Composta da Lorenzo Franciosini, fiorentino Grammatica spagnola Grammatica spagnola Edises Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V) Desde el año 1861 hasta el año 1899 John Benjamins Publishing Company** *Since the publication of the still very valuable Biblioteca histórica de la filología by Cipriano Muñoz y Manzano, conde de la Viñaza (Madrid, 1893), our knowledge of the history of the Spanish language has grown considerably, and most manuscript and secondary sources had never been tapped before* Hans-Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings, scattered in libraries, journals and other places. The resulting Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español: Desde los principios hasta el año 1600 (BICRES) began appearing in 1994. BICRES I covered the period from the early beginnings to 1600), followed by BICRES II (1601-1700), BICRES III (1701-1800), and together with Miguel Ángel Esparza Torres of Madrid there followed BICRES IV (1801 to 1860). Now, the fifth volume, has become available, covering the years from 1861 to 1899. Access to the bibliographical information of altogether 5.272 titles is facilitated by several detailed indexes, such as a short title index, a listing of printers, publishers and places of production, and an author index. More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work — relative sources of the Americas have also been covered — making it exhaustive source for any serious scholar of any possible aspect of the Spanish language. **Spagnolo Alpha Test Grammatica spagnola Vallardi Grammatica spagnola facile Esercizi di grammatica spagnola Grammatica spagnola ... A number of authors discuss expression of dynamic spatial relations cross-linguistically in a vast range of typologically different languages such as Bezhta, French, Hinuq, Italian, Japanese, Polish, Serbian, and Spanish, among others. The contributions on linguistic expression of time all shed new light on pertinent questions regarding this cognitive domain, such as the hotly debated relationship between cross-linguistic differences in talking about time and universal principles of utterance interpretation, modelling temporal inference through aspectual interactions, as well as the complexity of the acquisition of tense-aspect relations in a second language. The topic of space and time in language and culture is also represented, from a different point of view, in the sister volume Space and Time in Languages and Cultures: Language, Culture, and Cognition (HCP 37) which discusses spatial and temporal constructs in human language, cognition, and culture in order to come closer to a better understanding of the interaction between shared and individual characteristics of language and culture that shape the way people interact with each other and exchange information about the spatio-temporal constructs that underlie their cognitive, social, and linguistic foundations. Addressing Methodological Challenges in Interpreting Studies Research Cambridge Scholars Publishing* *Using interaction as a fundamental springboard, Addressing Methodological Challenges in Interpreting Studies Research showcases the major breakthrough in interpreting studies made by investigating community interpreting and the inherent high degree of participant interaction. The book adds a ‘reflexive’ twist, and espouses the notion of the analyst as not separate from the context under study. After looking at dialogue interpreters, cast away from the carpeted walls of sound-proof booths and deprived of the spotlighted lectern-podium position at high level fora, it has become clear that the interpreter’s invisibility, not to mention their neutrality, is uppermost in the minds of both users and providers in terms of expectations. Among all the participants in any ‘mediated’ communicative situation, it is the interpreter who is exceedingly visible and potentially most influential in shaping and coordinating the ongoing exchanges. The book proposes that a similar view be applied to researchers engaged in interpreting research, especially in empirical investigations. Different forms of ‘interaction’ between researchers and the data in their studies are inevitable. This applies to every stage of their work, ranging from all the pre-analysis activities to the analysis itself, and the post-analysis stage, in which results are disseminated in the research community and, possibly, the target population. This volume will stand to benefit all those who work with researching language issues, not only because of the various approaches covered in the volume, but also because of the ways in which they are reframed as a result of shifting contextual constraints. Bulletin of the Public Library of the City of Boston Verb Movement in Romance A Comparative Study Oxford University Press* *This book provides a