EARLY EUROPEAN HISTORY

WAR IN EUROPEAN HISTORY

Oxford University Press A new edition of this brilliantly written survey of the changing ways that war has been waged in Europe, from the Norse invasions to the present day, Michael Howard illuminates the way in which warfare has shaped the history of the Continent, its effect on social and political institutions, and the ways in which technological and social change have in turn shaped the way in which wars are fought. This new edition includes a fully updated further reading and a new chapter bringing the story into the twenty-first century, including the invasion of Iraq and the so-called 'War against Terror'.

THE POLITICS OF MODERATION IN MODERN EUROPEAN HISTORY

Springer Nature This book charts the varieties of political moderation in modern European history from the French Revolution to the present day. It explores the attempts to find a middle way between ideological extremes, from the nineteenth-century Juste Milieu and balance of power, via the Third Ways between capitalism and socialism, to the current calls for moderation beyond populism and religious radicalism. The essays in this volume are inspired by the widely-recognized need for a more nuanced political discourse. The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate. At the same time, the volume offers a diagnosis of the problems and pitfalls of Third Ways, of finding the middle between extremes, and of the weaknesses of the moderate point of view.

MODERN EUROPEAN HISTORY

POSTWAR

A HISTORY OF EUROPE SINCE 1945

Penguin Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year "Impressive . . . Mr. Judt writes with enormous authority." —The Wall Street Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy. Judt's book, Ill Fares the Land, republished in 2021 featuring a new preface by bestselling author of Between the World and Me and The Water Dancer, Ta-Nehisi Coates.

I WISH I'D BEEN THERE (R)

BOOK TWO: EUROPEAN HISTORY

Anchor "What is the scene or incident in European history that you would like to have witnessed—and why?" With lively and detailed accounts of some of the most dramatic events in history, some of our finest historical writers now turn their attention to Europe in this companion volume to I Wish I'd Been There: Twenty Historians Bring to Life the Dramatic Events that Changed America. Guided by peerless scholars such as Paul Kennedy, John Keegan, Ross King, Freeman Dyson, and Katherine Duncan-Jones, readers will be transported to the signing of Magna Carta, the Versailles Conference, the German surrender in WWII on Luneburg Heath, and other key turning points in the drama of European history. These essays encompass two millennia and an entire continent, addressing issues of politics, law, religion, peace and war, science and the arts, and social change, all telescoped into finely observed narratives. The result is an historical pageant of characters and episodes that will attract and delight all readers of history.

THEMES IN MODERN EUROPEAN HISTORY SINCE 1945

EUROPEAN HISTORY

IntroBooks Europe's relationship with culture, even at the most basic level, dates back to at least 20,000 BCE. The Venus of Willendorf and the cave paintings of Altamira and Lascaux are examples of the presence of civilization in Europe thousands of years ago. By 5000 BC, evidence proves that areas of Europe had begun to show hierarchical societies and a firm agricultural background had been formed by many of these societies. While a clear division of boundaries did not exist back then, the history of Europe if we go back to thousands of years ago, during the Neolithic age, can be mainly traced through their settlements and tools.

AFRICAN EUROPEANS

AN UNTOLD HISTORY

Basic Books A dazzling history of Africans in Europe, revealing their unacknowledged role in shaping the continent One of the Best History Books of 2021 — Smithsonian Conventional

wisdom holds that Africans are only a recent presence in Europe. But in *African Europeans*, renowned historian Olivette Otele debunks this and uncovers a long history of Europeans of African descent. From the third century, when the Egyptian Saint Maurice became the leader of a Roman legion, all the way up to the present, Otele explores encounters between those defined as "Africans" and those called "Europeans." She gives equal attention to the most prominent figures—like Alessandro de Medici, the first duke of Florence thought to have been born to a free African woman in a Roman village—and the untold stories—like the lives of dual-heritage families in Europe's coastal trading towns. *African Europeans* is a landmark celebration of this integral, vibrantly complex slice of European history, and will redefine the field for years to come.

