## Gerontological Nursing

# A holistic approach to the care of older people

Elsevier Health Sciences **This first edition Australian text aligns nursing care principles and practice to the unique requirements of older people. Written by leading academics and clinicians, Gerontological Nursing: A holistic approach to the care of older people covers the essential skills of gerontological care with a focus on chronic diseases, neurocognitive disorders, mental health, quality of life and healthy ageing, palliative care and bereavement, safety issues, and the role of the caregiver. As nurses play an ever more critical role in supporting the needs of an ageing population, this essential text will enable nursing students to navigate the complexities of older people's healthcare, promote healthy ageing, and help people to live well. End of chapter practice scenarios with questions Tips for best practice Focus on contemporary models of care and clinical governance Inclusion of most common chronic diseases affecting older adults including dementia, depression and delirium Dedicated chapter on Safety and Security Expert contributors from multiple Australian and New Zealand universities Aligned to the Australian Aged Care Quality Standards as well as international standards and guidelines An eBook included in all print purchases Additional resources on Evolve eBook on VitalSource Instructor resources: PowerPoints MCQs Chapter worksheets**

# Ebersole and Hess' Gerontological Nursing & Healthy Aging4

## Ebersole and Hess' Gerontological Nursing & Healthy Aging

Elsevier Health Sciences **Ebersole & Hess' Gerontological Nursing and Healthy Aging is the only gerontological nursing text that follows a wellness-based, holistic approach to older adult care. Designed to facilitate healthy aging regardless of the situation or disease process, this text goes beyond simply tracking recommended treatments to address complications, alleviate discomfort, and help older adults lead healthy lives. Featuring evidence-based practice boxes, safety alerts, expanded tables, and careful attention to age, gender, and cultural differences, Ebersole & Hess' Gerontological Nursing and Healthy Aging is the most complete text on the market. Focus on health and wellness helps you gain an understanding of the patient's experience. AACN and the Hartford Institute for Geriatric Nursing core competencies integrated throughout. Consistent chapter organization and pedagogy, including Learning Objectives, Glossary, and Research and Study Questions/Activities. Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects. Careful attention to age, cultural, and gender differences helps you understand these important considerations in caring for older adults Expanded tables, boxes, and forms, including the latest scales and guidelines for proper health assessment make information easy to find and use. Activities and discussion questions at the end of every chapter equip you with the information you need to assess the patient. UPDATED! Healthy People 2020 boxes integrate information about healthy aging. NEW! Safety Alerts highlight safe practices and quality of care QSEN competencies. NEW! Chapter on Neurologic Compromise expands content on stroke and Parkinson's disease.**

## Gerontological Nursing

# Competencies for Care

Jones & Bartlett Learning Each new print copy includes **Navigate 2 Advantage Access** that unlocks a comprehensive and interactive eBook, student practice activities and assessments, a full suite of instructor resources, and learning analytics reporting tools. **Gerontological Nursing: Competencies for Care, Fourth Edition** focuses on caring for the elderly by employing a holistic and inter-disciplinary approach. The Fourth Edition will feature a greater emphasis on healthy aging and continues to follow the framework of the Core Competencies of the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. This framework allows students to learn and develop all aspects of nursing care in a familiar and structured learning platform.

# Gerontological Nursing

Lippincott Williams & Wilkins **Eliopoulos** provides students with the content they need, taking a holistic approach to gerontological nursing. Updated for currency, the text works to ensure students are prepared for their careers with new real world application and care competencies to help guide work place decisions. With DocuCare availability, this new edition also connects textbook resources with clinical and simulation setting via supplementary resources.

