Great Masks to Make

Troll Communications Llc Includes instructions for easy-to-make masks, including a wicked witch, chef, baboon, pirate, and geisha.

The Story of the Leprechaun

Harper Collins In a faraway village lives a talented little shoemaker—who also happens to be a leprechaun. He keeps the gold that he earns from making shoes hidden away in his home, where he thinks it will be safe. But one day a greedy man named Tim spies the leprechaun's pot of gold and tries to steal it! How can the little leprechaun outsmart Tim and make sure his pot of gold will be safe forever? In this original tale, Katherine Tegen has captured the magic of the wily leprechaun, while Sally Anne Lambert's glowing illustrations bring him to life.

Christmas Is Coming

Oxmoor House **Preparing for Christmas is serious business with kids. There are ornaments to make, cards to color, and presents to prepare -all the day after Thanksgiving. To keep creativity riding high this book is for you. Full of ideas, 'Christmas Is Coming!' will inspire little hands-and big- to create some holiday magic this Christmas.**

Small Unmanned Aircraft

Theory and Practice

Princeton University Press **Autonomous unmanned air vehicles (UAVs) are critical to current and future military, civil, and commercial operations. Despite their importance, no previous textbook has accessibly introduced UAVs to students in the engineering, computer, and science disciplines--until now. Small Unmanned Aircraft provides a concise but comprehensive description of the key concepts and technologies underlying the dynamics, control, and guidance of fixed-wing unmanned aircraft, and enables all students with an introductory-level background in controls or robotics to enter this exciting and important area. The authors explore the essential underlying physics and sensors of UAV problems, including low-level autopilot for stability and higher-level autopilot functions of path planning. The textbook leads the student from rigid-body dynamics through aerodynamics, stability augmentation, and state estimation using onboard sensors, to maneuvering through obstacles. To facilitate understanding, the authors have replaced traditional homework assignments with a simulation project using the MATLAB/Simulink environment. Students begin by modeling rigid-body dynamics, then add aerodynamics and sensor models. They develop low-level autopilot code, extended Kalman filters for state estimation, path-following routines, and high-level path-planning algorithms. The final chapter of the book focuses on UAV guidance using machine vision. Designed for advanced undergraduate or graduate students in engineering or the sciences, this book offers a bridge to the aerodynamics and control of UAV flight.**

Pirate, Viking & Scientist

Little, Brown Books for Young Readers In this funny story that's perfect for fans of Ada Twist, Scientist, a determined little boy won't rest until he proves his theory that you really can have more than one best friend! Pirate is friends with Scientist. Scientist is friends with Viking. Pirate and Viking are NOT friends. What can Scientist do? Use his brain, of course--and the scientific method! He forms a hypothesis, conducts an experiment, observes his results, and tests his subjects again and again until he discovers the perfect formula for friendship. Includes a bonus list of scientific terms and definitions, just right for young readers.

One Hundred and One Language Arts Activities

Cows in the Kitchen

A Musical Play for Young Children

Milliken Publishing Company Bring the Eastern European folktale to life with this boisterous musical play! Mama and Papa seek advice from Goo Roo (the town's guru) when they realize that their house is too loud. Children will love to reenact

the silly solution that Goo Roo provides. Hours of extension activities are provided to continue learning throughout preparation and performance. The included CD contains songs with lyrics that children will want to sing again and again, along with piano accompaniment only.

Fiona's Luck

Charlesbridge Publishing **An original folktale full of wit, magic, and leprechauns, that is sure to delight for St. Patrick's Day as well as all year round. The luck of the Irish has waned after the greedy Leprechaun King has taken all the good fortune in Ireland and locked it away. It is up to one cunning girl, Fiona to come up with a plan to get the luck and good tidings back from the leprechauns to help the people of Ireland. Through clever charades, Fiona uses her wit to outsmart the powerful Leprechaun King and restore luck to the Emerald Isle. Luminous and enchanting illustrations add to the wonder of this original folktale, that is sure to charm readers young and old who are looking for a bit of magic to spark their story time.**

Family Fun Craft

Over 500 crafts and activities from FamilyFun magazine.

How to Amuse Yourself and Others: The American Girl's Handy Book

DigiCat **The American Girl's Handy Book was one of the earliest works written primarily for girls' amusement and enjoyment. It introduced original and novel ideas to open new routes for enterprise and entertainment for girls. The main goal was to engrave upon the girls' minds that they all have talent and the ability to achieve more than what they think is possible. During the time of this book's publication, it was unusual to promote girls to be inventive. But the writer desired to awaken this creative side in them by giving detailed methods of new tasks and amusements, to put them on the road they could travel and explore alone. Anyone curious about knowing the initiatives taken for girls' empowerment in the olden days will find this work beneficial.**

The Engineer

Easy to Make Monster Masks and Disguises

Instructions for making masks and disguises from a variety of materials.
