**A PHILOSOPHY OF MIGRATION**

---

Polity From the shores of Europe to the Mexican-US border, mass migration is one of the most pressing issues we face today. Yet at the same time, calls to defend national sovereignty are becoming ever more vitriolic, with those fleeing war, persecution, and famine vilified as a threat to our security as well as our social and economic order. In this book, written amidst the dark resurgence of appeals to defend 'blood and soil', Donatella Di Cesare challenges the idea of the exclusionary state, arguing that migration is a fundamental human right. She develops an original philosophy of migration that places the migrants themselves, rather than states and their borders, at the centre. Through an analysis of three historic cities, Athens, Rome and Jerusalem, Di Cesare shows how we should conceive of migrants not as an other but rather as resident foreigners. This means recognising that citizenship cannot be based on any supposed connection to the land or an exclusive claim to ownership that would deny the rights of those who arrive as migrants. Instead, citizenship must be disconnected from the possession of territory altogether and founded on the principle of cohabitation - and on the ultimate reality that we are all temporary guests and tenants of the earth. Di Cesare's argument for a new ethics of hospitality will be of great interest to all those concerned with the challenges posed by migration and with the increasingly hostile attitudes towards migrants, as well as students and scholars of philosophy and political theory.

**A GROUNDBREAKING NEW UNDERSTANDING OF NERVOUS DISORDERS OF THE STOMACH AND INTESTINE**

---

HarperCollins “Persuasive, impassioned... hopeful news [for those] suffering from functional bowel disease.” — New York Times Book Review Dr. Gershon's groundbreaking book fills the gap between what you need to know—and what your doctor has time to tell you. Dr. Michael Gershon has devoted his career to understanding the human bowel (the stomach, esophagus, small intestine, and colon). His thirty years of research have led to an extraordinary rediscovery: nerve cells in the gut that act as a brain. This "second brain" can control our gut all by itself. Our two brains—the one in our head and the one in our bowel—must cooperate. If they do not, then there is chaos in the gut and misery in the head—everything from "butterflies" to cramps, from diarrhea to constipation. Dr. Gershon's work has led to radical new understandings about a wide range of gastrointestinal problems including gastroenteritis, nervous stomach, and irritable bowel syndrome. The Second Brain represents a quantum leap in medical knowledge and is already benefiting patients whose symptoms were previously dismissed as neurotic or "it's all in your head."

**BEAUTIFUL CHILD**

---

Harper Collins From the bestselling author of One Child comes this amazing, true story of a mute and withdrawn seven-year-old girl and the special education teacher determined never to abandon a child in need. Seven-year-old Venus Fox never spoke, never listened, never even acknowledged the presence of another human being in the room with her. Yet an accidental playground “bump” would release a rage frightening to behold. The school year that followed would be one of the most trying, perplexing, and ultimately rewarding of Torey Hayden's career, as she struggled to reach a silent child in obvious pain. It would be a strenuous journey beset by seemingly insurmountable obstacles and darkened by truly terrible revelations—yet encouraged by sometimes small, sometimes

dazzling breakthroughs—as a dedicated teacher remained committed to helping a “hopeless” girl, and patiently and lovingly leading her toward the light of a new day.

## PICASSO

---

### MY GRANDFATHER

Random House Marina Picasso remembers being six years old and standing awkwardly in front of the gates of Picasso's grand house near Cannes. She was there with her father and eight-year-old brother to collect from her grandfather the weekly allowance that Picasso grudgingly gave his eldest son to support his family. Sometimes they were sent away and on other occasions, the gates would be opened and they would walk into the intimidating, exciting chaos of Picasso's studio to face the man himself and his unpredictable moods. Looking back, Marina can understand why Picasso had so little interest in his grandchildren; but at the time, she and her brother longed for him to love and understand them. Just a few miles away down the Côte d'Azur, they led a hand-to-mouth existence. Her father was a weak man, reliant on his father for everything and her mother lived in her own fantasy world; the family were therefore utterly dependent on Picasso. People assumed they were rich and privileged because they were Picassos and they were to live their lives under the burden of these assumptions. It was this that caused Marina's brother to commit suicide and when her father died Marina found herself in the ironic position of being one of the major heirs to Picasso's estate.