# Gerontologic Nursing

Mosby Incorporated **GERONTOLOGIC NURSING** provides comprehensive coverage of health promotion, gerontologic concepts and issues, and medical-surgical problems associated with the older adult. Divided into seven parts, each chapter follows a consistent organization including learning objectives, emergency boxes, client and family teaching boxes, research boxes, key points, special insights, and new health promotion and nutrition boxes. The second edition also includes a new chapter on health promotion, expanded chapters on nutrition and functional assessment, and a dedicated MERLIN which provides the student and instructor with additional up-to-date tools and resources to enhance and expand their content knowledge. Highlights fundamental aging theories to provide a basis for biological and psychosocial aspects of quality nursing care. Provides complete and comprehensive coverage of assessment recapping normal, deviations from normal and abnormal findings. Uses a 5-step nursing process format to provide the consistent framework for presentation of nursing care. Features care plans with clinical situations for those disorders most prevalent in the elderly. Includes a separate chapter on cultural influences and integrates cultural awareness boxes throughout to focus on specific customs related to how a nurse might care

for the aging client. Includes separate chapters focusing on acute, home and long term care to provide a complete discussion of care in each of these settings. Provides detailed coverage of pain, infection, cancer, chronic illness, loss, death and dying, and substance abuse to explain potentially complex aspects of aging and the related care. Provides a consistent chapter pedagogy including learning objectives, summary, key points, and critical thinking exercises. Includes Client/Family teaching boxes that emphasize key aspects of practice and teaching for self-care. Highlights Home Care Tips Boxes to promote practical, effective care for the home-bound older client. Integrates Insight boxes that provide realistic vignettes on caring for the elderly and helpful hints from today's practicing gerontological nurses. Provides Emergency Treatment boxes that alert the student to danger signs and list immediate interventions. Includes research boxes with abstracts of current research and implications for practice. Provides a nuts-and-bolts guide to blood-product administration for adult and pediatric patients. Outlines and explains transfusion reactions. Describes the effect of different types of fluids used in resuscitation. Includes formulas used in fluid administration. Provides the most up-to-date information about oxygen delivery devices. Presents information on how to help a Spanish-speaking child identify his/her level of pain. Includes the pediatric coma scale. Features the pediatric trauma score which is used to help evaluate the severity of injury. Provides information about domestic violence in the Mental Health Conditions chapter. Includes a section on the role of the Sexual Assault Nurse Examiner (SANE) and the latest findings on sexual assault. Presents additional information on mammalian bites and anaphylactic shock. Highlights major points of care for quick reference with bold or italicized text. Presents pediatric and adult content separately in the reference section of the book for fast and easy access. Includes stroke and hypothermia algorithms. Covers the latest information on conscious sedation according to JCAHO standards, including a table on deep sedation. Features several new and updated tables which include the following information: conversion of Centigrade and Fahrenheit, updated normal lab values, updated medication tables, etc. (Includes a FREE MERLIN website at: [www.harcourthealth.com/MERLIN/Lueckenotte/](http://www.harcourthealth.com/MERLIN/Lueckenotte/))

## Gerontological Nurse Certification Review, Second Edition

Springer Publishing Company Preceded by: Gerontological nurse certification review / Meredith Wallace, Sheila Grossman. c2008.

# Essentials of Gerontological Nursing

Springer Publishing Company **Essentials of Gerontological Nursing** presents the best practices needed to care for older adults. Its brief, yet comprehensive, grasp of issues in elder care is a refreshing addition to the current literature, which is more commonly focused on theory than on clinical practice. Designed primarily for students in gerontological nursing courses in BSN and graduate programs, the book provides: Essential clinical information and "best practices" needed to care for older adults Current research and new patient approaches in gerontological nursing Overviews of rarely discussed issues, such as elder abuse, cultural considerations, and restraint alternatives Clinical specifications and practical applications Content designed to fit into a one-semester course **Essentials of Gerontological Nursing** is everything the nursing student needs to know when caring for older adults.

