The OECD Programme for International Student Assessment (PISA) seeks to answer that question through the most comprehensive and rigorous international assessment of student knowledge and skills. As more countries join its ranks, PISA ...**

Why Place Matters

Geography, Identity, and Civic Life in Modern America

Encounter Books **Contemporary American society, with its emphasis on mobility and economic progress, all too often loses sight of the importance of a sense of "place" and community. Appreciating place is essential for building the strong local communities that cultivate civic engagement, public leadership, and many of the other goods that contribute to a flourishing human life. Do we, in losing our places, lose the crucial basis for healthy and resilient individual identity, and for the cultivation of public virtues? For one can't be a citizen without being a citizen of some place in particular; one isn't a citizen of a motel. And if these dangers are real and present ones, are there ways that intelligent public policy can begin to address them constructively, by means of reasonable and democratic innovations that are likely to attract wide public support? Why Place Matters takes these concerns seriously, and its contributors seek to discover how, given the American people as they are, and American economic and social life as it now exists—and not as those things can be imagined to be in some utopian scheme—we can find means of fostering a richer and more sustaining way of life. The book is an anthology of essays exploring the contemporary problems of place and placelessness in American society. The book includes contributions from distinguished scholars and writers such as poet Dana Gioia (former chairman of the National Endowment for the Arts), geographer Yi-Fu Tuan, urbanist Witold Rybczynski, architect Philip Bess, essayists Christine Rosen and Ari Schulman, philosopher Roger Scruton, transportation planner Gary Toth, and historians Russell Jacoby and Joseph Amato.**

The Essential Guide to Doing Your Research Project

SAGE **The Essential Guide to Doing Your Research Project 2e is the ultimate companion to successfully completing your research project. Warm and pragmatic, it gives you the skills and the confidence needed to succeed no matter what happens along the way. The book guides you through every step of your research project, from getting started to analysing data and writing up. Each stage is clearly set out, highlighting best practice and providing practical tips and down-to-earth advice for actually doing research. Key features include: Fully developed companion website including podcasts, worksheets, examples of real projects and links to journal articles Chapter summaries Boxed definitions of key terms Full glossary Suggestions for further reading Bursting with real world examples and multidisciplinary case studies, this book addresses the key questions posed by anyone hoping to complete a research project. It is the must-have textbook every student needs. Available with Perusall—an eBook that makes it easier to prepare for class Perusall is an award-winning eBook platform featuring social annotation tools that allow students and instructors to collaboratively mark up and discuss their SAGE textbook. Backed by research and supported by technological innovations developed at Harvard University, this process of learning through collaborative annotation keeps your students engaged and makes teaching easier and more effective. Learn more.**

The Content Analysis Guidebook

SAGE **Content analysis is one of the most important but complex research methodologies in the social sciences. In this thoroughly updated Second Edition of The Content Analysis Guidebook, author Kimberly Neuendorf provides an accessible core text for upper-level undergraduates and graduate students across the social sciences. Comprising step-by-step instructions and practical advice, this text unravels the complicated aspects of content analysis.**

Work in the 21st Century

An Introduction to Industrial and Organisation Psychology

Varcarolis' Foundations of Psychiatric Mental Health Nursing

Criminal Profiling

Principles and Practice

Springer Science & Business Media **Criminal Profiling: Principles and Practice provides a compendium of original scientific research on constructing a criminal profile for crimes that are not readily resolvable by conventional police investigative methods. Leading profiling expert Richard N. Kocsis, PhD, utilizes a distinct approach referred to as Crime Action Profiling (CAP), a technique that has its foundations in the disciplinary knowledge of forensic psychology. The initial four chapters examine the skills, accuracy, components, and processes surrounding the construction of a criminal profile. The next two chapters focus on CAP research, the methods developed for the profiling of violent crimes and describing a systematic method for the interpretation and use of the CAP models. The subsequent three chapters canvass the respective CAP studies undertaken for crimes of serial rape, serial/sexual murder, and serial arson. An explanation for how each of the models is developed is also given. The final chapters of the book are devoted to the geographical analysis**

of crime patterns and to a discussion of the format conventions and procedural guidelines for developing a criminal profile. Offering a scientifically grounded method for the construction of a criminal profile, Criminal Profiling: Principles and Practice provides law enforcement personnel, forensic psychologists and psychiatrists, criminologists, and forensic investigators with a step-by-step, practical guide for understanding and applying CAP techniques for the construction of a criminal profile in a systematic and replicable manner.

