THE MATERIALITY OF BUREAUCRACY IN URBAN PAKISTAN

Univ of California Press "Drawing inspiration from actor-network theory, science studies, and semiotics, this brilliant book makes us completely rethink the workings of bureaucracy as analyzed by Max Weber and James Scott. Matthew Hull demonstrates convincingly how the materiality of signs truly matters for understanding the projects of 'the state.'" - Katherine Verdery, author of *What was Socialism, and What Comes Next?* "We are used to studies of roads and rails as central material infrastructure for the making of modern states. But what of records, the reams and reams of paper that inscribe the state-in-making? This brilliant book inquires into the materiality of information in colonial and postcolonial Pakistan. This is a work of signal importance for our understanding of the everyday graphic artifacts of authority." - Bill Maurer, author of *Mutual Life, Limited: Islamic Banking, Alternative Currencies, Lateral Reason* "This is an excellent and truly exceptional ethnography. Hull presents a theoretically sophisticated and empirically rich reading that will be an invaluable resource to scholars in the field of Anthropology and South Asian studies. The author's focus on bureaucracy, "corruption," writing systems and urban studies (Islamabad) in a post-colonial context makes for a unique ethnographic engagement with contemporary Pakistan. In addition, Hull's study is a refreshing voice that breaks the mold of current representation of Pakistan through the security studies paradigm." - Kamran Asdar Ali, Director, South Asia Institute, University of Texas

THE FEDERALIST PAPERS

Yale University Press This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them.

THE CIA UFO PAPERS

50 YEARS OF GOVERNMENT SECRETS AND COVER-UPS

Red Wheel The secret CIA papers that prove that the government has been tracking UFOs and extraterrestrials for over 50 years In autumn 2016 the CIA sent to its website a cache of electronic files previously released under the Freedom of Information Act but housed at the National Archives. Among a variety of subjects were "unidentified flying objects." Finally, a stockpile of reports and correspondences were available for serious UFO researchers to examine at home. This book consists of selections from those secret files. Dan Wright spent 18 months selecting, editing, and organizing the 550 files that are relevant to UFO research and has produced a chronological collection of CIA documents spanning 1949 to 2000. Each chapter focuses on a particular year. The summary of documents for each year is followed by a section called "While You Were Away from Your Desk," which provides historical and cultural context for the document summaries and examines other sightings and contacts that are not mentioned in the CIA files. Among the fascinating tidbits are: A memo to J Edgar Hoover about flying saucer reports The 1949 conference at Los Alamos that include Edward Teller, upper atmosphere physicist Dr. Joseph Kaplan, and other renowned scientists in which the participants debated whether recent incidents were natural phenomena or UFO sightings This is a must-have book for those fascinated by the history of UFO sightings and those interested in government secrets and cover-ups.

STUDIES IN TUDOR AND STUART POLITICS AND GOVERNMENT: VOLUME 3, PAPERS AND REVIEWS 1973-1981

Cambridge University Press This volume continues the publication of Professor Elton's collected papers on topics in the history of Tudor and Stuart England. All appeared between 1973 and 1981. As before, they are reprinted exactly as originally published, with corrections and additions in footnotes. They include the author's four presidential addresses to the Royal Historical Society and bring together his preliminary findings in the history of Parliament and its records. Several of them, which appeared in various collections and Festschriften, have been difficult to find, and some are taken from locations in Germany and the United States unfamiliar to English readers. The eight lengthy reviews here republished examine some of the major questions in the history of the age and throw light on the principles of investigation which underlie the author's own research.
