Sarah

The Life of Sarah Bernhardt

Yale University Press Everything about Sarah Bernhardt is fascinating, from her obscure birth to her glorious career--redefining the very nature of her art--to her amazing (and highly public) romantic life, to her indomitable spirit. Well into her seventies, after the amputation of her leg, she was performing under bombardment for soldiers during World War I and toured America for the ninth time. Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.

Muslims and Citizens

Islam, Politics, and the French Revolution

Yale University Press A groundbreaking study of the role of Muslims in eighteenth-century France "This elegant, braided history of Muslims and French citizenship is urgently needed. It will be a 'must read' for students of the French Revolution and anyone interested in modern France."— Carla Hesse, University of California, Berkeley From the beginning, French revolutionaries imagined their transformation as a universal one that must include Muslims, Europe's most immediate neighbors. They believed in a world in which Muslims could and would be French citizens, but they disagreed violently about how to implement their visions of universalism and accommodate religious and social difference. Muslims, too, saw an opportunity, particularly as European powers turned against the new French Republic, leaving the Muslim polities of the Middle East and North Africa as France's only friends in the region. In Muslims and Citizens, Collier examines how Muslims came to participate in the political struggles of the revolution and how revolutionaries used Muslims in France and beyond as a test case for their ideals. In his final chapter, Collier reveals how the French Revolution's fascination with the Muslim world paved the way to Napoleon's disastrous invasion of Egypt in 1798.

## Renegotiating French Identity

### Musical Culture and Creativity in France during Vichy and the German Occupation

Oxford University Press In *Renegotiating French Identity*, Jane Fulcher addresses the question of cultural resistance to the German occupation and Vichy regime during the Second World War. Nazi Germany famously stressed music as a marker of national identity and cultural achievement, but so too did Vichy. From the opera to the symphony, music did not only serve the interests of Vichy and German propaganda: it also helped to reveal the motives behind them, and to awaken resistance among those growing disillusioned by the regime. Using unexplored Resistance documents, from both the clandestine press and the French National Archives, Fulcher looks at the responses of specific artists and their means of resistance, addressing in turn Pierre Schaeffer, Arthur Honegger, Francis Poulenc, and Olivier Messiaen, among others. This book investigates the role that music played in fostering a profound awareness of the cultural and political differences between conflicting French ideological positions, as criticism of Vichy and its policies mounted.

### Art, Passion, and the Rebirth of Paris, 1940-50

Henry Holt and Company An incandescent group portrait of the midcentury artists and thinkers whose lives, loves, collaborations, and passions were forged against the wartime destruction and postwar rebirth of Paris. In this fascinating tour of a celebrated city during one of its most trying, significant, and ultimately triumphant eras, Agnes Poirier unspools the stories of the poets, writers, painters, and philosophers whose lives collided to extraordinary effect between 1940 and 1950. She gives us the human drama behind some of the most celebrated works of the 20th century, from Richard Wright's *Native Son*, Simone de Beauvoir's *The Second Sex*, and James Baldwin's *Giovanni's Room* to Samuel Beckett's *Waiting for Godot* and Saul Bellow's *Augie March*, along with the origin stories of now legendary movements, from Existentialism to the Theatre of the Absurd, New Journalism, bebop, and French feminism. We follow Arthur Koestler and Norman Mailer as young men, peek inside Picasso's studio, and trail the twists of Camus's Sartre's, and Beauvoir's epic love stories. We witness the births and deaths of newspapers and literary journals and peer through keyholes to see the first kisses and last nights of many ill-advised bedfellows. At every turn, Poirier deftly hones in on the most compelling and colorful history, without undermining the crucial significance of the era. She brings to life the flawed, visionary Parisians who fell in love and out of it, who infuriated and inspired one another, all while reconfiguring the world's political, intellectual, and creative landscapes. With its balance of clear-eyed historical narrative and irresistible anecdotal charm, *Left Bank* transports readers to a Paris teeming with passion, drama, and life.

### Paul Mellon's Legacy

### A Passion for British Art : Masterpieces from the Yale Center for British Art

Yale University Press Paul Mellon (1907--1999) was an unparalleled collector of British art. His collection, now at Yale in the museum and study center he founded to house it, rivals those in Britain's national museums and is unquestionably the most comprehensive representation of British art held outside of the United Kingdom. This book and the exhibition that it accompanies celebrate the centenary of his birth. Five introductory essays examine Mellon's extraordinary collecting activity, as well as his role in creating both the Yale Center for British Art and the Paul Mellon Centre for Studies in British Art in London as gifts to his alma mater (Yale 1929). A lavishly illustrated catalogue section showcases 148 of the most exquisite and important paintings, watercolors, drawings, prints, sculpture, rare books, and manuscript material in the Yale Center's collection, including major works by Thomas Gainsborough, Joshua Reynolds, George Stubbs, John Constable, and J. M. W. Turner.