Using Technology in the Classroom

Allyn & Bacon **DVD contains video examples of technology-rich lessons.**

Telemedicine in the ICU

Springer **This text provides a concise, yet comprehensive overview of telemedicine in the ICU. The first part of the book reviews common issues faced by practitioners and hospital administrators in implementing and managing tele-ICU programs, including the merits of different staffing models, the challenges of building homegrown programs versus contracting for services, and the impact of state laws and payer policies on reimbursement for tele-ICU services. The second part of the book presents the current state of evidence for and against ICU telemedicine, based on clinical trials, before-and-after implementation studies, and observational data. The third part dives deeper into specific use cases for telemedicine in the ICU, including telestroke, pediatric and cardiac intensive care, and early treatment of declining patients with sepsis. Written by experts in the field, Telemedicine in the ICU is a practical guide for intensive care physicians and hospital administrators that provides all the information necessary in building and maintaining a successful tele-ICU program.**

Controlling SO2 emissionsa review of technologies

PISA 2018 Assessment and Analytical Framework

OECD Publishing **This report presents the conceptual foundations of the OECD Programme for International Student Assessment (PISA), now in its seventh cycle of comprehensive and rigorous international surveys of student knowledge, skills and well-being. Like previous cycles, the 2018 assessment covered reading, mathematics and science, with the major focus this cycle on reading literacy, plus an evaluation of students' global competence – their ability to understand and appreciate the perspectives and world views of others. Financial literacy was also offered as an optional assessment.**

Information and Communication Technology for Intelligent Systems

Proceedings of ICTIS 2020, Volume 1

Springer Nature **This book gathers papers addressing state-of-the-art research in all areas of information and communication technologies and their applications in intelligent computing, cloud storage, data mining and software analysis. It presents the outcomes of the Fourth International Conference on Information and Communication Technology for Intelligent Systems, which was held in Ahmedabad, India. Divided into two volumes, the book discusses the fundamentals of various data analysis techniques and algorithms, making it a valuable resource for researchers and practitioners alike.**

Knowledge and Critical Pedagogy

An Introduction

Springer Science & Business Media **In a globalized neo-colonial world an insidious and often debilitating crisis of knowledge not only continues to undermine the quality of research produced by scholars but to also perpetuate a neo-colonial and oppressive socio-cultural, political economic, and educational system. The lack of attention such issues receive in pedagogical institutions around the world undermines the value of education and its role as a force of social justice. In this context these knowledge issues become a central concern of critical pedagogy. As a mode of education that is dedicated to a rigorous form of knowledge work, teachers and students as knowledge producers, anti-oppressive educational and social practices, and diverse perspectives from multiple social locations, critical pedagogy views dominant knowledge policies as a direct assault on its goals. Knowledge and Critical Pedagogy: An Introduction takes scholars through a critical review of the issues facing researchers and educators in the last years of the first decade of the twenty-first century. Refusing to assume the reader's familiarity with such issues but concurrently rebuffing the tendency to dumb down such complex issues, the book serves as an excellent introduction to one of the most important and complicated issues of our time.**

