WHY BE HAPPY WHEN YOU COULD BE NORMAL?

Open Road + Grove/Atlantic **A New York Times bestseller: The “magnificent” memoir by one of the bravest and most original writers of our time—“A tour de force of literature and love” (Vogue).** Jeanette Winterson’s bold and revelatory novels have established her as a major figure in world literature. Her internationally best-selling debut, *Oranges Are Not the Only Fruit*, tells the story of a young girl adopted by Pentecostal parents, and has become a staple of required reading in contemporary fiction classes. *Why Be Happy When You Could Be Normal?* is a “singular and electric” memoir about a life’s work to find happiness (The New York Times). It is a book full of stories: about a girl locked out of her home, sitting on the doorstep all night; about a religious zealot disguised as a mother who has two sets of false teeth and a revolver in the dresser, waiting for Armageddon; about growing up in a north England industrial town now changed beyond recognition; about the universe as a cosmic dustbin. It is the story of how a painful past, rose to haunt the author later in life, sending her on a journey into madness and out again, in search of her biological mother. It is also a book about the power of literature, showing how fiction and poetry can form a string of guiding lights, or a life raft that supports us when we are sinking. Witty, acute, fierce, and celebratory, *Why Be Happy When You Could Be Normal?* is a tough-minded story of the search for belonging—for love, identity, home, and a mother.

FOR THE LOVE OF GOD (VOL. 1, TRADE PAPERBACK)

A DAILY COMPANION FOR DISCOVERING THE RICHES OF GOD'S WORD

Crossway In a world that views absolute truth, right and wrong, and salvation as being subject to individual interpretation, the Bible's unwavering proclamations and miraculous stories seem obsolete in modern times. But it is not God's Word that has changed. Indeed, its relevancy and its power to transform lives are intact. What has changed is the number of people who consult it. Now more than ever the need to read the Bible, to understand the big picture of its storyline, and to grasp the relevance this has for your life is critical. As with its companion volume, *For the Love of God-Volume 2*, this devotional contains a systematic 365-day plan, based on the M'Cheyne Bible-reading schedule, that will in the course of a year guide you through the New Testament and Psalms twice and the rest of the Old Testament once. In an effort to help preserve biblical thinking and living, D. A. Carson has also written thought-provoking comments and reflections regarding each day's scriptural passages. And, most uniquely, he offers you perspective that places each reading into the larger framework of history and God's eternal plan to deepen your understanding of his sovereignty-and the unity and power of his Word.

REPRESENTATIONS OF THE INTELLECTUAL

Vintage In these six essays--delivered on the BBC as the prestigious Reith Lectures--Edward Said addresses the ways in which the intellectual can best serve society in the light of a heavily compromised media and of special interest groups who are protected at the cost of larger community concerns. Said suggests a recasting of the intellectual's vision to resist the lures of power, money, and specialization. In these pieces, Said eloquently illustrates his arguments by drawing on such writers as Antonio Gramsci, Jean-Paul Sartre, Regis Debray, Julien Benda, and Theodore Adorno, and by discussing current events and celebrated figures in the world of science and politics: Robert Oppenheimer, Henry Kissinger, Dan Quayle, Vietnam and the Gulf War. Said sees the modern intellectual as an editor, journalist, academic, or political adviser--in other words, a highly specialized professional--who has moved from a position of independence to an alliance with powerful corporate, institutional, or governmental organizations. He concludes that it is the exile-immigrant, the expatriate, and the amateur who must uphold the traditional role of the intellectual as the voice of integrity and courage, able to speak out against those in power.

AFTER VIRTUE

A&C Black **Highly controversial when it was first published in 1981, Alasdair MacIntyre's After Virtue has since established itself as a landmark work in contemporary moral philosophy. In this book, MacIntyre sought to address a crisis in moral language that he traced back to a European Enlightenment that had made the formulation of moral principles increasingly difficult. In the search for a way out of this impasse, MacIntyre returns to an earlier strand of ethical thinking, that of Aristotle, who emphasised the importance of 'virtue' to the ethical life. More than thirty years after its original publication, After Virtue remains a work that is impossible to ignore for anyone interested in our understanding of ethics and morality today.**

PRACTICAL ETHICS

Cambridge University Press For thirty years, Peter Singer's Practical Ethics has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