A SHORT HISTORY OF EUROPE

FROM PERICLES TO PUTIN

PublicAffairs A sweeping, illustrated history of Europe—a continent whose imperial ambitions, internal clashes, and existential threats are as vital today as they were during the conquests of Alexander the Great. In just a few hundred years, a modest peninsula off the northwest corner of Asia has seen the rise and fall of several empires; served as the crucible for scientific dynamism, cultural innovation, and economic revolution; and witnessed cataclysms and bloodshed that have almost destroyed it several times over. This is Europe: a continent whose identity emerged not so much by virtue of geographic or ethnic continuity, but by a long and storied struggle for power. Studded with infamous figures—from Caesar to Charlemagne and Machiavelli to Marx—Simon Jenkins's history of Europe travels briskly from the Roman Empire, the Dark Ages, and the Reformation through the French Revolution, the World Wars, and the fall of the USSR. What emerges in this thrilling and expansive telling is a continent as defined by its continually clashing cultural identities and violent crises as it is by its tireless drive for a society based on the consent of the governed -- which holds true right up to the present day.

THE PURSUIT OF POWER

EUROPE, 1815-1914

Penguin UK **ECONOMIST BOOKS OF THE YEAR 2016** 'A scintillating, encyclopaedic history, rich in detail from the arcane to the familiar... a veritable tour de force' Richard Overy, *New Statesman* 'Transnational history at its finest ... social, political and cultural themes swirl together in one great canvas of immense detail and beauty' Gerard DeGroot, *The Times* 'Dazzlingly erudite and entertaining' Dominic Sandbrook, *The Sunday Times* A masterpiece which brings to life an extraordinarily turbulent and dramatic era of revolutionary change. The Pursuit of Power draws on a lifetime of thinking about nineteenth-century Europe to create an extraordinarily rich, surprising and entertaining panorama of a continent undergoing drastic transformation. The book aims to reignite the sense of wonder that permeated this remarkable era, as rulers and ruled navigated overwhelming cultural, political and technological changes. It was a time where what was seen as modern with amazing speed appeared old-fashioned, where huge cities sprang up in a generation, new European countries were created and where, for the first time, humans could communicate almost instantly over thousands of miles. In the period bounded by the Battle of Waterloo and the outbreak of World War I, Europe dominated the rest of the world as never before or since: this book breaks new ground by showing how the continent shaped, and was shaped by, its interactions with other parts of the globe. Richard Evans explores fully the revolutions, empire-building and wars that marked the nineteenth century, but the book is about so much more, whether it is illness, serfdom, religion or philosophy. The Pursuit of Power is a work by a historian at the height of his powers: essential for anyone trying to understand Europe, then or now.

FAMINE IN EUROPEAN HISTORY

Cambridge University Press This is the first systematic study of famines in all parts of Europe from the Middle Ages until the present. In case studies ranging from Scandinavia and Italy to Ireland and Russia, leading scholars compare the characteristics, consequences and causes of famine. The famines they describe differ greatly in size, duration and context; in many cases the damage wrought by poor harvests was confounded by war. The roles of human action, malfunctioning markets and poor relief are a recurring theme. The chapters also take full account of demographic, institutional, economic, social and cultural aspects, providing a wealth of new information which is organized and analysed within a comparative framework. *Famine in European History* represents a significant new contribution to demographic history, and will be of interest to all those who want to discover more about famines - truly horrific events which, for centuries, have been a recurring curse for the Europeans.

A CONCISE HISTORY OF MODERN EUROPE

LIBERTY, EQUALITY, SOLIDARITY

Rowman & Littlefield Publishers Highlighting the most important events, ideas, and individuals that shaped modern Europe, *A Concise History of Modern Europe* provides a readable, succinct history of the continent from the Enlightenment and the French Revolution to the present day. Avoiding a detailed, lengthy chronology, the book focuses on key events and ideas to explore the causes and consequences of revolutions—be they political, economic, or scientific; the origins and development of human rights and democracy; and issues of European identity. Any reader needing a broad overview of the sweep of European history since 1789 will find this book, published in a first edition under the title *Revolutionary Europe*, an engaging and cohesive narrative.