## Gerontological Nursing: Competencies for Care

Jones & Bartlett Publishers **Important Notice:** The digital edition of this book is missing some of the images or content found in the physical edition. **Gerontological Nursing: Competencies for Care, Second Edition** is a comprehensive and student-accessible text that offers a holistic and interdisciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

## Fast Facts for the Gerontology Nurse

## A Nursing Care Guide in a Nutshell

Springer Publishing Company **This pocket-sized reference contains crucial evidence-based information that enables gerontology nurses to differentiate between normal and abnormal findings, understand the**

presentation and management of common diseases of the gerontological population and integrate age-specific considerations into care planning. (Gerontology)

## Ebersole and Hess' Gerontological Nursing and Healthy Aging

**Mosby** With a strong focus on health and wellness, this gerontological nursing text offers you a holistic perspective to caring for older adults. Designed to facilitate the healthiest adaptation possible, this text identifies potential problems that may occur and the means to address complications, alleviate discomfort, and help older adults lead healthy lives. Disease processes are discussed in the context of healthy adaptation, nursing support, and nursing responsibilities to help you gain an understanding of your clients' experience. Focus on health and wellness establishes a positive perspective to aging. Careful attention to age, cultural, and gender differences are integrated throughout to help you understand these important considerations when caring for older adults. Healthy aging strategies maximize the healthiest behaviors of clients with dementia and their caregivers. Consistent chapter organization includes learning objectives, research, and study questions/activities to make information easy to find and use. Incorporates assessment guidelines throughout provide useful tools for practice. End-of-chapter activities and discussion questions help you expand your knowledge and understanding of the content. Resource lists provide you with additional means to explore ways to care for the older adult. Incorporates the core competencies identified by the AACN and the Hartford Foundation Institute for Geriatric Nursing. Healthy People 2010 boxes assist you in integrating knowledge about healthy aging considerations. Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects. Expanded sexuality-related content includes older adults living with AIDS and STDs. Genetics section reflects the emergence of the role of genetics in gerontological assessment.

### Review, Third Edition

Springer Publishing Company **Note to Readers: Publisher does not guarantee quality or access to any included digital components if book is purchased through a third-party seller. Praise for the second edition: "In this book, the tools and clear presentation of information related to the actual testing process provide the learner with a framework for confidence as he or she prepares for the exam. More important, however, is the elaborate presentation of the certification content and the attention to the important physical and psychosocial elements of the human aging process." - Geraldine Bednash, PhD, RN, FAAN Executive Director American Association of Colleges of Nursing** This unrivalled resource contains all of the information every RN needs to successfully prepare for the Gerontological Nurse Certification Exam (GNCE). It provides a thorough review of key content that reflects the exam blueprint, proven test-taking strategies, and over 500 examination-style Q&As with in-depth rationales. The third edition is completely updated to reflect the most current clinical information. It includes new and expanded information on standardized patients and assessments, safety and security issues, hospice and palliative care, updated drug data, and test-taking and exam preparation tips. With everything you need to pass the GNCE in one place, this resource promotes success through clear and concise content summaries and bulleted information, abundant tables and charts that reinforce knowledge, and more Q&As than any other GNCE resource. With the increasing elder population, the GNCE certification is essential to the availability of a nursing workforce educated in assessing and meeting the needs of older adults. **New to the Third Edition: New and updated information in every chapter! Demographics; population trends; and safety, security, and ethical issues Developmental stages including Maslow, Erickson and Kubler Ross New standardized patient assessments Physical, psychological, and spiritual principles of end-of-life care Major acute and chronic illnesses by body system All new drug information Time-tested exam strategies for success Critical thinking strategies and helpful memorization aids**

## Case Studies in Gerontological Nursing for the Advanced Practice Nurse

John Wiley & Sons As the fastest growing population sector worldwide, older adults are seen in almost every care setting in which clinicians practice. Developed as a resource for advanced practice nurses in any setting, Case Studies in Gerontological Nursing for the Advanced Practice Nurse presents readers with a range of both typical and

atypical cases from real clinical scenarios. The book is organized into six units covering cases related to aging, common health challenges, health promotion, environments of care, cognitive and psychological issues, and issues relating to aging and independence. Each case follows a similar format including the patient's presentation, critical thinking questions, and a thorough discussion of the case resolution through which students and clinicians can enhance their clinical reasoning skills. Designed to promote geriatric clinical education through self-assessment or classroom use, *Case Studies in Gerontological Nursing for the Advanced Practice Nurse* is a key resource for all those dedicated to improving care for older adults.

