Curbside Consultation in Glaucoma

49 Clinical Questions

SLACK Incorporated Are you looking for concise, practical answers to those questions that are often left unanswered by traditional glaucoma references? Are you seeking brief, evidence-based advice for common clinical dilemmas? Curbside Consultation in Glaucoma: 49 Clinical Questions provides quick and direct answers to the thorny questions most commonly posed during a "curbside consultation" between glaucoma specialists. Dr. Dale K. Heuer, and associate editors Dr. Steven J. Gedde and Dr. Richard Lewis, have designed this unique reference in which top glaucoma specialists offer expert advice, preferences, and opinions on tough clinical questions commonly associated with the day-to-day diagnosis and care of glaucoma patients. The unique Q&A format provides quick access to current information related to glaucoma with the simplicity of a conversation between two colleagues. Numerous images, diagrams, and references are included to enhance the text and to illustrate glaucoma pearls. Curbside Consultation in Glaucoma: 49 Clinical Questions provides information basic enough for residents while also incorporating expert pearls that even high-volume glaucoma specialists will appreciate. General practitioners, residents, fellows, and optometrists alike will benefit from the user-friendly and casual format and the expert advice contained within. Some of the questions that are answered: • Which imaging device should I use in my practice? • How should I set a target intraocular pressure? • What is "maximum medical therapy" for glaucoma now? • Which glaucoma medications may be used safely during pregnancy? In children? • Is selective laser trabeculoplasty better than argon or diode laser trabeculoplasty? • Which of the new incisional surgical alternatives to trabeculectomy should I consider for my patients? In what clinical settings should I consider them? • In which patients with glaucoma and cataract should I perform a combined procedure? Cataract surgery alone? Trabeculectomy first?

Curbside Consultation in Glaucoma

49 Clinical Questions

Curbside Consultation in Cataract Surgery

49 Clinical Questions

SLACK Incorporated Are you looking for concise, practical answers to those questions that are often left unanswered by traditional cataract surgery references? Are you seeking brief, evidence-based advice for complicated cases or complications? Curbside Consultation in Cataract Surgery: 49 Clinical Questions provides quick and direct answers to the thorny questions most commonly posed during a "curbside consultation" between surgical colleagues. Dr. David F. Chang, and associate editors Dr. Terry Kim and Dr. Thomas A. Oetting, have designed this unique reference in which 49 of the top cataract consultants in North America offer expert advice, preferences, and opinions on tough clinical questions commonly associated with cataract surgery. The unique Q&A format provides quick access to current information related to cataract surgery with the simplicity of a conversation between two colleagues. Numerous images, diagrams, and references are included to enhance the text and to illustrate surgical pearls. Curbside Consultation in Cataract Surgery: 49 Clinical Questions provides information basic enough for residents while also incorporating expert pearls that even high-volume cataract surgeons will appreciate. General ophthalmologists, residents, and cataract specialists alike will benefit from the user-friendly and casual format and the expert advice contained within. Some of the questions that are answered: • What is the best way to manage IFIS? • What should I do differently with a posterior polar cataract? • When and how do I stain the vitreous with intracameral Kenalog? • How do you explant an IOL 6 months following surgery? • Can I mix different multifocal IOLs, or multifocal with monofocal IOLs?

Curbside Consultation in Neuro-ophthalmology

49 Clinical Questions

SLACK Incorporated Are you looking for concise, practical answers to those questions that are often left unanswered by traditional texts and references in neuro-ophthalmology? Are you seeking brief, evidence-based advice for common clinical dilemmas or complications? Curbside Consultation in Neuro-Ophthalmology: 49 Clinical Questions provides quick and direct answers to the thorny questions most commonly posed during a "curbside consultation" between neuro-ophthalmologists. Dr. Andrew G. Lee, and associate editors Dr. Paul W. Brazis and Dr. Lanning B. Kline, have designed this unique reference in which neuro-ophthalmologists offer expert advice, preferences, and opinions on tough clinical questions commonly associated with neuro-ophthalmology. The unique Q&A format provides quick access to current information related to neuro-ophthalmology with the simplicity of a conversation between two colleagues. Images, diagrams, and references are included to enhance the text and to illustrate common clinical dilemmas. Curbside Consultation in Neuro-Ophthalmology: 49 Clinical Questions provides information basic enough for residents while also incorporating expert pearls that even high-volume ophthalmologists will appreciate. Residents, fellows, and practicing physicians alike will benefit from the user-friendly and casual format and the expert advice contained within. Some of the questions that are answered: • What is the best way to manage papilledema? • What treatments are there for traumatic optic neuropathy? • When and how do I order an imaging study in neuro-ophthalmology? • What is the work-up for anterior ischemic optic neuropathy? • What evaluation is necessary for an isolated ocular motor cranial neuropathy?

