ZEROZEROZERO

Penguin An electrifying, internationally bestselling investigation of the global cocaine trade now a series on Prime Video starring Andrea Riseborough, Dane DeHaan, and Gabriel Byrne, from the author of the #1 international bestseller Gomorrah "Zero zero zero" flour is the finest, whitest available. It is also the nickname among narcotraffickers for the purest cocaine on the market. And it is the title of Roberto Saviano's unforgettable exploration of the inner workings of the global cocaine trade—its rules and armies, and the true depth of its reach into the world economy. Saviano's Gomorrah, his explosive account of the Neapolitan mob, the Camorra, was a worldwide sensation. It struck such a nerve with the Camorra that Saviano has lived with twenty-four-hour police protection for more than eight years. During this time he has come to know law enforcement agencies and officials around the world. With their cooperation, Savaiano has broadened his perspective to take in the entire global "corporate" entity that is the drug trade and the complex money-laundering operations that allow it to function, often with the help of the world's biggest banks. The result is a harrowing and groundbreaking synthesis of literary narrative and geopolitical analysis exploring one of the most powerful dark forces in our economy. Saviano tracks the shift in the cocaine trade's axis of power, from Colombia to Mexico, and relates how the Latin American cartels and gangs have forged alliances with crime syndicates across the globe. He charts the increasing sophistication of these criminal entities as they diversify into other products and markets. He also reveals the astonishing increase in the severity of violence as they have fought to protect and extend their power. Saviano is a writer and journalist of rare courage and a thinker of impressive intellectual depth, able to see connections between far-flung phenomena and bind them into a single epic story. Most drug-war narratives feel safely removed from our own lives; Saviano offers no such comfort. Both heart-racing and eye-opening, ZeroZeroZero is an investigative story like none other. Praise for ZerZeroZero: "[Saviano] has developed a literary style that switches from vivid descriptions of human depravity to a philosophical consideration of the meaning of violence in the modern world. . . . Most important of all is the hope Saviano gives to countless victims of criminal violence by standing up to its perpetrators." —Financial Times

lives of other animals. The book delves into animal communication, intelligence, self-awareness, loneliness, and grief, but most fundamentally how humans and animals can cohabit and build a form of friendship. Svendsen provides examples from many different animal species—from chimpanzees to octopus—but his main focus is on cats and dogs: the animals that many of us are closest to in our daily lives. Drawing upon both philosophical analysis and the latest scientific discoveries, Svendsen argues that the knowledge we glean from our relationships with our pets is as valid and insightful as any scientific study of human-animal relations. With this entertaining and thought-provoking book, animal lovers and pet owners will gain a deeper understanding of what it is like to be an animal—and in turn, a human.

THE YELLOW EMPEROR'S CLASSIC OF INTERNAL MEDICINE

Univ of California Press The Yellow Emperor's Classic of Internal Medicine has become a landmark in the history of Chinese civilization. Written in the form of a dialogue in which the emperor seeks information from his minister Ch'i-Po on questions of health and the art of healing, it is the oldest known document in Chinese medicine. Ilza Veith's extensive introduction and monumental translation, first published in 1949, make available the historical and philosophical foundations of traditional practices that have seen a dynamic revival in China and throughout the West. A new foreword by Linda L. Barnes places the translation in its historic contexts, underlining its significance to the Western world's understanding of Chinese medical practice.

The first part is called the Su Wen, Simple Questions. The second part, the Ling Shu, is translated here by Wu Jing-Nuan in its context as the first known treatise about acupuncture with its associated medical procedures and for its philosophical beauty. The title itself expresses a world vision and reality where material and structure are secondary to the living energy of Ling Shu, the Spiritual Pivot.
