COMPUTERBILD

Litres Журнал ComputerBild - это уникальный сборник информации и практических курсов по работе с компьютером. Простые и понятные пошаговые инструкции помогут начинающему пользователю с легкостью овладеть миром высоких технологий, и усовершенствовать свои познания в программах, интернет-сервисах и современных гаджетах. Журнал издается в Германии, России, Испании, Польше, Италии, Болгарии и в Латвии, первый номер журнала вышел в Германии 16 лет назад. В России журнал существует с 2006 года, и за это время он обрел множество верных читателей, которые совершенствуют свои познания в области компьютеров с каждым новым номером.(DVD прилагается только к печатному изданию.)

POPULAR AVIATION

QUATTRORUOTE

Litres Quattro ruote (Кватроруте) - это великолепно изданный автомобильный журнал, охватывающий весь спектр машин, существующих в настоящее время на планете. Его главная цель - дать читателям самую объективную и исчерпывающую информацию обо всех автомобилях мира, представленных на российском рынке. Журнал Quattro ruote имеет собственный автомобильный полигон, который находится на территории Италии, располагает отлично оборудованной скоростной трассой и великолепными условиями для самых разнообразных высокотехнологичных исследований. Всевозможные тесты автомобилей проводятся здесь постоянно, по самым высоким стандартам качества и выявляют все достоинства и недостатки каждой машины. Большое внимание журнал Quattro ruote уделяет автокаталогу с техническими характеристиками и актуальными ценами на все новые автомобили и машины с пробегом. Каталог журнала Quattro ruote пользуется большой популярностью как у автолюбителей, так и у опытных водителей-профессионалов со стажем. Важные темы каждого номера - lifestyle и путешествия.В номере:Проба руля: первые впечатления от вождения Rolls-Royce WraithДлительный тест Toyota Highlander. 2 месяца на тесте Автополигон: результаты испытаний на нашем полигоне Hyundai Equus Чего ждать: ближайшие автомобильные премьеры Nissan Qashqai Что делать: различные аспекты жизни автовладельца Топ-5: Как пережить зиму на едином дыхании Lifestyle Путешествие. Кафе «Багдад»и многое другое

FHM (FOR HIM MAGAZINE) 01-2014

Litres Один из самых популярных во всем мире журналов для мужчин. На страницах издания вы найдете репортажи о самых модных тенденциях в одежде, технические и научные открытия. Постоянные рубрики издания: «Репортёр» (прекрасные женщины, забавные животные и увлекательные новости); «Анекдоты» (уморительные истории читателей); «Вопрос-ответ» (тет-а-тет с популярными и преуспевшими в жизни мужчинами); «100 вопросов» (звезды отвечают на вопросы); «Секс» (тайны любви, сексуальные обычаи мира, как удовлетворить взыскательную партнершу и многое другое); «Обзоры» (кино, музыка, авто, техника, литература, в общем все новинки в одной рубрике).

AUGMENTED REALITY

WHERE WE WILL ALL LIVE

Springer This book provides an in-depth exploration of the field of augmented reality (AR) in its entirety and sets out to distinguish AR from other inter-related technologies like virtual reality (VR) and mixed reality (MR). The author presents AR from its initial philosophies and early developments, to its current technologies and its impact on our modern society, to its possible future developments; providing readers with the tools to understand issues relating to defining, building, and using our perception of what is represented in our perceived reality, and ultimately how we assimilate and react to this information. Augmented Reality: Where We Will All Live can be used as a comprehensive guide to the field of AR and provides valuable insights for technologists, marketers, business managers, educators and academics who are interested in the field of augmented reality; its concepts, history, practices and the science behind this rapidly advancing field of research and development.