Curbside Consultation in Uveitis

49 Clinical Questions

SLACK Incorporated Uveitis specialists offer expert advice, preferences, and opinions on tough clinical questions commonly encountered by ophthalmologists, residents, and other health care professionals. The unique Q&A format provides quick access to current information related to uveitis with the simplicity of a conversation between two colleagues. Images, diagrams, and references are included to enhance the text and to illustrate clinical diagnoses and treatment plans.

Curbside Consultation in Retina

49 Clinical Questions

SLACK Incorporated Are you looking for concise, practical answers to those questions that are often left unanswered by traditional references of the retina? Are you seeking brief, evidence-based advice for the daily examination of patients? Curbside Consultation in Retina: 49 Clinical Questions provides quick and direct answers to questions most commonly posed during a "curbside consultation" between experienced clinicians. Dr. Sharon Fekrat, along with co-editors Drs. Darius Moshfeghi and Dean Elliott, have designed this unique reference that offers expert advice, preferences, and opinions on a variety of clinical questions commonly associated with the retina. The unique Q&A format provides quick access to current information related to the retina with the simplicity of a conversation between two colleagues. Images and references are included to enhance the text and to illustrate clinical diagnoses. Curbside Consultation in Retina: 49 Clinical Questions provides information basic enough for residents while also incorporating expert pearls that even high-volume ophthalmologists and specialists will appreciate. Optometrists, ophthalmologists, ophthalmologists-in-training, and even retina specialists will benefit from the user-friendly and casual format and the expert advice contained within. Some of the questions that are answered: • What is the treatment paradigm for postop CME? • How do I follow a patient who is pregnant and also has diabetes? • How should I counsel my patients with dry AMD and what-about various vitamin supplements? • What systemic medications require periodic fundus evaluation, what do I look for and what tests do I do? • How can I differentiate all of those white dot syndromes?

Curbside Consultation in Oculoplastics

49 Clinical Questions

SLACK Incorporated Are you looking for concise, practical answers to those questions that are often left unanswered by traditional texts and references in oculoplastics? Are you seeking brief, evidence-based advice for common clinical dilemmas or complications? Curbside Consultation in Oculoplastics: 49 Clinical Questions provides quick and direct answers to the thorny questions most commonly posed during a "curbside consultation" between experienced clinicians. Dr. Robert C. Kersten and Dr. Timothy J. McCulley, have designed this unique reference in which oculoplastic specialists offer expert advice, preferences, and opinions on tough clinical questions commonly associated with oculoplastics. The unique Q&A format provides quick access to current information related to oculoplastics with the simplicity of a conversation between two colleagues. Images, diagrams, and references are included to enhance the text and to illustrate common clinical dilemmas. Curbside Consultation in Oculoplastics: 49 Clinical Questions provides information basic enough for residents while also incorporating expert pearls that even high-volume ophthalmologists will appreciate. Residents, fellows, and practicing physicians alike will benefit from the user-friendly and casual format and the expert advice contained within. Some of the questions that are answered: • What do I do when a patient on anti-coagulants needs surgery? • When does an eyelid lesion need to be biopsied? • What are the general treatment guidelines for Graves' ophthalmopathy? • How should I treat bacterial orbital cellulitis? • How do you distinguish an orbital infection from sterile inflammation? • When should I be concerned about systemic disease in a patient with blepharoptosis? • What are the oculoplastic uses of botulinum toxin? • How do I know when to order an MRI or a CT?

