Research and Writing in International Relations Routledge Research and Writing in International Relations, Third Edition, offers the step-by-step guidance and the essential resources needed to compose political science papers that go beyond description and into systematic and sophisticated inquiry. This book provides concise, easy-to-use advice to help students develop more advanced papers through step-by-step descriptions, examples, and resources for every stage of the paper writing process. The book focuses on areas where students often need guidance: understanding how international relations theory fits into research, finding a topic, developing a question, reviewing the literature, designing research, and last, writing the paper. Including current and detailed coverage on how to start research in the discipline's major subfields, Research and Writing in International Relations gives students a classroom-tested approach that leads to better research and writing in introductory and advanced classes. New to the Third Edition: A new first chapter that gives an overview of the relationship between international relations theory and research in international relations, demonstrating how theoretical frameworks shape the concepts utilized, topics selected, and questions posed in international relations research. Revised topic chapters that include updates to the scholarly literature and data sources Revised descriptions of the areas of study that incorporate new research topics (like global inequality) Additional perspectives from international relations theory. New Realities in Foreign Affairs Diplomacy in the 21st Century Nomos Verlag Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen. Mit Beiträgen von Volker Stanzel, Sascha Lohmann, Andrew Cooper, Christer Jönsson, Corneliu Bjola, Emillie V. de Keulenaar, Jan Melissen, Karsten D. Voigt, Kim B. Olsen, Hanns W. Maull und R. S. Zaharna Research and Writing in International Relations Routledge Research and Writing in International Relations offers the step-by-step guidance and the essential resources needed to compose political science papers that go beyond description and into systematic and sophisticated inquiry. This text focuses on areas where students often need help-finding a topic, developing a question, reviewing the literature, designing research, and last, writing the paper. Including current and detailed coverage on how to start research in the discipline's major subfields, Research and Writing in International Relations gives students a classroom-tested approach that leads to better research and writing in introductory and advanced courses. Operational Code Analysis and Foreign Policy Roles Crossing Simon's Bridge Routledge In this book, senior scholars and a new generation of analysts present different applications of recent advances linking beliefs and decision-making, in the area of foreign policy analysis with strategic interactions in world politics. Divided into five parts, Part 1 identifies how the beliefs in the cognitive operational codes of individual leaders explain the political decisions of states. In Part 2, five chapters illustrate progress in comparing the operational codes of individual leaders, including Vladimir Putin of Russia, three US presidents, Bolivian president Evo Morales, Sri Lanka's President Chandrika Kumaratunga, and various leaders of terrorist organizations operating in the Middle East and North Africa. Part 3 introduces a new Psychological Characteristics of Leaders (PsyCL) data set containing the operational codes of US presidents from the early 1800s to the present. In Part 4, the focus is on strategic interactions among dyads and evolutionary patterns among states in different regional and world systems. Part 5 revisits whether the contents of the preceding chapters support the claims about the links between beliefs and foreign policy roles in world politics. Richly illustrated and with comprehensive analysis Operational Code Analysis and Foreign Policy Roles will be of interest to specialists in foreign policy analysis, international relations theorists, graduate students, and national security analysts in the policy-making and intelligence communities. Vietnam The Necessary War Simon and Schuster A quarter century after its end, the Vietnam War still divides Americans. Some, mostly on the left, claim that Indochina was of no strategic value to the United States and was not worth an American war. Others, mostly on the right, argue that timid civilian leaders and defeatists within the media fatally undermined the war effort. These "lessons of Vietnam" have become ingrained in the American consciousness, at the expense of an accurate understanding of the war itself. In this groundbreaking reinterpretation of America's most disastrous and controversial war, Michael Lind demolishes the stale orthodoxies of the left and the right and puts the Vietnam War in its proper context -- as part of the global conflict between the Soviet Union and the United States. The Cold War, he argues, was actually the third world war of the twentieth century, and the proxy wars in Korea, Vietnam, and Afghanistan were its major campaigns. Unwilling to engage each other in the heart of Europe, the superpowers played out their contest on the Asian front, while the rest of the world watched to see