detailed account of verb movement across more than twenty standard and non-standard Romance varieties. Norma Schifano examines the position of the verb with respect to a wide selection of hierarchically-ordered adverbs, as laid out in Cinque's (1999) seminal work. She uses extensive empirical data to demonstrate that, contrary to traditional assumptions, it is possible to identify at least four distinct macro-typologies in the Romance languages: these macro-typologies stem from a compensatory mechanism between syntax and morphology in licensing the Tense, Aspect, and Mood interpretation of the verb. The volume adopts a hybrid cartographic/minimalist approach, in which cartography provides the empirical tools of investigation, and minimalist theory provides the technical motivations for the movement phenomena that are observed. It provides a valuable tool for the examination of fundamental morphosyntactic properties from a cross-Romance perspective, and constitutes a useful point of departure for further investigations into the nature and triggers of verb movement cross-linguistically. F. de Marsiliis, favore illustrissimi et excelsi Senatiss et Civitatis Bononiæ, in gratiam novæ in eadem Scientiarum Institutionis Europe and the Mediterranean as Linguistic Areas Convergencies from a historical and typological perspective John Benjamins Publishing* *This volume is a collection of 12 papers which originated from a research project on ‘Europe and the Mediterranean from a linguistic point of view: history and prospects’. The papers deal with specific morphosyntactic aspects of language structure and evolution. The comparative perspective is adopted both from a synchronic (typological) and a diachronic (historical) angle, focusing in particular on possible contact phenomena. Therefore, methodological key words of this book are areal typology and linguistic area. The issues addressed cover such diverse aspects of language structure and change as verb morphology, relative clause formation, Noun Phrase determination, demonstrative systems, possessive markers in Noun Phrases, conjunctive, disjunctive and adversative constructions, non-canonical object marking, impersonal constructions, reduplication and early translations of the Gospels. These topics are discussed particularly in relation to Romance, Germanic, Celtic and Semitic languages, both modern and ancient. This book will interest researchers in typological, historical, functional and general linguistics. Reperti di plurilinguismo nell'Italia spagnola Walter de Gruyter* *This volume sheds light on plurilingualism in Spanish-occupied Italy during the early modern period from a variety of perspectives. Topics include written language in pragmatic contexts (such as administrative documents), plurilingual literature and theater, and early modern thought on plurilingualism. Gramatica espanola-Grammatica spagnola Linguística Pragensia Guida pratica alla grammatica spagnola The National Union Catalog, Pre-1956 Imprints A Cumulative Author List Representing Library of Congress Printed Cards and Titles Reported by Other American Libraries Gramáticas para la enseñanza del español en la Italia del siglo XIX el caso de Francesco Marin Ediciones Universidad de Salamanca* *Este estudio analiza e interpreta la Gramatica della lingua spagnuola, o sia, L'italiano istruito nella cognizione di questa lingua de Francesco Marin (1833). Para ello, define y establece el corpus completo de gramáticas de español para italofonos del siglo XIX (Cap. 1.), considera las noticias biográficas del autor (Cap. 2) y sitúa las distintas ediciones de la obra en su ambiente histórico, político, social y editorial (Cap. 3). Luego analiza cualitativa y cuantitativamente la hiperestructura (Cap. 4) y los contenidos del peritexto introductorio (Cap. 5), del cuerpo principal (Cap. 6), de los suplementos lexicográficos (Cap. 7) y del peritexto epilodal de la obra (Cap. 8). Realiza a continuación una serie de calas explorativas del texto (el sistema ortográfico en el Cap. 9, la terminología en el Cap. 10, el recurso a los ejemplos y a la traducción en el Cap. 11 y los tipos y funciones de las notas a pie de página en el Cap. 12) y otras eb;ñ las que se interpreta dicho texto (el concepto de contrastividad en el Cap. 13, las obras que sirvieron de fuente a Marin en el Cap. 14 y las obras que se sirvieron de Marin como fuente en el Cap. 15). Se demuestra que la Gramatica de Marin constituye una de las gramáticas de español para italofonos más importantes del siglo XIX, por las informaciones ofrecidas, por su éxito comercial, por haber sido parámetro de referencia en la enseñanza del español durante mucho tiempo y por el nivel de su contrastividad. Una gramática que sirvió de fuente a otras de su siglo y que por tal razón extendió su influencia indirecta hasta muy entrado el siglo XX.***