Essentials of Ophthalmic Oncology

SLACK Incorporated The first edition of this text offers guidance and advice on the diagnosis and management of the complete spectrum of ophthalmic tumors, including the eyelid, conjunctival, intraocular, and orbital tumors. The editors are joined by over 120 international contributors to present a broad perspective from a multidisciplinary team that will offer a diverse and balanced view of ophthalmic oncology clinical practice. This is a comprehensive book that includes over 100 chapters, organized into 7 sections that provide a wealth of information for the management of patients with ophthalmic tumors from examination techniques to classification to surgical techniques.

Cornea and Refractive Atlas of Clinical Wisdom

SLACK Incorporated Cornea and Refractive Atlas of Clinical Wisdom is a collection of experiences by multiple leaders in the field of corneal and refractive surgery. This one of a kind book opens the window to these observations, many of which have never been published before. Now, you too, can have information that has only been passed along in the confines of clinics and lecture halls of ophthalmology top leaders. Cornea and Refractive Atlas of Clinical Wisdom, edited by Dr. Samir A. Melki, gathers unique observations that over 55 experienced eye surgeons have learned in their daily treatment of patients. It is a condensed summary of diagnostic pearls acquired through the years from personal experience or from interactions with other colleagues and is mainly oriented toward diagnosis and medical management rather than surgery. Full color images are used to reinforce the presented information gathered within this invaluable book. Features Include: • Practical tips opposed to the theoretical aspects of the disease • Diagnostic and medical treatment and surgical pearls • Anecdotal experience that has been proven correct over the years vs. the type of information that is awaited for from a large clinical trial • Full color images Topics Include: • Diagnostic techniques of the cornea and anterior segment • Infectious diseases of the cornea • Inflammatory disorders of the cornea and ocular surface • Dystrophic corneal disease and corneal transplantation • Refractive surgery complications and their management All ophthalmologists, regardless of level of experience, will have an interest in the author's unique observations gathered inside Cornea and Refractive Atlas of Clinical Wisdom.

Manual of Oculoplastic Surgery

SLACK Incorporated Each procedure includes a review of the surgical anatomy, step-by-step instructions, and accompanying illustrations---over 500 throughout the text! --

DSEK

What You Need to Know about Endothelial Keratoplasty

SLACK Incorporated "DSEK: What You Need to Know About Endothelial Keratoplasty provides a comprehensive background of EK, where it is today, and where it is headed in the future. Francis W. Price, MD, who was the first to complete DSEK in the United States, along with Marianne Price, PhD, have designed this text to offer a special emphasis on how to perform surgeries along with preventing and managing complications. In addition, a diverse group of contributing authors provides a wide array of insights and tips for better patient outcomes."--BOOK JACKET.

Medical Management of Glaucoma

Professional Communications The focus of the text is the assessment and pharmacologic treatment of primary open-angle glaucoma. Detailed information on the various medications used is presented, along with a detailed treatment algorithm. Results and clinical implications of landmark glaucoma studies and comparative clinical trials are reviewed, with the importance of 24-hour control of intraocular pressure stressed. Brief chapters also review abnormal cornea, iris, lens, anterior chamber and angle, and the medical management of complications of laser and glaucoma surgery.

Primary Eye Examination

A Comprehensive Guide to Diagnosis

Springer This book is a comprehensive, in-depth, and up-to-date resource on eye examination that will be of great practical value for ophthalmologists and optometrists. The aim is to guide the practitioner through the diagnostic process and the implications for management of the ocular patient, and in so doing to demonstrate that it is possible to reach appropriate decisions on the basis of eye examination. Every year, existing ocular equipment is being upgraded and new diagnostic equipment is appearing on the market. This book reflects recent progress in upgrading by providing information and guidance on the latest innovations in ocular examination and eye testing while also highlighting the continuing important role of the traditional eye test. The coverage accordingly ranges from such long-established techniques as ophthalmoscopy, tonometry, and slit lamp examination through to the latest advances in OCT technologies, digital fundus photography, confocal scanning laser ophthalmoscopy, ocular ultrasound, and angiography. The authors hope that the book will assist all practitioners who perform ophthalmologic examinations.