### ITALY'S 'SOUTHERN QUESTION'

---

#### ORIENTALISM IN ONE COUNTRY

Routledge The 'Southern Question' has been a major topic in Italian political, economic and cultural life for a century and more. During the Cold War, it was the justification for heavy government intervention. In contemporary Italy, a major part of the appeal of the Lombard League has been its promise to dissociate the South from the North, even to the point of secession. The South also remains a resonant theme in Italian literature. This interdisciplinary book endeavours to answer the following: - When did people begin to think of the South as a problem? - Who - intellectuals, statisticians, criminologists, political exiles, novelists (among them some important southerners) - contributed to the discourse about the South and why? - Did their view of the South correspond to any sort of reality? - What was glossed over or ignored in the generalized vision of the South as problematic? - What consequences has the 'Question' had in controlling the imaginations and actions of intellectuals and those with political and other forms of power? - What alternative formulations might people create and live by if they were able to escape from the control of the 'Question' and to imagine the political, economic and cultural differences within Italy in some other way? This timely book reveals how Southern Italians have been affected by distorted versions of a complex reality similar to the discourse of 'Orientalism'. In situating the devaluation of Southern Italian culture in relation to the recent emergence of 'anti-mafia' ideology in the South and the threat posed to national unity by the Lombard League, it also illuminates the world's stiff inter-regional competition for investment capital.

#### FLYING CREATURES OF FRA ANGELICO

Archipelago Hypochondria, insomnia, restlessness, and yearning are the lame muses of these brief pages. I would have liked to call them Extravaganzas . . . because many of them wander about in a strange outside that has no inside, like drifting splinters. . . . Alien to any orbit, I have the impression they navigate in familiar spaces whose geometry nevertheless remains a mystery; let's say domestic thickets: the interstitial zones of our daily having to be, or bumps on the surface of existence . . . In them, in the form of quasi-stories, are the murmurings and mutterings that have accompanied and still accompany me: outbursts, moods, little ecstasies, real or presumed emotions, grudges, and regrets. —Antonio Tabucchi on The Flying Creatures of Fra Angelico From the Trade Paperback edition.

## IN SEARCH OF THE RESTAURANT EXPERIENCE

---

Reaktion Books From the hamburger haven to the temple of gastronomy, the restaurant is a fixture of modern life. But why is that so? What needs has the restaurant come to satisfy, and what needs has it come to impose upon the experience of the modern world? In *Dishing It Out*, Robert Appelbaum travels around America and Europe and through the annals of literature and history to explore the social meaning of the restaurant—and to discover what we ought to be asking of the restaurant experience today. Since its founding in pre-Revolutionary France, the restaurant has always inspired contradictory feelings and served contradictory purposes. It has stood for a kind of liberation: the embrace of pleasure and sociability for their own sake. But it has also encouraged narcissistic consumerism at the cost of the exploitation of restaurant workers, and the self-deception of restaurant-goers. Drawing on the work of such writers as Grimod de la Reynière, Jean-Paul Sartre, Isak Dinesen and M.F.K. Fisher, and sampling fare from macaroni cheese in workaday London to oysters and sausages in seaside France, Appelbaum argues that though restaurants are inherently problematic as social institutions, they are characteristic of who and what we are. They are expressions of what we need as human beings. And for that reason, though they contribute to inequality they can also be used to promote the interests of cultural democracy. A unique rethinking of the restaurant experience, at once entertaining and learned, *Dishing it Out* is an important contribution to our knowledge of food, literature, history and society.

## DIGITAL LITERATURE FOR CHILDREN

---

This book is the result of a research project carried out by the research group GRETEL from the Universitat Autònoma de Barcelona (UAB) on children's and adolescents' digital literary education. It offers some of the outcomes of this project and combines them with other contributions from internationally renowned authors to address the three pillars of digital literary reader training: the texts themselves, the responses they generate in children and adolescents and digital reading practices at home and at school. This work is intended as a contribution to international research on digital literature for children and young adults and its impact on the teaching practices of literary education. Its main goals are to guide the inclusion of this training in classrooms and to investigate strategies for accessing multimedia, interactive and hypertextual messages and products that form a part of fictional products today. The volume begins by contextualising electronic literary reading and specifying the new research framework of digital literature for children and adolescents. It then provides an overview of the relationships between the electronic medium and children and young adult production on the one hand, and of the digital works and their features on the other, to reflect on their potential for literary education. Subsequently, it tackles the effective contact of children and adolescents with this literature in order to determine what happens when different electronic works are made available to children readers without eliminating printed literature from their environment. Finally, the floor is given to two leading creators.