The Oxford English Dictionary

Vol. 1-

Surfing Social Studies

The Internet Book

National Council for the Social **The Internet makes available an unparalleled, and seemingly unlimited, repository of resources and ideas for social studies teachers. This book provides guidance and explores how the Internet can become an essential element in a teacher's repertoire of tools for engaging students in social studies curriculum. Chapters in the book are: (1) "Effective Internet Searching" (Barbara Brehm); (2) "The Webmaster's Tale" (Tim Dugan); (3) "The Classroom Website" (Timothy A. Keiper and Linda Bennett); (4) "Teaching History" (C. Frederick Risinger); (5) "The Virtual Tour" (Eileen Giuffre Cotton); (6) "Teaching Geography" (Cheryl L. Mason and Marsha Alibrandi); (7) "Creating Teledemocracy" (Bruce Larson and Timothy A. Keiper); (8) "Civic Education" (Bruce Larson and Angie Harwood); (9)"Economics Education" (Lawrence A. Weiser and Mark C. Schug); (10) "Global Education" (Bob Coulson and Alma Vallisneri); (11) "Global Issues" (Gregory A. Levitt); (12) "Art-Based Resources" (David B. Williams); (13) "Multiculturalism and the Internet" (Deborah A. Byrnes and Grace Huerta); (14) "Teacher Education" (D. Mark Myers); (15) "Problem-Based Learning" (Anthony W. Lorsbach and Fred Basolo, Jr.); (16) "Citizenship Projects" (John W. Saye and John D. Hoge); (17) "Civic-Moral Development" (Joseph A. Braun, Jr.); (18) "Safe Web Exploration" (Michael Berson and Eileen Berson); and (19) "Assessment" (Pat Nickell). (Each chapter contains references.) (BT)**

Playing the Waves

Lars Von Trier's Game Cinema

Amsterdam University Press **Dogma 95, the avant-garde filmmaking movement founded by the Danish director Lars von Trier and three of his fellow directors, was launched in 1995 at an elite cinema conference in Paris—when von Trier was called upon to speak about the future of film but instead showered the audience with pamphlets announcing the new movement and its manifesto. A refreshingly original critical commentary on the director and his practice, Playing the Waves is a paramount addition to one of new media's most provocative genres: games and gaming. Playing the Waves cleverly puns on the title of one of von Trier's most famous features and argues that Dogma 95, like much of the director's low-budget realist productions, is a game that takes cinema beyond the traditional confines of film aesthetics and dramatic rules. Simons articulates the ways in which von Trier redefines the practice of filmmaking as a rule-bound activity, and stipulates the forms and structures of games von Trier brings to bear on his films, as well as the sobering lessons he draws from economic and evolutionary game theory. Much like the director's films, this fascinating volume takes the traditional point of view of film theory and film**

aesthetics to the next level and demonstrates we have much to learn from the perspective of game studies and game theory.

PISA 2015 Assessment and Analytical Framework Science, Reading, Mathematic, Financial Literacy and Collaborative Problem Solving

Science, Reading, Mathematic, Financial Literacy and Collaborative Problem Solving

OECD Publishing **What is important for citizens to know and be able to do? The OECD Programme for International Student Assessment (PISA) seeks to answer that question through the most comprehensive and rigorous international assessment of student knowledge and skills.**

Computer Networks and Inventive Communication Technologies

Proceedings of Third ICCNCT 2020

Springer Nature **This book is a collection of peer-reviewed best selected research papers presented at 3rd International Conference on Computer Networks and Inventive Communication Technologies (ICCNCT 2020). The book covers new results in theory, methodology, and applications of computer networks and data communications. It includes original papers on computer networks, network protocols and wireless networks, data communication technologies, and network security. The proceedings of this conference is a valuable resource, dealing with both the important core and the specialized issues in the areas of next generation wireless network design, control, and management, as well as in the areas of protection, assurance, and trust in information security practice. It is a reference for researchers, instructors, students, scientists, engineers, managers, and industry practitioners for advance work in the area.**

National Geographic Books **"Information about the stars in the sky for very young children"--**

International Handbook of Organizational Teamwork and Cooperative Working

John Wiley & Sons **In today's fast changing, hyper-competitive environment, teamwork and co-operative working enhance the organisation's adaptive capability. The team, rather than the individual, is increasingly seen as the building block of organisations and a key source of competitive advantage. The International Handbook of Organisational Teamwork and Co-operative Working provides a clear focus on the psychological and social processes that can stimulate successful cooperation and teamwork. Michael West, Dean Tjosvold and Ken Smith have brought together the world's leading authorities from a range of social science disciplines to provide a contemporary review of established and emerging perspectives. Throughout the book, processes that both facilitate and obstruct successful cooperation and teamwork are detailed, alongside guidance on best practice and methodology. The challenging and alternative perspectives presented will inform future research and practice. The result is a systematic and comprehensive synthesis of knowledge from a range of disciplines that will prove invaluable to professionals, researchers and students alike. * A systematic and coherent framework which organizes and structures the knowledge in this field * An outstanding collection of authoritative "high profile" authors * Challenging, alternative perspectives that will stimulate and enlighten future research and practice * Selective, updated bibliographies of key literatures support every chapter, a valuable resource for students, trainers and practitioners**

