Concealed Carry for Women Gun Digest Books *Concealed Carry for Women explains the mindset, skills, equipment and accessories necessary for successful concealed carry, with a focus on challenges unique to women. This book will help you: Decide to carry a gun for self defense The legalities and society's unwritten rules for armed citizens Shooting skills for concealed carry Integrating a concealed handgun into one's life Selecting a handgun How holsters work with the female figure Women's fashions and concealed carry: what works, what doesn't "Over the 18 years I've hosted Tom Gresham's Gun Talk radio show, I've taken calls from women all over the country, asking questions about whether it's smart to get a gun, what kind of gun to get, how to carry and the issues particular to women who carry. "In Concealed Carry for Women, Gila Hayes covers the basics of handgun and equipment choices and techniques of shooting. She also addresses issues unique to women. Should I? Why? Can I? How do I? What if? What will people think? How can I carry a defensive handgun and still dress like a woman? "Concealed Carry for Women is an easy read of a serious subject. With nearly every turn of the page there is an 'I never thought of that' nugget. This is a work you will reread several times, getting more with each visit." --Tom Gresham, Host of Tom Gresham's Gun Talk radio show* **Gundamentalism and Where It Is Taking America** *Wipf and Stock Publishers Gundamentalism and Where It Is Taking America is the work of James Atwood, a retired Presbyterian pastor and an avid deer hunter for half a century who has also been in the forefront of the faith community's fight for two constitutional rights: the right to keep and bear arms and the right to live in domestic tranquility, free of gun violence. He*

explains why guns mystically control so many Americans and exposes the fallacies of the gun industry's spurious claim that firearms actually protect us. He argues there are no bona fide scientific studies that show defensive guns save us from harm, while there is voluminous research showing a defensive gun puts the owner and his or her family at greater risk. Atwood's book, which details his learning of a lifetime in the struggle for reasonable gun laws in America, puts dependable social and theological analysis of our unique national epidemic into your hands along with scientific data that will provoke honest reflection and discussion for the building of a safer and saner America. Questions for group discussion and suggestions for action are included. **Firearms Multimedia Guide**

The Law of Self Defense provides precisely that critical, missing knowledge. This book includes not just the laws of all fifty states, but how the courts apply those laws. It's a plain-talk analysis that makes the law easy to understand for anyone, not just lawyers. Bestselling author, Andrew F. Branca, is not only a lawyer and internationally recognized legal consultant, but also a life-long member of the gun community--more than 20 years as an NRA Life Member and Instructor, an IDPA Master-class competitor, and a 2nd Amendment absolutist. Learn how to make fast, effective decisions and confidently handle life-and-death situations both tactically and legally.
