THE SAP R/3® GUIDE TO EDI AND INTERFACES

CUT YOUR IMPLEMENTATION COST WITH IDOCS®, ALE® AND RFC®

Springer Science & Business Media **This book is for both developer and decision makers of R/3 implementation teams who need to understand in-depth and practically the benefits, financial risks and technical backgrounds of IDocs and ALE in interface development. It describes the implementation of interfaces in an R/3 roll-out, imporatnt technologies such as RFC, OLE and Workflow and common standards like EDIFACT, ANSI X.12 or XML. A large number of recipes deliver templates as a starting point for own enhancements. It is for everybody who depends on fast and cost-effective solutions for EDI and it also discusses why many EDI projects are ten times as expensive as they could be. Preparing the reader with the essential knowledge to survive the outrageously fast growing world of data communication and ecommerce via internet and intranet, the book shows in a destilled manner how enterprises using R/3 can efficiently implement Electronic Data Interchange (EDI) both with external partner and with inhouse satellite systems. This book in the tradition of IT-cookbooks, where the reader will find quick recipes and reliable information to cover all aspects of SAP Interfacing and quickly became a standard work for the R/3 world.**

THE FUTURE OF NATURE

DOCUMENTS OF GLOBAL CHANGE

Yale University Press **This anthology provides an historical overview of the scientific ideas behind environmental prediction and how, as predictions about environmental change have been taken more seriously and widely, they have affected politics, policy, and public perception. Through an array of texts and commentaries that examine the themes of progress, population, environment, biodiversity and sustainability from a global perspective, it explores the meaning of the future in the twenty-first century. Providing access and reference points to the origins and development of key disciplines and methods, it will encourage policy makers, professionals, and students to reflect on the roots of their own theories and practices.**

CHANGING THE CURRICULUM

THE IMPACT OF REFORM ON PRIMARY SCHOOLING IN HONG KONG

Hong Kong University Press **The Target Oriented Curriculum (TOC) is arguably the most comprehensive, fundamental and controversial attempt to promote systemic curriculum reform in Hong Kong. It aimed at a radical change in the nature of knowledge, pedagogy and assessment in schools. After an initial phase of confusion and criticism, this ambitious reform was revamped and vigorously promoted, but within a few years, it totally lost momentum as other educational issues attracted the attention of policy-makers. This book traces the career of TOC and studies the impact of the reform on the education system, subjects, schools and teachers. Drawing on a four-year multi-level research project, the chapters provide a deep understanding of the complex nature of educational reform and how a new curriculum is interpreted, developed and implemented. Besides providing a fascinating portrayal of the experiences of the TOC reform, this book offers lessons for future curriculum change in Hong Kong and elsewhere. 'This', writes Ivor Goodson in the Foreword, 'is curriculum research at its best.'**

HUMAN GENE THERAPY

MUSEUM HACK'S GUIDE TO HISTORY'S FIERCEST FEMALES

Remember when feminism happened, and tons of scholars banded together and rewrote the history books to include the accomplishments thousands of women whose badassery had been ignored for thousands of years? JK, JK. The representation of women is still super bad! With their trademark irreverence and penchant for storytelling, the team from Museum Hack has united to present: Museum Hack's Guide to History's Fiercest Females. Because the future is female and guess what? The past was hella female, too! Enclosed in this one-of-a-kind book are 26 stories of amazing women from all corners of the earth who probably weren't included in your high school history book... but definitely should have been! Get ready to join the revolution! (Or, keep revolution-ing! We support your journey wherever you are).

With QuarkXPress Power Shortcuts, the answers you need to increase productivity are right at your fingertips.

LEGISLATIVE DOCUMENT

A PRACTICAL GUIDE TO STAGE LIGHTING THIRD EDITION

CRC Press **In the first edition of A Practical Guide to Stage Lighting, Steve Shelley cracked open his production book and showed how to prepare a lighting design and create the paperwork needed to mount a production. In the second edition, he pulled back the curtain and showed the methods and processes that go on before the light plot is finalized and ready to go to into the shop, even dealing with cutting the plot in half. In this third edition, Shelley throws the door wide open and shows step-by-step how to construct every lighting system in the Hokey light plot. Combining his diacritical analysis, killer drafting, and analytic use of the Slinky Method and Slinky Calculations, he presents the Periodic Table of Fundamental Lighting Systems and shows the basic methods used to create multi-instrument lighting systems. Highlights include: -Over 100 new topics, including analysis and application of the three categories of collaboration; a detailed examination of production meetings and one-on-one meetings; and meeting checklists with management and the creative team. -Over 50 new illustrations, including Shelley's Periodic Table of Fundamental Lighting Systems; groundplans, sections, and front elevations that illustrate basic system wash configurations for each direction of light. -Analysis, calculation, and step-by-step technical construction of each lighting system in the Hokey light plot. -Explanation of a manufacturer's cut sheet, and how to apply basic formulas to determine the beam size, footcandles, and gel transmission for lighting instruments. -Updated process of pre-programming computer lighting consoles prior to the load-in. -Comprehensive overview of archiving paperwork and softcopy for a production.**