MIGRATION IN EUROPEAN HISTORY

John Wiley & Sons Since the fall of the Iron Curtain, migration has become a major cause for concern in many European countries, but migrations to, from and within Europe are nothing new, as Klaus Bade reminds us in this timely history. A history of migration to, from and within Europe over a range of eras, countries and migration types. Examines the driving forces and currents of migration, their effects on the cultures of both migrants and host populations, including migration policies. Focuses on the nineteenth and twentieth centuries, particularly the period from the Second World War to the present. Illuminates concerns about migration in Europe today. Acts as a corrective to the alarmist reactions of host populations in twenty-first century Europe.

A HISTORY OF MODERN EUROPE

FOURTH EDITION VOLUME 2

W.W. Norton & Company Students and instructors alike praise *A History of Modern Europe* for its authoritative coverage from the Renaissance to the present day. Written in Merriman's signature narrative style, the book is brightened with humor and biographical sketches. The Fourth Edition reflects the latest scholarship while placing special emphasis on the theme of war and society. A new full-color design features a completely redrawn map program and new pedagogical and teaching tools.

THE TIMES ATLAS OF EUROPEAN HISTORY

Maps and text cover 3,000 years of European history from 900 BC through 1993.

A SOURCEBOOK OF EARLY MODERN EUROPEAN HISTORY

LIFE, DEATH, AND EVERYTHING IN BETWEEN

Routledge *A Sourcebook of Early Modern European History* not only provides instructors with primary sources of a manageable length and translated into English, it also offers students a concise explanation of their context and meaning. By covering different areas of early modern life through the lens of contemporaries' experiences, this book serves as an introduction to the early modern European world in a way that a narrative history of the period cannot. It is divided into six subject areas, each comprising between twelve and fourteen explicated sources: I. The fabric of communities: Social interaction and social control; II. Social spaces: Experiencing and negotiating encounters; III. Propriety, legitimacy, fidelity: Gender, marriage, and the family; IV. Expressions of faith: Official and popular religion; V. Realms intertwined: Religion and politics; and, VI. Defining the religious other: Identities and conflicts. Spanning the period from c. 1450 to c. 1750 and including primary sources from across early modern Europe, from Spain to Transylvania, Italy to Iceland, and the European colonies, this book provides an excellent sense of the diversity and complexity of human experience during this time whilst drawing attention to key themes and events of the period. It is ideal for students of early modern history, and of early modern Europe in particular.

HISTORY OF EUROPE

FROM RENAISSANCE TO THE END OF THE COLD WAR

A concise textbook on the history of Europe viewed through the lens of economy, technology, information politics and war. *History of Europe* helps students, teachers and enthusiasts of history to gain an understanding of the genesis of modern Europe. The book has been structured in an unconventional yet logical manner, keeping in mind the difficulty students face while relating facts and time periods in history. It is segregated into four modules, which bring in multiple angles to provide an all-encompassing perspective of European history along with a parallel understanding of world history, thus establishing a holistic framework of the events. The modules cover Renaissance to pre-Napoleonic era, holocausts to consolidation of global sustainability, Cold War era, and the conflict and culture in European globalization since 1989. Thorough integration maps, illustrations and special vignettes make the textbook interactive, informative and illustrative for students to easily internalize and recollect the major events and their causes and consequences. Key Features: * A unique learning experience of history through extensive chronological detailing and multiple parallels of events* Includes forty-one maps, which act as visual guides to

the geography of politics, campaigns, battles and expansion of empires* Commentary sections summarizing the key themes and examining global and comparative developments going beyond the geographic framework* First-hand notes and commentaries of the First and Second World Wars and eyewitness accounts* Extensive source citations along with weblinks and suggestions for further reading