AEROSPACE NAVIGATION SYSTEMS

John Wiley & Sons Compiled by leading authorities, Aerospace Navigation Systems is a compendium of chapters that present modern aircraft and spacecraft navigation methods based on up-to-date inertial, satellite, map matching and other guidance techniques. Ranging from the practical to the theoretical, this book covers navigational applications over a wide range of aerospace vehicles including aircraft, spacecraft and drones, both remotely controlled and operating as autonomous vehicles. It provides a comprehensive background of fundamental theory, the utilisation of newly-developed techniques, incorporates the most complex and advanced types of technical innovation currently available and presents a vision for future developments. Satellite Navigation Systems (SNS), long range navigation systems, short range navigation systems and navigational displays are introduced, and many other detailed topics include Radio Navigation Systems (RNS), Inertial Navigation Systems (INS), Homing Systems, Map Matching and other correlated-extremalsystems, and both optimal and sub-optimal filtering in integrated navigation systems.

THE WORLD AT MY FEET

THE EXTRAORDINARY STORY OF THE RECORD-BREAKING FASTEST RUN AROUND THE EARTH

Allen & Unwin In 2013, Australian Tom Denniss became the fastest person to circumnavigate the world on foot. His epic journey lasted nearly two years, and for each of the 622 days it took him to run around the planet, Tom completed the equivalent of a marathon or more. Based on distance alone his feat was an extraordinary act of endurance, but along the way Tom also survived a near-death experience on an ice cliff as he was running over the top of the Andes, was chased by dogs, snakes and suspicious border police, narrowly avoided lethal cars and buses, suffered in 60-degree heat and sub-zero blizzards, tore through 17 pairs of runners, and raised tens of thousands of dollars for Oxfam. He also experienced an amazing diversity of scenery, culture, food and people as he traversed New Zealand, North and South America, Europe from the Atlantic to the Bosphorus, and Australia from Fremantle to Sydney. The World at My Feet is his account of an incredible 26,232 kilometre run, and a vivid insight into an adventure of truly global proportions.

THE ARCGIS BOOK

10 BIG IDEAS ABOUT APPLYING THE SCIENCE OF WHERE

ESRI Press This is a hands-on book about ArcGIS that you work with as much as read. By the end, using Learn ArcGIS lessons, you'll be able to say you made a story map, conducted geographic analysis, edited geographic data, worked in a 3D web scene, built a 3D model of Venice, and more.

E GUARDO IL MONDO DA UN DISPLAY

Delos Digital srl SAGGIO (201 pagine) - TECNOLOGIA - La sparizione del mondo reale dentro display tecnologici e virtuali Smartphone, phablet, tablet, personal computer, lettori musicali, televisori, bancomat, chioschi e totem multimediali, maxischermi a LED, "video wall", tutti accomunati dalla presenza di un display capace di ospitare sulla sua superficie non soltanto dati, immagini e video ma in realtà il mondo intero. Il display enfatizza il ruolo della visione, il senso umano per definizione secondo Aristotele, ma virtualizza e rende trasparente il corpo, facendoci perdere la capacità di collezionare esperienze percettive capaci di cogliere il mondo nella sua interezza e materialità. Perduti e innamorati dei propri display, gli umani dell'era tecnologica postmoderna sembrano tante monadi Leibniziane, tutte in armonia tra di loro ma perse in universi differenti e alla costante ricerca di unità e di esperienze non soltanto visuali ma materiche, cinestetiche, prossemiche, sonore, linguistiche, olfattive, gustative e tattili. Esperienze che anche il display più innovativo e tecnologicamente avanzato non è ancora in grado di regalare. Dirigente d'azienda, filosofo e tecnologo, Carlo Mazzucchelli è il fondatore del progetto editoriale SoloTablet dedicato alle nuove tecnologie e ai loro effetti sulla vita individuale, sociale e professionale delle persone. Esperto di marketing, comunicazione e management, ha operato in ruoli manageriali e dirigenziali in aziende italiane e multinazionali. Focalizzato da sempre sull'innovazione ha implementato numerosi programmi finalizzati al cambiamento, ad incrementare l'efficacia dell'attività commerciale, il valore del capitale relazionale dell'azienda e la fidelizzazione della clientela attraverso l'utilizzo di tecnologie all'avanguardia e approcci innovativi. Giornalista e writer, communication manager e storyteller, autore di e-book, formatore e oratore in meeting, seminari e convegni. È esperto di Internet, social network e ambienti collaborativi in rete e di strumenti di analisi delle reti social, abile networker, costruttore e gestore di comunità professionali e tematiche online.