## NGNA Core Curriculum for Gerontological Nursing

Mosby Incorporated **CORE CURRICULUM FOR GERONTOLOGICAL NURSING** helps nurses prepare for the American Nurses Credentialing Center (ANCC) examination for the gerontologic nurse. Content is based on the format of the certification exam, and this new, revised edition closely matches the new test plan. Each topic includes learning objectives, outline discussion, study questions, answers with rationales and references. A new sample exam is located in the back of the book.

## Gerontological Nursing Etext 2.0 Access Code Card

Pearson **A holistic guide to nursing care for older adults, across settings.** **Pearson eText for Gerontological Nursing** is a comprehensive, research-based guide to the nursing care of older adults. It addresses normal and pathophysiological changes of aging, as well as psychosocial, cultural, and public health influences. With a focus on "adding life to years," not just extending life, the text illuminates evidence and best practices that promote safe, effective assessment, diagnosis, and outcomes. The 4th edition provides new evidence and standards affecting the care of aging populations, plus new practice opportunities preparing students for the NCLEX-RN(R) exam and nursing practice. Note: *Gerontological Nursing, 4th Edition*, is offered only in a Pearson eText format or as an eText from other vendors such as VitalSource(R), Redshelf, or Amazon(R). Students can also purchase a low-cost, loose-leaf print version of the title through their Pearson eText. For courses in gerontology and gerontological nursing. **Pearson eText** allows educators to easily share their own notes with students so they see the connection between their reading and what they learn in class - motivating them to keep reading, and keep learning. **Portable access** lets students study on the go, even offline. And, reading

analytics offer insight into how students use the eText, helping educators tailor their instruction. **NOTE:** This ISBN is for the Pearson eText access card. For students purchasing this product from an online retailer, Pearson eText is a fully digital delivery of Pearson content and should only be purchased when required by your instructor. In addition to your purchase, you will need a course invite link, provided by your instructor, to register for and use Pearson eText.

# Evidence-Based Geriatric Nursing Protocols for Best Practice, Fifth Edition

Springer Publishing Company **This new edition of one of the premier references for geriatric nurses in hospital, long-term, and community settings delivers current guidelines, real-life case studies, and evidence-based protocols developed by master educators and practitioners. With a focus on improving quality of care, cost-effectiveness, and outcome, the fifth edition is updated to provide the most current information about care of common clinical conditions and issues in older patients. Several new expert contributors present current guidelines about hip fractures, frailty, perioperative and postoperative care, palliative care, and senior-friendly emergency departments. Additionally, chapters have been reorganized to enhance logical flow of content and easy information retrieval. Protocols, systematically tested by more than 300 participating NICHE (Nurses Improving Care for Health system Elders) hospitals, are organized in a consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence ratings for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Includes PowerPoints and a test bank for instructors Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the older person Illustrates the application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles**

consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence rating for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the elderly Illustrates application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

## Gerontology Nursing Case Studies, Second Edition

### 100+ Narratives for Learning

Springer Publishing Company This highly praised text for nursing students, now in its second edition, presents nearly 110 interactive geriatric health case studies depicting a vast range of realistic scenarios—physical, mental, and psychosocial--that may present to nurses who work with aging adults. With exercises that reinforce learning, each case study reflects a holistic approach, encompassing mind, body, and spirit, to the presented problem. The second edition features several new cases and thoroughly updated cases from the first edition that include new health guidelines, new health promotion criteria, web links, references, and additional resources. Also provided are additional video clips and animations embedded throughout the text, Quality for Safety in Nursing Education (QSEN) Initiatives, a greater focus on prioritization and delegation, new cases covering Healthcare Disparities, Aging in Place, and Prevention of Catheter Associated Urinary Tract Infection, and a completely new section about Aging Issues Affecting the Family.

