INC. 北京书局 Another Haul Narrative Stewardship and Cultural Sustainability at the Lewis Family Fishery [Univ. Press of Mississippi](#) **Lewis Island** in Lambertville, New Jersey, is the site of the Lewis Fishery, the last haul seine American shad fishery on the nontidal Delaware River. The Lewis family has fished in the same spot since 1888 and operated the fishery through five generations. The extended Lewis family, its fishery's crew, and the Lambertville community connect with people throughout the region, including environmentalists concerned about the river. It was a Lewis who raised the alarm and helped resurrect a polluted river and its biosphere. While this once exclusively masculine activity is central to the tiny island, today men, women, and children fish, living out a sense of place, belonging, and sustainability. In **Another Haul: Narrative Stewardship and Cultural Sustainability at the Lewis Family Fishery**, author Charlie Groth highlights the traditional, vernacular, and everyday cultural expressions of the family and crew to understand how community, culture, and the environment intersect. Groth argues there is a system of narrative here that combines verbal activities and everyday activities. On the basis of over two decades of participation and observation, interviews, surveys, and a wide variety of published sources, Groth identifies a phenomenon she calls "narrative stewardship." This narrative system, emphasizing place, community, and commitment, in turn, encourages environmental and cultural stewardship, tradition, and community. Intricate and embedded, the system appears invisible, but careful study unpacks and untangles how people, often unconsciously, foster sustainability. Though an ethnography of an occupation, the volume encourages readers to consider what arises as special about all cultures and what needs to be seen and preserved. **Love and Marriage Cultural Diversity in a Changing World** [Waveland Press](#) Cultural anthropologist Serena Nanda mines a wide range of ethnographic research to examine the patterns of love, marriage, sexuality, and family unique to eight cultures around the world. After reviewing changing patterns in the United States, readers are taken to China, India, Brazil, Iran, Indonesia, Nigeria, the South Pacific, and Nepal to explore traditions and transformations and the intertwining dynamics of kinship, class, politics, religion, and gender roles in love and marriage. An additional chapter traces the diversity of LGBTQ relationships, with contemporary examples drawn from the US, Indonesia, and India. A valuable summary chapter features a brief analysis of similar and different cultural configurations. Nanda's ethnographically rich examples and fresh perspective will challenge readers to understand that their own culture is not natural or superior but rather just one of many possibilities adapted to specific environments and subject to changes. **Our Social World Condensed Version** [Pine Forge Press In this brief text, two leaders of the Teaching Sociology movement encourage students' development of their sociological imaginations through role-taking. Assuming the role of a child living in poverty in India or of a member of an African tribe, students learn to re-envision their global society. An innovative, integrated framework provides core sociological concepts, while features such as **Contributing to Our Social World** enable students to "do" public sociology. **Our Social World: Condensed Version** presents the perspective of students living in the larger global world. **Talking About People: Readings in Cultural Anthropology** \[McGraw-Hill Humanities Social\]\(#\) How do people learn and experience their culture? How do people make a living? What does it mean to be in a family? How do we make sense of peoples' beliefs and ritual practices? In exploring questions such as these, this cultural anthropology reader focuses on contemporary global concerns and includes a significant number of articles by authors from outside the United States. A dynamic development in the fourth edition is the inclusion of "Anthropology and Public Debate" sections, in which opposing anthropological arguments on current hot topics are featured. In addition, "Doing Fieldwork" essays consider the nature and dilemmas of fieldwork, the changing status of the field, the nature of anthropological learning in the field, and ethical issues and dilemmas. **Communication Between Cultures** \[Cengage Learning\]\(#\) Packed with current research and examples, bestselling **COMMUNICATION BETWEEN CULTURES, 9E** equips readers with a deep understanding and appreciation of different cultures while helping them develop practical communication skills. Part I introduces the study of communication and culture; Part II focuses on the ability of culture to shape and modify our view of reality; Part III puts the theory of intercultural communication into practice; and Part IV converts knowledge into action. This is the only text to consistently emphasize religion and history as key variables in intercultural communication. Compelling examples help readers examine their own assumptions, perceptions, and cultural biases--so they can understand the subtle and profound ways culture affects communication. The ninth edition offers expanded discussions of the impact of globalization, a new chapter on intercultural communication competence, and more coverage of new technology. **Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.