CHRISTIAN WORSHIP WORLDWIDE

EXPANDING HORIZONS, DEEPENING PRACTICES

Wm. B. Eerdmans Publishing Company As Christianity has boomed in the non-Western world, several significant questions have emerged regarding how worship and culture relate. Charles Farhadian here presents a timely investigation of the interaction between culture and worship. Leading scholars -- experts in history, mission, culture, and liturgy -- offer diverse essays addressing worship in the context of worldwide Christianity. At the heart of Christian Worship Worldwide are several case studies from Africa, Asia, Latin America, and the Pacific that explore the contours of particular nations, cultures, and liturgical actions. These essays show how Christian plurality is most vividly exemplified in the context of worship, where language, song, culture, and indigenous theology come together. Contributors: M. L. ORANGES ARE NOT THE ONLY FRUIT

Open Road + Grove/Atlantic The New York Times–bestselling author's Whitbread Prize–winning debut—"Winterson has mastered both comedy and tragedy in this rich little novel" (The Washington Post Book World). When it first appeared, Jeanette Winterson's extraordinary debut novel received unanimous international praise, including the prestigious Whitbread Prize for best first fiction. Winterson went on to fulfill that promise, producing some of the most dazzling fiction and nonfiction of the past decade, including her celebrated memoir *Why Be Happy When You Can Be Normal?*. Now required reading in contemporary literature, *Oranges Are Not the Only Fruit* is a funny, poignant exploration of a young girl's adolescence. Jeanette is a bright and rebellious orphan who is adopted into an evangelical household in the dour, industrial North of England and finds herself embroidering grim religious mottoes and shaking her little tambourine for Jesus. But as this budding missionary comes of age, and comes to terms with her unorthodox sexuality, the peculiar balance of her God-fearing household dissolves. Jeanette's insistence on listening to truths of her own heart and mind—and on reporting them with wit and passion—makes for an unforgettable chronicle of an eccentric, moving passage into adulthood. "If Flannery O'Connor and Rita Mae Brown had collaborated on the coming-out story of a young British girl in the 1960s, maybe they would have approached the quirky and subtle hilarity of Jeanette Winterson's autobiographical first novel. . . . Winterson's voice, with its idiosyncratic wit and sensitivity, is one you've never heard before." —Ms. Magazine

HarperCollins **INTERNATIONAL BESTSELLER** A powerful and persuasive discussion about economics, freedom, and the relationship between the two, from today's brightest economist. In this classic discussion, Milton and Rose Friedman explain how our freedom has been eroded and our affluence undermined through the explosion of laws, regulations, agencies, and spending in Washington. This important analysis reveals what has gone wrong in America in the past and what is necessary for our economic health to flourish.

IT COMES FROM THE PEOPLE

COMMUNITY DEVELOPMENT AND LOCAL THEOLOGY

Temple University Press The closing of local mines and factories collapsed the economic and social structure of Ivanhoe, Virginia, a small, rural town once considered a dying community "on the rough side of the mountain." Documenting the creative survival techniques developed by Ivanhoe citizens in the aftermath, *It Comes from the People* tells how this community organized to revitalize the town and demand participation in its future. Photos, interviews, stories, songs, poems, and scenes from a local theater production tell how this process of rebuilding gradually uncovered the community's own local theology and a growing consciousness of cultural and religious values. A significant aspect of this social transformation in Ivanhoe, as in many rural areas, was the emergence of women as leaders, educators, and organizers, developing new approaches to revive the economy and the people simultaneously. This book is unusually open about the difficult process faced by outside researchers working with community members to describe community life. It discusses the inherent dilemmas frankly and presents a model for those who engage in community studies and ethnographic research. Author note: Mary Ann Hinsdale is Associate Professor of Religious Studies at Boston College. Helen M. Lewis is Interim Director of the Appalachian Center at Berea College in Kentucky. S. Maxine Waller is President of the Ivanhoe Civic League and directs community-based student volunteer programs in Virginia.

A TASTE OF POWER

A BLACK WOMAN'S STORY

Anchor "A stunning picture of a black woman's coming of age in America. Put it on the shelf beside *The Autobiography of Malcolm X*." —Kirkus Reviews Elaine Brown assumed her role as the first and only female leader of the Black Panther Party with these words: "I have all the guns and all the money. I can withstand challenge from without and from within. Am I right, Comrade?" It was August 1974. From a small Oakland-based cell, the Panthers had grown to become a revolutionary national organization, mobilizing black communities and white supporters across the country—but relentlessly targeted by the police and the FBI, and increasingly riven by violence and strife within. How Brown came to a position of power over this paramilitary, male-dominated organization, and what she did with that power, is a riveting, unsparing account of self-discovery. Brown's story begins with growing up in an impoverished neighborhood in Philadelphia and attending a predominantly white school, where she first sensed what it meant to be black, female, and poor in America. She describes her political awakening during the bohemian years of her adolescence, and her time as a foot soldier for the Panthers, who seemed to hold the promise of redemption. And she tells of her ascent into the upper echelons of Panther leadership: her tumultuous relationship with the charismatic Huey Newton, who would become her lover and her nemesis; her experience with the male power rituals that would sow the seeds of the party's demise; and the scars that she both suffered and inflicted in that era's paradigm-shifting clashes of sex and power. Stunning, lyrical, and acute, this is the indelible testimony of a black woman's battle to define herself. "A glowing achievement." —Los Angeles Times "Honest, funny, subjective, unsparing, and passionate. . . A Taste of Power weaves autobiography and political history into a story that fascinates and illuminates." —The Washington Post