DIGITAL AVIONICS HANDBOOK

CRC Press A perennial bestseller, the Digital Avionics Handbook offers a comprehensive view of avionics. Complete with case studies of avionics architectures as well as examples of modern systems flying on current military and civil aircraft, this Third Edition includes: Ten brand-new chapters covering new topics and emerging trends Significant restructuring to deliver a more coherent and cohesive story Updates to all existing chapters to reflect the latest software and technologies Featuring discussions of new data bus and display concepts involving retina scanning, speech interaction, and synthetic vision, the Digital Avionics Handbook, Third Edition provides practicing and aspiring electrical, aerospace, avionics, and control systems engineers with a pragmatic look at the present state of the art of avionics.

AIRCRAFT FLIGHT INSTRUMENTS AND GUIDANCE SYSTEMS

PRINCIPLES, OPERATIONS AND MAINTENANCE

Routledge Written for those pursuing a career in aircraft engineering or a related aerospace engineering discipline, Aircraft Flight Instruments and Guidance Systems covers the state-of-the-art avionic equipment, sensors, processors and displays for commercial air transport and general aviation aircraft. As part of a Routledge series of textbooks for aircraft-engineering students and those taking EASA Part-66 exams, it is suitable for both independent and tutor-assisted study and includes self-test questions, exercises and multiple-choice questions to enhance learning. The content of this book is mapped across from the flight instruments and automatic flight (ATA chapters 31, 22) content of EASA Part 66 modules 11, 12 and 13 (fixed/rotary-wing aerodynamics, and systems) and Edexcel BTEC nationals (avionic systems, aircraft instruments and indicating systems). David Wyatt CEng MRaES has over 40 years' experience in the aerospace industry and is currently Head of Airworthiness at Gama Engineering. His experience in the industry includes avionic development engineering, product support engineering and FE lecturing. David also has experience in writing for BTEC National specifications and is the co-author of Aircraft Communications & Navigation Systems, Aircraft Electrical & Electronic Systems and Aircraft Digital Electronic and Computer Systems.

SPACE WARS

Macmillan A series of scenarios of nuclear warfare based on military wargames explains why World War III will be won or lost in outer space.

DIGITAL AVIONICS HANDBOOK, THIRD EDITION

CRC Press A perennial bestseller, the Digital Avionics Handbook offers a comprehensive view of avionics. Complete with case studies of avionics architectures as well as examples of modern systems flying on current military and civil aircraft, this Third Edition includes: Ten brand-new chapters covering new topics and emerging trends Significant restructuring to deliver a more coherent and cohesive story Updates to all existing chapters to reflect the latest software and technologies Featuring discussions of new data bus and display concepts involving retina scanning, speech interaction, and synthetic vision, the Digital Avionics Handbook, Third Edition provides practicing and aspiring electrical, aerospace, avionics, and control systems engineers with a pragmatic look at the present state of the art of avionics.

CANADIAN MIG FLIGHTS

iUniverse This book is a collection of "there I was" stories highlighting the experiences of Canadian Forces pilots who have had the opportunity of a lifetime to fly in the combat aircraft operated by former adversaries. Technical descriptions of key Soviet-built fighter jets such as the MiG-15, MiG-21, MiG-23, MiG-25, MiG-29, Sukhoi Su-22 and Su-27 are included for general reference. The Canadian Fighter pilots mentioned in the story have generously provided their observations and comments on their specific experiences of flight in aircraft such as the MiG-29 (NATO codenamed Fulcrum), Sukhoi Su-22 (codenamed Fitter) and Su-27 (codenamed Flanker), both in Canada and overseas. The stories as told first hand by the pilots who contributed them should provide interesting reading for aviation enthusiasts of all ages. An Annex listing aircraft known to have been brought to the West by defecting pilots since 1949 is also included. The Annex briefly describes pilots and aircraft and the circumstances that brought the various defectors to the west, including the MiG-15 flown to South Korea by Lieutenant No Kum-Sok and the MiG-25 flown to Japan by Lieutenant Viktor Belenko. Brief details of Soviet-built aircraft later flown in NATO opposition force flight test programs are also included.