New Perspectives on Cybercrime

Springer **This exciting and timely collection showcases recent work on Cybercrime by members of Uclan Cybercrime Research Unit [UCRU], directed by Dr Tim Owen at the University of Central Lancashire, UK. This book offers up-to-date perspectives on Cybercrime based upon a Realist social ontology, alongside suggestions for how research into Cybercrime might move beyond what can be seen as the main theoretical obstacles facing criminological theory: the stagnation of critical criminology and the nihilistic relativism of the postmodern and post-structuralist cultural turn. Organised into three sections; 'Law and Order in Cyberspace', 'Gender and Deviance in Cyberspace', and 'Identity and Cyberspace', this cutting-edge volume explores some of the most crucial issues we face today on the internet: grooming, gendered violence, freedom of speech and intellectual property crime. Providing unique new theory on Cybercrime, this book will appeal to scholars and advanced students of Criminology, Law, Sociology, Philosophy, Policing and Forensic Science, Information Technology and Journalism, in addition to professionals working within law and order agencies and the security services.**

Interactive Storytelling

11th International Conference on Interactive Digital Storytelling, ICIDS 2018, Dublin, Ireland, December 5–8, 2018, Proceedings

Springer **This book constitutes the refereed proceedings of the 11th International Conference on Interactive Digital Storytelling, ICIDS 2018, held in Dublin, Ireland, in December 2018. The 20 revised full papers and 16 short papers presented together with 17 posters, 11 demos, and 4 workshops were carefully reviewed and selected from 56, respectively 29, submissions. The papers are organized in the following topical sections: the future of the discipline; theory and analysis; practices and games; virtual reality; theater and performance; generative and assistive tools and techniques; development and analysis of authoring tools; and impact in culture and society.**

A History of the English Language

Revised edition

John Benjamins Publishing Company **The English language in its complex shapes and forms changes fast. This thoroughly revised edition has been refreshed with current examples of change and has been updated regarding archeological research. Most suggestions brought up by users and reviewers have been incorporated, for instance, a family tree for Germanic has been added, Celtic influence is highlighted much more, there is more on the origin of Chancery English, and internal and external change are discussed in much greater detail. The philosophy of the revised book remains the same with an emphasis on the linguistic history and on using authentic texts. My audience remains undergraduates (and beginning graduates). The goals of the class and the book are to come to recognize English from various time periods, to be able to read each stage with a glossary, to get an understanding of typical language change, internal and external, and to understand something about language typology through the emphasis on the change from synthetic to analytic. This book has a companion website: http://dx.doi.org/10.1075/z.183.website**

Handbook of Human Resources Management in Government

John Wiley & Sons **In this thoroughly updated edition of a classic reference, Stephen E. Condrey brings together leading experts in public administration and HR management to detail how you can: Move beyond your often limited problem-solving role as an HR manager and demonstrate how you can play a more strategic role in your organization. Deal with crucial issues such as diversity, EEO regulations and other legal issues, compensation, sexual harassment, and performance appraisal. Expand your ability to maximize productivity, efficiency, and employee satisfaction. Develop budgets, use volunteers, and employ consultants. Also included with purchase is a free supplemental on-line Instructor's Manual. Order your copy now!**

National Geographic Readers: Ink!