## THE AUTUMN OF COMISSARIO RICCIARDI

---

Europa Editions The fourth Commissario Ricciardi historical mystery—following *Everyone in Their Place*—is “a superb novel for fans of Italian noir” (Library Journal, starred review). Commissario Ricciardi has visions. He sees and hears the final moments in the lives of those who have suffered violent deaths. It may be a talent or it may be a curse, but it has helped him become one of the most successful homicide detectives in the Naples police force. It's a rainy autumn in 1930s Naples as its inhabitants celebrate the week of the dead. Ricciardi's instincts tell him that the death of a street urchin is actually murder, but investigating the homicide is not going to be easy. The authorities want to avoid any sign that things are not as they ought to be in Naples, for they are preparing for the state visit of Benito Mussolini. Ricciardi will have to conduct his investigation hidden from the eyes of his superiors. What's worse, his sixth sense is no help to him this time; the scene of the crime is silent, still, not a word or a sign, or even a scream from the dead. Has his unwelcome gift finally faded? Or is something more sinister at work? “De Giovanni's slashing wit cuts deeply into his cameo portraits of the high and mighty, even as his elegant style ennobles the wretched lives he views with such compassion.” —The New York Times Book Review “De Giovanni is a masterful plotter and sub-plotter; it's a joy to ease into his complete command of his craft . . . These are murder mysteries raised to a brilliant level.” —Open Letters Monthly

## NO PICNIC ON MOUNT KENYA

---

Hachette UK A rediscovered mountaineering classic and the extraordinary true story of a daring escape up Mount Kenya by three prisoners of war. When the clouds covering Mount Kenya part one morning to reveal its towering peaks for the first time, prisoner of war Felice Benuzzi is transfixed. The tedium of camp life is broken by the beginnings of a sudden idea - an outrageous, dangerous, brilliant idea. There are not many people who would break out of a P.O.W. camp, trek for days across perilous terrain before climbing the north face of Mount Kenya with improvised equipment, meagre rations, and with a picture of the mountain on a tin of beef among their more accurate guides. There are probably fewer still who would break back in to the camp on their return. But this is the remarkable story of three such men. *No Picnic on Mount Kenya* is a powerful testament to the human spirit of revolt and adventure in even the darkest of places. "The history of mountaineering can hardly present a parallel to this mad but thrilling escapade" - Saturday Review "A most extraordinary prisoner-of-war and escape story" - New Yorker "A mad venture and a gallant tribute to man's deep yearning for freedom" - Kirkus Reviews "The book crackles with the same dry humour as its title. It contains the prison-yard bartering and candlelight stitching that mark a classic jailbreak yarn; the encounters with wild beasts in Mount Kenya's forest belt are as gripping, and the descriptions of sparkling glaciers as awe-inspiring, as any passage in the great exploration diaries of the early 20th century" - The Economist

---

**LITERATURE, LANDSCAPE AND AESTHETICS SINCE 1770**

---

Cambridge University Press The Picturesque (a set of theories, ideas, and conventions which grew up around the question of how we look at landscape) offers a valuable focus for new investigations into the literary, artistic, social, and cultural history of the late eighteenth and nineteenth centuries. This volume of essays by scholars from various disciplines in Britain and America incorporates a range of historically and theoretically challenging approaches to the topic. It covers the writers most closely identified with the exposition of the Picturesque as a theory, and also traces the influence and implications of its aesthetic in a variety of fields in the Romantic period, including literary and pictorial works, estate management, and women's fashion. Several essays deal more specifically with radical critiques and appropriations of the Picturesque in the nineteenth century, while in others, its influence is traced beyond traditionally accepted geographical or historical bounds.

**THE WOMAN FROM ANCONA**

---

Univ of California Press In Italy Angelo Beolco, called Ruzante, is recognized as the most original of the Italian Renaissance dramatists. However, his plays are hardly known in English, mainly because few translators have been able to take on the Pavano dialect Ruzante employed for the character he played. With Nancy Dersofi's vigorous and faithful translation of L'Anconitana, presented opposite the authoritative version of the Italian text, Ruzante's most successful play is now available to English-speaking audiences for the first time.