SOMETIMES A GREAT NOTION

Penguin The magnificent second novel from the legendary author of One Flew Over the Cuckoo's Nest Following the astonishing success of his first novel, One Flew Over the Cuckoo's Nest, Ken Kesey wrote what Charles Bowden calls "one of the few essential books written by an American in the last half century." This wild-spirited tale tells of a bitter strike that rages through a small lumber town along the Oregon coast. Bucking that strike out of sheer cussedness are the Stampers. Out of the Stamper family's rivalries and betrayals Ken Kesey has crafted a novel with the mythic impact of Greek tragedy. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

HCI INTERNATIONAL 2020 - LATE BREAKING PAPERS: DIGITAL HUMAN MODELING AND ERGONOMICS, MOBILITY AND INTELLIGENT ENVIRONMENTS

22ND HCI INTERNATIONAL CONFERENCE, HCII 2020, COPENHAGEN, DENMARK, JULY 19-24, 2020, PROCEEDINGS

Springer Nature This book constitutes late breaking papers from the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as "Late Breaking Work" (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 42 late breaking papers presented in this volume were organized in topical sections as follows: HCI in Automotive; Interaction in Intelligent Environments; and Digital Human Modeling and Ergonomics.

MY COGNITIVE AUTOMOBILE LIFE

DIGITAL DIVORCE FROM A COGNITIVE PERSONAL ASSISTANT

Springer Only ten years ago driving was about horsepower, style and comfort -- people said they loved their cars. Today, we can see the transformation in the automotive industry including ridesharing and carsharing with the new concepts of mobility and motion changing every day. Will consumers lose the e-motion they previously had for their vehicles? Maybe the new e-motion will be a different type of connection, one that understands, learns, and reasons as you move through your life; this is the concept of a cognitive vehicle and lifestyle that is discussed within. This book provides the trends and technologies in the automotive industry as it moves from a connected vehicle to a cognitive vehicle and how automotive manufactures facing the market shift from an organizational-centered to an individual-centered economy.

HANDBOOK OF RESEARCH ON URBAN TOURISM, VIRAL SOCIETY, AND THE IMPACT OF THE COVID-19 PANDEMIC

IGI Global The tourism and hospitality industries have faced major setbacks in recent years as they have had to combat various challenges such as the COVID-19 pandemic and a rapidly evolving global market. In order to ensure these industries are prepared for future crises, further study on the best practices and strategies for handling difficult times and managing growth is critical. The Handbook of Research on Urban Tourism, Viral Society, and the Impact of the COVID-19 Pandemic provides innovative research and perspectives on the revitalization of cultural tourism industries and services by addressing the creation of jobs in the areas of restoration, leisure, and culture. The book also analyzes how the tourism industry has handled global crises in the past and proposes business models for information and knowledge dissemination to appropriately handle disasters. Covering critical topics such as digital media and risk management, this major reference work is ideal for industry professionals, government officials, policymakers, researchers, academicians, scholars, practitioners, instructors, and students.

THE TURBINE PILOT'S FLIGHT MANUAL

Extensive animation and clear narration highlight this first-of-its-kind CD-ROM. It shows all major systems of jet and turboprop aircraft and how they work. Ideal for self-instruction, classroom instruction or just the curious at heart.

ARMY RECORDS FOR FAMILY HISTORIANS

Describes the main series of records of the War Office and other government departments which provide information about officers and soldiers who have served in the British Army.