which side would retreat. As Lind shows, the Soviet Union and Communist China recognized the importance of Vietnam in this struggle and actively supported the North Vietnamese regime from its earliest days, a fact that was not lost on the strategic planners within the Kennedy, Johnson, and Nixon administrations. Lind offers a provocative reassessment of why the United States failed in Vietnam despite the high stakes. The ultimate responsibility for defeat lies not with the civilian policy elite nor with the press but with the military establishment, which failed to adapt to the demands of what before 1968 had been largely a guerrilla war. The high costs of the military's misguided approach in American and Vietnamese lives sapped the support of the American people for the U.S. commitment to Indochina. Even worse, the costs of the war undermined American public support for the Cold War on all fronts. Lind masterfully lays bare the deep cultural divisions within the United States that made the Cold War consensus so fragile and shows why it broke apart so easily. The consequence of U.S. military failure was thus the forfeiture of Indochina, a resurgence of American isolationism, and a wave of Soviet imperial expansion checked only by the Second Cold War of the 1980s. The New York Times has written of Michael Lind that he "defies the usual political categories of left and right, liberal and conservative." And in an era when the United States so often finds itself embroiled in prolonged and difficult conflicts -- in Kosovo, Bosnia, and Iraq -- Lind offers a sobering cautionary tale to Americans of all political viewpoints. Writing a Research Paper in Political Science A Practical Guide to Inquiry, Structure, and Methods CQ Press In Writing a Research Paper in Political Science, author Lisa Baglione breaks down the research paper into its constituent parts and shows students precisely how to complete each component. The author provides encouragement at each stage and faces pitfalls head on, giving advice and examples so that students move through each task successfully. Students are shown how to craft the right research question, find good sources and properly summarize them, operationalize concepts, design good tests for their hypotheses, and present and analyze quantitative and qualitative data. Even writing an introduction, coming up with effective headings and titles, presenting a conclusion, and the important steps of editing and revising are covered. Practical summaries, recipes for success, worksheets, exercises, and a series of handy checklists make this a must-have supplement for any writing-intensive political science course. In this Third Edition, updated sample research topics come from American government, gender studies, comparative politics, and international relations. And now, more extensive materials are available on the web, including checklists and worksheets that help students tackle each step, calendar ideas to help them complete their paper on time, and a glossary. Foreign Policy Begins at Home The Case for Putting America's House in Order Basic Books A rising China, climate change, terrorism, a nuclear Iran, a turbulent Middle East, and a reckless North Korea all present serious challenges to America's national security. But it depends even more on the United States addressing its burgeoning deficit and debt, crumbling infrastructure, second class schools, and outdated immigration system. While there is currently no great rival power threatening America directly, how long this strategic respite lasts, according to Council on Foreign Relations President Richard N. Haass, will depend largely on whether the United States puts its own house in order. Haass lays out a compelling vision for restoring America's power, influence, and ability to lead the world and advocates for a new foreign policy of Restoration that would require the US to limit its involvement in both wars of choice, and humanitarian interventions. Offering essential insight into our world of continual unrest, this new edition addresses the major foreign and domestic debates since hardcover publication, including US intervention in Syria, the balance between individual privacy and collective security, and the continuing impact of the sequester. The Ashgate Research Companion to Chinese Foreign Policy Routledge The Ashgate Research Companion to Chinese Foreign Policy draws out the full range of topics and issues that characterise China's external affairs. The volume is intended to provide an overview of Chinese foreign policy that will be relevant both to experts in the field as well as those that are just starting to grapple with Beijing's international outlook. The investigation of Chinese foreign policy offered by the volume is divided into seven parts: - Part I focuses on the historical evolution of Chinese foreign policy by detailing the specific traditions and the altering paradigms of Beijing's external outlook proffered for the explanation and understanding of Chinese foreign policy - Part II discusses the different analytical perspectives proffered for the explanation and understanding of Chinese foreign policy - Part III considers the domestic sources of Chinese foreign policy - Part IV analyses the international impact of Beijing's outreach - Part V of the volume begins the exploration