CHAKA

Waveland Press Chaka is a genuine masterpiece that represents one of the earliest major contributions of black Africa to the corpus of modern world literature. Mofolos fictionalized life-story account of Chaka (Shaka), translated from Sesotho by D. P. Kunene, begins with the future Zulu kings birth followed by the unwarranted taunts and abuse he receives during childhood and adolescence. The author manipulates events leading to Chakas status of great Zulu warrior, conqueror, and king to emphasize classic tragedys psychological themes of ambition and power, cruelty, and ultimate ruin. Mofolos clever nods to the supernatural add symbolic value. Kunenes fine translation renders the dramatic and tragic tensions in Mofolos tale palpable as the richness of the authors own culture is revealed. A substantial introduction by the translator provides valuable context for modern readers.

THE NEW PSYCHOLOGY OF SUCCESS

Random House The updated edition of the bestselling book that has changed millions of lives with its insights into the growth mindset “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, GatesNotes After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.

THE EARLY GRADE READING ASSESSMENT

APPLICATIONS AND INTERVENTIONS TO IMPROVE BASIC LITERACY

RTI Press The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.

AND STILL I RISE

A BOOK OF POEMS

Random House Maya Angelou's unforgettable collection of poetry lends its name to the documentary film about her life, *And Still I Rise*, as seen on PBS's *American Masters*. Pretty women wonder where my secret lies. I'm not cute or built to suit a fashion model's size But when I start to tell them, They think I'm telling lies. I say, It's in the reach of my arms, The span of my hips, The stride of my step, The curl of my lips. I'm a woman Phenomenally. Phenomenal woman, That's me. Thus begins "Phenomenal Woman," just one of the beloved poems collected here in Maya Angelou's third book of verse. These poems are powerful, distinctive, and fresh—and, as always, full of the lifting rhythms of love and remembering. *And Still I Rise* is written from the heart, a celebration of life as only Maya

Angelou has discovered it. "It is true poetry she is writing," M.F.K. Fisher has observed, "not just rhythm, the beat, rhymes. I find it very moving and at times beautiful. It has an innate purity about it, unquenchable dignity. . . . It is astounding, flabbergasting, to recognize it, in all the words I read every day and night . . . it gives me heart, to hear so clearly the caged bird singing and to understand her notes."

AN AFRICAN ELEGY

Random House Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

ODD YS E

A NEW BEGINNING SPACE AND TIME

Austin Macauley Pronounced 'ann iss e', odd ys e tells of a journey through space and time of an 'alien' people that found their way to this world just over six thousand years ago; they called themselves 'gann'. Being all killed in an unforeseen circumstance, they now survive in the afterlife where they have been interacting on a subconscious level with the humans of Earth in an attempt to find their way back to reality. This true story is told by kynn, a gann soul who found his way back to reality and now walks the Earth as a man named Brian. The words of 'odd ys e' have been written with purpose-a message left for kynn by kynn in the event he may read it somewhere in the future if reborn back into reality, hopefully speeding up an awareness of who, what and why he is. But when all is written and done, the only consideration one should put to memory is: "Death is simply a doorway to the next life. All one has to know is what path one must travel, to retain consciousness of self."

MURMURS OF EARTH

Ballantine Books In 1977, two extraordinary spacecraft called Voyager were launched to the stars. Affixed to each Voyager craft was a gold-coated copped phonograph record as a message to possible extra-terrestrial civilizations that might encounter the spacecraft in some distant space and time. Each record contained 118 photographs of our planet; almost 90 minutes of the world's greatest music; an evolutionary audio essay on "The Sounds of Earth"; and greetings in almost sixty human languages (and one whale language). This book is an account, written by those chiefly responsible for the contents of the Voyager Record, of why they did it, how they selected the repertoire, and precisely what the record contains.