THE OXFORD HANDBOOK OF EARLY MODERN EUROPEAN HISTORY, 1350-1750

[Oxford University Press, USA](#) This Handbook re-examines the concept of early modern history in a European and global context. The term 'early modern' has been familiar, especially in Anglophone scholarship, for four decades and is securely established in teaching, research, and scholarly publishing. More recently, however, the unity implied in the notion has fragmented, while the usefulness and even the validity of the term, and the historical periodisation which it incorporates, have been questioned. The Oxford Handbook of Early Modern European History, 1350-1750 provides an account of the development of the subject during the past half-century, but primarily offers an integrated and comprehensive survey of present knowledge, together with some suggestions as to how the field is developing. It aims both to interrogate the notion of 'early modernity' itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that 'early modern' is not simply a chronological label but possesses a substantive integrity. Volume I examines 'Peoples and Place', assessing structural factors such as climate, printing and the revolution in information, social and economic developments, and religion, including chapters on Orthodoxy, Judaism and Islam.

REGIONS, INSTITUTIONS, AND AGRARIAN CHANGE IN EUROPEAN HISTORY

[University of Michigan Press](#) An institutional approach to agricultural development in Europe leading to the "Rise of the West"

THE SLAVS IN EUROPEAN HISTORY AND CIVILIZATION

[Rutgers University Press](#) A seminar on the history of Slavic politics, international relations, culture, and religion during the 6th through the 19th century.

WAR, PEACE AND WORLD ORDERS IN EUROPEAN HISTORY

[Routledge](#) This book explores a new way for students of International Relations to look at war, peace and world orders throughout European history. The contributors argue that the predominant 'realist' paradigm that focuses on states and their self-interest is not applicable to the largest period of European history, because states either did not exist or were only in the making. Instead, they argue, we have to look through the eyes of historical entities to see how they understood the world in which they lived. The authors use a wide range of case-studies, focusing on subjects as diverse as the ancient Greek concept of honour and persecution under Communist regimes during the Cold War to explore the ways in which people in different societies at different times perceived and felt about war and peace in the world around them.

HISTORY OF EUROPE 1500-1815

[Jovian Press](#) A glance at the map of Europe in 1500 will show numerous unfamiliar divisions and names, especially in the central and eastern portions. Only in the extreme west, along the Atlantic seaboard, will the eye detect geographical boundaries which resemble those of the present day. There, England, France, Spain, and Portugal have already taken form. In each one of these countries is a real nation, with a single monarch, and with a distinctive literary language...

THE MAKING OF EUROPE

AN INTRODUCTION TO THE HISTORY OF EUROPEAN UNITY

[CUA Press](#) Christopher Dawson concludes that the period of the fourth to the eleventh centuries, commonly known as the Dark Ages, is not a barren prelude to the creative energy of the medieval world. Instead, he argues that it is better described as "ages of dawn" for it is in this rich and confused period that the complex and creative interaction of the Roman empire, the Christian Church, the classical tradition, and barbarous societies provided the foundation for a vital, unified European culture. In an age of fragmentation and the emergence of new nationalist forces, Dawson argued that if "our civilization is to survive, it is essential that it should develop a common European consciousness and sense of historic and organic unity." But he was clear that this unity required sources deeper and more complex than the political and economic movements on which so many had come to depend, and he insisted, prophetically, that Europe would need to recover its Christian roots if it was to survive. In a time of cultural and political ambiguity, The making of Europe is an indispensable work for understanding not only the rich sources but also the contemporary implications of the very idea of Europe.

DOMAINS AND DIVISIONS OF EUROPEAN HISTORY

[Liverpool University Press](#) The patterns of unity and division that define Europe as a historical region have been discussed in many seminal works, but the complex set of questions behind its domains and divisions merits a more sustained debate. The disappearance of the cold war, the enlargement of the European Union, and core issues of historical sociology all require an exploration of the structures and boundaries of historical formations, as well as the question of European unity. This volume tackles the topic of the divisions that have shaped European history head-on, as leading scholars in the field negotiate such issues as regional identity, geographical boundaries, divisional labeling, and post-cold war European unity.
