I.C.S.E. ECONOMICS APPLICATIONS CLASS X

I.C.S.E. ECONOMICS APPLICATIONS

Goyal Brothers Prakashan

TIME SERIES AND PANEL DATA ECONOMETRICS

Oxford University Press *This work describes and illustrates many advances that have taken place in a number of areas in theoretical and applied econometrics over the past four decades.*

GLOBAL ECONOMIC GOVERNANCE AND THE DEVELOPMENT PRACTICES OF THE MULTILATERAL DEVELOPMENT BANKS

Routledge *As pillars of the post-1945 international economic system the Regional and Sub-Regional Development Banks (RSDBs) have long been considered mini-World Banks, reiterating the policy approach of the largest official multilateral development lender in the world. The main objective of the collection is to identify what role the RSDBs play in global economic governance and why. This edited collection draws together cutting edge original research on these understudied institutions. In the burgeoning sub-field of global economic governance as well as the broader study of international organisations (IOs), too often the focus remains on the World Bank and the International Monetary Fund (IMF). Second-order IOs, such as the RSDBs, receive much less attention despite their longevity and regional importance. This volume corrects this oversight by bringing together methodologically diverse research on the RSDBs that interrogates the role and impact of these organisations in global economic governance. The book investigates: the African Development Bank (AfDB); the Asian Development Bank (AsDB); the Inter-American Development Bank (IDB), and the European Bank for Reconstruction and Development (EBRD) and select sub-regional development banks in comparison to the World Bank Group. This work will be of great interest to students and scholars of IPE, IR and Development Studies.*

COMPARATIVE POLITICAL AND ECONOMIC PERSPECTIVES ON THE MENA REGION

IGI Global *The region that includes the Middle East and Northern Africa (MENA) faces a diverse set of cultural, political, and economic issues. Exploring the countries that are considered to be a part of the MENA region as well as comparing this region to the rest of the developing and developed world provides essential insight into the current state of the region as well as its future outlook. Comparative Political and Economic Perspectives on the MENA Region takes a critical approach to analyzing the socio-economic development of the MENA Region and the role of politics and various social issues in this development. Highlighting research-based perspectives from global leaders on topics such as decentralization, international affairs, the Arab Spring, foreign direct investment, and education in the Middle East and Northern Africa, this publication is designed for library reference section inclusion and meets the research needs of government officials, professionals specializing in international business, economists, researchers, and graduate-level students in the areas of economics, international politics, African and Middle Eastern studies, and regional development.*

Goyal Brothers Prakashan

GLOBAL ECONOMIC COOPERATION

VIEWS FROM G20 COUNTRIES

Springer *This book discusses issues such as global financial crisis and global governance, food security, energy sustainability, the global financial system, trade and protectionism, and growth and employment. Since the outbreak of the financial as well as national debt crises in the Euro zone, the focus of the G20 has shifted back to addressing short-term issues. These issues range from the dynamic effects of global imbalances and the appropriate degree of financial sector regulation to questions of austerity versus growth and the lack of a comprehensive framework for managing the international monetary system. A further issue is the relevance of the G20 agenda for emerging market economies. Global economic recovery still remains fragile and downside risks to global growth remain. Additionally, much of the agenda of the Seoul Development Consensus for shared growth launched in 2010 has yet to be fulfilled. A key discussion point in the book, therefore, is how to make a tangible and significant difference in peoples' lives by implementing an agenda of inclusive growth.*

OECD ECONOMIC OUTLOOK, VOLUME 2016

OECD Publishing *The OECD Economic Outlook is the OECD's twice-yearly analysis of the major economic trends and prospects for the next two years.*

REDEFINING EUROPEAN ECONOMIC INTEGRATION

Cambridge University Press *An innovative, bipartisan and comprehensive account of why European economic integration has been in disarray and how to fix it.*

COMPREHENSIVE GUIDE TO SBI BANK PO PRELIMINARY & MAIN EXAM WITH 5 ONLINE TESTS (9TH EDITION)

Disha Publications

OECD ECONOMIC SURVEYS: CANADA 2016

OECD Publishing *This 2016 OECD Economic Survey of the Canada examines recent economic developments, policies and prospects. The special chapters cover: Network sector competition; Small business dynamism.*