** **Cultural Anthropology: 101** \[Routledge\]\(#\) This concise and accessible introduction establishes the relevance of cultural anthropology for the modern world through an integrated, ethnographically informed approach. Use bundle ISBN: 978-1-5443-7687-5 Enterprise as an Instrument of Civilization An Anthropological Approach to Business Administration Springer In this book, the functions and dynamics of enterprises are explained with the use of anthropological methods. The chapters are based on anthropological research that has continued mainly as an inter-university research project, which is named Keiei Jinruigaku, of the National Museum of Ethnology (Japan) since 1993. These studies have a twofold aim: to clarify that enterprises are not only actors in economic activity but also actors that create culture and civilization; and to find the *raison d'être* of enterprises in a global society. Business anthropology is an approach to the investigation of various phenomena in enterprises and management using anthropological methodology (e.g., participant observations and interviews). Historically, its origin goes back to the 1920s-30s. In the Hawthorne experiments, the research group organized by Elton Mayo recruited an anthropologist, Lloyd W. Warner, and conducted research on human relations in the workplace by observation of participants. Since then, similar studies have been carried out in the United States and the United Kingdom. In Japan, however, such research is quite rare. Now, in addition to anthropological methods, the authors have employed multidisciplinary methods drawn from management, economics, and sociology. The research contained here can be characterized in these ways: (1) Research methods adopt interpretative approaches such as hermeneutic and/or narrative approaches rather than causal and functional explanations such as "cause-consequence" relationships. (2) Multidisciplinary approaches including qualitative research techniques are employed to investigate the total entity of enterprises, with their own cosmology. In this book, the totality of activities by enterprises are shown, including the relationship between religion and enterprise, corporate funerals, corporate museums, and the sacred space and/or mythology of enterprises. Part I provides introductions to Keiei Jinruigaku and Part II explains the theoretical characteristics of Keiei Jinruigaku. In addition, research topics and cases of Keiei Jinruigaku are presented in Part III. The Real World Guide to Fashion Selling and Management A&C Black Provides the kind of examples and information that lead to success in the fashion retail world, including the characteristics of great salespeople, using digital and social media, and adapting to change in the fashion marketplace. Forgotten Agricultural Heritage Reconnecting food systems and sustainable development Taylor & Francis Contemporary agriculture is often criticized for its industrial scale, adverse effects on nutrition, rural employment and the environment, and its disconnectedness from nature and culture. Yet there are many examples of traditional smaller scale systems that have survived the test of time and provide more sustainable solutions while still maintaining food security in an era of climate change. This book provides a unique compilation of this forgotten agricultural heritage and is based on objective scientific evaluation and evidence of the value of these systems for present and future generations. The authors refer to many of these systems as Globally Important Agricultural Heritage Systems (GIAHS) and show how they are related to the concepts of heritage and the World Heritage Convention. They demonstrate how GIAHS based on family farms, traditional indigenous knowledge and agroecological principles can contribute to food and nutrition security and the maintenance of agro-biodiversity and environmental resilience, as well as sustain local cultures, economies and societies. Two substantial chapters are devoted to descriptions and assessments of some 50 examples of designated and potential GIAHS from around the world, including rice-fish culture in China, mountain terrace systems in Asia, coffee agroforestry in Latin America, irrigation systems and land and water management in Iran and India, pastoralism in East Africa, and the dehesa agrosilvopastoral system of Spain and Portugal. The book concludes by providing policy and technical solutions for sustainable agriculture and rural development through the enhancement of these systems. The Meanings of Macho Being a Man in Mexico City Univ of California Press Praise for the first edition: "Gutmann has done the hithertofore seemingly unthinkable. [A] wholly other vision of Mexican gender relations emerges."—José Limón, American Anthropologist "This book does for the study of men what two generations of feminist anthropologists have done for the study of women."—Lynn Stephen, author of Zapotec Women A Cosmopolitan Jurisprudence Essays in Memory of H. Patrick Glenn Cambridge University Press H. Patrick Glenn (1940–2014), Professor of Law and former Director of the Institute of Comparative Law at McGill University, was a key figure in the global discourse on comparative law. This collection is intended to honor Professor Glenn's intellectual legacy by engaging critically with his ideas, especially focusing on his visions of a 'cosmopolitan state' and of law conceptualized as 'tradition'. The book explores the intellectual history of comparative law as a discipline, its attempts to push the objects of its study beyond the positive law of the nation-state, and both its potential and the challenges it must confront in the face of the complex phenomena of globalization and the internationalization of law. An international group of leading scholars in comparative law, legal philosophy, legal sociology, and legal history takes stock of the field of comparative law and where it is headed. Martyrdom, Self-sacrifice, and Self-immolation Religious Perspectives on Suicide Oxford University Press Suicide in the forms of martyrdom, self-sacrifice, or self-immolation is perennially controversial: Should it rightly be termed suicide? Does religion sanction it? Should it be celebrated or anathematized? At least some idealization of such self-chosen deaths is found in every religious tradition treated in this volume, from ascetic heroes who conquer their passions to save others by dying, to righteous warriors who suffer and die valiantly while challenging the status quo. At the same time, there are persistent disputes about the concepts used to justify these deaths, such as altruism, heroism, and religion itself. In this volume, renowned scholars bring their literary and historical expertise to bear on the contested issue of religiously sanctioned suicide. Three examine contemporary movements with disputed classical roots, while eleven look at classical religious literatures which variously laud and disparage figures who invite self-harm to the point of death. Overall, the volume offers an important scholarly corrective to the axiom that religious traditions simply and always embrace life at any cost. Race, Monogamy, and Other Lies They Told You Busting Myths about Human Nature Univ of California Press There are three major myths of human nature: