was thirteen years old. The family spent almost every weekend from March to October at St. Lawrence Bay in the wilds and farmlands of Essex, by the River Blackwater with recurring battles against screaming winkles, the bog of eternal stench and the evil mud sucking monster. Fun and frolics ensued for over forty-eight years.

## Scroll of Naska

### Sojourn in Egypt

**Xlibris Corporation** Nearing death, Old Testament patriarch Jacob extracts a promise from Naska, a Midianite trader from Damascus, to create a written record of his life among the Hebrews and of his friendship with Jacob's son, Joseph. Naska complies, dictating this prebiblical text to three Sumerian scribes. What unfolds is an extraordinarily revealing novel of life in biblical times, written more than a thousand years before the Bible was put to parchment. Sojourn in Egypt begins five years after Naska and Joseph first meet, an inauspicious meeting by any standard: Naska purchased the boy when his brothers sold him into slavery, banishing from them Jacob's favorite son. Despite the inequality of their stations, the two men develop a mutual respect and become fast friends. In Luxor, where Naska is building a massive farm on Temple lands, he and Joseph face a series of challenges and temptations that will test their faith and their friendship. Naska, lonely over his estrangement from his family, relies on his relationships with Joseph, Rufi, and with Marn, his estranged former lover, to sustain him. Joseph, the slave, concedes his life to God, trusting that he has been sent on a special mission. The Scroll was unearthed in Iraq (ancient Sumer) during Operation Desert Storm. Sent to Oxford University in England for translation, it became an instant sensation when published, but created a firestorm of controversy as new information arose from unlikely places. Narrated by Naska, Sojourn in Egypt breathes new life into a well-worn tale, revealing Joseph as an intriguing and dynamic character. Novelist Martin Shapiro has woven a captivating story of romance, love, jealousy, greed, anger, revenge, and murder. Readers will be drawn deep into the lives of Shapiro's characters, first in Sojourn in Egypt, later in sequels Caravan to Luxor and Joseph Reigns. Naska's tale is a true epic, an ancient story in which contemporary readers will face the timeless truth of the human heart and experience.

**Harper Collins** "My heart is afraid that it will have to suffer," the boy told the alchemist one night as they looked up at the moonless sky." Tell your heart that the fear of suffering is worse than the suffering itself. And that no heart has ever suffered when it goes in search of its dreams." Every few decades a book is published that changes the lives of its readers forever. *The Alchemist* is such a book. ## Fruit from the Sands

# The Silk Road Origins of the Foods We Eat

**University of California Press** "A comprehensive and entertaining historical and botanical review, providing an enjoyable and cognitive read."—*Nature* The foods we eat have a deep and often surprising past. From almonds and apples to tea and rice, many foods that we consume today have histories that can be traced out of prehistoric Central Asia along the tracks of the Silk Road to kitchens in Europe, America, China, and elsewhere in East Asia. The exchange of goods, ideas, cultural practices, and genes along these ancient routes extends back five thousand years, and organized trade along the Silk Road dates to at least Han Dynasty China in the second century BC. Balancing a broad array of archaeological, botanical, and historical evidence, *Fruit from the Sands* presents the fascinating story of the origins and spread of agriculture across Inner Asia and into Europe and East Asia. Through the preserved remains of plants found in archaeological sites, Robert N. Spengler III identifies the regions where our most familiar crops were domesticated and follows their routes as people carried them around the world. With vivid examples, *Fruit from the Sands* explores how

the foods we eat have shaped the course of human history and transformed cuisines all over the globe.

# Migrant Protection and the City in the Americas

**Springer Nature** This book aims to establish a dialogue around the various “urban sanctuary” policies and other formal or informal practices of hospitality toward migrants that have emerged or been strengthened in cities in the Americas in the last decade. The authors articulate local governance initiatives in migrant protection with a larger range of social and political actors and places them within a broader context of migrations in the Western Hemisphere (including case studies of Toronto, New York, Austin, Mexico City, and Lima, among others). The book analyzes in particular the limits of local efforts to protect migrants and to identify the latitude of action at the disposal of local actors. It examines the efforts of municipal governments and also considers the role taken by cities from a larger perspective, including the actions of immigrant rights associations, churches, NGOs, and other actors in protecting vulnerable migrants.

# The One World Schoolhouse Education Reimagined

**Twelve A** free, world-class education for anyone, anywhere. This is the goal of the Khan Academy, a passion project that grew from an ex-engineer and hedge funder's online tutoring sessions with his niece, who was struggling with algebra, into a worldwide phenomenon. Today millions of students, parents, and teachers use the Khan Academy's free videos and software, which have expanded to encompass nearly every conceivable subject; and Academy techniques are being employed with exciting results in a growing number of classrooms around the globe. Like many innovators, Khan rethinks existing assumptions and imagines what education could be if freed from them. And his core idea-liberating teachers from lecturing and state-mandated calendars and opening up class time for truly human interaction-has become his life's passion. Schools seek his advice about connecting to students in a digital age, and people of all ages and backgrounds flock to the site to utilize this fresh approach to learning. In **THE ONE WORLD SCHOOLHOUSE**, Khan presents his radical vision for the future of education, as well as his own remarkable story, for the first time.

In these pages, you will discover, among other things: How both students and teachers are being bound by a broken top-down model invented in Prussia two centuries ago Why technology will make classrooms more human and teachers more important How and why we can afford to pay educators the same as other professionals How we can bring creativity and true human interactivity back to learning Why we should be very optimistic about the future of learning. Parents and politicians routinely bemoan the state of our education system. Statistics suggest we've fallen behind the rest of the world in literacy, math, and sciences. With a shrewd reading of history, Khan explains how this crisis presented itself, and why a return to "mastery learning," abandoned in the twentieth century and ingeniously revived by tools like the Khan Academy, could offer the best opportunity to level the playing field, and to give all of our children a world-class education now. More than just a solution, **THE ONE WORLD SCHOOLHOUSE** serves as a call for free, universal, global education, and an explanation of how Khan's simple yet revolutionary thinking can help achieve this inspiring goal.
