Handbook of Research on Curriculum Reform Initiatives in English Education

IGI Global Different regions of the world are making increasing demands for educational reform, especially when institutions are dissatisfied with the level of proficiency of their graduates. Since the realization of how important English education is to global success, reform to English education is becoming progressively vital in societies all over the world. The Handbook of Research on Curriculum Reform Initiatives in English Education provides research exploring the theoretical and practical aspects of a variety of

areas related to English education and reform, as well as applications within curriculum development and instructional design. Featuring coverage on a broad range of topics such as teachers' roles, teaching methods, and professional development, this book is ideally designed for researchers, educators, administrators, policymakers, interpreters, translators, and linguists seeking current research on the existing body of knowledge about curriculum reform in English education in an international context.

The Healthy Eating and Active Time Club Curriculum

Teaching Children to Live Well

Human Kinetics Early elementary years are perfect for instilling healthy habits in children—and The Healthy Eating and Active Time Club Curriculum: Teaching Children to Live Well offers you the resources and tools you need to instill those healthy habits. The text helps children understand what a healthy diet is and how to stay physically active every day. The children learn how to make healthier nutrition and activity choices, and they discover how healthy eating and regular physical activity keep them feeling their best. The Healthy Eating and Active Time Club Curriculum: Teaching Children to Live Well comes with a web resource that contains two sections. The first section supplies many reproducibles, including activity and food cards, worksheets, separate activity books for grades 1 to 3, and Cool Moves, which are warm-up and cool-down exercises for use in the classroom. This section also offers a chart that details how the curriculum meets Massachusetts state education standards (which have incorporated the common core standards) in English language arts; math; comprehensive health; history and social science; arts; and science, technology, and engineering. The second section of the web resource contains a detailed book called After-School HEAT Club Curriculum. This web book reinforces the print book's material and contains lessons and activities for after-school programs that extend the classroom learning and bring that learning to life. These activities include art projects, active games, food activities (including using healthy recipes), and ways to educate the entire family about healthy living. The Healthy Eating and Active Time Club: Teaching Children to Live Well and its accompanying resources offer an array of tools for teachers:

- Grade-specific activity books on the web resource,

allowing you to print out materials that you need for each lesson • Extensions that connect the book's content to physical education, library, and art • Academic connections that help you incorporate the contents into comprehensive health, math, science and technology, language arts, social studies, and art lessons • Background information that gives you everything you need to know and teach the lessons (including objectives, preparation, materials, and key talking points) • A Go Green section in each lesson that helps you incorporate environmental messages into the lesson, if you so choose The Healthy Eating and Active Time Club: Teaching Children to Live Well is a multifaceted resource that will help you engage students with activities that teach valuable lessons and life skills. Through this resource, students will learn the value of increasing their consumption of fruits, vegetables, low-fat milk, and whole grains; decrease their intake of foods high in saturated fat and sugar; and increase their time in physical activity. They will also learn how to decrease their screen time while discovering how to engage in environmentally friendly practices. The Healthy Eating and Active Time Club: Teaching Children to Live Well is a win-win for you and your students.

Units of Study for Teaching Reading

Grade 2

"In second grade, children move from a "little-kid" focus on print to a "big-kid" focus on meaning. The first unit, Second-Grade Reading Growth Spurt, teaches children to take charge of their reading, drawing on everything they know to figure out hard words, understand author's craft, and build big ideas about the books they read. Children learn that books can be their teachers in the second unit, Becoming Experts: Reading Nonfiction, in which they learn more about familiar topics and grow understanding of new topics while working on word solving, vocabulary development, and comparing and contrasting information across texts. In the third unit, Bigger Books Mean Amping Up Reading Power, children learn strategies to build three foundational reading skills--fluency, understanding figurative language, and comprehension. In the final unit for second grade, Series Book Clubs, children work within book clubs to study author's craft to understand ways authors use word choice, figurative language, punctuation, and even patterns to construct a series and evoke feelings in readers"--Pearson.com.

Common Core Curriculum: English, Grades K-5

John Wiley & Sons Common Core's English resources empower educators to meet the expectations of the Common Core State Standards (CCSS) for English Language Arts (ELA) and build essential content knowledge for students in grades K-5. Each grade in The Wheatley Portfolio features a comprehensive, coherent sequence of thematic units that engage students in deep study of worthwhile texts and topics. Features of this book include: Six thematic units for each grade, each centered on a curated collection of literary and informational texts Focus standards for each unit that complement the topic and promote student mastery of essential literacy skills Suggested texts and activities to incorporate science, art, and history into English instruction This revised second edition includes a sample text study that guides students through a close read of an exemplary text, updated web resources, and refreshed suggested works. Educators who create their curriculum based on Common Core's Wheatley Portfolio guarantee that students are exposed to content-rich instruction and have ample opportunity to master the reading, writing, speaking, listening, and language skills articulated in the CCSS for ELA.

Palestinian Politics After the Oslo Accords

Resuming Arab Palestine

Univ of California Press This work gives an internal perspective on Palestinian politics viewing political patterns from the Palestinian point of view rather than through the Arab-Israeli conflict. It presents the meaning of state-building and self-reliance as Palestinians have understood them between 1993 and 2002.

Reading 2007 Leveled Reader 6-Pack Grade 2 Unit 1 Lesson 4 Advanced Trek to the Top

Pearson Scott Foresman Scott Foresman Reading Street - Elementary Reading Comprehension Program 2008(c) is an all-new reading instruction program for Grades PreK-6. Reading Street is designed to help teachers build readers through motivating and engaging literature, scientifically research-based instruction, and a wealth of reliable teaching tools. The reading program takes the guesswork out of differentiating instruction with a strong emphasis on ongoing progress-monitoring and an explicit plan to help with managing small groups of students. In addition, Reading Street prioritizes skill instruction at each grade level, so teachers can be assured they will focus on the right reading skill, at the right time, and for every student.
