In particular, there have been extensive additions with regards to the Christian Church in Asia, Africa, Latin America, North America, and Australasia. Significant updates have also been included on topics such as liturgy, Canon Law, recent international developments, non-Anglican missionary activity, and the increasingly important area of moral and pastoral theology, among many others. Since its first appearance in 1957, the ODCC has established itself as an essential resource for ordinands, clergy, and members of religious orders, and an invaluable tool for academics, teachers, and students of church history and theology, as well as for the general reader.

THE MARCUS GARVEY AND UNIVERSAL NEGRO IMPROVEMENT ASSOCIATION PAPERS, VOL. IX

AFRICA FOR THE AFRICANS JUNE 1921-DECEMBER 1922

Univ of California Press "Africa for the Africans" was the name given in Africa to the extraordinary black social protest movement led by Jamaican Marcus Mosiah Garvey (1887-1940). Volumes I-VII of the Marcus Garvey and Universal Negro Improvement Association Papers chronicled the Garvey movement that flourished in the United States during the 1920s. Now, the long-awaited African volumes of this edition (Volumes VIII and IX and a forthcoming Volume X) demonstrate clearly the central role Africans played in the development of the Garvey phenomenon. The African volumes provide the first authoritative account of how Africans transformed Garveyism from an external stimulus into an African social movement. They also represent the most extensive collection of documents ever gathered on the early African nationalism of the inter-war period. Here is a detailed chronicle of the spread of Garvey's call for African redemption throughout Africa and the repressive colonial responses it engendered. Volume VIII begins in 1917 with the little-known story of the Pan-African commercial schemes that preceded Garveyism and charts the early African reactions to the UNIA. Volume IX continues the story, documenting the establishment of UNIA chapters throughout Africa and presenting new evidence linking Garveyism and nascent Namibian nationalism.

THE FLUVIAL IMAGINATION

ON LESOTHO'S WATER-EXPORT ECONOMY

Univ of California Press Landlocked and surrounded by South Africa on all sides, the mountain kingdom of Lesotho became the world's first "water-exporting country" when it signed a 1986 treaty with its powerful neighbor. An elaborate network of dams and tunnels now carries water to Johannesburg, the subcontinent's water-stressed economic epicenter. Hopes that receipts from water sales could improve Lesotho's fortunes, however, have clashed with fears that soil erosion from overgrazing livestock could fill its reservoirs with sediment. In this wide-ranging and deeply researched book, Colin Hoag shows how producing water commodities incites a fluvial imagination. Engineering water security for urban South Africa draws attention ever further into Lesotho's rural upstream catchments: from reservoirs to the soils and vegetation above them, and even to the social lives of herders at remote livestock posts. As we enter our planet's water-export era, Lesotho exposes the possibilities and perils ahead.

HISTORICAL DICTIONARY OF THE REFORMED CHURCHES

Scarecrow Press As its name implies, the Reformed tradition grew out of the 16th century Protestant Reformation. The Reformed churches consider themselves to be the Catholic Church reformed. The movement originated in the reform efforts of Huldrych Zwingli (1484-1531) of Zurich and John Calvin (1509-1564) of Geneva. Although the Reformed movement was dependent upon many Protestant leaders, it was Calvin's tireless work as a writer, preacher, teacher, and social and ecclesiastical reformer that provided a substantial body of literature and an ethos from which the Reformed tradition grew. Today, the Reformed churches are a multicultural, multiethnic, and multinational phenomenon. The second edition of the Historical Dictionary of the Reformed Churches contains information on the major personalities, events, facts, movements, and beliefs of the Reformed churches. This is done through a list of acronyms and abbreviations, a chronology, an introductory essay, appendixes, a bibliography, and over 800 cross-referenced dictionary entries on leaders, personalities, events, facts, movements, and beliefs of the Reformed churches.

THE QUALITY OF DEMOCRACY IN AFRICA

OPPOSITION COMPETITIVENESS ROOTED IN LEGACIES OF CLEAVAGES

Springer This book shows that democratization in sub-Saharan Africa can be successful, even if the government remains dominated by one major political party. If an institutionalized and strong opposition party – even when too weak to take power – challenges the dominant government party, the quality of democracy improves substantially. The comparative study demonstrates that competitive opposition parties in dominant party systems are rooted in the historical legacy of political cleavages related to de-colonization that precede the third wave of democratization of the 1990s and have survived the

instability of post-independence political developments to the present day. The study covers 19 African countries and 55 elections overall, including four in-depth case studies of Botswana, Lesotho, Ghana and Mali. It offers scholars and practitioners of electoral democracies and competitive authoritarian regimes a novel view on the role of party systems in processes of democratization. It makes an important contribution to the general literature on state building intertwined with democratization and representation in old and new democracies.

OUTLAWS, ANXIETY, AND DISORDER IN SOUTHERN AFRICA

MATERIAL HISTORIES OF THE MALOTI-DRAKENSBERG

Springer This book explores how objects, landscapes, and architecture were at the heart of how people imagined outlaws and disorder in colonial southern Africa. Drawing on evidence from several disciplines, it chronicles how cattle raiders were created, pursued, and controlled, and how modern scholarship strives to reconstruct pasts of disruption and deviance. Through a series of vignettes, Rachel King uses excavated material, rock art, archival texts, and object collections to explore different facets of how disorderly figures were shaped through impressions of places and material culture as much as actual transgression. Addressing themes from mobility to wilderness, historiography to violence, resistance to development, King details the world that raiders made over the last two centuries in southern Africa while also critiquing scholars' tools for describing this world. Offering inter-disciplinary perspectives on the past in Africa's southernmost mountains, this book grapples with concepts relevant to those interested in rule-breakers and rule-makers, both in Africa and the wider world.

FERTILITY, CONJUNCTURE, DIFFERENCE

ANTHROPOLOGICAL APPROACHES TO THE HETEROGENEITY OF MODERN FERTILITY DECLINES

Berghahn Books In the last forty years anthropologists have made major contributions to understanding the heterogeneity of reproductive trends and processes underlying them. Fertility transition, rather than the story of the triumphant spread of Western birth control rationality, reveals a diversity of reproductive means and ends continuing before, during, and after transition. This collection brings together anthropological case studies, placing them in a comparative framework of compositional demography and conjunctural action. The volume addresses major issues of inequality and distribution which shape population and social structures, and in which fertility trends and the formation and size of families are not decided solely or primarily by reproduction.

Routledge This book aims to analyze Lesotho's prospects for economic advancement, and examines the influence of the policies and economic development of South Africa on Lesotho's own potential for development.

COLONIALISM ON THE MARGINS OF AFRICA

Routledge Colonial rule shaped the map of Africa like no other event in history. New borders were delineated; explorers and colonial armies were getting into the interior of the continent in order to grab the "magnificent cake of Africa." Colonialism on the Margins of Africa examines less known and smaller or peripheral areas of Africa which played a significant role in the process of colonization of Africa by European powers. Due to diverse socio-economic, religious, ethno-linguistic, as well as political factors, places like the Somali-speaking territories, the Gambia, or Swaziland were divided between or surrounded by various administrative and political systems with different economic opportunities shaping the way to different futures in the post-colonial period. This book will be of interest to students and scholars of African history and colonial and postcolonial politics.
