Both are experienced scientists, physicists with expertise in both defense and military signal intelligence and experience working with both the Department of Defense and NASA. 3 BOOKS TO KNOW ALIEN INVASION

Tacet Books Welcome to the 3 Books To Know series, our idea is to help readers learn about fascinating topics through three essential and relevant books. These carefully selected works can be fiction, non-fiction, historical documents or even biographies. We will always select for you three great works to instigate your mind, this time the topic is: Alien Invasion. The War of the Worlds by H. G. Wells is one of the most influential works of science fiction of all times. It shows the invasion of the Earth by Martians. The most famous version of this book is Orson Welles' radio drama in 1938. The novel has also influenced the work of scientists like Robert H. Goddard. Inspired by the book, invented both the liquid fuelled rocket and multistage rocket. French philosopher Voltaire tells us an interesting story of alien invasion in Micromega. The difference is that the invaders do not perceive themselves as such. In fact, they do not even perceive humans as intelligent creatures in the beginning. Micromegas raises interesting questions and is a good philosophical exercise. Edison's Conquest of Mars shows Thomas Edison as a space adventurer and defender of the Earth. A curious work that anticipates the figure of the businessman conqueror of the space. Sometimes pointed as the Thomas Edison of our time, Elon Musk may have been inspired by this book for his space endeavors. This is one of many books in the series 3 Books To Know. If you liked this book, look for the other titles in the series, we are sure you will like some of the topics.

EARTHFALL

"Stephen Knight's EARTHFALL is a tense actioner about the fight to save a seed of hope in a nuclear wasteland." Ó4Craig DiLouie, author of THE INFECTION and TOOTH AND NAIL WHEN OUR WORLD ENDED, THEIR MISSION BEGAN. The Sixty Minute War brought humanity to the brink of annihilation. Billions perished. The planet Earth was turned into a virtual graveyard, with the shattered, burned-out skeletons of great cities serving as tombstones marking Mankind's demise. But in the United States, one final outpost remains. Ten years have passed, and Harmony Base, a subterranean U.S. Army installation that survived the nuclear inferno, has yet to receive any response to its continual radio transmissions. Long-range surface reconnaissance missions fail to locate any other survivors. Harmony's personnel, a mix of military and civilian specialists, wonder if they are the only living beings left on the planet. Earthquake damage to the base's vital power plant necessitates a different type of mission: the retrieval of spare parts from a storage depot in San Jose, 1,600 miles distant. Captain Mike Andrews and his crew set out across a Giger-inspired landscape blighted by lightning storms and deadly hazards that could swallow their all-terrain vehicles whole. The last thing Andrews expects to encounter in the nuked ruins of San Jose are survivors led by a twisted freak with mental powers off the scale... Harmony is America's last chance to rise up from the ashes of the nuclear holocaust and help restore civilization. But only if Andrews and his crew can escape San Jose... and the madman who calls himself The Law.

LANDSCAPE WITH INVISIBLE HAND

Candlewick Press National Book Award winner M. T. Anderson returns to future Earth in a sharply wrought satire of art and truth in the

midst of colonization. When the vuvv first landed, it came as a surprise to aspiring artist Adam and the rest of planet Earth — but not necessarily an unwelcome one. Can it really be called an invasion when the vuvv generously offered free advanced technology and cures for every illness imaginable? As it turns out, yes. With his parents' jobs replaced by alien tech and no money for food, clean water, or the vuvv's miraculous medicine, Adam and his girlfriend, Chloe, have to get creative to survive. And since the vuvv crave anything they deem classic Earth culture (doo-wop music, still life paintings of fruit, true love), recording 1950s-style dates for the vuvv to watch in a pay-per-minute format seems like a brilliant idea. But it's hard for Adam and Chloe to sell true love when they hate each other more with every passing episode. Soon enough, Adam must decide how far he's willing to go — and what he's willing to sacrifice — to give the vuvv what they want.