of China's relations with specific international actors - Part VI investigates the regional interactions of Chinese foreign policy - Part VII of the volume draws attention to several issues impacting both the practice and the understanding of Chinese foreign policy This Companion draws a vivid picture of the full spectrum of topics, issues, and relationships that define China's international interactions. The collection therefore provides a relevant point of departure for anyone interested in learning about Beijing's external affairs. Owing to the wide range of themes and ideas, this volume is essential reading for students of Chinese foreign policy. The Pervasive Role of Science, Technology, and Health in Foreign Policy Imperatives for the Department of State National Academies Press Issues involving science, technology, and health (STH) have moved to the forefront of the international diplomatic agenda. Other vital issues linked to technological developments pervade longer-range foreign policy concerns. Thus, STH considerations are often central to the Department of State's bilateral and multilateral interactions with other governments. STH aspects play a large role in discussions of such critical topics as nuclear nonproliferation, use of outer space, population growth, adequate and safe food supply, climate change, infectious diseases, energy resources, and competitiveness of industrial technologies. In addressing these issues, expert STH knowledge is essential to the anticipation and resolution of problems and to the achievement of foreign policy goals. The Department, recognizing that it requires strengthened capabilities to address such an array of topics, asked for suggestions by the National Research Council as to how it could better deal with foreign policy issues with STH content. The Oxford Encyclopedia of Foreign Policy

Analysis This encyclopedia brings together leading scholars to provide the most comprehensive and up-to-date resource on foreign policy analysis ever produced. In over 100 peer-reviewed entries, readers will find authoritative overviews of the theoretical, methodological, and substantive areas of interest in the realm of foreign policy. The Politics of United States Foreign Policy Wadsworth Publishing Company The definitive work on how U.S. foreign policy is made, THE POLITICS OF UNITED STATES FOREIGN POLICY utilizes three levels of analysis demonstrating how government, society, and the historical-global environment impact the real world of politics and the policymaking process. Completely revised, updated, and condensed to integrate coverage of the George W. Bush Administration years, September 11th, the war on terror, and the Iraq War, this new edition blends substance, history, and theory in a lively narrative that is comprehensive, accessible, and informative. Chapters focus on significant topics such as the military, the intelligence community, foreign economic policymaking, civil liberties vs. national security, and the impact of electoral politics (such as the controversial 2000 presidential elections) on foreign policy. THE POLITICS OF UNITED STATES FOREIGN POLICY has been used throughout Europe and Asia as well as in such prestigious U.S. programs as the National War College, the Foreign Service Institute, and the U.S. Fulbright American Studies Institute on U.S. Foreign Policy, "It is really the best single source on all aspects of the policy process." -- Robert Soofer, Professor of National Security Strategy, National War College, Washington, D.C. "This is the single best textbook for one-stop shopping on the making of American foreign policy after 9/11, not just for American students, but for students around the world." -- Andrew Bennett, Professor of Government, Georgetown University and former Special Assistant to the Assistant Secretary of Defense for International Security Affairs, Joseph S. Nye, Jr. The definitive work on how U.S. foreign policy is made, THE POLITICS OF UNITED STATES FOREIGN POLICY utilizes three levels of analysis demonstrating how government, society, and the historical-global environment impact the real world of politics and the policymaking process. "This is the single best textbook for one-stop shopping on the making of American foreign policy after 9/11, not just for American students, but for students around the world." -- Andrew Bennett, Professor of Government, Georgetown University and former Special Assistant to the Assistant Secretary of Defense for International Security Affairs, Joseph S. Nye, Jr. Guide to U.S. Foreign Policy A Diplomatic History CQ Press At no time in American history has an understanding of the role and the art of diplomacy in international relations been more essential than it is today. Both the history of U.S. diplomatic relations and the current U.S. foreign policy in the twenty-first century are major topics of study and interest across the nation and around the world. Spanning the entire history of American diplomacy—from the First Continental Congress to the war on terrorism to the foreign policy goals of the twenty-first century—Guide to U.S. Foreign Policy traces not only the growth and development of diplomatic policies and traditions but also the shifts in public opinion that shape diplomatic trends. This comprehensive, two-volume reference shows how the United