Annual Catalog - United States Air Force Academy Early Warning Systems and Targeted Interventions for Student Success in Online Courses *IGI Global* Online learning has increasingly been viewed as a possible way to remove barriers associated with traditional face-to-face teaching, such as overcrowded classrooms and shortage of certified teachers. While online learning has been recognized as a possible approach to deliver more desirable learning outcomes, close to half of online students drop out as a result of student-related, course-related, and out-of-school-related factors (e.g., poor self-regulation; ineffective teacher-student, student-student, and platform-student interactions; low household income). Many educators have expressed concern over students who unexpectedly begin to struggle and appear to fall off track without apparent reason. A well-implemented early warning system, therefore, can help educators identify students at risk of dropping out and assign and monitor interventions to keep them on track for graduation. Despite the popularity of early warning systems, research on their design and implementation is sparse. Early Warning Systems and Targeted Interventions for Student Success in Online Courses is a cutting-edge research publication that examines current theoretical frameworks, research projects, and empirical studies related to the design, implementation, and evaluation of early warning systems and targeted interventions and discusses their implications for policy and practice. Moreover, this book will review common challenges of early warning systems and dashboard design and will explore design principles and data visualization tools to make data more understandable and, therefore, more actionable. Highlighting a range of topics such as curriculum design, game-based learning, and learning support, it is ideal for academicians, policymakers, administrators, researchers, education professionals, instructional designers, data analysts, and students. Elements of Civil Engineering and Engineering Mechanics *PHI Learning Pvt. Ltd.* **ELEMENTS OF CIVIL ENGINEERING AND ENGINEERING MECHANICS** With CD-Rom *PHI Learning Pvt. Ltd.* This book, in its third edition, continues to focus on the basics of civil engineering and engineering mechanics to provide students with a balanced and cohesive study of the two areas (as needed by them in the beginning of their engineering education). A basic undergraduate textbook for the first-year students of all branches of engineering, this book is specifically designed to conform to the syllabus of Visvesvaraya Technological University (VTU). Imparting the basic knowledge in various facets of civil engineering and the related engineering structures and infrastructure such as buildings, roads, highways, dams and bridges, the third edition covers the engineering mechanics portion in eleven chapters. Each chapter introduces the concepts to the reader, stepwise. Providing a wealth of practice examples, the book emphasizes the importance of building strong analytical skills. Practice problems, at the end of each chapter, give students an opportunity to absorb concepts and hone their problem-solving skills. **Freedom Pursued Memoirs of a Hungarian Engineer** *AuthorHouse* In his book "FREEDOM PURSUED" the author presents a memoir of a Hungarian Engineer rather than of a Hungarian Immigrant. In this he emphasizes that he is both: a person born and raised in Hungary and one who graduated as a Mechanical Design Engineer, and begins to work as a designer. Consequently, he first writes about his life as a Hungarian student and later as a practising engineer up to 1941. Then he migrates to Australia for survival Education and Training in Geo-Engineering Sciences Soil Mechanics and Geotechnical Engineering, Engineering Geology, Rock Mechanics *CRC Press* In recent years the International Society for Soil Mechanics and Geotechnical Engineering (ISSMGE), the International Association for Engineering Geology and Environment (IAEG), and the International Society for Rock Mechanics (ISRM) have concluded a Cooperation Agreement, leading to the foundation of the Federation of International Geo-engineering Computer Aided Learning and Instruction in Science and Engineering Third International Conference, CALISCE'96, San Sebastian, Spain, July 29 - 31, 1996, Proceedings *Springer Science & Business Media* This book constitutes the refereed proceedings of the Third International Conference on Computer Aided Learning and Instruction in Science and Engineering, CALICSE '96, held in San Sebastián, Spain in July 1996.