### David

## The Divided Heart

Yale University Press Of all the figures in the Bible, David arguably stands out as the most perplexing and enigmatic. He was many things: a warrior who subdued Goliath and the Philistines; a king who united a nation; a poet who created beautiful, sensitive verse; a loyal servant of God who proposed the great Temple and founded the Messianic line; a schemer, deceiver, and adulterer who freely indulged his very human appetites. David Wolpe, whom Newsweek called “the most influential rabbi in America,” takes a fresh look at biblical David in an attempt to find coherence in his seemingly contradictory actions and impulses. The author questions why David holds such an exalted place in history and legend, and then proceeds to unravel his complex character based on information found in the book of Samuel and later literature. What emerges is a fascinating portrait of an exceptional human being who, despite his many flaws, was truly beloved by God.

## Dear Daughter

### A Novel

Penguin From the author of *Pretty as a Picture*, a sensational thriller featuring an unforgettable heroine who just might have murdered her mother • Winner of the Strand Critics Award for Best First Novel • Nominated for the Barry and Macavity Awards for Best First Novel • Longlisted for the CWA John Creasy (New Blood) Dagger Award “Quick-witted and fast-paced.” —People magazine “A really gutsy, clever, energetic read, often unexpected, always entertaining.” —Kate Atkinson “This is an all-nighter . . . The best debut mystery I’ve read in a long time.”—Tana French Former “It Girl” Janie Jenkins is sly, stunning, and fresh out of prison. Ten years ago, at the height of her fame, she was incarcerated for the murder of her mother, a high-society beauty known for her good works and rich husbands. Now, released on a technicality, Janie makes herself over and goes undercover, determined to chase down the one lead she has on her mother’s killer. The only problem? Janie doesn’t know if she’s the killer she’s looking for. Janie makes her way to an isolated South Dakota town whose mysteries rival her own. Enlisting the help of some new friends (and the town’s wary police chief), Janie follows a series of clues—an old photograph, an abandoned house, a forgotten diary—and begins to piece together her mother’s seemingly improbable connection to the town. When new evidence from Janie’s own past surfaces, she’s forced to consider the possibility that she and her mother were more alike than either of them would ever have imagined. As she digs tantalizingly deeper, and as suspicious locals begin to see through her increasingly fragile facade, Janie discovers that even the sleepiest towns hide sinister secrets—and will stop at nothing to guard them. On the run from the press, the police, and maybe even a murderer, Janie must choose between the anonymity she craves and the truth she so desperately needs. A gripping, electrifying novel with an ingenious and like-it-or-not sexy protagonist, *Dear Daughter* follows every twist and turn as Janie unravels the mystery of what happened the night her mother died—whatever the cost.

### On Color

Yale University Press Our lives are saturated by color. We live in a world of vivid colors, and color marks our psychological and social existence. But for all color’s inescapability, we don’t know much about it. Now authors David Scott Kastan and Stephen Farthing offer a fresh and imaginative exploration of one of the most intriguing and least understood aspects of everyday experience. Kastan and Farthing, a scholar and a painter, respectively, investigate color from numerous perspectives: literary, historical, cultural, anthropological, philosophical, art historical, political, and scientific. In ten lively and wide-ranging chapters, each devoted to a different color, they examine the various ways colors have shaped and continue to shape our social and moral imaginations. Each individual color becomes the focal point for a consideration of one of the extraordinary ways in which color appears and matters in our lives. Beautifully produced in full color, this book is a remarkably smart, entertaining, and fascinating guide to this elusive topic.

## Ham House

### 400 Years of Collecting and Patronage

Paul Mellon Ctr for Studies Built in 1610 during the reign of James I and remodeled in 1637–39 by the future first Earl of Dysart, Ham House and its gardens have endured through centuries of English history while remaining representative of the styles and culture of the original inhabitants. It is one of the few places where Caroline décor—as developed by British architect Inigo Jones and familiar to Peter Paul Rubens and Anthony van Dyck—can still be appreciated. To mark the 400th anniversary of one of the most famous houses in Europe, eighteen internationally recognized scholars join National Trust curators in documenting the history of Ham House and its collections. The new discoveries, reattributions, and revelations of the contributors are accompanied by specially commissioned photography of the house and its contents. An appendix includes complete transcriptions of house inventories for the 17th, 18th, and 19th centuries, published here for the first time.