NEW TRENDS IN SOFTWARE METHODOLOGIES, TOOLS AND TECHNIQUES

PROCEEDINGS OF THE FIFTH SOMET_06

IOS Press **Software is the essential enabler for the new economy and science. It creates new markets and new directions for a more reliable, flexible, and robust society. It empowers the exploration of our world in ever more depth. However, software often falls short behind our expectations. Current software methodologies, tools, and techniques remain expensive and not yet reliable for a highly changeable and evolutionary market. Many approaches have been proven only as case-by-case oriented methods. This book presents a number of new trends and theories in the direction in which we believe software science and engineering may develop to transform the role of software and science in tomorrow's information society. This publication is an attempt to capture the essence of a new state of art in software science and its supporting technology. Is also aims at identifying the challenges such a technology has to master.**

R MARKDOWN

THE DEFINITIVE GUIDE

CRC Press **R Markdown: The Definitive Guide is the first official book authored by the core R Markdown developers that provides a comprehensive and accurate reference to the R Markdown ecosystem. With R Markdown, you can easily create reproducible data analysis reports, presentations, dashboards, interactive applications, books, dissertations, websites, and journal articles, while enjoying the simplicity of Markdown and the great power of R and other languages. In this book, you will learn Basics: Syntax of Markdown and R code chunks, how to generate figures and tables, and how to use other computing languages Built-in output formats of R Markdown: PDF/HTML/Word/RTF/Markdown documents and ioslides/Slidy/Beamer/PowerPoint presentations Extensions and applications: Dashboards, Tufte handouts, xaringan/reveal.js presentations, websites, books, journal articles, and interactive tutorials Advanced topics: Parameterized reports, HTML widgets, document templates, custom output formats, and Shiny documents. Yihui Xie is a software engineer at RStudio. He has authored and co-authored several R packages, including knitr, rmarkdown, bookdown, blogdown, shiny, xaringan, and animation. He has published three other books, Dynamic Documents with R and knitr, bookdown: Authoring Books and**

Technical Documents with R Markdown, and blogdown: Creating Websites with R Markdown. J.J. Allaire is the founder of RStudio and the creator of the RStudio IDE. He is an author of several packages in the R Markdown ecosystem including rmarkdown, flexdashboard, learnr, and radix. Garrett Grolemund is the co-author of R for Data Science and author of Hands-On Programming with R. He wrote the lubridate R package and works for RStudio as an advocate who trains engineers to do data science with R and the Tidyverse.

PROJECT MANAGER'S GUIDE

Lulu Press, Inc **The Project Manager's Guide is an easy to read and use resource for both the novice and the experienced Project Manager. It presents Project Management concepts and theory along with their practical application. This book answers the question "Great I understand the theory and concept. Now how am I going to apply this to a real life project?" The Guide is designed so it can be used as a reference guide where each chapter is self-contained and focusing on a specific topic with the order of the chapters follows a logical progression of topics that builds on the previous one. This book can be read in sequence from chapter 1 to 30 or one can go directly to a particular chapter or topic. This Guide can be a resource used by Project Managers throughout their career.**

BUSINESS ASSOCIATIONS SKILLS LAB

PHOTOIMPACT 7

THE OFFICIAL GUIDE

McGraw-Hill Osborne Media **With a hands-on structure, this book provides information to accomplish the tasks that are likely to arise as users work with PhotoImpact. The focus is on the things that users want to do when they buy PhotoImpact or when they find it included with their new hardware purchase. The Official Guide includes a fully functioning 30-day trial of the software on the CD, and also include the project files from the book, animation sequences and filter effects. The images on the CD show off PhotoImpact's lighting effects (fireworks, lens flares, spotlight and comets) as well as the type effects (Glass, Metal, Fire and Ice) and the Particle Effects which include snow, rain, stars, bubbles and fireflies. The CD also shows how these effects can be used in animation. The book also notes when a PhotoImpact feature is analogous to a Photoshop or Fireworks or Photo-Paint feature.**
