### **LINEAR B**

---

#### **AN INTRODUCTION**

---

Bristol Classical Press This introduction is suitable for the student with some knowledge of Greek who wishes to have access to Linear B material. Part One places the development of the Linear B script against its historical background; the earlier varieties of Aegean writing are discussed, and Ventris' decipherment of Linear B is described and the Mycenaean dialect of Greek is examined. In Part two, the reader is taken through a number of important Linear B texts. These are presented first in a 'normalised' transcription of the Linear B characters, so as to induce familiarity with the lay-out of the original texts, secondly in transliteration, and thirdly in translation where this is possible.
