The Garden [London]

Mary Frances Garden Book

Adventures Among the Garden People

Applewood Books **One in this series of charming stories about Mary Frances and her discoveries about the world around her. She meets the Garden People and learns the pleasures and wonders of gardening through many adventures with them. The illustrations on almost every page make this a pleasurable reading experience for children and parents alike, and a wonderful gift for children.**

Performance and Appropriation

Profane Rituals in Gardens and Landscapes

Dumbarton Oaks **Breaking with the idea that gardens are places of indulgence and escapism, these studies of ritualized practices reveal that gardens in Europe, Asia, the United States, and the Caribbean have in fact made significant contributions to cultural change. This book demonstrates methods and the striking results of garden reception studies. The first section explores how cultural changes occur, and devotes chapters to public landscapes in the Netherlands, seventeenth-century Parisian gardens, Freemason gardens in Tuscany, nineteenth-century Scottish kitchen gardens, and the public parks of Edo and modern Tokyo. The second part provides striking examples of construction of self in vernacular gardens in Guadeloupe and American Japanese-style gardens in California. Finally, the third section analyzes struggles for political change in gardens of Yuan China and modern Britain.**

Edible Paradise

How to Grow Herbs, Flowers, Vegetables and Fruit in Any Space

Learn how to create your own no-dig, organic garden with permaculture design and techniques. Vera's 15 years of experience as a no dig gardener provides a vast amount of knowledge on growing fruit, vegetables, herbs and flowers. The book is divided into two sections, container gardening and permaculture kitchen gardening. Part One shares knowledge especially useful to urban gardeners and those with little space. Part Two advises on starting and maintaining a garden. Vera's specialty is creating beautiful and delicious polycultures and she offers a range of examples to get you started and the knowledge to experiment. She also includes recipes for your fresh harvests. Chapters on making compost, building raised beds, and a monthly job guide make this useful for all levels of gardener. Vera demonstrates that gardens can look beautiful and be productive, and her advice and examples encourage us to look at our own growing spaces in a different light. We no longer need to hide our veggie patches; they can take centre stage. Why not incorporate cut flowers with herbs, brassicas and peas? Or plant a pottager garden? These examples will help people create edible paradises everywhere, like patios, balconies, windowsills, allotments, community and school gardens, front and back gardens and anywhere else we can grow.
