CHELSEA

Chelsea spent most of her life running. She was young when her parents were killed, and she was thrown into the system as just another statistic. One foster home after another, hell after hell. When things got too hard, her first instinct was to get out and fast. She didn't mind being a club girl. Who wouldn't want a group of possessive alpha males on your side and in your bed? The freedom and the lifestyle allowed her to spread her wings while the rules and bylaws kept everyone in line. It was comfortable - safe. But while her head told her she was happy, her heart reminded her constantly of what she really wanted - Brothers by Blood President, Optimus. He was a brooding asshole who was sexy, loyal and pushed the boundaries of both her body and her mind. He never let her all the way in, but she still couldn't stay away from him - he was addictive. Optimus had only one rule - family comes first. He knew that sometimes sacrifices needed to be made in order to keep the ones he loved safe. He'd done it before and he would do it again. Being President of the Brothers by Blood MC meant he couldn't show any weakness. His feelings for Chelsea were off the charts, but so far he'd managed to hide them and keep her at an arm's length thinking he was protecting her. Beautiful, athletic and sassy, she wasn't just another club girl, she was HIS girl. Danger is fast approaching and Chelsea is in its direct sight. Will it be too late for Optimus to show Chelsea how he really feels? And when secrets are revealed will Chelsea stay and stand beside the man she wants or will the urge to run just be too strong?

GOVERNING STATES AND LOCALITIES

CQ Press The trusted and proven Governing States and Localities guides you through the contentious environment of state and local politics and focuses on the role that economic and budget pressures play on issues facing state and local governments. With their engaging journalistic writing and crisp storytelling, Kevin B. Smith and Alan Greenblatt employ a comparative approach to explain how and why states and localities are both similar and different. The Seventh Edition is thoroughly updated to account for such major developments as state vs. federal conflicts over immigration reform, school shootings, and gun control; the impact of the Donald Trump presidency on intergovernmental relations and issues of central interest to states and localities; and the lingering effects of the Great Recession.

MY HORIZONTAL LIFE

A COLLECTION OF ONE NIGHT STANDS

Grand Central Publishing In this raucous collection of true-life stories, Chelsea Handler recounts her time spent in the social trenches with that wild, strange, irresistible, and often gratifying beast: the one-night stand. You've either done it or know someone who has: the one-night stand, the familiar outcome of a night spent at a bar, sometimes the sole payoff for your friend's irritating wedding, or the only relief from a disastrous vacation. Often embarrassing and uncomfortable, occasionally outlandish, but most times just a necessary and irresistible evil, the one-night stand is a social rite as old as sex itself and as common as a bar stool. Enter Chelsea Handler. Gorgeous, sharp, and anything but shy, Chelsea loves men and lots of them. My Horizontal Life chronicles her romp through the different bedrooms of a variety of suitors, a no-holds-barred account of what can happen between a man and a sometimes very intoxicated, outgoing woman during one night of passion. From her short fling with a Vegas stripper to her even shorter dalliance with a well-endowed little person, from her uncomfortable tryst with a cruise ship performer to her misguided rebound with a man who likes to play leather dress-up, Chelsea recalls the highs and lows of her one-night stands with hilarious honesty. Encouraged by her motley collection of friends (aka: her partners in crime) but challenged by her family members (who at times find themselves a surprise part of the encounter), Chelsea hits bottom and bounces back, unafraid to share the gritty details. My Horizontal Life is one guilty pleasure you won't be ashamed to talk about in the morning.

MAPPING DEATHSCAPES

DIGITAL GEOGRAPHIES OF RACIAL AND BORDER VIOLENCE

Routledge This volume offers a critical and creative analysis of the innovations of Deathscapes, a transnational digital humanities project that maps the sites and distributions of custodial deaths in locations such as police cells, prisons and immigration detention centres. An international team of authors take a multidisciplinary approach to questions of race, geographies of state violence and countermaps of resistance across North America, Australia and Europe. The book establishes rich lines of dialogic connection between digital and other media by incorporating both traditional scholarly resources and digital archives, databases and social media. Chapters offer a comprehensive mapping of the key attributes through which racial violence is addressed and contested through digital media and articulate, in the process, the distinctive dimensions of the Deathscapes site. This interdisciplinary volume will be an important resource for scholars, students and activists working in the areas of Cultural Studies, Media and Visual Studies, Indigenous Studies, Refugee Studies and Law.

