Handbook of Automated Essay Evaluation

Current Applications and New Directions

Routledge This comprehensive, interdisciplinary handbook reviews the latest methods and technologies used in automated essay evaluation (AEE) methods and technologies. Highlights include the latest in the evaluation of performance-based writing assessments and recent advances in the teaching of writing, language testing, cognitive psychology, and computational linguistics. This greatly expanded follow-up to Automated Essay Scoring reflects the numerous advances that have taken place in the field since 2003 including automated essay scoring and diagnostic feedback. Each chapter features a common structure including an introduction and a conclusion. Ideas for diagnostic and evaluative feedback are sprinkled throughout the book. Highlights of the book's coverage include: The latest research on automated essay evaluation. Descriptions of the major scoring engines including the E-rater®, the Intelligent Essay Assessor, the Intellimetric™ Engine, c-rater™, and LightSIDE. Applications of the uses of the technology including a large scale system used in West Virginia. A systematic framework for evaluating research and technological results. Descriptions of AEE methods that can be replicated for languages other than English as seen in the example from China. Chapters from key researchers in the field. The book opens with an introduction to AEEs and a review of the "best practices" of teaching writing along with tips on the use of automated analysis in the classroom. Next the book highlights the capabilities and applications of several scoring engines including the E-rater®, the Intelligent Essay Assessor, the Intellimetric™ engine, c-rater™, and LightSIDE. Here readers will find an actual application of the use of an AEE in West Virginia, psychometric issues related to AEEs such as validity, reliability, and scaling, and the use of automated scoring to detect reader drift, grammatical errors, discourse coherence quality, and the impact of human rating on AEEs. A review of the cognitive foundations underlying methods used in AEE is also provided. The book concludes with a comparison of the various AEE systems and speculation about the future of the field in light of current educational policy. Ideal for educators, professionals, curriculum specialists, and administrators responsible for developing writing programs or distance learning curricula, those who teach using AEE technologies, policy makers, and researchers in education, writing, psychometrics, cognitive psychology, and computational linguistics, this book also serves as a reference for graduate courses on automated essay evaluation taught in education, computer science, language, linguistics, and cognitive psychology.

Automated Essay Scoring

A Cross-disciplinary Perspective

Routledge This new volume is the first to focus entirely on automated essay scoring and evaluation. It is intended to provide a comprehensive overview of the evolution and state-of-the-art of automated essay scoring and evaluation technology across several disciplines, including education, testing and measurement, cognitive science, computer science, and computational linguistics. The development of this technology has led to many questions and concerns. Automated Essay Scoring attempts to address some of these questions including: *How can automated scoring and evaluation supplement classroom instruction? *How does the technology actually work? *Can it improve students' writing? *How reliable is the technology? *How can these computing methods be used to develop evaluation tools? *What are the state-of-the-art essay evaluation technologies and automated scoring systems? Divided into four parts, the first part reviews the teaching of writing and how computers can contribute to it. Part II analyzes actual automated essay scorers including e-rater™, Intellimetric, and the Intelligent Essay Assessor. The third part analyzes related psychometric issues, and the final part reviews innovations in the field. This book is ideal for researchers and advanced students interested in automated essay scoring from the fields of testing and measurement, education, cognitive science, language, and computational linguistics.

The Federalist Papers

Read Books Ltd Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Doing Excellent Social Research with Documents

Practical Examples and Guidance for Qualitative Researchers

Routledge In today's society we increasingly create and consume written content and images. This includes a range of sources, from social media posts to records held within organisations, and everything in between, including news articles, blogs, shopping lists and official government documents. Critically reading these 'documents' can help us to understand a huge amount about society. Doing Excellent Social Research with Documents includes guidance on how to 'read between the lines', and provides an overview of six research projects which use documents as data. The substantive chapters are organised in two sections, with each chapter focused on a specific type of data. Section one focuses on documents that are found in isolation from their authors, including official and historical documents, traditional media, diaries and online content. Section two focuses on using documents in addition to existing data from primary research, including the role of documents in ethnography and visual research methods. In each chapter, you will be guided through the process of: Developing research questions, and how this impacts on which documents are selected; Considering aspects of bias and quality within the documentary sources; Undertaking analysis using six different strategies including thematic analysis, framework analysis, content analysis, discourse analysis and narrative analysis. Drawing on research projects which reflect real world situations, you will be methodically guided through the research process in detail, enabling you to examine and understand the practices and value of a range of documentary analysis approaches. Doing Excellent Social Research with Documents is a practical how-to guide for students (final year undergraduates onwards) and researchers using documents as data.

A Preface to Romans

Notes on the Epistle in Its Literary and Cultural Setting

Oxford University Press on Demand Bryan approaches St. Paul's letter to the Romans with a number of aims in view. First, he wants to show which literary type or genre would have been seen by Paul's contemporaries as being exemplified in the letter. He also attempts to determine what we can surmise of Paul's attitude and approach to the Jewish bible. The study involves discussion of and comparison with other literature from Paul's time, place and milieu --- including other writings attributed to Paul.

Social Studies Today

Research and Practice

Routledge Social Studies Today will help educators—teachers, curriculum specialists, and researchers—think deeply about contemporary social studies education. More than simply learning about key topics, this collection invites readers to think through some of the most relevant, dynamic, and challenging questions animating social studies education today. With 12 new chapters highlighting recent developments in the field, the second edition features the work of major scholars such as James Banks, Diana Hess, Joel Westheimer, Meira Levinson, Sam Wineburg, Beth Rubin, Keith Barton, Margaret Crocco, and more. Each chapter tackles a specific question on issues such as the difficulties of teaching historical thinking in the classroom, responding to high-stakes testing, teaching patriotism, judging the credibility of Internet sources, and teaching with film and geospatial technologies. Accessible, compelling, and practical, these chapters—full of rich examples and illustrations—showcase some of the most original thinking in the field, and offer pre- and in-service teachers alike a panoramic window on social studies curricula and instruction and new ways to improve them. Walter C. Parker is Professor and Chair of Social Studies Education and (by courtesy) Professor of Political Science at the University of Washington, Seattle.

Godard and the Essay Film

A Form That Thinks

Northwestern University Press Godard and the Essay Film offers a history and analysis of the essay film, one of the most significant forms of intellectual filmmaking since the end of World War II. Warner incisively reconsiders the defining traits and legacies of this still-evolving genre through a groundbreaking examination of the vast and formidable oeuvre of Jean-Luc Godard. The essay film has often been understood by scholars as an eccentric development within documentary, but Warner shows how an essayistic process of thinking can materialize just as potently within narrative fiction films, through self-critical investigations into the aesthetic, political, and philosophical resources of the medium. Studying examples by Godard and other directors, such as Orson Welles, Chris Marker, Agnès Varda, and Harun Farocki, Warner elaborates a fresh account of essayistic reflection that turns on the imaginative, constructive role of the viewer. Through fine-grained analyses, this book contributes the most nuanced description yet of the relational interface between viewer and screen in the context of the essay film. Shedding new light on Godard's work, from the 1960s to the 2010s, in film, television, video, and digital stereoscopy, Warner distills an understanding of essayistic cinema as a shared exercise of critical rumination and perceptual discovery.

Mastering Predictive Analytics with R

Packt Publishing Ltd R offers a free and open source environment that is perfect for both learning and deploying predictive modeling solutions in the real world. With its constantly growing community and plethora of packages, R offers the functionality to deal with a truly vast array of problems.