## Gerontological Nursing

# Issues and Opportunities for the Twenty-first Century

Jones & Bartlett Learning **This book makes a compelling argument for an immediate and comprehensive shift in the nursing education curriculum, from an acute care to a gerontological nursing care focus. It is important reading for deans and faculty in schools of nursing, administrators in long-term care facilities and community health agencies, and for practicing nurses caring for the elderly.**

## Gerontological Nursing & Healthy Aging

Mosby **Gerontological Nursing & Healthy Aging provides thorough coverage of promoting healthy aging when caring for older adults. The intent throughout the book is to facilitate the healthiest adaptation possible for any older adult, regardless of the situation and disease process. The majority of the book is devoted to discussing the significant problems that may occur and methods that nurses may use to make these problems more bearable, to solve some, and to help the elder find the best possible resolution towards healthy aging. Incorporates healthy aging strategies to maximize the healthiest behaviors of clients/patients with dementia and their caregivers. Disease processes are discussed in the context of healthy adaptation, nursing support & responsibilities to help the reader gain an understanding of their client's experience. Focus on health and wellness establishes a positive perspective to aging. Careful attention to age, cultural, and gender differences are integrated throughout to help the nurse understand these important considerations in caring for older adults. Each chapter provides a consistent organization including learning objectives, research & study questions/activities. Assessment guidelines are incorporated throughout as tables, boxes, and forms to provide useful tools for practice. Activities and discussion questions at the end of every chapter provide situations to expand student knowledge and understanding. Appendices and resource lists assist in further exploration of material. Text correlates with federal guidelines for Healthy People 2010 to assist the student in integrating knowledge about healthy aging considerations. Expanded content on pharmacologic and nonpharmacologic pain management in Chapter 15 and integrated within appropriate content sections. Completely revised Culture and Aging chapter includes discussions of health disparities and working with interpreters to help identify nursing care interventions appropriate for ethnic elders. New author team with Theris Touhy and Kathleen Jett adds a wealth of**

experience related to gerontological nursing education and research.

# Ebersole and Hess' Gerontological Nursing & Healthy Aging - E-Book

Elsevier Health Sciences Gain the nursing skills you need to provide wellness-based care for older adults! Ebersole and Hess' Gerontological Nursing & Healthy Aging, 6th Edition uses a holistic approach to describe compassionate care along a continuum of wellness. Designed to promote healthy aging regardless of the patient's situation or disorder, this text provides best-practice guidelines in covering physical, psychosocial, spiritual, and cognitive health. New to this edition are Next Generation NCLEX®-style case studies, updates on measuring clinical judgment, expanded coverage of core competencies, and more. Written by gerontological nursing experts Theris Touhy and Kathleen Jett, this concise text provides a solid foundation in every aspect of healthy aging. Focus on health and wellness provides the evidence-based information and strategies needed to promote healthy aging. Key concepts, learning activities, and discussion questions in every chapter emphasize the information needed to enhance care. Recommended competencies from the AACN and the Hartford Institute for Geriatric Nursing are integrated throughout. Discussion of disease processes is placed in the context of healthy adaptation, nursing support, and responsibilities. Easy-to-use information on nursing techniques and communication appears with the associated disorders, symptoms, and situations. Tips for Best Practice and Resources for Best Practice boxes provide insight into proven methods of nursing care. Discussions of nursing and interprofessional actions help students learn to enhance wellness, maintain optimal function, and prevent unnecessary disability. Coverage of age, cultural, racial, and gender differences highlights these important considerations in caring for older adults. NEW! Updates reflect the NCSBN Clinical Judgment Model. NEW! Next Generation NCLEX® (NGN)-style case studies provide optimal preparation for the Next Generation NCLEX Examination. NEW! Specialized information addresses the unique needs of older adults such as atypical disease presentation, geriatric syndromes, neurocognitive disorders, quality of life with chronic illness, legal and ethical issues, and mental health challenges such as depression and substance abuse. NEW! Coverage of competencies of expanding nursing roles in the care of older adults addresses the continuum of care. NEW! Gerontological expertise is incorporated into nursing actions and complements other nursing texts (including med-surg, community health, mental health, and assessment books) used in programs without a freestanding gerontological nursing course. NEW! Expanded content includes information on COPD guidelines, medication use and misuse, Alzheimer's Disease, wound care guidelines, diagnosis and treatment of sleep-disordered breathing, joint replacement,