HARRIER STORY

The History Press The 'Jump-jet' was the world's first vertical/short take-off and landing (VSTOL) operational jet aircraft. Developed using the revolutionary Pegasus engine, the Harrier has served the RAF and US Marine Corps well for over 30 years. Here, vividly told, is the fascinating story from tentative hovering by the Hawker P1127 in 1960 to today's frontline Harrier GR9 and AV-8B warplanes. A naval version, the Sea Harrier, entered service with the Royal Navy in 1979. Alongside the RAF Harrier it saw action in the Falklands War in 1982. More recently, Harriers have seen combat over Kosovo, Bosnia and Iraq. In the USA, a license-built version (the AV8-A/B) equips the US Marine Corps and is in service today in Iraq. Harriers also equip air forces in Spain and Thailand. This competitively priced, full colour hardback is packed with clear and accessible information and is the latest in a series including The Concorde Story and The Spitfire Story.

APERTURE 3 PORTABLE GENIUS

John Wiley & Sons Compact, fluff-free, full-color guide to getting the most out of Apple's Aperture digital photography software This handy Portable Genius guide is designed to help you avoid hassle, save time, and quickly learn what you need to know to use Apple's Aperture digital photography software effectively—and have fun while you're doing it! In a trim size that fits in your laptop bag, this practical guide gives you tips, tricks, and savvy advice on everything from navigating Aperture's user interface to advanced RAW image processing, publishing albums on the Web, and how to create your own photo book. Provides tips and techniques for the new or most useful features of Apple's Aperture 3 digital photography and digital manipulation program Includes savvy advice and plenty of no-nonsense content in a hip way that is easy to access Covers key tools and topics, including keyboard shortcuts, how to streamline workflows, advanced RAW image processing, and more Features Genius icons throughout the book—smart or innovative ways to handle tasks and save yourself time Learn Aperture in a fun way and get even more out of your Apple digital lifestyle with Aperture 3 Portable Genius.

ADVANCES IN AFFECTIVE AND PLEASURABLE DESIGN

CRC Press This volume discusses pleasurable design — a part of the traditional usability design and evaluation methodologies. The book emphasizes the importance of designing products and services to maximize user satisfaction. By combining this with traditional usability methods it increases the appeal of products and use of services.

HISTORY OF MONTGOMERY COUNTY, PENNSYLVANIA

ADVANCES IN HUMAN FACTORS AND ERGONOMICS 2012- 14 VOLUME SET

PROCEEDINGS OF THE 4TH AHFE CONFERENCE 21-25 JULY 2012

CRC Press With contributions from an international group of authors with diverse backgrounds, this set comprises all fourteen volumes of the proceedings of the 4th AHFE Conference 21-25 July 2012. The set presents the latest research on current issues in Human Factors and Ergonomics. It draws from an international panel that examines cross-cultural differences, design issues, usability, road and rail transportation, aviation, modeling and simulation, and healthcare.

A GUIDE TO FLIGHT SIMULATOR

TAKE FLIGHT TODAY

SoFly This stunning 200-page digital guide is packed full of inspiring visuals to support you in your new flight simulator. Discover what you need to know from flying with ATC and configuring camera controls, to using the accessible user interface (UI) and completing your first training flight. Spend more time flying in your new simulator with the best possible set up. SoFly's team of experts have carefully crafted an easy to follow guide, enabling you to swiftly adapt your settings to maximise performance without compromising the look of your new simulator. A Guide to Flight Simulator will provide you with detailed information for each of the hand-crafted airports, whilst the tips and tricks from certified pilots will give you the confidence needed to complete complicated manoeuvres and land at challenging airports. Detailed specs will help you understand each of the included aircraft to help you become the best virtual pilot. The step-by-step tutorials included throughout will walk you through your first flights in the simulator, and provide you with travel inspiration for your next virtual flight. You'll soon be able to fly solo or online with your friends using live settings. 'A Guide to Flight Simulator' is the perfect travel companion for anyone using the new flight simulator, regardless of the level of experience or knowledge.