Curbside Consultation in Cataract Surgery

49 Clinical Questions

Slack Incorporated "Curbside Consultation in Cataract Surgery, Second Edition contains new questions and brief, practical, and evidence-based answers to the most frequently asked questions that are posed during a "curbside consultation" between surgical colleagues. Curbside Consultation in Cataract Surgery: 49 Clinical Questions, Second Edition provides information basic enough for residents while also incorporating expert pearls that even experienced cataract surgeons will appreciate. General ophthalmologists, residents, and cataract specialists alike will benefit from the user-friendly and casual format as well as the expert advice contained within"--Provided by publisher.

Journal of Refractive Surgery

Curbside Consultation in Cornea and External Disease

49 Clinical Questions

SLACK Incorporated Are you looking for concise, practical answers to those questions that are often left unanswered by traditional references on cornea and external diseases? Are you seeking brief, evidence-based advice for the daily examination of patients? Curbside Consultation in Cornea and External Disease: 49 Clinical Questions provides quick and direct answers to the thorny questions most commonly posed during a "curbside consultation" between experienced clinicians. Dr. Frank Price Jr., joined by associate editors Dr. Marianne Price and Dr. Erik Letko, have designed this unique reference in which cornea and external disease specialists offer expert advice, preferences, and opinions on tough clinical questions commonly encountered by ophthalmologists, residents, and other health care professionals. The unique Q&A format provides quick access to current information related to cornea and external diseases with the simplicity of a conversation between two colleagues. Images, diagrams, and references are included to enhance the text and to illustrate clinical diagnoses and treatment plans. Curbside Consultation in Cornea and External Disease: 49 Clinical Questions provides information basic enough for residents while also incorporating expert pearls that even high-volume ophthalmologists will appreciate. Refractive surgeons, general ophthalmologists, and residents alike will enjoy the user-friendly and casual format. Some of the questions that are answered: - A patient presents with corneal ulcer. What work-up and treatment would you recommend? o As answered by three different specialists in the USA, Europe, and India. - What should I do for a patient who presents with 6-D astigmatism after undergoing penetrating keratoplasty 4 months ago? - A 63-year-old male complaining of blurry vision has 360-degree peripheral corneal stromal thinning and conjunctivalization and moderate cataract in both eyes. Does he need surgery? - A piece of glass flew into my patient's eye. The exam

shows central corneal perforation - A 67-year-old female complains of constant eye irritation. The exam shows conjunctivochalasis of the lower bulbar conjunctiva. Should I excise the redundant conjunctiva? - I have a general ophthalmology practice in a remote area. When should I consider doing corneal cultures?"

Book Review Index 2009

Cumulation

Book Review Index Cumulation Book Review Index provides quick access to reviews of books, periodicals, books on tape and electronic media representing a wide range of popular, academic and professional interests. The up-to-date coverage, wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool. More than 600 publications are indexed, including journals and national general interest publications and newspapers. Book Review Index is available in a three-issue subscription covering the current year or as an annual cumulation covering the past year.

Curbside Consultation in IBD

49 Clinical Questions

SLACK Incorporated Are you looking for concise, practical answers to questions that are often left unanswered by traditional IBD references? Are you seeking brief, evidence-based advice for complicated cases or complications? Curbside Consultation in IBD: 49 Clinical Questions provides quick and direct answers to the thorny questions commonly posed during a "curbside consultation" between colleagues. Dr. David Rubin, Dr. Sonia Friedman and Dr. Francis A. Farraye have designed this unique reference, which offers expert advice, preferences, and opinions on tough clinical questions commonly associated with IBD. The unique Q&A format provides quick access to current information related to IBD with the simplicity of a conversation between two colleagues. Numerous images, diagrams, and references are included to enhance the text and to illustrate IBD. Curbside Consultation in IBD: 49 Clinical Questions provides information that high-volume clinicians will appreciate, and yet is basic enough for residents. Gastroenterologists, fellows and residents in training, surgical attendings, and surgical residents will benefit from the user-friendly and casual format and the expert advice contained within. Some of the questions that are answered: • Which patients might be better for a "top down" approach (using anti-TNF therapy before steroids or proven failure of oral thiopurines)? What clinical behavior or serological markers might you use to identify these patients? • When is it appropriate to switch to another biologic therapy? • Should I be using chromoendoscopy in my surveillance colonoscopy in IBD? How and which agent? Would narrow band imaging be an alternative for this? • Can we follow flat low-grade dysplasia? Is any dysplasia really flat or just a spectrum of depth and size? • If women continue infliximab therapy during pregnancy, what are the implications for the baby? What should we be telling our patients about vaccinations?