States gained "the strength of a giant" and also analyzes key world events that have determined the United States' changing relations with other nations. The two volumes' structure makes the key concepts and issues accessible to researchers: The set is broken up into seven parts that feature 40 topical and historical chapters in which expert writers cover the diplomatic initiatives of the United States from colonial times through the present day. Volume II's appendix showcases an A-to-Z handbook of diplomatic terms and concepts, organizations, events, and issues in American foreign policy. The appendix also includes a master bibliography and a list of presidents; secretaries of state, war, and defense; and national security advisers and their terms of service. This unique reference highlights the changes in U.S. diplomatic policy as government administrations and world events influenced national decisions. Topics include imperialism, economic diplomacy, environmental diplomacy, foreign aid, wartime negotiations, presidential influence, NATO and its role in the twenty-first century, and the response to terrorism. Additional featured topics include the influence of the American two-party system, the impact of U.S. elections, and the role of the United States in international organizations. Guide to U.S. Foreign Policy is the first comprehensive reference work in this field that is both historical and thematic. This work is of immense value for researchers, students, and others studying foreign policy, international relations, and U.S. history. ABOUT THE EDITORS Robert J. McMahon is the Ralph D. Mershon Professor of History in the Mershon Center for International Security Studies at The Ohio State University. He is a leading historian of American diplomatic history and is author of several books on U.S. foreign relations. Thomas W. Zeiler is professor of history and international affairs at the University of Colorado at Boulder and is the executive editor of the journal Diplomatic History. Handbook of International Relations SAGE NEW IN PAPERBACK FEBRUARY 2005! `The most systematic and wide-ranging survey of the multi-faceted field of International Relations yet produced. It is sure to become a standard reference work and teaching text, and is unlikely to be superseded at any time in the near future. It should be considered as essential reading' - International Affairs The Handbook of International Relations, published 2002 in hardback, quickly established itself as the benchmark volume, providing a state-of-the-art review and indispensable guide to the study of international relations. It is now released in paperback, in order to be accessible to students in classroom use. Divided into three parts, the volume reviews both the historical, philosophical, analytical and normative roots to the discipline and the key contemporary topics of research and debate today. The first part introduces the major approaches within the field and unpacks many of the on-going debates within the discipline including those between rationalist and constructivist approaches. The second part moves on to explore the key concepts and contextual factors important to the subject from concepts like the state and power, to international and transnational actors, debates around globalization, and contending feminist perspectives. The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives presented in Parts I and II. Examples of the many topics included are: foreign policy; war and peace; security; nationalism and ethnicity; finance; trade; development; the environment; and human rights. Political Science Reading Lists and Course Outlines Innovative Reading Lists from Leading Political Scientists The National Archives and Foreign Relations Research Papers and Proceedings of the Conference on the National Archives and Foreign Relations Research, June 16-17, 1969, The National Archives Building, Washington, D. C. The Israel Lobby and U.S. Foreign Policy Farrar, Straus and Giroux The Israel Lobby," by John J. Mearsheimer of the University of Chicago and Stephen M. Walt of Harvard's John F. Kennedy School of Government, was one of the most controversial articles in recent memory. Originally published in the London Review of Books in March 2006, it provoked both howls of outrage and cheers of gratitude for challenging what had been a taboo issue in America: the impact of the Israel lobby on U.S. foreign policy. Now in a work of major importance, Mearsheimer and Walt deepen and expand their argument and confront recent developments in Lebanon and Iran. They describe the remarkable level of material and diplomatic support that the United States provides to Israel and argues that this support cannot be fully explained on either strategic or moral grounds. This exceptional relationship is due largely to the political influence of a loose coalition of individuals and organizations that actively work to shape U.S. foreign policy in a pro-Israel direction. Mearsheimer and Walt provocatively contend that the lobby has a far-reaching impact on America's posture throughout the Middle East—in Iraq, Iran, Lebanon, and toward the Israeli-Palestinian conflict—and the policies it has encouraged are in neither America's national interest nor Israel's long-term interest. The lobby's influence also affects America's relationship