GLOBAL FINANCIAL STABILITY REPORT, OCTOBER 2014

RISK TAKING, LIQUIDITY, AND SHADOW BANKING: CURBING EXCESS WHILE PROMOTING GROWTH

International Monetary Fund *The October 2014 issue finds that six years after the start of the crisis, the global economic recovery continues to rely heavily on accommodative monetary policies in advanced economies. Monetary accommodation remains critical in supporting economies by encouraging economic risk taking in the form of increased real spending by households and greater willingness to invest and hire by businesses. However, prolonged monetary ease may also encourage excessive financial risk taking. Analytical chapters examine (1) the growth of shadow banking around the globe, assessing risks and discussing regulatory responses, and calling for a more encompassing (macroprudential) approach to regulation and for enhanced data provision; and (2) how conflicts of interest among bank managers, shareholders, and debt holders can lead to excessive bank risk taking from society's point of view, finding no clear relation between bank risk and the level of executive compensation, but that a better alignment of bankers' pay with long-term outcomes is associated with less risk.*

HANDBOOK OF REGIONAL AND URBAN ECONOMICS, VOL. 5B

Elsevier *Developments in methodologies, agglomeration, and a range of applied issues have characterized recent advances in regional and urban studies. Volume 5 concentrates on these developments while treating traditional subjects such as housing, the costs and benefits of cities, and policy issues beyond regional inequalities. Contributors make a habit of combining theory and empirics in each chapter, guiding research amid a trend in applied economics towards structural and quasi-experimental approaches. Clearly distinguished from the New Economic Geography covered by Volume 4, these*

articles feature an international approach that positions recent advances within the discipline of economics and society at large. Editors are recognized as leaders and can attract an international list of contributors Regional and urban studies interest economists in many subdisciplines, such as labor, development, and public economics Table of contents combines theoretical and applied subjects, ensuring broad appeal to readers

EUROPEAN ECONOMIC GOVERNANCE AFTER THE EUROZONE AND COVID-19 CRISES

Cambridge Scholars Publishing The COVID-19 health crisis came as a tremendous shock to the world, and to the EU more particularly, only a few years after the Eurozone crisis. The pandemic exacerbated the old structural differences in the economic models between the South and the North of Europe. However, this time, the response of the EU was of a completely different nature: an impressive array of fiscal and monetary policy instruments was mobilized to counteract the shock of the pandemic and to restore confidence. Is there reason to be optimistic in these times of uncertainty? This volume explores possible answers to this question, bringing together several renowned European intellectuals and experts from the fields of economics, law, and public policy to offer their thoughts. The book will stimulate discussion on the quality of institutions and growth sustainability, and contains ideas on the future of Europe and the reorganization of European economic governance. It analyzes the basic fiscal and monetary policy tools used by the EU to tackle the Eurozone and COVID-19 pandemic crises. Several aspects of the EU Banking Union and possible structural reforms of the banking sector are also discussed, as is the role of Credit Rating Agencies as tools of economic prediction.

INTERNATIONAL CONFERENCE ON EDUCATION AND MANAGEMENT SCIENCE (ICEMS2014)

DEStech Publications, Inc 2014 International Conference on Education and Management Science (ICEMS2014) will be held in Beijing, China on August 19-20, 2014. The main purpose of this conference is to provide a common forum for researchers, scientists, and students from all over the world to present their recent findings, ideas, developments and application in the border areas of Education and Management Science. It will also report progress and development of methodologies, technologies, planning and implementation, tools and standards in information systems. Education is an internal topic. It is a process of delivering knowledge in a basic meaning. Humans are hard to define the actual definition of education. But it is the key point for our society to step forward. Management science is the discipline that adapts the scientific approach for problem solving to help managers making informed decisions. The goal of management science is to recommend the course of action that is expected to yield the best outcome with what is available.

