Confessing History Explorations in Christian Faith and the Historian's Vocation *University of Notre Dame Press* At the end of his landmark 1994 book, The Soul of the American University, historian George Marsden asserted that religious faith does indeed have a place in today's academia. Marsden's contention sparked a heated debate on the role of religious faith and intellectual scholarship in academic journals and in the mainstream media. The contributors to Confessing History: Explorations in Christian Faith and the Historian's Vocation expand the discussion about religion's role in education and culture and examine what the relationship between faith and learning means for the academy today. The contributors to Confessing History ask how the vocation of historian affects those who are also followers of Christ. What implications do Christian faith and practice have for living out one's calling as an historian? And to what extent does one's calling as a Christian disciple speak to the nature, quality, or goals of one's work as scholar, teacher, adviser, writer, community member, or social commentator? Written from several different theological and professional points of view, the essays collected in this volume explore the vocation of the historian and its place in both the personal and professional lives of Christian disciples. The Westminster Confession of Faith and the Cessation of Special Revelation The Majority Puritan Viewpoint on Whether Extra-Biblical Prophecy is Still Possible *Wipf and Stock Publishers* In the opening chapter of the Confession, the divines of Westminster included a clause that implied that there would no longer be any special immediate revelation from God. Means by which God had once communicated the divine will, such as dreams, visions, and the miraculous gifts of the Spirit, were said to be no longer available. However, many of the authors of the WCF accepted that prophecy continued in their time, and a number of them apparently believed that disclosure of God's will through dreams, visions, and angelic communication remained possible. How is the cessationist clause of WCF 1:1 to be read in the light of these claims? This book reconciles this paradox in a detailed study of the writings of the authors of the Westminster Confession of Faith. How to Turn Your Faith Loose *Faith Library Publications* With your mouth you are either going to give God dominion over you, or you're going to give Satan dominion over you. Quit talking the devil's language and start talking God's language. Hold Fast the Faith *Matthew Everhard* Furthermore, confessions and creeds serve to help assure that the doctrinal faith that we articulate today has not subtly changed over time, subject to the warping influence of secular society. Creeds stand as ancient landmarks denoting the "location" of believers' hearts in history. Noting where one deviates from an ancient creed gives a person a distinct idea about where his or her own theological convictions stand in relation to other believers throughout history. Perhaps this also helps us to discover what direction we are moving. Are we moving closer to Christ? To God's Word? To the heart of God Himself? Or are we moving further away? The confession that I will be recommending to you in this volume is the standard-bearing creed in the Presbyterian or Reformed branch of Christianity. Influenced heavily by the thinking of Reformation theologian John Calvin (1509-1564), the Westminster Confession (1647) is a confessional exemplar of Reformed theology.² The Westminster Confession of Faith is the premiere example of theological intellectualism absorbed in the beauty of the sovereignty of God. The Westminster Confession, and Calvin before it for that matter, were both completely committed to the theological concept that God is sovereign over the entire universe. Therefore, as you study this Confession you will undoubtedly encounter the Living God as ruler of the cosmos, the world, the events of your life, and hopefully your heart. Riedemann creatively weaves together a fresh reading of the Bible with the classical creeds. He produces a powerful synthesis of Scripture and tradition on which to base Christian community. The book was written at a time when Wells's "private life was to a considerable degree in turmoil. Excerpt: " It will be necessary to take up the most abstract of these questions of belief first, the metaphysical questions. It may be that to many readers the opening sections may seem the driest and least attractive. But I would ask them to begin at the beginning and read straight on, because much that follows this metaphysical book cannot be appreciated at its proper value without a grasp of these preliminaries."