with important allies and increases dangers that all states face from global jihadist terror. Writing in The New York Review of Books, Michael Massing declared, "Not since Foreign Affairs magazine published Samuel Huntington's 'The Clash of Civilizations?' in 1993 has an academic essay detonated with such force." The publication of The Israel Lobby and U.S. Foreign Policy is certain to widen the debate and to be one of the most talked-about books in foreign policy. A Transnational Account of Turkish Foreign Policy Springer Nature This book offers an analysis of Turkish foreign policy based on transnational(ist) perspectives. In order to counterbalance the state-centric accounts that dominate this area of study, the authors provide theoretical frameworks as well as historical and contemporary case studies that emphasize transnational dynamics. The content is divided into four complementary sections that explain and exemplify transnational (f)actors in the context of Turkish foreign policy. The first addresses theoretical and ideational frameworks that illustrate the relevance of a transnational account, while the second demonstrates the possibility of developing transnationally oriented approaches even in historical cases, going beyond a presentist focus. In the third and fourth sections, the book focuses on two prominent non-state actors, namely diaspora communities and non-governmental organizations, which operate at the interstices of the domestic and the international. This allows the authors to highlight the significance of transnational dynamics in Turkey's foreign policy. Foreign Policy Analysis Classic and Contemporary Theory Rowman & Littlefield Aimed at advanced undergraduate and beginning graduate students, this book covers the theory of foreign policy analysis. Beginning with an overview, it then tackles theory and research at multiple levels of analysis, ending with an examination of the areas in which the next generation of foreign policy analysts can make important contributions. New Directions in the Study of China's Foreign Policy Publisher description Modern Communications and Foreign Policy Report No. 5 Together with Part X of the Hearings on Winning the Cold War: the U.S. Ideological Offensive ... Pursuant to H. Res. 179 ... How the Bureaucracy Makes Foreign Policy An Exchange Analysis Based on the author's thesis, Johns Hopkins University, 1971. Bibliography: p. 155-158. The Tragedy of U.S. Foreign Policy How America's Civil Religion Betrayed the National Interest Yale University Press A fierce critique of civil religion as the taproot of America's bid for global hegemony Pulitzer Prize-winning historian Walter A. McDougall argues powerfully that a pervasive but radically changing faith that "God is on our side" has inspired U.S. foreign policy ever since 1776. The first comprehensive study of the role played by civil religion in U.S. foreign relations over the entire course of the country's history, McDougall's book explores the deeply infused religious rhetoric that has sustained and driven an otherwise secular republic through peace, war, and global interventions for more than two hundred years. From the Founding Fathers and the crusade for independence to the Monroe Doctrine, through World Wars I and II and the decades-long Cold War campaign against "godless Communism," this coruscating polemic reveals the unacknowledged but freely exercised dogmas of civil religion that bind together a "God blessed" America, sustaining the nation in its pursuit of an ever elusive global destiny. India's Foreign Policy: Drivers and trends "Written by foreign policy experts, academics and practitioners, this book develops the frameworks and strategies for India's foreign policy that can be adopted to meet the emerging challenges and non-traditional threats in the new world order. It studies the important aspects of India's foreign policy in the present unsettled world order and comes up with strategies and policy suggestions. It raises several questions to highlight the future direction of foreign policy and the challenges that India may have to deal with in the coming years. The book covers the domestic dimension of the country's foreign policy, which is often missed out in policy discussion. It examines the close link between national security and foreign policy, and shows how foreign policy can be leveraged to strengthen the economy and make India a hub of innovation. This book emphasizes soft power strategies to ensure that a strategic approach to soft power projection is adopted"-- Chinese Foreign Policy An Introduction Routledge This updated and expanded 3rd edition of Chinese Foreign Policy seeks to explain the processes, actors and current history behind China's international relations, as well as offering an in-depth look at the key areas of China's modern global relations. Among the key issues are: The expansion of Chinese foreign policy from regional to international interests China's growing economic power in an era of global financial uncertainty Modern security challenges, including maritime security, counter-terrorism and protection of overseas economic interests The shifting power relationship with the United States, as well as with the European Union, Russia and Japan. China's engagement with a growing number of international and regional institutions and legal affairs The developing great power diplomacy of China New chapters address not