## À votre tour!

John Wiley & Sons Incorporated The main objective of *À votre tour!* is to advance students to a level at which they can comfortably express themselves on a variety of French and francophone topics. Avoiding the excessive rigor of most intermediate texts, *À votre tour!* immerses students in authentic language and cultural contexts to achieve three key objectives: to build and reinforce oral and written communicative skills, to develop reading skills and cultural awareness, and to forge a strong linguistic base. New! Tête à tête communicative activities require one student to use communicative skills to elicit unknown details from another student in order to complete a task, with basic vocabulary and grammar structures recycled to reinforce previously learned material. New! Integrated video correlates to the Français Pratique section of each unit and to corresponding video activities provided in the Student Activities Manual. New! Updated cultural material highlights recent cultural trends, such as prices expressed in euros, French phone numbers with appropriate area codes; reflects the current political realities; and offers many entry points for further development of cultural awareness, grammar, and lexical points. A broad introduction to French and Francophone cultures provides authentic language and cultural contexts without an intense grammar curriculum—adapted for students who might take French as a minor, rather than a major. Accessible presentation enables students with basic conversational and grammar skills to achieve success through careful pacing, cyclical review and re-entry of structures and vocabulary, and engaging conversational material. Solid grammar review builds a framework by first covering basic structures and expressions, then adding more advanced concepts to expand students’ linguistic abilities.

### Immersive Cinema and Art, 1905-2016

Yale University Press A fascinating survey of pioneering work in experimental cinema and art from 1905 to the present day, revealing the high stakes and transformative potential of these forms This generously illustrated publication surveys the work of filmmakers and artists who have pushed the material and conceptual boundaries of cinema. Over the past century, the material, optical, abstract, spatial, and tactile properties of film have been tested at a level of experimentation and utopian ambition that is generally unrecognized. Whether creating synesthetic or 3-D environments, projective or non-projective installations, generations of leading-edge artists have explored how technology transforms experience. The essays published here offer an intensive look at the themes of cinematic space, formats of the screen, animation and CGI, the body and the cyborg, and the materiality of film. Contributors place particular emphasis on the idea of the cinema as a sensorium and on the ways in which it defines the human body, both through representation and in relation to the projected image. An immersive plate section brings together rarely seen and previously unpublished stills, in addition to concept drawings from historic and contemporary films.

## The Cambridge Companion to Medieval Women's Writing

Cambridge University Press The *Cambridge Companion to Medieval Women's Writing* seeks to recover the lives and particular experiences of medieval women by concentrating on various kinds of texts: the texts they wrote themselves as well as texts that attempted to shape, limit, or expand their lives. The first section investigates the roles traditionally assigned to medieval women (as virgins, widows, and wives); it also considers female childhood and relations between women. The second section explores social spaces, including textuality itself: for every surviving medieval manuscript bespeaks

collaborative effort. It considers women as authors, as anchoresses 'dead to the world', and as preachers and teachers in the world staking claims to authority without entering a pulpit. The final section considers the lives and writings of remarkable women, including Marie de France, Heloise, Joan of Arc, Julian of Norwich, Margery Kempe, and female lyricists and romancers whose names are lost, but whose texts survive.

## Charles Darwin, Natural Science and the Visual Arts

Yale University Press A gorgeously illustrated book that is the first to explore the impact of Darwin's ideas about man and nature on 19th-century visual arts Charles Darwin's revolutionary theories of evolution and natural selection have not only had a profound influence on the fields of biology and natural history, but also provided fertile territory for the creative imagination. This lavishly illustrated book accompanies an exhibition organized by the Fitzwilliam Museum, University of Cambridge, in association with the Yale Center for British Art, that will coincide with the global celebration of the bicentenary of Darwin's birth and the 150th anniversary of the publication of *On the Origin of Species by Means of Natural Selection* (1859). The essays in this exceptionally wide-ranging book examine both the profound impact that Darwin's ideas had on European and American artists and the ways in which his theories were influenced by the visual traditions he inherited. In works by artists as diverse as Church, Landseer, Liljefors, Heade, Redon, Cézanne, Lear, Tissot, Rossetti, and Monet, from imaginative projections of prehistory to troubled evocations of a life dominated by the struggle for existence, Darwin's sense of the interplay of all living things and his response to the beauties of the natural world proved inspirational.