humans are divided into biological races; humans are naturally aggressive; and men and women are truly different in behavior, desires, and wiring. In an engaging and wide-ranging narrative, Agustín Fuentes counters these pervasive and pernicious myths about human behavior. Tackling misconceptions about what race, aggression, and sex really mean for humans, Fuentes incorporates an accessible understanding of culture, genetics, and evolution, requiring us to dispose of notions of "nature or nurture." Presenting scientific evidence from diverse fields—including anthropology, biology, and psychology—Fuentes devises a myth-busting toolkit to dismantle persistent fallacies about the validity of biological races, the innateness of aggression and violence, and the nature of monogamy and differences between the sexes. A final chapter plus an appendix provide a set of take-home points on how readers can myth-bust on their own. Accessible, compelling, and original, this book is a rich and nuanced account of how nature, culture, experience, and choice interact to influence human behavior. The Gift of a Bride A Tale of Anthropology, Matrimony and Murder Rowman Altamira This ethnographically based murder mystery, set in an Indian immigrant community in New York City, uses the main principles of cultural anthropology and ethnographic method to explore a wide range of cultural conflicts. Central themes of gender inequality, violence against women, and immigrant adaptation to American life are revealed through authentically drawn characters and a tightly woven plot. Power-driven egos, workplace harassment, hostile neighbors, and financial desperation drive the suspense in this exciting novel. The book is invaluable for those who want to understand the German economy and its financial system, promising not only a compilation of facts and statistics on Germany's financial markets and institutions, but also an analysis of its current structure and the determinants of its future development. An Anthropology of Anthropology Is It Time to Shift Paradigms The book uses anthropological methods and insights to study the practice of anthropology. It calls for a paradigm shift, away from the publication treadmill, toward a more profile-raising paradigm that focuses on addressing a broad array of social concerns in meaningful ways. Ideology and Identity The Changing Party Systems of India [Oxford University Press](#) Indian party politics, commonly viewed as chaotic, clientelistic, and corrupt, is nevertheless a model for deepening democracy and accommodating diversity. Historically, though, observers have argued that Indian politics is non-ideological in nature. In contrast, Pradeep Chhibber and Rahul Verma contend that the Western European paradigm of "ideology" is not applicable to many contemporary multiethnic countries. In these more diverse states, the most important ideological debates center on statism—the extent to which the state should dominate and regulate society—and recognition—whether and how the state should accommodate various marginalized groups and protect minority rights from majorities. Using survey data from the Indian National Election Studies and evidence from the Constituent Assembly debates, they show how education, the media, and religious practice transmit the competing ideas that lie at the heart of ideological debates in India. Sinister Yogis [University of Chicago Press](#) Since the 1960s, yoga has become a billion-dollar industry in the West, attracting housewives and hipsters, New Agers and the old-aged. But our modern conception of yoga derives much from nineteenth-century European spirituality, and the true story of yoga's origins in South Asia is far richer, stranger, and more entertaining than most of us realize. To uncover this history, David Gordon White focuses on yoga's practitioners. Combing through millennia of South Asia's vast and diverse literature, he discovers that yogis are usually portrayed as wonder-workers or sorcerers who use their dangerous supernatural abilities—which can include raising the dead, possession, and levitation—to acquire power, wealth, and sexual gratification. As White shows, even those yogis who aren't downright villainous bear little resemblance to Western assumptions about them. At turns rollicking and sophisticated, Sinister Yogis tears down the image of yogis as detached, contemplative teachers, finally placing them in their proper context. Offering Flowers, Feeding Skulls Popular Goddess Worship in West Bengal [Oxford University Press](#) The Indian state of West Bengal is home to one of the world's most vibrant traditions of goddess worship. The year's biggest holidays are devoted to the goddesses Durga and Kali, with lavish rituals, decorated statues, fireworks, and parades. In Offering Flowers, Feeding Skulls, June McDaniel provides a broad, accessibly written overview of Bengali goddess worship. McDaniel identifies three major forms of goddess worship, and examines each through its myths, folklore, songs, rituals, sacred texts, and practitioners. In the folk/tribal strand, which is found in rural areas, local tribal goddesses are worshipped alongside Hindu goddesses, with an emphasis on possession, healing, and animism. The tantric/yogic strand focuses on ritual, meditation, and visualization as ways of experiencing the power of the goddess directly. The devotional or bhakti strand, which is the most popular form, involves the intense love and worship of a particular form of the goddess. McDaniel traces these strands through Bengali culture and explores how they are interwoven with each other as well as with other forms of Hinduism. She also discusses how these practices have been reinterpreted in the West, where goddess worship has gained the values of sexual freedom and psychological healing, but lost its emphases on devotion and asceticism. Offering Flowers, Feeding Skulls takes the reader inside the lives of practicing Shaktas, including holy women, hymn singers, philosophers, visionaries, gurus, ascetics, healers, musicians, and businessmen, and offers vivid descriptions of their rituals, practices, and daily lives. Drawing on years of fieldwork and extensive research, McDaniel paints a rich, expansive portrait of this fascinating religious tradition. Political Anthropology An Introduction [ABC-CLIO](#) Standard text for teachers and students of political anthropology.
