Throughout her 40 year time at sea she survived an unbelievable series of events including the sinking of the TITANIC. "One awful moment of empty, misty blackness enveloped us in its loneliness, then an unforgettable, agonizing cry went up from 1500 despairing throats, a long wail and then silence and our tiny craft tossing about at the mercy of the ice field." For most people one sinking would be enough. But four years later Violet, now a nurse with the British Red Cross, was on board the World War I hospital ship BRITANNIC when it struck a mine and sank to the bottom of the Aegean. To her, this disaster was even more horrifying-- "Just as life seeming nothing but a whirling, choking ache, I rose to the light of day, my nose barely above the little lapping waves. I opened my eyes on an indescribable scene of slaughter, which made me shut them again to keep it out." By the end of her story we have a met a woman who could handle whatever life threw at her with determination and good humor. She knew that only by her own strength of character would she survive. But Titanic Survivor is much more. A unique autobiography for those who want to know how it really felt, a story that could be told only by a Titanic Survivor.*

### Rescuing Titanic

### A True Story of Quiet Bravery in the North Atlantic

*Hidden Histories* This exquisitely illustrated story of quiet bravery tells in rich detail how the little ship *Carpathia* saved 705 passengers of the *Titanic* from the icy waters of the North Atlantic. With the approaching 110-year anniversary of the ship's sinking, *Rescuing Titanic* shares a unique connection with the story of the ship; having been written and illustrated by debut Northern Irish artist, Flora Delargy, whose grandfather and great grandfather both worked in the Belfast Shipyards where the *Titanic* was built. In the middle of the night, the *Carpathia* received a distress call from the sinking *Titanic*. The intrepid little ship heroically changed course and headed straight into the frozen sea to help save as many people as it could. Follow the *Carpathia* as it risks everything to navigate remote, treacherous ice fields in the dark and come to the rescue of passengers on the world-famous ocean liner.