TWELVE YEARS A SLAVE

Prabhat Prakashan "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

EXILE AND PRIDE

DISABILITY, QUEERNESS, AND LIBERATION

Duke University Press First published in 1999, the groundbreaking *Exile and Pride* is essential to the history and future of disability politics. Eli Clare's revelatory writing about his experiences as a white disabled genderqueer activist/writer established him as one of the leading writers on the intersections of queerness and disability and permanently changed the landscape of disability politics and queer liberation. With a poet's devotion to truth and an activist's demand for justice, Clare deftly unspools the multiple histories from which our ever-evolving sense of self unfolds. His essays weave together memoir, history, and political thinking to explore meanings and experiences of home: home as place, community, bodies, identity, and activism. Here readers will find an intersectional framework for understanding how we actually live with the daily hydraulics of oppression, power, and resistance. At the root of Clare's exploration of environmental destruction and capitalism, sexuality and institutional violence, gender and the body politic, is a call for social justice movements that are truly accessible to everyone. With heart and hammer, *Exile and Pride* pries open a window onto a world where our whole selves, in all their complexity, can be realized, loved, and embraced.

AMERICA'S FASTEST GROWING CHURCHES

WHY 10 SUNDAY SCHOOLS ARE GROWING FAST

Here is the story of 10 churches in America that are growing at a very rapid pace. They are different in many respects: sections of the country, age of congregation, age of pastor, and their approach to the task of growth. Author Towns has done a very fine job in elaborating these differences but the major contribution of the book may well be the strong emphasis on the ways in which they are alike. It is must reading for every pastor and church member who is depressed by declining attendance or lack of growth.

THE BEATLES, POPULAR MUSIC AND SOCIETY

A THOUSAND VOICES

Springer More has been written about the Beatles than any other performing artists of the twentieth century. Accounts of their lives and times have been retold, reproduced and reinvented to the extent that their achievements have passed into contemporary folklore and popular mythology. What has been surprisingly absent, however, is any sustained critical investigation of the numerous debates and issues the group provoked. This book provides that long overdue analysis, by seeking to present the academic study of the Beatles in its appropriate contexts - historical, political, musical and sociological. Consisting entirely of newly commissioned articles and written by an international group of scholars, its contents challenge many of the traditional assumptions about the Beatles and offer fresh and provocative insights into the nature of their success and its continuing influence. It is essential reading for those wishing to understand not only the phenomenon of the Beatles but also the cultural environment within which popular music continues to be practised and studied.

GLOBAL BUSINESS REGULATION

Cambridge University Press Across an amazing sweep of the critical areas of business regulation - from contract, intellectual property and corporations law, to trade, telecommunications, labour standards, drugs, food, transport and environment - this book confronts the question of how the regulation of business has shifted from national to global institutions. Based on interviews with 500 international leaders in business and government, this book examines the role played by global institutions such as the WTO, the OECD, IMF,

Moody's and the World Bank, as well as various NGOs and significant individuals. The authors argue that effective and decent global regulation depends on the determination of individuals to engage with powerful agendas and decision-making bodies that would otherwise be dominated by concentrated economic interests. This book will become a standard reference for readers in business, law, politics and international relations.

HOW ARE WE TO LIVE?

ETHICS IN AN AGE OF SELF-INTEREST

Prometheus Books Is there still anything worth living for? Is anything worth pursuing, apart from money, love, and caring for one's own family? Internationally known social philosopher and ethicist Peter Singer has an answer to these and other questions in this compelling new volume. If we can detach ourselves from our own immediate preoccupations and look at the world as a whole and our place in it, there is something absurd about the idea that people should have trouble finding something to live for. Singer suggests that people who take an ethical approach to life often avoid the trap of meaninglessness, finding a deeper satisfaction in what they are doing than those people whose goals are narrower and more self-centered. He spells out what he means by an ethical approach to life, and shows that it can bring about significant and far-reaching changes to one's life. After completing each section, the reader will be compelled to stop and ponder for a while. -San Antonio Current. . . extremely well written. -Mind (UK) Imagine that you could choose a book that everyone in the world would read. My choice would be this book by Peter Singer. It is a good philosophy book, which covers many historical, social, and biological issues with command and verve, but I would choose it because its persuasive power could change many people's lives for the better, both from their own point of view and from that of the world as a whole. -Ethics