100 Fun Facts about Octopuses, Squids, and More

National Geographic Children's Books **Meet cuttlefish that can camouflage themselves, octopuses that outsmart their predators, and squid that patrol the deep in this cool fact-filled reader. Learn everything you've ever wanted to know about cephalopods, from inking, to hunting, to coconut carrying. Squish along with squid, camouflage with cuttlefish, and marvel at magnificent octopuses. Packed with weird-but-true facts and tons of cool animal info, this Level 3 Reader explores the incredible world of cephalopods. National Geographic Fact Readers feature the same expert-vetted running text as traditional readers--with a bonus of 100 fun facts sprinkled throughout! A fact roundup at the end of each book lets kids review what they've learned. (Plus, they can impress their friends with their animal expertise!)**

Children, Ethics, & the Law

Professional Issues and Cases

Koocher and Keith-Spiegel introduce the reader to a variety of ethical and legal dilemmas that may arise for mental-health professionals working with children, adolescents, and their families. They offer advice on how to analyze problematic situations and arrive at appropriate decisions. A unique feature of the book is the inclusion of more than 130 vignettes drawn from court decisions and actual clinical incidents. Covering such topics as counseling in schools, psychotherapy in private practice, research in university laboratories, and testifying in court, the authors address a broad spectrum of concerns for professionals who attend to the mental health needs of children. Gerald P. Koocher is chief psychologist at Boston's Children's Hospital and an associate professor of psychology at Harvard Medical School. He is editor of the journal Ethics and Behavior and coauthor, with John E. O'Malley, of The Damocles Syndrome: Psycho-social Consequences of Surviving Childhood Cancer.

National Geographic Kids Readers: Ancient Egypt (Readers)

HarperCollins UK **Dig into the amazing past of ancient Egypt in this new Level 3 Reader from National Geographic Kids.**

How to Slash Waste and Boost Profits Through Lean Project Management

Highly recommended! A straightforward and easy-to-understand book offering practical advice on how to best minimize costs and maximize performance in project management by applying the concepts of Lean Thinking to real project and product development work situations. A must-read for anyone wanting to achieve both efficiency and high standards of excellence. Introduces the concept of the Project Driven Enterprise and describes in detail how to create a lean product development process.

Ancient Egypt

From pyramids and mummies to pharaohs and gods, kids will learn all about the history and culture of this fascinating land.

Introduction to Music Appreciation

A Comprehensive Introduction to Linear Algebra

Addison Wesley Publishing Company

The Leadership Catalyst

A New Paradigm for Helping Leadership Flourish in Organizations

Createspace Independent Publishing Platform **Just as two chemicals in a solution suddenly become more than they were with the addition of a catalytic substance, organizations can become more than they were with the addition of Leadership Catalysts-people who create, develop, or inspire improved leadership behavior and performance in others. By being mindful, connected, intentional, generative, and heretical, Leadership Catalysts become force multipliers and help create Leadership in Depth in their organizations-contributing more powerfully to their organization's success. Lao Tsu, a 6th century B.C. Chinese sage and author of Tao Te Ching captures the essence of being a leadership catalyst in the following passage: With the best of leaders, When the work is done, The project completed, The people all say, "We did it ourselves."**

Collection of Cycle Concepts

Healthcare Management

Open University Press **Covers various major aspects of healthcare management. This book draws together key themes and offers a view about future development and trends in healthcare management. It examines: health policy and practice context for healthcare management; specific challenges of managing healthcare organizations; and, more.**

Declining Grammar and Other Essays on the English Vocabulary

National Council of Teachers **This book contains 25 essays about English words, and how they are defined, valued, and discussed. The book is divided into four sections. The first section, "Language Lore," examines some of the myths and misconceptions that affect attitudes toward language--and towards English in particular. The second section, "Language Usage," examines some specific questions of meaning and usage. Section 3, "Language Trends," examines some controversial trends in English vocabulary, and some developments too new to have received comment before. The fourth section, "Language Politics," treats several aspects of linguistic politics, from special attempts to deal with the ethnic, religious, or sex-specific elements of vocabulary to the broader issues of language both as a reflection of the public consciousness and the U.S. Constitution and as a refuge for the most private forms of expression. (MS)**

Atlantis

The Lost City?

Presents the story of Atlantis, the legendary lost island, and debates whether or not it really existed.