only China's evolving foreign policy interests but also recent changes in the international system and the effects of China's domestic reforms. In response to current events, sections addressing Chinese trade, bilateral relations, and China's developing strategic interest in Russia and the Polar Regions have been extensively revised and updated. This book will be essential reading for students of Chinese foreign policy and Asian international relations, and highly recommended for students of diplomacy, international security and IR in general. The Federalist Papers Read Books Ltd Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States. Swiss Foreign Policy Foundations and Possibilities Routledge The book is essential reading to all those interested in foreign policy analysis, the relationship between democracy and international relations, the significance of being a small state in contemporary Europe and the specificities of the Swiss. A Selected, Annotated Bibliography of Articles, Books, Documents, Periodicals, and Reference Guides. Prepared for the Subcommittee on National Security Policy and Scientific Developments of the Committee on Foreign Affairs, U.S. House of Representatives by the Science Policy Research and Foreign Affairs Divisions, Legislative Reference Service, Library of Congress The Ashgate Research Companion to Chinese Foreign Policy The Ashgate Research Companion to Chinese Foreign Policy draws out the full range of topics and issues that characterise China's external affairs. The volume is intended to provide an overview of Chinese foreign policy that will be relevant both to experts in the field as well as those that are just starting to grapple with Beijing's international outlook. American Foreign Policy Routledge Complete set Since 1961 the Adelphi Papers have provided some of the most informed accounts of international and strategic relations. Produced by the world renowned International Institute of Strategic Studies, each paper provides a short account of a subject of topical interest by a leading military figure, policy maker or academic. The project reprints the first forty years of papers, arranged into thematic sets. The collection as a whole provides a rich and insightful account of international affairs during a period which spans the second half of the Cold War, the fall of the communist bloc and the emergence of a new regime with the United States as the sole superpower. There is a wealth of global coverage: Four volumes on east and southeast Asia as well as individual volumes on China, Japan and Korea Particular attention is given to the Middle East, with volumes addressing internal sources of instability; geo-politics and the role of the superpowers; the Israel-Palestine conflict; and the Iran-Iraq War and the first Gulf War. There is also a volume on oil and insecurity There are also two volumes on Africa, the site of most of the world's wars during the period. The IISS has obviously made a particular contribution to the understanding of military strategy, and this is reflected with material on topics such as urban and guerrilla warfare, nuclear deterrence and the role of information in modern warfare. Volumes on military strategy are complemented by approaches from other disciplines, such as defence economics. Key selling points: Early papers were only distributed by the IISS and will have achieved limited penetration of the academic market A host of major authors on a range of different subjects (eg Gerald Segal on China, Michael Leifer on Southeast Asia, Sir Lawrence Freidman on the revolution in military affairs, Raymond Vernon on multinationals and defence economics) Individual volumes will have a strong appeal to different markets (eg the volume on defence economics for economists, various volumes for Asian Studies etc) Think Tanks, Foreign Policy and the Emerging Powers Springer This book examines changing international dynamics through the lens of some of the leading think tanks from the emerging powers in the world. Through twelve case studies, the authors explore how security and international affairs think tanks in emerging powers collaborate with their policy makers to meet current and anticipate future foreign policy and security challenges. Overall, the book illustrates and analyzes how think tanks in a variety of political and economic contexts are able to contribute to their respective policy-making processes. Included in the discussions are the problems or successes that each respective nation's think tanks face, where they feel the emerging nation will be positioned, and where they are failing to meet the policy challenges they face. The book provides a comprehensive look at successful foreign policy formulation to serve as examples for other think tanks in similar political and economic conditions. New Directions in the Study of China's Foreign Policy Stanford University Press Ten outstanding specialists in Chinese foreign policy draw on new theories, methods, and sources to examine China's use of force, its response to globalization, and the role of domestic politics in its foreign policy. International Trade Policy Research Survey Final Report May 1997 Presents results of a survey sent to Canadian, American, and