caregiver strain, hospice and transitional care, and more.

## Geropsychiatric and Mental Health Nursing

Jones & Bartlett Learning **A new and updated version of this best-selling resource! Jones and Bartlett Publisher's 2011 Nurse's Drug Handbook is the most up-to-date, practical, and easy-to-use nursing drug reference! It provides: Accurate, timely facts on hundreds of drugs from abacavir sulfate to Zyvox; Concise, consistently formatted drug entries organized alphabetically; No-nonsense writing style that speaks your language in terms you use everyday; Index of all generic, trade, and alternate drug names for quick reference. It has all the vital information you need at your fingertips: Chemical and therapeutic classes, FDA pregnancy risk category and controlled substance schedule; Indications and dosages, as well as route, onset, peak, and duration information; Incompatibilities, contraindications; interactions with drugs, food, and activities, and adverse reactions; Nursing considerations, including key patient-teaching points; Vital features include mechanism-of-action illustrations showing how drugs at the cellular, tissue, or organ levels and dosage adjustments help individualize care for elderly patients, patients with renal impairment, and others with special needs; Warnings and precautions that keep you informed and alert.**

## Gerontological Nursing Concepts and Practice

W B Saunders Company **This text provides comprehensive, research-based information on nursing care of older adults. Starting with the basics, it uses a systems approach to describe the aging process across the health care continuum from wellness to illness. Physiological and psychosocial aspects of aging are described in detail. Plus, its many new assessment tools and greater use of the nursing process serves as a framework for providing care. The second edition presents research and theory-based coverage of aging, discussions of normal aging and the clinical problems associated with aging, chapters on pharmacology and nutrition, plus guidance on care in a variety of settings, including acute and long-term care, and in the community.**

## Gerontologic Nursing - E-Book

Elsevier Health Sciences **Compassionately care for the aging population with Gerontologic Nursing, 6th Edition, uniquely known for its comprehensive**

coverage of the most common medical-surgical problems associated with older adults. Organized by body system for easy retrieval of information, it delves into health promotion and both basic and complex gerontologic concepts and issues. This disorder-focused gerontologic nursing text features an enhanced focus on nursing management and care coordination across health care delivery settings. It emphasizes topics such as nutrition, chronic illness, emergency treatment, patient teaching, home care, and end-of-life care — and includes the latest guidelines for mammograms, colonoscopies, pneumonia, and shingles vaccinations. With the addition of new nursing theories, this edition offers a valuable framework for gerontologic care. Overview of age-related changes in structure and function included in all body system chapters. The most current standards and guidelines keep you in the know. Psychological and sociocultural issues and aspects of older adult care integrated throughout the text. Critical thinking questions included at end of chapters. **UNIQUE!** Patient/Family Teaching boxes emphasize key aspects of practice and teaching for self-care. Health Promotion/Illness Prevention boxes provide tips to promote leading a healthy life. **UNIQUE!** Nutritional Consideration boxes demonstrate special nutritional needs and concerns facing the aging population. Evidence-Based Practice boxes pull the critical evidence-based information contained in the text into boxes for easy access and identification. Cultural Awareness boxes highlight differences in how key concepts are understood or practiced in various cultures. Home Care boxes highlight tips to promote practical, effective home care for the older adult. Key Points at end of chapters summarize the important concepts discussed in the chapter. **EXPANDED!** Increased focus on nursing management and care coordination across health care delivery settings. **NEW!** New nursing theories in chapter 2 provide a framework for gerontologic care. **UPDATED!** Up-to-date guidelines for mammograms, colonoscopies, pneumonia, and shingles vaccinations. **UPDATED!** Fall prevention updates help you better protect your patients. **UPDATED!** Updates on the challenges of caring for older adults with cognitive disorders ensure you are prepared. **UPDATED!** Updated chapters throughout reflect the current evidence to guide practice.