ECONOMIC COMPETENCE AND FINANCIAL LITERACY OF YOUNG ADULTS

STATUS AND CHALLENGES

Verlag Barbara Budrich The authors take a detailed look at the economic competence and financial literacy of young adults, especially of those who start an apprenticeship or who take up their studies at a university. Economic competence and financial literacy are of special interest within this group, because these young people are - mostly for the first time in their lives - responsible for autonomously managing their own financial affairs and deal with economic challenges.

THE FUTURE OF AIRBNB AND THE 'SHARING ECONOMY'

THE COLLABORATIVE CONSUMPTION OF OUR CITIES

Channel View Publications This book deconstructs the 'sharing' marketing narratives surrounding Airbnb and similar platforms. It provides a conceptual analysis of the 'sharing economy' and accommodation sector and furthers the ongoing discussion surrounding Airbnb and the social sustainability of city tourism. The volume analyses the touristification of neighbourhoods in the context of broader economic and ideological shifts, thus bridging the gap between academic and social debate. It presents four different city scenarios of potential future developments and evaluates the effects of different regulatory responses, giving readers an understanding of the forces and factors at work and envisioning the ultimate consequences of current developments. The book will appeal to students and researchers in tourism and hospitality studies, futures studies and urban planning, as well as to policymakers and strategists in the hospitality and tourism sectors.

TARGET IBPS BANK PO/ MT PRELIMINARY & MAIN EXAMS 20 PRACTICE SETS WORKBOOK - 16 IN BOOK + 4 ONLINE (6TH EDITION)

MACROPRUDENTIAL SOLVENCY STRESS TESTING OF THE INSURANCE SECTOR

International Monetary Fund Over the last decade, stress testing has become a central aspect of the Fund's bilateral and multilateral surveillance work. Recently, more emphasis has also been placed on the role of insurance for financial stability analysis. This paper reviews the current state of system-wide solvency stress tests for insurance based on a comparative review of national practices and the experiences from Fund's FSAP program with the aim of providing practical guidelines for the coherent and consistent implementation of such exercises. The paper also offers recommendations on improving the current insurance stress testing approaches and presentation of results.

NEW ECONOMIC THINKING AND REAL ESTATE

John Wiley & Sons New Economic Thinking and Real Estate offers a modern and distinctive approach to forecasting and understanding property markets. With this book, students will develop an intuitive ability to interpret economic indicators and acquire the confidence to assess property markets. The book is divided into three parts: Part A: Resource choices - deals with microeconomics; Part B: Financial Systems - seeks to make sense of the macroeconomic scene and Part C: Measuring and Forecasting.

THEY DIDN'T SEE US COMING

THE HIDDEN HISTORY OF FEMINISM IN THE NINETIES

Basic Books From an award-winning scholar, a vibrant portrait of a pivotal moment in the history of the feminist movement From the declaration of the "Year of the Woman" to the televising of Anita Hill's testimony, from Bitch magazine to SisterSong's demands for reproductive justice: the 90s saw the birth of some of the most lasting aspects of contemporary feminism. Historian Lisa Levenstein tracks this time of intense and international coalition building, one that centered on the growing influence of lesbians, women of color, and activists from the global South. Their work laid the foundation for the feminist energy seen in today's movements, including the 2017 Women's March and #MeToo campaigns. A revisionist history of the origins of contemporary feminism, They Didn't See Us Coming shows how women on the margins built a movement at the dawn of the Digital Age.

HUMAN DEVELOPMENT REPORT 2015

WORK FOR HUMAN DEVELOPMENT

United Nations This report takes a broad view of the link between work and human development. Work is a critical tool for economic growth and security, poverty reduction and gender equality. It enables full participation in society while affording people a sense of dignity and worth. Humans working together not only increase their material well-being, they also accumulate a wide body of knowledge that serves as the basis for cultures and civilizations. The report finds that work enhances human development when policies are taken to expand productive, remunerative and satisfying work opportunities. Workers' skills and potentials are enhanced, their well-being in terms of rights, safety and benefits are ensured with targeted interventions, and an agenda incorporating decent work, a new Social Contract and a Global Deal is pursued.

