Publishing Old and Thrown Away: One woman's journey with her mom through the nursing home experience in the United States By: Marie Thunderwest The nightmare of COVID-19 brought to the forefront the plight of the elderly who reside in nursing homes. Most Americans have no idea of what transpires behind the walls of these facilities, the dangers they pose, and the risks we take when we move our loved ones from their homes to these so-called "homes away from home." Marie Thunderwest lived through the harrowing experience of watching her mother, Jane, decline from a happy, active elderly woman who lived with her for over twenty-five years to a sick, dependent, fragile woman. This is Marie's story of the journey she took with her mother into the tragic world of long-term care. **Old and Thrown Away** describes Marie's six-year struggle to preserve her mom's health and dignity in the poorly regulated, understaffed, and corrupt nursing home industry. **Old and Thrown Away** was written in memory of Marie's mother. It was also written for the vulnerable elderly left behind in these facilities and for the future generations that will end up in nursing homes. In graphic and compelling words, Marie describes the battle she undertook as she journeyed with her mom through the nursing home experience. There are very few insider stories that have been written on this topic. We can check statistics, ratings, and websites, but nothing compares to the stark realities described in this book and the cry for change. **Home Care How to The Guide to Starting Your Senior in Home Care Business** [Lulu.com](https://www.lulu.com) **Home Care How To** is an in depth guide to helping anyone start and run their own in home care business.
