ASSESSING MULTILINGUAL CHILDREN

DISENTANGLING BILINGUALISM FROM LANGUAGE IMPAIRMENT

Multilingual Matters Second language learners often produce language forms resembling those of children with Specific Language Impairment (SLI). At present, professionals working in language assessment and education have only limited diagnostic instruments to distinguish language impaired migrant children from those who will eventually catch up with their monolingual peers. This book presents a comprehensive set of tools for assessing the linguistic abilities of bilingual children. It aims to disentangle effects of bilingualism from those of SLI, making use of both models of bilingualism and models of language impairment. The book's methods-oriented focus will make it an essential handbook for practitioners who look for measures which could be adapted to a variety of languages in diverse communities, as well as academic researchers.

SAFE SPACES

HUMAN RIGHTS EDUCATION IN DIVERSE DIVERSE

Springer Science & Business Media This book examines the crucial issues affecting Human Rights Education in contexts of culture, religious and societal diversity. It exhibits an impressive scholarly achievement, capturing and combining the insights of both established academics and emerging researchers. Each author succeeds in distilling the knowledge of their particular fields of interest, as well as conveying the essence of their intuitive understanding and the richness of the context. This book considers a variety of connected content and methodological issues in three major sections: 'Philosophical and policy perspectives', 'Gender discourses: diverse perspectives' and 'Discourses on narratives as safe spaces'. The Edition is further strengthened by allowing international reviewers the opportunity of engaging with the contributors in the Introduction and Conclusion, an innovative departure from conventional formats and which will provide a global perspective to the readers. The focus of the various chapters succeeds in establishing both a foundation and platform for dialogue surrounding human rights and human rights education in modern policy and governance. Aptly named "Safe Spaces", the Edition offers in-depth and credible ("safe") nuances ("spaces"), in terms of the somewhat reified concept of human rights, at a time when human rights remains a highly topical and contested international issue. As such, the book imparts an immense scope of theoretical and empirical perspectives, reflected by the distinguished intellectuals who navigate the terrain of their respective disciplines with profound erudition. This book represents a collaborative effort of immeasurable value. This exemplary edition is both timeous, and will prove timeless.

SECOND LANGUAGE ACQUISITION ABROAD

THE LDS MISSIONARY EXPERIENCE

John Benjamins Publishing This volume brings together for the first time a collection of studies devoted to missionary language learning and retention. Introductory chapters provide historical perspectives on this population and on language teaching philosophy and practice in the LDS tradition. The empirical studies which follow are divided into two sections, the first examining mission language acquisition by English-speaking missionaries abroad, the second focusing on post-mission language attrition. These chapters by internationally known scholars offer cutting-edge research using a number of different target languages in addressing various issues in second language development. Finally, a comprehensive bibliography of sources on mission languages is included. The readership of this pioneering work is expected to extend beyond specialists in study abroad and missionary language training to a broader audience of applied linguists, educators, and students interested in language acquisition and attrition. In addition, the book offers useful insights to adults who want to maintain a second language.

LANGUAGE IN INDENTURE

A SOCIOLINGUISTIC HISTORY OF BHOJPURI-HINDI IN SOUTH AFRICA

Routledge Originally published in 1991. The transplantation of thousands of Indian workers to South Africa under indenture between 1860 and 1911 was a political act with far-reaching consequences for their linguistic traditions. In this book, the history of one of these Indic languages, Bhojpuri, and its adaptations to its new context are traced to the point where a distinct South African Bhojpuri koine (generally known as Hindi) came into being. The roots and subsequent evolution of this language variety, as well as the events contributing to its demise, form the basis of this study. Current patterns of usage by different generations are documented in the form of traditional folk tales, proverbs, riddles and songs, alongside personal interviews. This study offers a partial history of Bhojpuri speakers, who have been otherwise largely silent in the history of colonial Natal.