leading overseas universities, think tanks, and research centres. The purpose of the survey was to determine what is the state of play in the area of international trade policy research of particular relevance to Canada: what topics are being currently investigated, what areas are expected to be subjects of research in the next two to three years, and where are the research gaps. The survey is intended to help sharpen and deepen the trade and economic analytical work of the Dept. of Foreign Affairs & International Trade, as well as to strengthen the links among those concerned with international trade policy. Appendices include a table showing name of researcher by topic area, a list of survey participants showing their institutional affiliation and topics being researched, and a directory of participants giving contact information including e-mail and mail addresses, phone numbers, and fax numbers. Think Tanks and Foreign Policy The Foreign Policy Research Institute and Presidential Politics Lexington Books Think tanks have become increasingly important in American politics foreign policy. In the last thirty years think tanks have emerged as major actors on the political stage, comparable in influence to large interest groups, political parties, and government agencies. In the same time span these think tanks have replaced universities as the main source for new policy ideas and the background research and arguments to justify them. The Arab Spring Effect on Turkey's Role, Decision-making and Foreign Policy Cambridge Scholars Publishing This book analyses Turkey's role in the Arab world and investigates the effects of the Arab Spring on Turkish foreign policy, decision-making and its role. Particular attention is focused on widespread terms such as strategic depth, neo-Ottomans and the Turkish Model. It also provides incisive discussions of the key tenets of the Turkish official responses to Arab revolts and narrates the advantages and challenges that come to forge any potential regional role for Turkey. U.S. Foreign Policy The Paradox of World Power CQ Press The same aspects of American government and society that propelled the United States to global primacy have also hampered its orderly and successful conduct of foreign policy. This paradox challenges U.S. leaders to overcome threats to America's world power in the face of fast-moving global developments and political upheavals at home. The fully updated Fifth Edition of Steven W. Hook's U.S. Foreign Policy: The Paradox of World Power explores this paradox, identifies its key sources and manifestations, and considers its future implications as it asks whether U.S. foreign policymakers can manage these dynamics in a manner that preserves U.S. primacy. Hearings, Reports and Prints of the House Committee on Foreign Affairs Foreign Policy Analysis New Approaches Routledge This exciting new book aims to re-invigorate the conversation between foreign policy analysis and international relations. It opens up the discussion, situating existing debates in foreign policy in relation to contemporary concerns in international relations, and provide a concise and accessible account of key areas in foreign policy analysis that are often ignored. Focusing on how the process of foreign policy decision making affects the conduct of states in the international system, and analysing the relationship between policy, agency and actors, the work examines: foreign policy and bureaucracies domestic sources of foreign policy foreign policy and the state foreign policy and globalization foreign policy and change. This work builds on and expands the theoretical canvas of foreign policy analysis, shaping its ongoing dialogue with international relations and offering an important introduction to the field. It is essential reading for all students of foreign policy and international relations. Journal of the International Relations and Affairs Group, Volume V, Issue II Lulu.com The International Relations and Affairs Group supports research in foreign affairs and global issues among states within the international system, including the roles of states, inter-governmental organizations (IGOs), non-governmental organizations (NGOs), and multinational corporations (MNCs). We focus on geopolitical analysis, globalization, and international policy issues and apply qualitative and quantitative analysis. Our focus is analyzing, as well as formulating solutions to issues with foreign policy, cultural interaction, crisis and other. We have a network of over 72,500 members globally. JIRAG welcomes submissions on the following topics: Geopolitical Analysis, Homeland Security, National Security, Globalization, Conflict Resolution, Commerce, Law, Diplomacy, Intelligence Community, Negotiation, Government, Defense, Warfare, Business, Public Policy, Terrorism, Crime, Economic Trade, NGO's, MNC's, Disaster, Culture, Human Trafficking and other related topics. Deconstructing "Ideal Power Europe" The EU and the Arab Change Rowman & Littlefield This book deconstructs the EU's representation as "an ideal power" in world politics through an analysis of its policy on the Southern Mediterranean before and after the Arab uprisings. It displays how the EU's "ideal" identity is reproduced vis-à-vis its Arab other, especially after the uprisings. Compendium of Research Topics