ECONOMIC GOVERNANCE IN EUROPE

COMPARATIVE PARADOXES AND CONSTITUTIONAL CHALLENGES

Oxford University Press *The Euro-Crisis and the legal and institutional responses to it* have had important constitutional implications on the architecture of the European Union (EU). Going beyond the existing literature, Federico Fabbrini's book takes a broad look and examines how the crisis and its aftermath have changed relations of power in the EU, disaggregating three different dimensions: (1) the vertical relations of power between the member states and the EU institutions, (2) the relations of power between the political branches and the courts, and (3) the horizontal relations of power between the EU member states themselves. The first part of the book argues that, in the aftermath of the Euro-crisis, power has been shifting along each of these axes in paradoxical ways. In particular, through a comparison of the United States, Fabbrini reveals that the EU is nowadays characterized by a high degree of centralization in budgetary affairs, an unprecedented level of judicialization of economic questions, and a growing imbalance between the member states in the governance of fiscal matters. As the book makes clear, however, each of these dynamics is a cause for concern - as it calls into question important constitutional values for the EU, such as the autonomy of the member states in taking decision about taxing and spending, the preeminence of the political process in settling economic matters, and the balance between state power and state equality. The second part of the book, therefore, devises possible options for future legal and institutional developments in the EU which may revert these paradoxical trends. In particular, Fabbrini considers the ideas of raising a fiscal capacity, restoring the centrality of the EU legislative process, and reforming the EU executive power, and discusses the challenges that accompany any further step towards a deeper Economic and Monetary Union.

PRINCIPLES OF ECONOMICS IN CONTEXT

Routledge *The study of economics should not be highly abstract, but closely related to real-world events. Principles of Economics in Context addresses this challenge, laying out the principles of micro-and macroeconomics in a manner that is thorough, up to date and relevant to students, keeping theoretical exposition close to experience. Emphasizing writing that is compelling, clear, and attractive to students, it addresses such critical concerns as ecological sustainability, distributional equity, the quality of employment, and the adequacy of living standards. Key features include: Clear explanation of basic concepts and analytical tools, with Discussion Questions at the end of each section, encouraging immediate review of what has been read and relating the material to the students' own experience; Full complement of instructor and student support materials online, including test banks and grading through Canvas; Key terms highlighted in boldface throughout the text, and important ideas and definitions set off from the main text; A glossary at the end of the book containing all key terms, their definitions, and the number of the chapter(s) in which each was first used and defined. Updates for the second edition include: Expanded coverage of topics including inequality, financialization and debt issues, the changing nature of jobs, and sustainable development; New material on wage discrimination by race and gender; an expanded section on labor markets and immigration; Updated discussion of fiscal policy to include more recent developments such as the Trump tax cuts; New material on behavioral economics, public goods, and climate change policy; a new section on "The Economics of Renewable Energy." This new, affordable edition combines the just-released new editions of Microeconomics in Context and Macroeconomics in Context to provide an integrated full-year text covering all aspects of both micro-and macro-analysis and application, with many up-to-date examples and extensive supporting Web resources for instructors and students.*

ROLE OF HEALTH ECONOMIC DATA IN POLICY MAKING AND REIMBURSEMENT OF NEW MEDICAL TECHNOLOGIES

Frontiers Media SA *This Research Topic was focused on provision of novel medical technologies worldwide keeping in mind financial sustainability challenge. An exemplary area certainly are oncology pharmaceuticals where prices have increased 10-fold in recent years leading to concerns on affordability. The objective of this collection of studies was to reveal some of the hidden underlying causes of unequal access to the medicines. Another core issue is the growing proportion of out-of-pocket health spending in many world regions. In line with the joint efforts of the editors and authors we received an exceptionally high response worldwide. This E-Book attracted a total of 37 self-standing research submissions out of which 32 ultimately passed external peer review and got published. Base affiliations of the authors spread across academia, pharmaceutical and medical device industry, governmental authorities and clinical medicine. Their home institutions were situated in fifteen different countries inclusive of Japan, Israel, Russia, USA, Germany, Italy, Netherlands, Austria, Spain, Malta, Serbia, Poland, Bulgaria, Hungary and Malaysia. We frankly believe that authors succeeded to cover important literature gaps referring to these world regions. We solicit global professional audience to put our efforts to the test and read this contribution to the health economics literature.*