The Cardiovascular System: The heart

Questions and Answers in Neuro-ophthalmology

A Case-Based Approach

World Scientific Publishing Company The book presents the most common problems seen in neuro-ophthalmology in a case-based learning format that provides rapid access and is easy to read. The user friendly format guides and stimulates the reader to identify the distinctive symptoms in the main complaint and history; to define the differentiating signs on neuro-ophthalmic exam; and to describe the key laboratory or neuroimaging in specific entities. It also challenges the reader to ask additional questions of themselves and others by providing an initial set of questions and answers on specific neuro-ophthalmologic topics. The questions chosen are meant to simulate "real world" questions in the clinic; the answers given serve to provide both the rationale for the correct answer and the explanations or reasons for the incorrect but plausible answers that might distract or mislead a clinician in specific neuro-ophthalmic cases. Medical Secrets E-Book

Elsevier Health Sciences For more than 30 years, the highly regarded Secrets Series® has provided students and practitioners in all areas of health care with concise, focused, and engaging resources for quick reference and exam review. Medical Secrets, 6th Edition, features the Secrets' popular question-and-answer format that also includes lists, tables, pearls, memory aids, and an easy-to-read style - making inquiry, reference, and review quick, easy, and enjoyable. The proven Secrets Series® format gives you the most return for your time - succinct, easy to read, engaging, and highly effective. Coverage includes the full range of essential topics in medicine for in-training and practicing professionals, authored by a diverse range of teachers and clinicians who cover both medical and ethical issues. Fully revised and updated throughout, including protocols and guidelines that are continuously evolving and that increasingly dictate best practices. Top 100 Secrets and Key Points boxes provide a fast overview of the secrets you must know for success in practice and on exams.

The British National Bibliography

Mastering Refractive IOLs

The Art and Science

SLACK Incorporated The IOL technical specifications, the clinical data, and the necessary clinical and surgical skills comprise the scientific foundation for achieving a "premium" refractive outcome. To consistently achieve patient satisfaction, however, requires mastering the art of patient and IOL selection, communicating and counseling effectively, and providing a "premium" patient experience. This is a nontraditional book in which multiple experts are separately asked to discuss controversial subjects in a reader-friendly format. There is balanced coverage of all of the available refractive IOLs, as well as those that may become available in the near future. A major emphasis is placed on avoiding and managing complications or potentially dissatisfied patients. There are more than 200 chapters that are organized into 14 major sections, over 300 images, 100 tables, and 12 sidebars that cover every aspect of refractive IOL clinical practice. This is a comprehensive educational resource addressing the most demanding and rapidly evolving area in cataract and refractive surgery today and the first book to cover both the clinical and nonclinical aspects of offering refractive IOL services.

Developing Clinical Competence

A Workbook for the Ota

Slack Developing Clinical Competence: A Workbook for the OTA helps occupational therapy assistant (OTA) students and novice practitioners develop the "practical" problem-solving and "real-life" skills essential for fieldwork and clinical practice. This user-friendly text helps the reader apply occupational therapy concepts and improve the clinical reasoning skills needed for academic coursework and successful transition to fieldwork and entry-level clinical practice. The methods, learning activities, and worksheets presented in Developing Clinical Competence stem from Marie J. Morreale's more than 15 years of experience teaching OTA students. Worksheets and learning activities address areas such as professionalism, ethical behavior, clinical decision making, effective communication, roles and responsibilities, selecting and implementing interventions, safety, assessing client function, documentation, group process, and more. The worksheets, learning activities, and suggested worksheet answers are written in an easy-to-read format and include a variety of methods such as multiple choice, matching, and true/false questions; case studies; vignettes; fill in the blanks; and experiential activities. Although the chapters and exercises are presented in a logical progression, each chapter is fully independent of the others - readers can skip around and complete individual chapters or particular exercises in the order most conducive to individual learning needs. Appropriate for a variety of practice areas, Developing Clinical Competence can serve as a companion text for multiple classes throughout an OTA curriculum or as a useful study aid when preparing for fieldwork or the national certification exam. Instructors in educational settings can visit www.efacultylounge.com for additional materials to be used for teaching in the classroom. Features and benefits: • Helps develop the practical problem-solving and common-sense skills essential for fieldwork and clinical practice • Contains user-friendly worksheets, learning activities, and suggested worksheet answers with competencies broken down into smaller units and explained step-by-step to allow for easy independent study • Provides thoroughly explained "answers" to the worksheet exercises at the end of each chapter with references • Presents scenarios that represent situations commonly encountered in clinical practice • Includes many helpful hints and clinical tips to teach readers what to do and how to react appropriately as health professionals OTA students, faculty, and new practitioners will benefit from the opportunity to take the information presented in Developing Clinical Competence: A Workbook for the OTA and apply important concepts and techniques, problem solve situations step-by-step, prioritize interventions, improve clinical reasoning, demonstrate professional behaviors, and communicate more effectively.

