WORLD'S WORST DAY EVER

Createspace Independent Publishing Platform A resource for fans of The Kurtherian Gambit. End of the world as we know it. Plausible. Scary in its simplicity. Horrible in its effect. Set in the Kurtherian Gambit Universe, this story explains how a few mistakes can have grave consequences. Unfortunately, the technology in the following short story is real. Yes, this could happen. Dammit. Who wants to really dwell on these things? This story was written by Craig Martelle, based on the original WWDE Document as authored by Jeff Morris. You get both in this one short story which gives you insight into how a fiction author takes a technical document and makes a story out of it. Otherwise, I would label this, "Crap, I don't want to ever, ever, ever think about."
