**Understanding Quotation** *Walter de Gruyter* Studies on the nature of quotation have become a topic of growing interest among linguists and philosophers of language. What is the function and logical status of quotations? How can an analysis of quotation help to develop a general theory of the semantics-pragmatics interface? This volume is a collection of original papers by leading researchers in the field on such issues and related linguistic and philosophical aspects of quotations. **Functional Approach to Professional Discourse** *Exploration in Linguistics Springer* This book presents research into various types of professional discourse through the prism of the functional linguistics approach. Focusing mainly on practical aspects of speech, the book discusses various topics, such as structural, semantic, cognitive and pragmatic characteristics of professional discourse, argumentation strategies, humour in professional discourse, and word-building processes. It also highlights communicative effectiveness methods in professional discourse. Offering new ideas and discussing the latest findings, the book is intended for researchers, lecturers and professionals in the field. **Oxford Picture Dictionary Online Access Code Access Code Only** *Oxford University Press* Content is organized within 12 thematic units, including Everyday Language, People, Housing, Food and Recreation. Each unit starts with an Intro page (new to this edition) and ends with a story page, with single or double-page sub-topics introducing new words in a realistic visual context and easy-to-learn "chunks." The target new vocabulary is listed and simple practice activities help students put their new words into practice. Story pages include pre-reading questions to build previewing and predicting skills and post-reading questions and role-play activities to support critical thinking and to encourage students to use the new language they have learned. Rich visual contexts recycle words from the unit. This structure is designed to address the needs of multilevel classrooms. Supporting components include more guidance on this topic as well as assessing needs and lesson planning. (available in English only). **The Politics of Aesthetics** *Bloomsbury Publishing* The Politics of Aesthetics rethinks the relationship between art and politics, reclaiming "aesthetics" from the narrow confines it is often reduced to. Jacques Rancière reveals its intrinsic link to politics by analysing what they both have in common: the delimitation of the visible and the invisible, the audible and the inaudible, the thinkable and the unthinkable, the possible and the impossible. Presented as a set of inter-linked interviews, The Politics of Aesthetics provides the most comprehensive introduction to Rancière's work to date, ranging across the history of art and politics from the Greek polis to the aesthetic revolution of the modern age. Available now in the Bloomsbury Revelations series 10 years after its original publication, The Politics of Aesthetics includes an afterword by Slavoj Žižek, an interview for the English edition, a glossary of technical terms and an extensive bibliography. **Commentaries on the Constitution of the United States With a Preliminary Review of the Constitutional History of the Colonies and States, Before the Adoption of the Constitution** *The Art of Public Speaking McGraw-Hill College* Lucas' "The Art of Public Speaking" is the leading public speaking textbook in the field. So, for that matter, do we all." ?Jonathan Kozol, author of *Amazing Grace* and *Savage Inequalities* "When reasoned argument fails, poetry helps us make sense of life. A few well-chosen images, the spinning together of words creates a way of seeing where we came from and lights up possibilities for where we might be going....Dip in, read, and ponder; share with others. It's inspiration in the very best sense." ?Deborah Meier, co-principal of The Mission Hill School, Boston and founder of a network of schools in East Harlem, New York "In the Confucian tradition it is said that the mark of a golden era is that children are the most important members of the society and teaching is the most revered profession. Our journey to that ideal may be a long one, but it is books like this that will sustain us - for who are we all at our best save teachers, and who matters more to us than the children?" ?Peter M. Senge, founding chair, SoL (Society for Organizational Learning) and author of *The Fifth Discipline* Those of us who care about the young and their education must find ways to remember what teaching and learning are really about. We must find ways to keep our hearts alive as we serve our students. Poetry has the power to keep us vital and focused on what really matters in life and in schooling. **Teaching with Fire** is a wonderful collection of eighty-eight poems from such well-loved poets as Walt Whitman, Langston Hughes, Billy Collins, Emily Dickinson, and Pablo Neruda. Each of these evocative poems is accompanied by a brief story from a teacher explaining the significance of the poem in his or her life's work.
