## **EGYPTIAN MYTHOLOGY: A TRAVELER'S GUIDE FROM ASWAN TO ALEXANDRIA**

---

[Thames & Hudson](#) This unique approach to Egyptian mythology takes readers on a tour up the Nile, stopping at the most famous monuments and vividly retelling the myths connected to each site. Join Egyptologist Garry J. Shaw on an entertaining tour up the Nile, through a beautiful and fascinating landscape populated with a rich mythology: the stories of Horus, Isis, Osiris, and their enemies and allies in tales of vengeance, tragedy, and fantastic metamorphoses. Shaw retells these stories with his characteristic wit, and reconnects them to the temples and monuments that still stand today, offering a fresh look at the most visited sites of Egypt. The myths of ancient Egypt have survived in fragments of ancient hymns and paintings on the walls of tombs and temples, spells inked across coffins, and stories scrawled upon scrolls. Illustrations throughout bring to life the creation of the world and the nebulous netherworld; the complicated relationships between fickle gods, powerful magicians, and pharaohs; and eternal battles on a cosmic scale. Shaw's evocative descriptions of the ancient ruins will transport readers to another landscape—including the magnificent sites of Dendera, Tell el-Amarna, Edfu, and Thebes. At each site, they will discover which gods or goddesses were worshipped there, as well as the myths and stories that formed the backdrop to the rituals and customs of everyday life. Each chapter ends with a potted history of the site, as well as tips for visiting the ruins today. [Egyptian Mythology](#) is the perfect companion to the myths of Egypt and the gods and goddesses that shaped its ancient landscape.

[Simon and Schuster](#) 'I could have done with a copy of Ad Astra in December 2015!' -Tim Peake 'A wonderful, wise and witty guide for space explorers everywhere.' - Richard Osman 'A must read both for intrepid space explorers and misty-eyed dreamers. Now, to space!' - Hannah Fry 'Few people are more knowledgeable, celebratory and witty about space travel than Dallas Campbell.' - Adam Rutherford Need some space? For almost all human history we've been firmly rooted to the Earth. And, sure, it's got some good things going for it: nice views, friendly inhabitants, good coffee. Air. But what if you want to get off? Whether you've got itchy feet and need a bit of a break, or you're looking for a complete change of scene, this book has all the information you'll need to leave, with FREE expert advice from the men and woman who can actually make it happen. Do I need a passport? How do I know if I have the right stuff? Can I take my dog? What spacesuit do I need? Where am I going to go? What am I going to eat? As well as being a deeply impractical guide to getting off the planet, this is an eclectic and beautifully illustrated mix-tape of space travel stories - both real and imagined. From the migrating lunar geese that flew us to the moon in the 1600's, to Elon Musk's wild plan to get humans to Mars en masse in the future; from the history of early rocket science to the Soviet tortoises that secretly won the space race. A collection for anyone who has looked up in wonder at the stars... And then wondered how to get there. 'The next best thing to actually heading off into space.' - Jim Al-Khalili 'Few people are more knowledgeable, celebratory and witty about space travel than Dallas Campbell.' - Adam Rutherford 'If, like me, you dream of going into space, this is definitely the place to start the journey.' - Dan Snow 'A must have volume for astronauts and armchair astronauts alike.' - Helen Sharman OBE 'Funny, factual and beautiful.' - Shaun Keavney 'Read it, make notes, and be ready when the day comes.' - Helen Czerski

### **NORTHERN TANZANIA SAFARI GUIDE**

---

---

### **SERENGETI, KILIMANJARO, ZANZIBAR**

---

Bradt Travel Guides This thoroughly updated new edition of Bradt's Northern Tanzania Safari Guide remains the only full-length guidebook focussed exclusively on the northern part of the country and Zanzibar. Tailored closely to the requirements of anyone going on a safari to northern Tanzania, followed by a few days on Zanzibar, it provides far more detailed coverage of the local safari circuit and other main attractions than other guides. As such, it offers complete and detailed lodge listings and also goes into greater detail about wildlife and where to see it. It is also the only guide to include detailed information on the many new private concessions that have opened up. Northern Tanzania is dominated by Africa's finest safari circuit. Centred on the legendary Serengeti National Park and its world-famous wildebeest migration, this circuit also incorporates the Ngorongoro Crater and surrounding Ngorongoro Conservation Area, Lake Manyara and Tarangire national parks. Geographically it is one of the most varied regions in Africa, with a palm-fringed Indian Ocean coastline complemented by the scenic wonders of the Great Rift Valley, Africa's largest lake, and several impressive volcanically formed mountains, most notably snow-capped Mount Kilimanjaro, the tallest peak in Africa and a popular goal for hikers. Lesser-known gems include the prehistoric rock art at Kondoa (a UNESCO World Heritage Site), the forested Arusha National Park and Amani Nature Reserve, and the spectacular Ol Doinyo Lengai - Africa's most active volcano. Tanzania is home to

more than 100 ethnic groups, from the Arab-influenced Swahili of the coast to the traditionalist Maasai pastoralists and Hadza hunter-gatherers of the Rift Valley, yet it takes pride in a long history of post-independence tolerance, stability and safety. Northern Tanzania offers spectacular game-viewing all year round, and supports some of the world's largest surviving populations of lions, elephants, buffalos, leopards, giraffes, zebra, wildebeest and gazelle. Serviced by a well-developed safari industry, the superlative reserves of northern Tanzania are complemented by a stopover on the legendary Spice Island of Zanzibar. With its atmospheric old town, idyllic beaches and offshore reefs teeming with marine life, it is every bit as evocative as its name. *Bradt's Northern Tanzania* is written by Philip Briggs, the world's leading writer of guidebooks to Africa, and Chris McIntyre, CEO of specialist Africa tour operator Expert Africa. The guide reflects the growing trend away from large lodges towards small exclusive eco-friendly camps in remote parts of the Serengeti and other major reserves and this edition is more critically selective than previous editions, detailing the best on offer in all price brackets. Also new for this edition is a 48-page colour field guide, detailing all species a visitor can expect to find on a safari in the northern circuit, making this guide the most authoritative source available. Northern Tanzania is an essential travel companion for both first-time visitors and seasoned safari-goers.