ALASTAIR CAMPBELL DIARIES: VOLUME 7

FROM CRASH TO DEFEAT, 2007-2010

Biteback Publishing Caught in the no man's land between being a key figure in Downing Street and the relative anonymity of the world outside politics, Alastair Campbell finds himself being torn in several directions. Having succeeded Tony Blair as Prime Minister, Gordon Brown wants Campbell at his side. Campbell resists, flooding his reservoir of guilt as a general election looms and Brown's indecision and fluctuating moods suggest the Labour administration is seriously threatened by the Tory 'posh boy', David Cameron. Soon Campbell is earning not only praise but big money from motivational speaking and writing novels which darkly reflect the personal mood swings that continue to concern to both him and his family. Serious journalism across platforms old and new puts him back in the public eye and together with live appearances and a love of sport - his enduring love affair with Burnley Football Club still smoulders - sees him board a celebrity merry-go-round that often leaves him far from his comfort zone. With politics constantly tugging his sleeve, he eventually returns to the front line to marshal a party in disarray. The intensity of the months leading up to 6 May 2010 is as dramatic as any screenplay, with Campbell chronicling Brown's struggle to win over a disillusioned nation and then his dignified departure from the main stage. For Campbell, another chapter closes. So what next?

Destiny Image Publishers Every Christian must read this shocking account of the Church's history. The pages of church history are marked by countless horrors committed against the Jewish people. This generation can make a difference. Now is the time for change! Discover the important role you play in helping to shape a Church that will bless Israel rather than curse Israel.

STREET ART AND ACTIVISM IN THE GREATER CARIBBEAN

IMPOSSIBLE STATES, VIRTUAL PUBLICS

Taylor & Francis Foregrounding street art in the capital cities of Cuba, Haiti, and Puerto Rico, this book argues that Antillean street artists diagnose the "impossible state" of the arrested present (colonized, occupied, or under dictatorship) while simultaneously imagining liberated futures and fully sovereign states. Jana Evans Braziel launches a comparative study of art, politics, history, urban street cultures, engaged citizenships, and social transformations in three Antillean capital cities—Havana, Cuba; Port-au-Prince, Haiti; and San Juan, Puerto Rico—of the Greater Caribbean. The book includes a photo documentary archive of street art, murals, and installations by key muralists in these cities: Yulier Rodríguez Pérez, "Jerry" Rosembert Moïse, and Colectivo Moriviví (Chachi González Colón, Raysa Rodríguez García, and Salomé Cortés). Braziel offers art historical and geopolitical analyses of the urban street art in their cities of production, underscoring street art as political, economic, and environmental engagements (and not as exclusively aesthetic ones) with urban space and street life. The book will be of interest to scholars working in art history, Caribbean studies, Latin American studies, and urban studies.

WORKING WITH AND FOR ANCESTORS

COLLABORATION IN THE CARE AND STUDY OF ANCESTRAL REMAINS

Routledge Working with and for Ancestors examines collaborative partnerships that have developed around the study and care of Indigenous ancestral human remains. In the interest of reconciliation, museums and research institutions around the world have begun to actively seek input and direction from Indigenous descendants in establishing collections care and research policies. However, true collaboration is difficult, time-consuming, and sometimes awkward. By presenting examples of projects involving ancestral remains that are successfully engaged in collaboration, the book provides

encouragement for scientists and descendant communities alike to have open and respectful discussions around the research and care of ancestral human remains. Key themes for discussion include new approaches to the care for ancestors; the development of culturally sensitive museum policies; the emergence of mutually beneficial research partnerships; and emerging issues such as those of intellectual property, digital data, and alternatives to destructive analyses. Critical discussions by leading scholars also identify the remaining challenges in the repatriation process and offer a means to continue moving forward. This volume will appeal to a broad, interdisciplinary audience interested in collaborative research and management strategies that are aimed at developing mutually beneficial relationships between researchers and descendant communities. This includes students and researchers in archaeology, anthropology, museums studies, and Indigenous communities.