NOISE, WATER, MEAT

A HISTORY OF SOUND IN THE ARTS

MIT Press An examination of the role of sound in twentieth-century arts. This interdisciplinary history and theory of sound in the arts reads the twentieth century by listening to it—to the emphatic and exceptional sounds of modernism and those on the cusp of postmodernism, recorded sound, noise, silence, the fluid sounds of immersion and dripping, and the meat voices of viruses, screams, and bestial cries. Focusing on Europe in the first half of the century and the United States in the postwar years, Douglas Kahn explores aural activities in literature, music, visual arts, theater, and film. Placing aural activity at the center of the history of the arts, he revisits key artistic questions, listening to the sounds that drown out the politics and poetics that generated them. Artists discussed include Antonin Artaud, George Brecht, William Burroughs, John Cage, Sergei Eisenstein, Fluxus, Allan Kaprow, Michael McClure, Yoko Ono, Jackson Pollock, Luigi Russolo, and Dziga Vertov.

CHINESE SYMPATHIES

MEDIA, MISSIONARIES, AND WORLD LITERATURE FROM MARCO POLO TO GOETHE

Cornell University Press Chinese Sympathies examines how Europeans—German-speaking writers and thinkers in particular—identified with Chinese intellectual and literary traditions following the circulation of Marco Polo's Travels. This sense of affinity expanded and deepened, Daniel Leonhard Purdy shows, as generations of Jesuit missionaries, baroque encyclopedists, Enlightenment moralists, and translators established intellectual regimes that framed China as being fundamentally similar to Europe. Analyzing key German literary texts—theological treatises, imperial histories, tragic dramas, moral philosophies, literary translations, and poetic cycles—Chinese Sympathies traces the paths from baroque-era missionary reports that accommodated Christianity with Confucianism to Goethe's concept of world literature, bridged by Enlightenment debates over cosmopolitanism and sympathy, culminating in a secular principle that allowed readers to identify meaningful similarities across culturally diverse literatures based on shared human experiences. Thanks to generous funding from Penn State University, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellopen.org) and other repositories.

MADE TO STICK

WHY SOME IDEAS SURVIVE AND OTHERS DIE

Random House NEW YORK TIMES BESTSELLER • The instant classic about why some ideas thrive, why others die, and how to make your ideas stick. "Anyone interested in influencing others—to buy, to vote, to learn, to diet, to give to charity or to start a revolution—can learn from this book."—The Washington Post Mark Twain once observed, "A lie can get halfway around the world before the truth can even get its boots on." His observation rings true: Urban legends, conspiracy theories, and bogus news stories circulate effortlessly.

Meanwhile, people with important ideas—entrepreneurs, teachers, politicians, and journalists—struggle to make them “stick.” In *Made to Stick*, Chip and Dan Heath reveal the anatomy of ideas that stick and explain ways to make ideas stickier, such as applying the human scale principle, using the Velcro Theory of Memory, and creating curiosity gaps. Along the way, we discover that sticky messages of all kinds—from the infamous “kidney theft ring” hoax to a coach’s lessons on sportsmanship to a vision for a new product at Sony—draw their power from the same six traits. *Made to Stick* will transform the way you communicate. It’s a fast-paced tour of success stories (and failures): the Nobel Prize-winning scientist who drank a glass of bacteria to prove a point about stomach ulcers; the charities who make use of the Mother Teresa Effect; the elementary-school teacher whose simulation actually prevented racial prejudice. Provocative, eye-opening, and often surprisingly funny, *Made to Stick* shows us the vital principles of winning ideas—and tells us how we can apply these rules to making our own messages stick.

HORSE TRADING IN THE AGE OF CARS

MEN IN THE MARKETPLACE

JHU Press The trading, selling, and buying of personal transport has changed little over the past one hundred years. Whether horse trading in the early twentieth century or car buying today, haggling over prices has been the common practice of buyers and sellers alike. *Horse Trading in the Age of Cars* offers a fascinating study of the process of buying an automobile in a historical and gendered context. Steven M. Gelber convincingly demonstrates that the combative and frequently dishonest culture of the showroom floor is a historical artifact whose origins lie in the history of horse trading. Bartering and bargaining were the norm in this predominantly male transaction, with both buyers and sellers staking their reputations and pride on their ability to negotiate the better deal. Gelber comments on this point-of-sale behavior and what it reveals about American men. Gelber’s highly readable and lively prose makes clear how this unique economic ritual survived into the industrial twentieth century, in the process adding a colorful and interesting chapter to the history of the automobile.