Mastering Iris Repair

A Video Textbook of Iris Repair and Pupiloplasty Techniques

Slack The first of its kind on this topic, Mastering Iris Repair: A Video Textbook of Iris Repair and Pupiloplasty Techniques combines practical explanations with dynamic surgical videos and animations, perfect for specialists as well as general ophthalmologists. Together with top surgical experts, Drs. Amar Agarwal, Ashvin Agarwal, and Priya Narang have created an accessible text filled with high-yield

information that provides essential coverage of the most recent innovations in iris repair. With appeal for subspecialty areas such as cornea, glaucoma, cataract, and retina, this book identifies abnormalities that are regular challenges for the ocular surgeon. Over 200 figures are accompanied by more than four hours of new, original instructional video and animation with narration. Mastering Iris Repair is divided into three sections to provide quick access in a comprehensive resource: Iris repair techniques: including single pass 4 throw pupilloplasty, McCannels and Siepser's suturing techniques, different types of sutures, and repair management Special topics: pinhole pupilloplasty, pupilloplasty in special indications, iris prosthesis, and complications of iris repair and pupilloplasty Extended implications of iris and pupil repair: iris cosmetics devices, how devices manipulate iris tissue, and IOLs affected by iris repair techniques Abundantly referenced and supplemented by evidence-based cases, Mastering Iris Repair: A Video Textbook of Iris Repair and Pupilloplasty Techniques enhances surgical potential for all ophthalmologists.

Optical Coherence Tomography of Ocular Diseases

Slack "Optical Coherence Tomography of Ocular Diseases, Fourth Edition covers a range of subjects, from principles and operation techniques to clinical interpretation and the latest innovations in OCT. This book is an essential text for imaging technology. OCT now occupies a dominant role as a diagnostic tool for retinal conditions and glaucoma. At the same time, the technology continues to show potential for emerging clinical and research applications across all the ophthalmological subspecialties. To reflect these rapid advances, this new edition of Optical Coherence Tomography of Ocular Diseases features a complete and thorough revision of the existing text as well as the addition of cutting-edge content to bring this classic resource completely up to date"--

Angle Closure and Angle Closure Glaucoma

Reports and Consensus Statements of the 3rd Global AIGS Consensus Meeting on Angle Closure Glaucoma

Kugler Publications This is the third glaucoma consensus held under the auspices of the AIGS. It is anticipated that the discussions and conclusions from this consensus will impact care of patients with Angle Closure and Angle Closure Glaucoma significantly. As with the previous consensus meetings on Glaucoma Diagnosis and Open Angle Glaucoma Surgery, the consensus reports were developed over several months in an interactive internet system. The Consensus faculty, consisting of leading authorities on Angle Closure from throughout the world, met in Fort Lauderdale on May 3, 2006 to discuss the reports and refine t.

Cosmetic and Clinical Applications of Botox and Dermal Fillers

SLACK Incorporated This text is for anyone interested in the use of Botox and dermal filler agents for a wide variety of functional and minimally invasive facial rejuvenation procedures. The storage, reconstitution, and mechanism of action of botulinum toxin or Botox are all thoroughly explained. A thorough analysis is provided detailing the underlying facial muscle anatomy that is required and how physicians can integrate this procedure into their current practice. An additional section is also included detailing injectable filler agents, a more effective form of treatment for lines that are present at rest. As the demand for less invasive facial rejuvenation products and treatments continue to increase, Botox injections are emerging as the popular choice. While the initial public reaction was guarded, the procedure is now common, as millions of individuals around the world are pursuing the cosmetic application of Botox for wrinkle reduction. The text utilizes a "how to" approach in teaching the ways Botox can remedy many functional disorders and conditions.