THE PANDEMIC DIVIDE

HOW COVID INCREASED INEQUALITY IN AMERICA

Duke University Press As COVID-19 made inroads in the United States in spring 2020, a common refrain rose above the din: “We’re all in this together.” However, the full picture was far more complicated—and far less equitable. Black and Latinx populations suffered illnesses, outbreaks, and deaths at much higher rates than the general populace. Those working in low-paid jobs and those living in confined housing or communities already disproportionately beset by health problems were particularly vulnerable. The contributors to *The Pandemic Divide* explain how these and other racial disparities came to the forefront in 2020. They explore COVID-19’s impact on multiple arenas of daily life—including wealth, health, housing, employment, and education—while highlighting what steps could have been taken to mitigate the full force of the pandemic. Most crucially, the contributors offer concrete public policy solutions that would allow the nation to respond effectively to future crises and improve the long-term well-being of all Americans. DOMESTIC OCCUPATIONS

SPATIAL RHETORICS AND WOMEN'S WORK

Studies in Rhetorics and Femin This feminist rhetorical history explores women's complex and changing relationship to the home and how that affected their entry into the workplace. Author Jessica Enoch examines the spatial rhetorics that defined the home in the mid- to late nineteenth and early twentieth centuries and considers how its construction and reconstruction—from discursive description to physical composition—has greatly shaped women's efforts at taking on new kinds of work. In doing so, Enoch exposes the ways dominant discourses regarding women's home life and work life—rhetorics that often assumed a white middle-class status—were complicated when differently raced, cultured, and classed women encountered them. Enoch explores how three different groups of women workers—teachers, domestic scientists, and World War II factory employees—contended with the physical and ideological space of the home, examining how this everyday yet powerful space thwarted or enabled their financial and familial security as well as their intellectual engagements and work-related opportunities. *Domestic Occupations* demonstrates a multimodal and multigenre research method for conducting spatio-rhetorical analysis that serves as a model for new kinds of thinking and new kinds of scholarship. This study adds historical depth and exigency to an important contemporary conversation in the public sphere about how women's ties to the home inflect their access to work and professional advancement.

TONIGHT I'M SOMEONE ELSE

ESSAYS

Holt Paperbacks “I had a real romance with this book.” —Miranda July A highly anticipated collection, from the writer Maggie Nelson has called, “bracingly good...refreshing and welcome,” that explores the myriad ways in which desire and commodification intersect. From graffiti gangs and Grand Theft Auto to sugar daddies, Schopenhauer, and a deadly game of Russian roulette, in these essays, Chelsea Hodson probes her own desires to examine where the physical and the proprietary collide. She asks what our privacy, our intimacy, and our own bodies are worth in the increasingly digital world of liking,

linking, and sharing. Starting with Hodson's own work experience, which ranges from the mundane to the bizarre—including modeling and working on a NASA Mars mission— Hodson expands outward, looking at the ways in which the human will submit, whether in the marketplace or in a relationship. Both tender and jarring, this collection is relevant to anyone who's ever searched for what the self is worth. Hodson's accumulation within each piece is purposeful, and her prose vivid, clear, and sometimes even shocking, as she explores the wonderful and strange forms of desire. *Tonight I'm Someone Else* is a fresh, poetic debut from an exciting emerging voice, in which Hodson asks, "How much can a body endure?" And the resounding answer: "Almost everything."