ARMADA

A NOVEL BY THE AUTHOR OF READY PLAYER ONE

Ballantine Books From the author of Ready Player One, a rollicking alien invasion thriller that embraces and subverts science-fiction conventions as only Ernest Cline could. Zack Lightman has never much cared for reality. He vastly prefers the countless science-fiction movies, books, and videogames he's spent his life consuming. And too often, he catches himself wishing that some fantastic, impossible, world-altering event could arrive to whisk him off on a grand spacefaring adventure. So when he sees the flying saucer, he's sure his years of escapism have finally tipped over into madness. Especially because the alien ship he's staring at is straight out of his favorite videogame, a flight simulator called Armada—in which gamers just happen to be protecting Earth from alien invaders. As impossible as it seems, what Zack's seeing is all too real. And it's just the first in a blur of revelations that will force him to question everything he thought he knew about Earth's history, its future, even his own life—and to play the hero for real, with humanity's life in the balance. But even through the terror and exhilaration, he can't help thinking: Doesn't something about this scenario feel a little bit like...well...fiction? At once reinventing and paying homage to science-fiction classics as only Ernest Cline can, Armada is a rollicking, surprising thriller, a coming-of-age adventure, and an alien invasion tale like nothing you've ever read before.

SEVEN SEALS REDUX

THE COMPLETE APOCALYPTIC NOVEL SERIES

Feather and Fermion Publishing This Complete Apocalyptic Novel Series (Books 1-7) begins when ragtag survivors of an alien invasion try to save humanity from the Book of Revelation's seven seals. Tag along with the gang as they fight their way through the apocalypse while facing zombies, aliens, and a few strange creatures. (Book 1) Sarah Van Dam is a divorced mom with two teenage sons, Willis and Georgie. Dealing with her abusive ex-husband is nothing when compared to the return of the seven seals from the Book of Revelation. The first seal, White Horse, brings an alien invasion and a false messiah. Earth's environment is altered, a zombie plague is unleashed, and a hybrid species is created by breeding with the uninfected. A small portion of the population is immune to the spores' infection; this includes Sarah, her sons and Jack, a man she releases from jail. With the help of scientists Professor Dillon and Max, Father Mitch, a small militia group and a couple pet dogs, these ragtag survivors fight the aliens and attempt to save the planet from the seven judgments. (Book 2) Ragtag survivors of the first seal (White Horse) successfully rid Earth of the aliens. Staying clear of nuclear power plant meltdowns seemed to be the worst thing they would have to deal with, aside from an occasional zombie. That was, until the second seal (Red Horse) was opened and civil unrest began. Zombie cocoons hatched into mutants, children became gunmen, and animals turned violent, even one of their own people began changing into a zombie. When they finally reached the prepper compound where they thought they would find safety, they found something unexpected, instead. (Book 3) Sarah, Jack, Max, Willis, Georgie, Miss Foo, Father Mitch, and prepper Randy are captured by the half-breeds and are to be fed to the alien bioship. While onboard the spaceship, they end up inside Mars where dinosaurs from the Mesozoic Era roam and creatures are jailed. (Book 4) Our ragtag characters must endure the opening of the fourth seal and the violence, famine, pestilence, and beasts that it brings. The zombies have returned, the alien moss has morphed into something more destructive, and The Community has begun taking the tainted biological warfare vaccine again. Will they be able to escape from Death and the aliens? Or will they finally reach their breaking point and be fed to the bioship? Find out by tagging along with the gang in this lighthearted and upbeat story. (Book 5) Forced off Earth because of an alien invasion, our haggard crew must find a new home. While Infinity One is designed for deep space flight, it is virtually untested as it sets out on its maiden voyage into the solar system. (Book 6) Close to perishing, the battered crew of Infinity One must risk their lives—and sacrifice one—to assure that human life continues on. (Book 7) The depleted crew have made many sacrifices as they fought their way through the Book of Revelation's first six seals. Now with the last seal hanging over their heads, will they finally meet their match in these last days? Find out in this final book of the Seven Seals Redux series. Suspenseful and optimistic, this apocalyptic series follows ordinary people as they try to carry out the impossible task of saving mankind.