Climate Change and Cities

Second Assessment Report of the Urban Climate Change Research Network

Cambridge University Press The Urban Climate Change Research Network's Second Assessment Report on Climate Change in Cities (ARC3.2) is the second in a series of global, science-based reports to examine climate risk, adaptation, and mitigation efforts in cities. The book explicitly seeks to explore the implications of changing climatic conditions on critical urban physical and social infrastructure sectors and intersectoral concerns. The primary purpose of ARC3.2 is to inform the development and implementation of effective urban climate change policies, leveraging ongoing and planned investments for populations in cities of developing, emerging, and developed countries. This volume, like its predecessor, will be invaluable for a range of audiences involved with climate change and cities: mayors, city officials and policymakers; urban planners; policymakers charged with developing climate change mitigation and adaptation programs; and a broad spectrum of researchers and advanced students in the environmental sciences.

Pet-Specific Care for the Veterinary Team

John Wiley & Sons A practical guide to identifying risks in veterinary patients and tailoring their care accordingly Pet-specific care refers to a practice philosophy that seeks to proactively provide veterinary care to animals throughout their lives, aiming to keep pets healthy and treat them effectively when disease occurs. Pet-Specific Care for the Veterinary Team offers a practical guide for putting the principles of pet-specific care into action. Using this approach, the veterinary team will identify risks to an individual animal, based on their particular circumstances, and respond to these risks with a program of prevention, early detection, and treatment to improve health outcomes in pets and the satisfaction of their owners. The book combines information on medicine and management, presenting specific guidelines for appropriate medical interventions and material on how to improve the financial health of a veterinary practice in the process. Comprehensive in scope, and with expert contributors from around the world, the book covers pet-specific care prospects, hereditary and non-hereditary considerations, customer service implications, hospital and hospital team roles, and practice management aspects of pet-specific care. It also reviews specific risk factors and explains how to use these factors to determine an action plan for veterinary care. This important book: Offers clinical guidance for accurately assessing risks for each patient Shows how to tailor veterinary care to address a patient's specific risk factors Emphasizes prevention, early detection, and treatment Improves treatment outcomes and provides solutions to keep pets healthy and well Written for veterinarians, technicians and nurses, managers, and customer service representatives, Pet-Specific Care for the Veterinary Team offers a hands-on guide to taking a veterinary practice to the next level of care.

The Ganja Complex

Rastafari and Marijuana

Lexington Books In 2000, Hamid (anthropology, John Jay College of Criminal Justice, New York) made additions and revisions to his 1980s doctoral dissertation for Columbia University. He examines the plant cannabis, or marijuana, its 5,000-year-use as a magical herb, its use specifically among Caribbeans at home and in New York City and the economics of that use, and social science perspectives on claims made about it by both supporters and opponents. Annotation copyrighted by Book News, Inc., Portland, OR.

Perioperative Medicine

Springer Science & Business Media Perioperative Medicine uses a concise, highly practical, bulleted format designed to ensure rapid comprehension of key concepts and reinforce the reader's understanding of complex topics in perioperative medicine. It contains authoritative, up-to-date coverage of the most essential concepts in perioperative care from preoperative risk assessment to postoperative follow-up. The Editor and his contributors use their expert insight and experience to provide an in-depth review of comorbid conditions, patient and surgery-specific risk assessment, and common postoperative complications. This new book reviews recent developments in the field, including published guidelines, and emphasizes an evidence-based, cost-effective approach designed to ensure quality, patient safety, and optimal outcomes. It is intended for use by hospitalists, general internists and subspecialists as well as anesthesiologists, surgeons, and residents in training who are caring for patients before and after surgery.

Curbside Consultation of the Spine

49 Clinical Questions

SLACK Incorporated Dr. Kern Singh has designed this unique reference which offers expert advice, preferences, and opinions on tough clinical questions commonly associated with the spine. the unique Q and A format provides quick access to current information related to the spine with the simplicity of a conversation between two colleagues. Numerous images, diagrams, and references allow readers to browse large amounts of information in an expedited fashion.