THE LITERARY GAZETTE

UNVEILING THE RUSE

Christian Faith Publishing, Inc. Two-thousand years ago, the apostle Peter wrote in his second epistle that in the last days, people would "scoff" at the notion of Christ's second coming. He also wrote that the same would be willingly ignorant of the creator God who made the universe, and of the Genesis flood that overtook the entire world. True to Peter's prophecy, Charles Darwin's theory of evolution has replaced the biblical account of man's origins, and the global cataclysm to which Noah was witness has been reduced to a fable. However, the candor of Genesis is beginning to emerge as scientists find evidences in geology, paleontology, and genetics painting a different picture than naturalism; the same substances which are crowned as scientific proofs of deep time and of goo-to-you evolution showcase the very catastrophe and the account of creation that secular academia aims to censor. Following evidence of the supernatural acting upon the natural, one discovers both God and his adversary in their conflict over man. But the Word of God has revealed its predetermined end, and it may come sooner than many would expect. Inversely, we might have little reason to fear archaic ideas - let the Judeo-Christian God be a bygone already, some say. With our knowledge increasing exponentially, our future is bright. As scientists unlock the secrets of DNA and develop technology beyond our forefathers' wildest dreams, humankind may even have a shot at achieving immortality one day, leaving worries of heaven and hell behind. And considering the vastness of the universe in which we hope to expand, there could be intelligent life already among the stars that might one day make contact and aid us in our aspirations - or, this is all just part of the ruse.

WHITE SKIN, BLACK FUEL

ON THE DANGER OF FOSSIL FASCISM

Verso Books In recent years, the far right has done everything in its power to accelerate the heating: an American president who believes it is a hoax has removed limits on fossil fuel production. The Brazilian president has opened the Amazon and watched it burn. In Europe, parties denying the crisis and insisting on maximum combustion have stormed into office, from Sweden to Spain. On the brink of breakdown, the forces most aggressively promoting business-as-usual have surged - always in defense of white privilege, against supposed threats from non-white others. Where have they come from? The first study of the far right in the climate crisis, *White Skin, Black Fuel: On the Danger of Fossil Fascism* presents an eye-opening sweep of a novel political constellation, and reveals its deep historical roots. Fossil-fueled technologies were born steeped in racism. None loved them more passionately than the classical fascists. As such forces rise to the surface, some profess to have the solution - closing borders to save the climate. Epic and riveting, *White Skin, Black Fuel* traces a future of political fronts that can only heat up.

NEW YORK: ART AND CULTURAL CAPITAL OF THE GILDED AGE

Routledge Fueled by a flourishing capitalist economy, undergirded by advancements in architectural design and urban infrastructure, and patronized by growing bourgeois and elite classes, New York's built environment was dramatically transformed in the 1870s and 1880s. This book argues that this constituted the formative period of New York's modernization and cosmopolitanism—the product of a vital self-consciousness and a deliberate intent on the part of its elite citizenry to create a world-class cultural metropolis reflecting the city's economic and political preeminence. The interdisciplinary essays in this book examine New York's late nineteenth-century evolution not simply as a question of its physical layout but also in terms of its radically new social composition, comprising the individuals, institutions, and organizations that played determining roles in the city's cultural ascendancy.

PIRATE LANDS

GOVERNANCE AND MARITIME PIRACY

Oxford University Press Maritime piracy's improbable re-emergence following the end of the Cold War was surprising as the image of pirates evokes masted galleons and cutlasses. Yet, the number of incidents and their intensity skyrocketed in the 1990s and 2000s off of the coasts of Indonesia, Malaysia, the Philippines, India, Bangladesh, Nigeria, and Somalia. As Ursula Daxecker and Brandon Prins demonstrate in *Pirate Lands*, Maritime piracy-like civil war, terrorism, and organized crime-is a problem of weak states. Surprisingly, though, pirates do not operate in the least governed areas of weak states. Daxecker and Prins address this puzzle by explaining why some coastal communities experience more pirate attacks in their vicinity than others. They find that pirates do well in places where elites and law enforcement can be bribed, but they also need access to functioning roads, ports, and markets. Using statistical analyses of cross-national and sub-national data on pirate attacks in Indonesia, Nigeria, and Somalia, Daxecker and Prins detail how governance at the state and local level explain the location of maritime piracy. Additionally, they employ geo-spatial tools to rigorously measure how local political capacity and infrastructure affect maritime piracy. Drawing upon interviews with former pirates, community members, and maritime security experts, *Pirate Lands* offers the first comprehensive, social-scientific account of a phenomenon whose re-appearance after centuries of remission took almost everyone by surprise.
