**THE "PEOPLE POWER" FAMILY SUPERBOOK: BOOK 13. SHOPPING GUIDE (ONLINE SHOPPING, PRODUCT REVIEWS, DEPARTMENT STORES, TRADE SHOWS, CLOSEOUT - WHOLESALE, FACTORY OUTLETS)**

---

*Lulu Press, Inc* In my opinion, unless you're a total introvert, agoraphobic, disabled or too lazy to leave the house, your best bet to buy most things you need is locally. Go to the Yellow Pages, read your local newspapers, drive around the shopping areas, go to local free ad websites and talk to people you know about what you need. I generally buy most of my stuff from the big department stores but if I need something like furniture, I'll check out the furniture stores on the poor side of the town because the prices for the same goods are often much cheaper than a store in the higher class part of town plus you can often haggle with the owner on a cash deal. By shopping on the poor side of town at supermarkets for food, you can often save several dollars on a load of groceries. Beyond that, I generally go to the thrift stores a few times a year to buy t-shirts, clothes and anything else that strikes my fancy as I look around.

### **DVRS CHANGING TV AND ADVERTISING FOREVER**

---

*Taylor & Francis* **Four specific trends are driving the DVR industry: consumer content choice, consumer content control, personalization of content libraries, and the ability to transfer content from device-to-device and person-to-person. "Digital Video Recorders" features a macro and micro views of the already established yet still burgeoning DVR industry. As part of the NAB Executive Technology Briefing series, this book gives you a wealth of market knowledge, business models, case studies, and industry insights explained in a non-technical fashion. "Digital Video Recorders" discusses the impact of the technology across many different industries and platforms, explains hardware, software and technology of set-top boxes, DVR infrastructure, on-screen guides, planning and scheduling, content security, and more. Whether you are an executive in the broadcast, telecommunications, consumer electronic, or advertising space, you will expand your knowledge on DVR impact, explore new business opportunities, and get a brief overview of the technical terms needed. You will also be able to accurately analyze and understand the trends, projections and other data, all of which will help lead to the expedited growth and development of DVR industry.**

## **SWITCHING TO DIGITAL TV**

---

---

### **EVERYTHING YOU NEED TO KNOW**

---

*Pearson Education* **On February 17, 2009, analog television broadcasting in the United States will end. As of that date, all television stations will switch to digital TV broadcasts -- effectively making obsolete every analog television set in the country. What do you need to do to keep watching television after the switch to digital? Do you need to buy a new television set? If so, what kind of set? Do you need a fancy high definition TV? Or is there a way to make your old TV still work with the new digital broadcasts? Should you switch to cable or satellite television? And what is digital television, anyway? These are just a few of the questions people are asking as the switch to digital TV approaches. All of these questions and more are answered in this short book. Don't be one of the tens of millions of people who are confused about the switch to digital TV and may lose their broadcast signal on February 17! Buy this book and take the**

guesswork out of the switch to digital TV! What you can learn in this book - o What is the difference is between Digital TV and HDTV o How to switch your analog antenna reception to digital o What you need to do if you are a cable, DSL or satellite subscriber o How to connect a digital converter box o Tips on shopping for a new digital TV o Great solutions to your digital TV problems

### **THE NETWORKED SPACES OF HORSE RACING**

---

*MIT Press* **The horse racing industry has been a pioneer in interactive media, information networks, and their deployment. The race track and the off-track betting parlor offer interactive media environments that reconfigure the relationships among private and public space and presence and copresence. In this book, Holly Kruse explores how horse racing has used media over the last several decades, arguing that examining the history and context of horse racing and gambling gives us a clearer understanding of the development of data networks, media complexes, public entertainment, and media publics. Kruse describes an enormous industry that depends on global information and communication flows made possible by a network linking racetracks, homes, off-track betting, farms, and auction sites. Racetrack architecture now allows for the presence of screens, most showing races from other locations. Online betting sites enable bettors to wager from home. Off-track betting facilities collect wagers on races from all over the country. Odds are set interactively through the pari-mutuel market system. Kruse considers the uses of public space, and its redefinition by public screens; the effect of interactive media on the racing industry, including networked, in-home betting; the "technopanic" over online poker and the popularity of in-home pari-mutuel wagering; and the use of social media by racing fans to share information and creative work with no financial payoff.**
