COMPARING HIGH-PERFORMING EDUCATION SYSTEMS

UNDERSTANDING SINGAPORE, SHANGHAI, AND HONG KONG

Routledge Comparing High-Performing Education Systems provides original insights into the educational structures, ideologies, policies, and practices in Singapore, Shanghai, and Hong Kong. Taking as its basis their global reputation and consistently strong performance in formal assessments, the author provides an in-depth analysis and comparison of these three education systems that draws on cutting-edge research. Chapters explore the dominant cultural and educational norms in Singapore, Shanghai, and Hong Kong to give a wider picture of these high-performing education systems. The performance of students in international large-scale assessments such as Programme for International Student Assessment (PISA), Trends in International Mathematics and Science Study (TIMSS), and Progress in International Reading Literacy Study (PIRLS) is considered, alongside an exploration of attitudes to schooling, tutoring, and assessment. The book shows how Singapore, Shanghai, and Hong Kong exemplify an East Asian Educational Model (EAEM). Such a model - is rooted in and shaped by Confucian habitus: unconscious and ingrained worldviews, dispositions, and habits that reflect the standards of appropriateness in a Confucian Heritage Culture; aspires high performance: a balance between academic excellence and holistic development; and utilises educational harmonisation: the art of bringing together different and contradictory means and ends to achieve desired educational outcomes. Informative and thought-provoking, this book is a useful reference for policymakers, researchers, educators, and general readers on high-performing education systems, school reforms in East Asia, Confucian influences on education, and cross-cultural policy learning and transfer.

CHANGING THE CURRICULUM

THE IMPACT OF REFORM ON PRIMARY SCHOOLING IN HONG KONG

Hong Kong University Press The Target Oriented Curriculum (TOC) is arguably the most comprehensive, fundamental and controversial attempt to promote systemic curriculum reform in Hong Kong. It aimed at a radical change in the nature of knowledge, pedagogy and assessment in schools. After an initial phase of confusion and criticism, this ambitious reform was revamped and vigorously promoted, but within a few years, it totally lost momentum as other educational issues attracted the attention of policy-makers. This book traces the career of TOC and studies the impact of the reform on the education system, subjects, schools and teachers. Drawing on a four-year multi-level research project, the chapters provide a deep understanding of the complex nature of educational reform and how a new curriculum is interpreted, developed and implemented. Besides providing a fascinating portrayal of the experiences of the TOC reform, this book offers lessons for future curriculum change in Hong Kong and elsewhere. 'This', writes Ivor Goodson in the Foreword, 'is curriculum research at its best.'

HEAT A MODE OF MOTION

EXILE AND RETURN

THE BABYLONIAN CONTEXT

Walter de Gruyter GmbH & Co KG Many books of the Hebrew Bible were either composed in some form or edited during the Exilic and post-Exilic periods among a community that was to identify itself as returning from Babylonian captivity. At the same time, a dearth of contemporary written evidence from Judah/Yehud and its environs renders any particular understanding of the process within its social, cultural and political context virtually impossible. This has led some to label the period a dark age or black box - as obscure as it is essential for understanding the history of Judaism. In recent years, however, archaeologists and historians have stepped up their effort to look for and study material remains from the period and integrate the local history of Yehud, the return from Exile, and the restoration of Jerusalem's temple more firmly within the regional, and indeed global, developments of the time. At the same time, Assyriologists have also been introducing a wide range of cuneiform material that illuminates the economy, literary traditions, practices of literacy and the ideologies of the Babylonian host society - factors that affected those taken into Exile in variable, changing and multiple ways. This volume of essays seeks to exploit these various advances.

PROMOTING ACHIEVEMENT AND MOTIVATION

Guilford Press This volume demonstrates how promoting children's engagement with reading can greatly enhance reading achievement. Helping teachers offer a coordinated emphasis on competence and motivation in reading instruction, chapters blend research evidence with practical recommendations. Topics covered include ways to provide children with a good foundation at the word level, help if they are in trouble, ample time and materials for reading, opportunities to share in a community of learners, instruction that is coherent, motivating, and responsive to each child's strengths and weaknesses, school-wide coordination of instruction, and continuities between home and school.

DETERMINISM IN THE BOOK OF ECCLESIASTES

Sheffield Academic Press Is the author of *Ecclesiastes* a determinist? Many readers, from the Targumist and Ibn Ezra up to the present day, have thought so. But there has been no systematic investigation of Qoheleth's determinism, its nature and extent, its relationship to free will and its philosophical background. In separate chapters, Rudman discusses key terms and texts that express a deterministic worldview, then explores the sources for Qoheleth's thought. He concludes that the author was a sage writing in the third quarter of the third century BCE, who was profoundly influenced by Stoic ideas.

THE GOOD LIFE IN THE OLD TESTAMENT

A&C Black Can we know how the ancient Israelites lived 'the good life'? In his last work, Norman Whybray brings his considerable learning to this question in a social and theological study of the Hebrew Bible. He discovers that far from giving a faint or undifferentiated picture of 'the good life', the books of the Old Testament each yield a distinct impression of what this life entails, underpinned by divine guidance and protection. Comprehensive in scope, and marked by Professor Whybray's lucid thought and style, this book is a fitting addition to the work of an illustrious scholar. It will richly reward any reader interested in the social world as depicted in the Bible, and in God's relationship with it.

QUMRAN, EARLY JUDAISM, AND NEW TESTAMENT INTERPRETATION

QUMRAN, EARLY JUDAISM, AND NEW TESTAMENT INTERPRETATION

Mohr Siebeck The articles collected here present the fruits of 25 years of scholarship on Qumran and the New Testament. The author situates the New Testament within the pluralistic context of Second Temple Judaism, presents detailed overviews on the discoveries from Qumran, the source value of the ancient texts on the Essenes, the interpretation of the archaeological site, the various forms of dualism within the texts, the development of apocalyptic thought, Qumran meals, and scriptural authority in the Scrolls. He evaluates the various patterns of relating Jesus and the apostles to the Scrolls or the Qumran community, presents methodological reflections on comparisons and detailed surveys of the most important insights from the Qumran discoveries for the understanding of Jesus, Paul, and the Fourth Gospel. This volume demonstrates how the discovery of the Scrolls has influenced and changed New Testament scholarship.