## Gerontological Nurse Practitioner Certification Review

Springer Publishing Company Nurse practitioners have long required a comprehensive certification review book for the ANCC Gerontological Nurse Practitioner (GNP) exam. This is the first book on the market to provide a thorough review of test content to effectively prepare nurses to successfully pass the GNP certification exam. With almost 200 practice questions culled from the real ANCC test outline, this is the only book nurse practitioners need to pass the ANCC exam. Key features: Includes

**guidelines on question dissection and analysis Discusses health promotion and disease prevention Covers assessment of acute and chronic illness Provides information on clinical management and pharmacological/non-pharmacological interventions Describes the nurse practitioner and patient relationship Discusses professional role and policy issues**

## Current Practice and Research

Slack Incorporated **Gerontological Nursing: Current Practice and Research is the comprehensive work of nursing care for the older adult. National nursing experts contributed to this definitive work, which covers promotion of health and prevention of illness. It uniquely weaves clinical practice and research findings to benefit the reader. The editors, Virginia Burggraf, RN, C, MSN, and Richard Barry, MDiv, MLS, focus on providing key concepts, underlying principles, and quality scientific methodology, making this book timely and worthy of use by professional nurses working with elderly patients. Influenced by the Healthy People 2000 Objectives, the authors cover the promotion of health and the prevention of illness. As health care changes, more emphasis will be placed on the nurse to provide quality patient care. Nurses will need to have access to current information that addresses their clinical practice and research initiatives. This book provides the gerontological nurse with this information in an easy-to-read format. Each chapter focuses on a single issue and starts with an overview of that particular topic. It then includes specific gerontological nursing implications and ends with current references for further comprehension.**

## Gerontological Care

Routledge **As the world population ages and people live longer, nurses and healthcare workers, no matter what area they work in, will encounter older people. This guide aims to provide you with the basic but fundamental knowledge you will need to care for older people.**

## A Patient-Centered Guide for Advanced Practice Registered Nurses and Related Health Professions

Springer Publishing Company **Underscores the complexity of prescribing drugs for older adults while providing state-of-the-art guidelines for safe patient care** An evidence-based, quick-access reference for adult gerontology nurse practitioners and related healthcare providers, this text describes a holistic, patient-centered approach to prescribing drugs to older adults. Comprehensive yet concise writing distills timely guidance on the complexities of safely prescribing to this unique population. This book opens with physiologic changes and assessment considerations for older adults, followed by a discussion of pharmacokinetics and pharmacodynamics, then a final section on guidelines for drug selection, drug interactions, and multimorbidities. Each chapter presents information in a consistent, easy-to-read template. Patient Care Pearls alert readers to crucial information and relevant case studies with examples of inappropriate medical prescribing provide context for drug delivery. Key points and chapter summaries help reinforce information. Additional features include the provision of guidelines for psychotropic medications in LTC facilities, special considerations for frail older adults, and the role of pharmacists as a resource for other practitioners. **Key Features:** Decision-making guidance on prescribing practices in varied settings Discusses in depth physiological considerations including multimorbidity and polypharmacy Presents Beer's Criteria and its implications Guidelines for psychotropic medications in LTC facilities Special considerations for frail older adults Patient Care Pearls, case studies, key points, and chapter summaries