Curbside Consultation in Refractive and Lens-Based Surgery

49 Clinical Questions

Slack Are you looking for concise, practical answers to questions that are often left unanswered by traditional references on refractive surgery? Are you seeking brief, evidence-based advice for the daily examination of patients? Curbside Consultation in Refractive and Lens-Based Surgery: 49 Clinical Questions provides quick and direct answers to the thorny questions most commonly posed during a "curbside consultation" between experienced clinicians. Drs. Bonnie An Henderson and Sonia H. Yoo have designed this unique reference in which refractive specialists offer expert advice, preferences,

and opinions on tough clinical questions commonly encountered by ophthalmologists, residents, and other health care professionals. The unique Q&A format provides quick access to current information related to refractive and lens-based surgery with the simplicity of a conversation between two colleagues. Images, diagrams, and references are included to enhance the text and to illustrate clinical diagnoses and treatment plans. Based on clinical scenarios that a refractive surgeon might encounter in real life, *Curbside Consultation in Refractive and Lens-Based Surgery* provides information basic enough for residents while also incorporating expert pearls that even high-volume ophthalmologists will appreciate. General ophthalmologists and residents alike will enjoy the user-friendly and casual format. Some of the questions that are answered: How do I manage epithelial ingrowth after LASIK? What if it recurs? Should I perform PRK in patients with forme fruste keratoconus? How do I manage patients with dry eyes after LASIK surgery? How do I determine my surgically induced astigmatism? Is a monocular implantation of a multifocal IOL tolerated? How do you manage an unhappy multifocal patient who is experiencing halos and glare?

Chandler and Grant's Glaucoma

Slack Chandler and Grant's Glaucoma--one of the field's seminal texts on the medical practice and surgical management of glaucoma, now in its Sixth Edition--includes the latest updates in an area that is currently experiencing a surge of innovation. Edited by Drs. Malik Y. Kahook and Joel S. Schuman and with contributions from the late David L. Epstein and more than 80 contributors, *Chandler and Grant's Glaucoma, Sixth Edition* brings together the experience of world-class glaucoma experts who belong to a long line of surgeons trained using the teachings of the original authors of this classic work. Each chapter has been meticulously edited and updated from the previous edition, while maintaining the well-established historical teachings of Drs. Paul A. Chandler and W. Morton Grant. New chapters on medical therapy as well as thorough updates on novel and minimally invasive approaches for the surgical management of glaucoma have been added. New topics and features in the Sixth Edition include: Advances in imaging of the optic nerve and retina Rho-associated protein kinase (ROCK) inhibitors Glaucoma and cerebrospinal fluid pressure The US Food and Drug Administration's role in the development of new diagnostic and surgical devices for patients with glaucoma *Chandler and Grant's Glaucoma* has been the most relevant and invaluable reference on glaucoma for generations of ophthalmologists. This updated Sixth Edition builds on the teachings of previous editions, making the Sixth Edition as relevant in the 21st century as when the first lectures were presented by Drs. Chandler and Grant more than 55 years ago.

What Your Doctor May Not Tell You About(TM) Glaucoma

The Essential Treatments and Advances That Could Save Your Sight

Grand Central Publishing An insidious disease, glaucoma is often misunderstood and is the leading cause of preventable blindness. Helps to dispel the myths surrounding the disease and inform readers as to the truth about glaucoma. Divided into three accessible sections, the book takes readers through the most common methods of treatment, and explores cutting-edge research and crucial new information on the effects of nutrition, exercise, and herbal medicine on glaucoma.

Minimizing Incisions and Maximizing Outcomes in Cataract Surgery

Springer Science & Business Media Many ophthalmologists are in the transition from the traditional cataract surgery technique to the new minimally incision cataract surgery (MICS) technique. They are in the need of updated information on how to make this transition smoothly. In this book, world-renowned opinion leaders present up-to-date information on the new and fast-developing trends in cataract surgery. It reflects the state of the art of microincisional cataract surgery with the concept of minimizing incision. It offers all necessary information on the new technology as well as on the surgical technique. Further, it demonstrates how to handle difficult cataract cases as well as new intraocular lenses.
